Council for the Indian School Certificate Examinations (CISCE)

MISSION STATEMENT

The Council for the Indian School Certificate Examinations is committed to serving the nation's children, through high quality educational endeavours, empowering them to contribute towards a humane, just and pluralistic society, promoting introspective living, by creating exciting learning opportunities, with a commitment to excellence.

ETHOS OF CISCE

- Trust and fair play.
- Minimum monitoring.
- Allowing schools to evolve their own niche.
- Catering to the needs of the children.
- Giving freedom to experiment with new ideas and practices.
- Diversity and plurality - the basic strength for evolution of ideas.
- Schools to motivate pupils towards the cultivation of:
 - Excellence** - The Indian and Global experience.
 - Values** - Spiritual and cultural - to be the bedrock of the educational experience.
- Schools to have an 'Indian Ethos', strong roots in the national psyche and be sensitive to national aspirations.

FOREWORD

The National Education Policy (NEP) 2020 aims at addressing many growing developmental concerns of our country. It proposes radical shifts in different aspects of school education including its structure, pedagogy, assessment and governance, to create a new system so as to attain the Sustainable Developmental Goals (SDGs) and uphold the traditions and value system of our country.

One of the goals of NEP 2020 has been the attainment of Foundational Literacy and Numeracy (FLN) by all children and that it must become an immediate national initiative. To achieve this, the Department of School Education and Literacy, Ministry of Education, Government of India has launched a National Mission called the NIPUN Bharat Mission (National Initiative for Proficiency in Reading with Understanding and Numeracy) in the year 2021, for ensuring attainment of Foundational Literacy and Numeracy (FLN) by all children, by the end of Class III. The guidelines of NIPUN Bharat take into account various aspects of FLN across three years of ECCE (Preschool I, II and III) and Classes I, II and III, the focus being on children in the age group of 3 to 9 years.

In order to develop an understanding on various components related to Foundational Literacy and Numeracy (FLN) amongst all stakeholders, including its schools and teachers, the Council for the Indian School Certificate Examination (CISCE), has developed a **Resource Pack on Foundational Literacy and Numeracy (FLN)**. The contents of the Resource Pack are in keeping with the NIPUN Bharat guidelines.

I take this opportunity to acknowledge all the resource persons for their valuable inputs and expertise that has helped shape this Resource Pack. The Research Development and Consultancy Division (RDCD) team of the CISCE deserves special mention for conceptualising and developing this Resource Pack.

We sincerely hope that this Resource Pack will be found useful by all stakeholders. We invite comments from CISCE affiliated schools on its utility and quality.

November 2022

Gerry Arathoon
Chief Executive & Secretary (CE&S)

Experts involved in the development of this Resource Pack

1. Dr. Romila Soni, Associate Professor, Department of Elementary Education (DEE), NCERT, New Delhi
2. Prof. Manju Jain, Former Head, Department of Elementary Education (DEE), NCERT, New Delhi
3. Dr. Sandhya Sangai, Professor, Department of Elementary Education (DEE), NCERT, New Delhi
4. Dr. Varada M. Nikalje, Professor, Department of Elementary Education (DEE), NCERT, New Delhi
5. Ms. Sushmita Malik, Educational Consultant, New Delhi
6. Ms. Moushumi Bose, former Headmistress of Salwan Public School, New Delhi
7. Ms. Kumud Aneja, Headmistress of Salwan Public School, New Delhi

CISCE Team

1. Mrs. Shilpi Gupta, Head, Research Development and Consultancy Division (RD CD)
2. Dr. Manika Sharma, Education Officer, Research Development and Consultancy Division (RD CD)
3. Ms. Mansi Guleria, Junior Assistant, Research Development and Consultancy Division (RD CD)
4. Ms. Roshni George, Junior Assistant

ACRONYMS

AaL : Assessment as Learning
AfL: Assessment for Learning
AoL: Assessment of Learning
CBE: Competency-Based Education
CCE:Continuous and Comprehensive Evaluation
DG:Developmental Goals
DIY :Do it Yourself
ECCE :Early Childhood Care and Education
EVS : Environmental Studies
FLN: Foundational Literacy and Numeracy
GDP:Gross Domestic Product
GOI: Goverment of India
HPC: Holistic Progress Report Card
LO: Learning Outcome
MOE: Ministry of Education
NCERT: National Council of Educational Research and Training
NEP: National Education Policy
**NIPUN Bharat: National Initiative for Proficiency in Reading with
Understanding and Numeracy**
PTMs: Parent Teacher Meetings
PWD :Persons with Disability
SDGs: Sustainable Development Goals
TBP:Toy-based Pedagogy
TLMs:Teaching-learning Materials
UNICEF: United Nations Children's Fund

KEY TERMS

Anecdotal Record: A detailed descriptive narrative recorded after a specific behaviour or interaction occurs. It informs teachers as they plan learning experiences, provides information to families and gives insights into identifying possible developmental delays.

Assessment for Learning: This is an approach to teaching and learning that creates feedback which is then used to improve students' performance.

Alliteration: The repetition of the initial sound of each word in connected text.

Balanced Approach: Where teachers follow what is appropriate for their classroom and where every child learns in a joyful and stress-free manner, by taking the best of multiple approaches.

Blending: The task of combining sounds rapidly, to accurately represent the word.

Competency: Statements that specify what children will know or be able to do, or be able demonstrate when they have completed or participated in a course or programme.

Classification: It involves putting together things that have some characteristics in common.

Data Handling: Data refers to information in a raw form that is collected from various sources. Data handling includes collecting, representing, analysing and interpreting data.

Decoding: The ability to translate a word from print to speech, usually by employing knowledge of sound-symbol correspondences.

Early literacy: It is what children know about reading and writing before they read or write.

First Generation Learners: It refers to the students who are the first in their entire generation to go to school and receive an education or whose parents have attended the formal education system up till the primary level of schooling.

Formative Assessment: Formative assessment refers to a wide variety of methods that teachers use in the classroom to conduct in-process evaluations of student comprehension, learning needs and academic progress during a lesson, unit, or course.

Foundational Numeracy: The ability to read and write and perform basic operations with numbers.

Fine Motor Skill: It is the coordination of small muscles in movements usually involving coordination of hands and fingers with eyes.

Fluency: Ability to read a text quickly, accurately, and with proper expression.

Keyword Approach: In this approach, students learn words by connecting a visualisation in their minds to the sound and meaning of the word. In this way, they are able to recall new words and their meanings by simply bringing back the memory of the visualisation that they have associated with it.

KEY TERMS

Gross Motor Skills: The abilities required to control the large muscles of the body for walking, running, sitting, crawling and other activities.

Holistic Development: Development of intellectual, mental, physical, emotional and social abilities.

Learning Outcomes: Statements that describe the knowledge, skills and attitudes that students should acquire by the end of a particular assignment, class, course, or programme, and help them understand why that knowledge and those skills will be useful to them.

Life Skills: A set of abilities, attitudes and socio-emotional competencies that enable individuals to learn, make informed decisions and exercise rights to lead a healthy and productive life and subsequently become agents of change.

Literacy: The ability to identify, understand, interpret, create, communicate and compute, using printed and written materials associated with varying contexts. Literacy involves a continuum of learning to enable individuals to achieve their goals, to develop their knowledge and potential and to participate fully in their community and wider society (UNESCO, 2004; 2017).

Measurement: Involves dealing with quantities by using numbers.

Modelling: The teacher overtly demonstrates a strategy, skill or concept that the children will be learning.

Multilingual Class: This is a class where the learners speak a variety of first language.

Numeracy: The ability to use mathematical understanding and skills to solve problems and develop a critical viewpoint with appropriate reasoning.

One-to-one Correspondence: It involves matching or pairing of objects.

Oral Language: Spoken language.

Phonics Instruction: It focusses on the relationship of the sounds in spoken words and their associated letters or groups of letters as they appear in print.

Phonological Awareness: It is the ability to recognise and work with sounds in a spoken language.

Picture Reading/Talk: Children can be shown sceneries of a particular event, place, story like a fair/*mela*, zoo, circus, etc. Children can then be engaged in conversations involving observations (What is happening in the picture?), reasoning (Why do you think so?), prediction (where do you think the girl is going?). Children can also put the events shown in the picture in a sequence and narrate them.

KEY TERMS

Print Awareness: It refers to a child's understanding of the nature and uses of print and the way it is organised.

Problem Solving: It is the act of defining a problem; determining the cause of the problem; identifying, prioritising, selecting an appropriate solution from amongst the alternatives and implementing the solution.

Read Aloud: It is a practice where teachers, parents, and caregivers pick up an engaging text and read it aloud to children. Variations in pitch, tone, pace, volume, pauses, eye contact, questions and comments make for a fluent and enjoyable delivery. Reading aloud engages the creativity and imagination of children along with increasing their attention span and ability to focus.

Reading Area: A special place organised for children where they work/read in small groups. A well equipped area with books and provides meaningful and purposeful activities for foundational literacy. This area requires careful planning.

Pre-Number Concepts: Before children start counting objects or develop an understanding of numbers, they need to be able to match, classify, order and set up one-to-one correspondences to some extent. Since these skills are preliminary to the understanding of numbers, they are called pre-number concepts.

Patterns: It is an arrangement, order or sequence in repetition.

Phonics approach: Children are taught by introducing letters or *aksharas* first and gradually building a correlation with their sound.

Rubrics: It is an assessment tool that clearly indicates achievement criteria across all the components of any kind of student work, from oral to written to visual. It can be used for marking assignments, class participation, personal-social qualities or giving overall grades.

Shared Reading: In shared reading, the teacher holds one big book up and the whole class reads from the same book. The book has large font, illustrations and simple text so that all the children can participate in the reading. The teacher reads the text while the children join in when they recognise a word from illustrations, sight words or memory. Children start developing the concept of print.

Seriation: It involves ordering a set of objects according to some rule.

Spatial Understanding: It is the area of Mathematics that involves shape, size, space, position, direction and movement.

Sensory and Perceptual Development: Development of the five senses through visual, auditory and kinaesthetic experiences.

KEY TERMS

Syllable: A part of a word that contains a single vowel sound and that is pronounced as a unit. For example, 'book' has one syllable and 'reading' has two syllables.

Sight Words: Commonly used words that young children are encouraged to memorise as a whole by sight in order to help them in recognising these words in print without the use of any specific strategy.

Vocabulary: Developing knowledge of a wide range of words and their meanings.

INTRODUCTION

The foundational years are the most critical period of human life, as the rate of development in these years is more rapid than at any other stage of development. Focussed and relevant interventions in these foundational years can have a lasting impact on children's long-term development, learning and later life outcomes.

Early literacy and numeracy, which are two important skill areas that develop during the foundational years, can be correlated not only with better quality of life, personal well-being, national stability and prosperity but are also critical for achieving educational outcomes in the later years. Age-appropriate literacy and numeracy helps children to learn, experiment, reason and create, to be active and informed citizens and to contribute socially, culturally and economically.

On the other hand, lack of learning opportunities, during the early stages of acquiring literacy and numeracy impede children's academic progress and motivation, resulting in further lack of achievement. Studies have shown that inevitably, once children fall behind on foundational literacy and numeracy, they are unable to catch up in the learning process. For many children, this becomes the reason for not attending school or dropping out of school altogether.

The NEP 2020 reiterates that in order to avert this learning crisis, there needs to be an increased focus on foundational literacy and numeracy, with a robust system of continuous formative and adaptive assessment to track the progress and thereby individualise and ensure each child's learning.

The idea behind the focus on foundational literacy and numeracy is that if certain skills are not mastered by the children at the foundational stage, it creates learning gaps and they remain unprepared for the complexities of the curriculum beyond Class III. Thus, foundational learning is the basis of all future and new learning for the children.

The guidelines of NIPUN Bharat address all pertinent areas along with the issues and concerns related to foundational literacy and numeracy, covering both, the academic as well as the administrative aspects. The guidelines focus on how to use competency-based learning, create an enabling environment for the pedagogical processes, use various assessment practices along with the role of the teachers. The guidelines take into account various aspects of FLN across three years of ECCE (Preschool I, II and III) and Classes I, II and III, the focus being on children in the age-group of 3 to 9 years. Three developmental goals have been specified for FLN and for each developmental goal, key competencies and class-wise learning outcomes (LOs) have been specified.

CISCE's **Resource Pack on Foundational Literacy and Numeracy** is based on the NIPUN Bharat guidelines. The Resource Pack consists of three Modules as follows:

Module I: Exploring FLN

Module II: Creating an Enabling Environment for FLN

Module III: Engaging in Enriching Experiences for FLN

Module I aims at developing a broad understanding on various components of FLN among all stakeholders. Module II focusses on the teaching-learning processes from Preschool I to Class III, in keeping with the Goal-wise Competencies and Learning Outcomes specified in the NIPUN Bharat document. Module III includes FLN resources that may be used by teachers for enriching learning experiences.

CISCE's Resource Pack on Foundational Literacy and Numeracy (FLN) is meant for all stakeholders in general and practitioners working primarily across the foundational stage (preschool to class III), including teachers and teacher educators.

In preparing this Resource Pack, all efforts have been made to ensure that the matter is presented in a simple, user-friendly manner. We hope that this resource pack will not only help in developing a better understanding on Foundational Literacy and Numeracy but also provide teachers with useful ideas and resources to enrich their classroom transactions for FLN.

ABOUT THE RESOURCE PACK

The **Resource Pack on Foundational Literacy and Numeracy (FLN)** aims to develop an understanding on various components related to Foundational Literacy and Numeracy (as per the NIPUN Bharat guidelines, 2021) amongst all stakeholders. Further, it aims to help all those working in the area of foundational literacy and numeracy by providing them resources and tools to design and implement activities and experiences that will facilitate achievement of the desired learning outcomes and competencies.

The Resource Pack consists of three Modules:

MODULE I: EXPLORING FLN

Module I highlights the various academic aspects of Foundational Literacy and Numeracy and aims to provide a broad understanding to all stakeholders.

Starting with a discussion on the three developmental goals of FLN, the module goes on to explain the relationship between the Developmental Goals, Key Competencies and the Learning Outcomes. Each Learning Outcome for FLN has a unique number/code for easy identification and referencing. This codification of the Learning Outcomes has been explained in the module with relevant examples. Understanding of the codification will help practitioners identify and relate each Goal-wise Learning Outcome to the Class to which it belongs.

The module goes on to discuss the key components of Foundational Language and Literacy wherein the pedagogical processes for promoting language and literacy development at the foundational stage are also dealt with, along with the role of the teacher. Similarly, the module discusses the key components of early mathematics learning along with the pedagogical processes to develop foundational numeracy and mathematical skills. The role of the teacher in promoting foundational numeracy is also highlighted.

How to set up an effective environment for Foundational Literacy and Numeracy is another area that this module focusses on, where, useful tips on organising the classroom to selection, placement and display of materials and planning the daily schedule, are provided. A planned, systematic and need based assessment is an integral part of the curriculum and pedagogy. The last section of this module provides guidance on learning assessment at the foundational stage, how it may be carried out, along with the tools and techniques of assessment.

This module includes five sections as follows:

1. Understanding Foundational Literacy and Numeracy
2. Foundational Language and Literacy
3. Foundational Numeracy and Mathematical Processes
4. Setting up an Environment for Foundational Literacy and Numeracy
5. Learning Assessment at the Foundational Stage

MODULE II: CREATING AN ENABLING ENVIRONMENT FOR FLN

Module II focuses on creating an enabling environment to facilitate learning in the early years.

An enabling environment in the classroom plays a key role in supporting children's learning and development. Children learn and develop best in an environment that is caring and supportive, that supports their individual needs, while allowing them to play, explore and discover. The module suggests a range of teaching-learning processes that may be adopted/adapted by the teacher, both inside as well as outside the classroom, to optimise learning.

The teaching-learning processes suggested in this module have been provided with reference to the Goal-wise Competencies and Learning Outcomes specified in the NIPUN Bharat document.

Module II has been presented class-wise as follows:

- Preschool (PS) - I
- Preschool (PS) - II
- Preschool (PS) - III
- Class - I
- Class - II
- Class - III

A three-column format has been used in this module.

For each class, the competency-wise Learning Outcomes of the three Developmental Goals of FLN, have been presented in Column I. Column II includes suggested Learning Materials and Resources which may be used by teachers to unfold/develop these Learning Outcomes. The suggested Pedagogical Processes which may be used by the teachers for achieving the specified learning outcome have been given in Column III. This column also includes some guiding questions which may be used by teachers to assess children.

MODULE III: ENGAGING IN ENRICHING EXPERIENCES FOR FLN

Module III provides a range of FLN resources that may be used by the teacher to engage children in developmentally appropriate and stimulating FLN activities. The resources include:

1. Suggested play activities and ideas
2. Worksheets
3. Rhymes and songs
4. Suggested assessment ideas: sample rubrics, checklists and observation schedule

Suggested play activities and ideas have been given for each of the three developmental goals. Each activity includes the objectives, materials required (if any), as well as instructions/steps for organizing the activity. Variations/ suggestions for adapting the activity have also been provided, wherever relevant. Simple and easy to use worksheets, across the three developmental goals have also been included in this module.

Rhymes and songs are an effective way to reinforce learnt concepts in a fun manner. A number of age-appropriate rhymes and songs also form a part of this module. In addition, the module also includes a few sample rubrics, checklists and observation schedules .

USING THE RESOURCE PACK

CISCE's **Resource Pack on Foundational Literacy and Numeracy (FLN)** is meant for all stakeholders in general including practitioners (teachers and teacher educators), working across the foundational stage (preschool to class III). The Resource Pack may also be used by parents and families of young children to support their learning by engaging them in enriching activities and experiences at home.

Before transacting the learning materials in the classroom for achieving the learning outcomes (which have been presented in module II), module I which is generic in nature and gives a broad understanding on FLN, needs to be read by the all teachers at the foundational stage.

The learning materials and resources as well as the pedagogical processes given in module II to attain the learning outcomes (given in a tabular form) are purely suggestive in nature. Teachers may develop/create their own material, keeping in view the age and difficulty level. In module III, the play activities and ideas, worksheets, rhymes and songs, assessment ideas, have been suggested as exemplars. Teachers can develop many more as per the requirements and share them with fellow teachers as well, for better learning.

This Resource Pack will be useful for the practitioners particularly in classroom planning, while transacting concepts, skills and activities related to Foundational Literacy and Numeracy. Teachers need to plan keeping the Learning Outcomes as a checkpoint. Apart from this, the Resource Pack will also be useful for developing assessment items with reference to the Learning Outcomes for each stage of learning. Module III will also serve as a learning resource for teachers, providing them with ideas for developing/devising new activities, hands-on-materials, DIY games/toys, etc.

Preschool - I

***Competencies
&
Learning Outcomes
with Ideas for
Pedagogical Practises
and Assessment***

***Early Learning
is most meaningful when it is integrated across the
Three Developmental Goals***

DEVELOPMENTAL GOAL 1**CHILDREN MAINTAIN GOOD HEALTH AND WELL-BEING (HW)**

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 1.1 Begins to state some physical characteristics about self	• Interest areas • Dolls • Outline of a smiley face • Free play area • Collection of rhymes • Puppets • Crayons	• During circle time discussing about various parts of the body using a doll and encouraging the children to talk about it. • Singing simple rhymes about body parts like: “Head, shoulders, knees and toes” • Letting the children free play with dolls in the interest areas. • Telling stories using puppets. • Giving the children an outline of a smiley face to colour. Guiding Question for Assessment • Can the child state some physical characteristics about herself /himself?

Learning Outcomes	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 1.2 Identifies close family members	• Circle time • Finger puppets of family members • Collection of rhymes	• Showing pictures of a family during circle time and encouraging each child to look at the picture and describe it. • Helping the children realise that a family, the people we live with, is something we all have in common. • Asking each child how many brothers and sisters s/he has. • Asking questions about pets. (Do they have a pet? Let children describe them.) • Singing the finger play, e.g.: ‘This is the father.....’ with the help of finger puppets. Guiding Question for Assessment • Is the child able to identify close family members?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 1.3 Participates in activities and takes initiative	- Activity area - Games like: - Ring a Ring o' Roses - Please Mr. Crocodile - Hopscotch - Leaves, vegetables, paper, glue	- Asking the children to select their own play/activity area. - Letting children participate in activities with the peer group (let them initiate the activity, for example, if they are playing in the puzzle area you can be one of the participants but do not solve their problems, let them do it themselves). - Taking children outdoors and playing games such as, 'Ring a ring o' roses', 'Please Mr. Crocodile' or 'Hopscotch' etc. - Doing activities like, printing of various kinds i.e., leaf printing, vegetable printing, thumb printing, etc. Activities like simple paper folding, tearing and pasting can also be given. Guiding Questions for Assessment - Is the child happily participating in various activities? - Is the child taking the initiative to do the activity? - Does the child choose an activity herself /himself?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 1.4 Waits for her/his turn and follows simple instruction with the teacher's support	- Job responsibility chart - Daily schedule - Labels in the activity areas - Print-rich classroom	- Providing one or two instructions to the children to follow, for example, "Wash your hands and then turn the tap off" or "Go to the storybook area and pick up a book to read". - Instructing children to wait for their turn during every classroom activity, for example, when they go to wash their hands, or to the toilet, or to play on the outdoor equipment. Guiding Questions for Assessment - Is the child able to follow one or two instructions? - Does the child wait for her/his turn?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 1.5 Seeks adult help in adjusting to a new environment	• Circle time • Fun movements • Rhymes/songs • Interest area • Blocks, puzzles • Kitchen area • Puppets, stories • Picture books • Outdoor free play area	• Playing songs that are rhythmic and making children do some simple fun movements during circle time. • Singing rhymes/songs together. • Organising for the children to play in the interest areas and letting them choose what they want to play with. (You can play with them, for example, build a tower with blocks, play in the kitchen area or with puzzles, etc.) • Using puppets to tell interesting stories to the children. • Looking at picture books with the children, asking them to identify objects in the book and naming them. • Organising free play outdoors. • Making children comfortable enough to be able to come to you or any adult and ask for help. Guiding Question for Assessment • Is the child seeking adult help in adjusting to the new environment?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 1.6 Chooses an activity area and gets engaged in the activity	• Pictures • Visual aids • Toys • Interest area • Hands-on activities • Stories • Movement activities	• Using pictures and visual activities to keep children engaged. Playing with a variety of toys and materials to motivate the children. • Allowing the children to go to the interest areas and choose an activity. (Rotate the activities every ten to fifteen minutes to avoid loss of interest. Do hands-on activities with them). • Making children listen to interesting stories with voice modulation and facial expressions. • Organising movement activities in between. Guiding Questions for Assessment • Does the child choose an activity herself/himself? • Is s/he completely engaged in the activity?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 1.7 Identifies her/his feelings /wants e.g. "I don't want to colour today." "I want to go out."	• Circle time • Song: "If you're happy and you know it" • Stories • Emotion cards • Pretend play • Outdoor play • Water or sand play	• Talking about various emotions such as being happy, sad, scared, angry, excited, etc., during circle time. • Singing songs with children like, "If you're happy and you know it..." • Using stories to help the children understand all the different emotions and how others may be feeling. • Playing 'matching the emotion with emotion cards', for example, matching a happy face with a happy face emotion card and calling out the emotion. • Letting children pretend play with dolls, kitchen toys, clothes, etc. • Organising activities outdoor (free and guided) and allowing children to play with water or sand. Guiding Question for Assessment • Is the child able to identify her/his feelings and say them aloud?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 1.8 Makes choices and expresses preferences	• Picture dominoes • Storybooks • Flash cards • 'I can' command cards • 'I like' cards	• Discussing words related to making choices and preferences during circle time. • Telling the story "Lion and the Rabbit" to the children and then showing them a picture of a lion and a rabbit. (Ask each child which one they would want to be and why.) • Doing picture dominoes activity with the children. • Playing the game 'Musical Chairs' with the children. Guiding Question for Assessment • Is the child able to make her /his choices and express her/his preferences?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 1.9 Resolves minor conflicts with the help of adults	- Conflict Resolution Poster - Puppets - Activity areas - Games (both indoor and outdoor)	- Discussing that all the children must play together peacefully during circle time. Telling them that if they do so they will be called 'Peace Makers', but if there is a fight or a conflict, they will be called 'Peace Breakers'. - Showing and discussing the Conflict Resolution Poster. - Helping children understand conflict resolution through Puppet plays at the child's level. Guiding Question for Assessment - Is the child able to resolve minor conflicts with or without the help of an adult?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 1.10 Expresses joy while working and playing with other children	- Emotion cards - Puppets - Emotion Wheel game 'I can' cards - Show and tell activity - Small group play	- Sharing and discussing the different emotion cards with the children and letting them identify each one of them during circle time. Telling them that they can show a card of how they are feeling to the teacher at any time of the day. - Using puppets, teach children to play together with other children without having conflicts and also to express their feelings. - Organising a 'Show and Tell' activity where the children can be asked to show an emotion card and express in their own words the emotion displayed on the card. - Playing an 'Emotion Wheel' game that can be made for and with the children to express their feelings and be able to name them. Guiding Question for Assessment - Is the child expressing her/his feelings while playing or working with peers?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 1.11 Helps other children, cares, and shares belongings with them	• Circle time • Stories • Games • Songs • Simple activities • Interest areas	• Talking about what children think about sharing, caring and helping their peers, during circle time. • Telling stories and singing songs on 'Sharing is Caring', playing games such as, 'Tug of War'. • Encouraging sharing of crayons, storybooks, writing tools, etc. • Organising group activities in the interest area where children share their toys, blocks etc. with one another, and help each other too. Guiding Questions for Assessment • Does the child help other children in simple day to day activities? • Does the child share her/his toys/crayons, with other children?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 1.12 Begins to understand differences among people (based on ethnicity, culture, abilities and disabilities) and demonstrates sensitivity to diversity	• Circle time • Books in the classroom library • Flags of different countries • Different cuisines • Songs of different languages • Festival items/ dances	• During circle time discussing with the children how each child is different in her/his own way and the need to acknowledge and respect every child since each of us is unique (Remember, children come to the preschool with different skills, abilities, and values and from different cultures/ethnicities. Pay special attention to children with special needs so that children are sensitised towards them). • Showing the children pictures of flags of different countries. • Celebrating festivals of all the religions in the classroom to display diversity. • Asking the children to bring food of different states or countries (if possible) and share it with their classmates. • Making children listen to songs in different languages. • Teaching the children simple dances of different states of our country. Guiding Questions for Assessment • Does the child understand and respect the differences in one another? • Is s/he sensitive to diversity?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 1.13 Communicates immediate needs and follows hygiene and healthy eating practices with adult's guidance	• Circle time • Songs • Puppet show • Pictures of junk and healthy food • Boxes labelled 'J' for Junk and 'H' for Healthy.	• Discussing about children's individual needs, hygiene and healthy eating practices, telling them how and why they need to communicate their immediate needs to an adult who is present. • Making children sing "Here We Go Round the Mulberry Bush" and the "Growing Song". • Practising and promoting dental health and hygiene, e.g., visiting a dentist's clinic, calling a dentist to speak to the children, dramatisation of a dentist's clinic. • Organising a puppet show on "Good Health". • Making children do the "Glitter Hands". • Making children sort out pictures of food items and put the picture of healthy and junk food in the boxes marked 'H' for healthy and 'J' for junk. Guiding Questions for Assessment • Does the child communicate her/ his immediate needs? • Does the child follow hygiene and healthy eating practices with the guidance of an adult?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 1.14 Maintains distance from strangers and is aware about good touch and bad touch (guidance from parents and teachers)	• Circle time activities • Show and tell activity • Songs and stories on safety	• Explaining to the children why they need to stay away from strangers during circle time. • Telling the children that they can share any information with their teacher and parents (Telling the children about their body parts when they are very young is important- specially that their body is their property). • Talking about good and bad touch (try to keep it simple) without scaring the children. Make them understand what good/ safe touch is and that only very few (parents/caretakers) can touch their private parts. Teach them to say "NO" loudly and run away if they are uncomfortable with someone touching them. • Telling them about the swimsuit rules. • Telling children that if they do not feel comfortable in the presence of someone, they should tell their mother/caretaker if they are at home and the teacher in school. • Showing the video "Kid's awareness – Good touch, Bad touch". Guiding Questions for Assessment • Does the child maintain distance from strangers? • Is the child aware about 'good touch' and 'bad touch'?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 1.15 Recognises common dangers and hazardous objects and places and keeps distance	• Circle time activities • Show and tell activity • Songs and stories on safety	• Talking to the children about road safety, fire safety during circle time. Discussing with them about staying away from electrical gadgets, sharp objects, medicines, roads. • Making children sing songs like, "Fire fighter", "Twinkle, Twinkle", "Traffic light". • Taking the children for a Safety Walk around the school and showing them things that are not safe. Telling them that they should stay away from these things. • Planning a mock fire drill and making sure that the school is evacuated as early as possible. (The children can be shown the fire safety equipment and exits before the drill.) Guiding Questions for Assessment • Can the child recognise the common dangers? • Is the child aware of hazardous objects and places? • Does s/he keep away from them?

Learning Outcomes	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 1.16 Demonstrates gross motor coordination in play/routine activities like walking, running, jumping, climbing, dancing, etc.	- Action songs - Music and movement games and activities	- Helping the child develop gross motor coordination through: - Moving like an animal: Hop like a frog, fly like a bird, jump like a kangaroo, etc. - Touching the knees and then the shoulders 10 times. - Marching like a soldier counting to 10. - Doing 10 jumping jacks. - Doing 10 arm circles. - Jumping in one place "10" times. - Making the children walk in a line with one foot in front of the other. - Organising games like Treasure Hunt, Hide and Seek, Hopscotch, Obstacle race and Catching hula hoops and throwing a ball. (Let children do movements like Hop, skip, jump and balance on a beam.) - Conducting indoor games like, tossing the ball in the basket, walking on paper plates made of green and red paint laid out in a line, walking only on the green plates or only on the red plates, etc. Guiding Question for Assessment - Does the child demonstrate gross motor coordination during play or routine activities?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 1.17 Explores and participates in music, dance, and creative movements	• Animal movements • Musical chairs • 'Simon says' game • Freeze dance • Pretend dance	• Making children do animal movements to music like pretend to be a butterfly, Insy Winsy Spider, etc. • Playing 'Musical chairs' with loud music and "Simon says". (Children to wave their arms in the air to music and perform freeze dance/ Children to dance fast and slow to music and follow the musical leader.) • Encouraging children to use various items to produce music. Guiding Question for Assessment • Does the child explore and participate in music, dance and creative movements?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 1.18 Exhibits fine motor skills and simple eye-hand coordination in various activities like scribbling, printing, threading, colouring, clay moulding, tearing and pasting, etc.	• Beads • Clay • Colour pencils • Glue pencils • Paints • Clothes with zips • Buttons • Wastepaper • Sand • Water • Child-friendly scissors • Nuts and bolts • Beans • Coloured blocks	• Conducting activities like tying shoe laces, threading beads, buttoning, zipping, clay moulding, scribbling, colouring, printing of various kinds, tearing and pasting, playing with water and sand, making patterns with coloured blocks, using clothes peg to hold paper, playing with nuts and bolts, using the scissors, gluing beans etc. help in developing eye-hand coordination and fine motor skills. Guiding Question for Assessment • Does the child exhibit fine motor skills and simple eye-hand coordination?

DEVELOPMENTAL GOAL 2

CHILDREN BECOME EFFECTIVE COMMUNICATORS (EC)

Early literacy skills

Writing for self-expression

Makes use of her/his knowledge of letters and sounds, invents spellings to write

Makes effort to write in conventional ways

Responds to reading with drawings/ words and meaningful sentences

Writes rhyming words

Writes meaningful sentences using naming words and action words

Writes messages to express herself/himself

Uses mixed language codes

Writes for different purposes in the classroom's activities and at home, such as making lists, writing greetings to grandparents, messages/ invitation to friends, etc.

Writing with Purpose

FIRST LANGUAGE

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-1.1 a Attempts to engage in conversation/ small talk with known/unknown children/adults in her/his own language/ home language	• Circle time • Rhymes • Stories • Group activities • Outdoor play • Games • Small jump play in interest areas • Pretend play	• Discussing what the children did the previous day during circle time. Listening to what the children have to say. Talking about their families, friends etc. • Making children recite rhymes such as: - "Row, Row, Row your Boat" - "Here We Go Round the Mulberry Bush" - "Incy, Wincy, Spider" - "Old McDonald had a Farm" - "Wheels on the Bus" • Reading storybooks to the children, such as: - <i>The Gingerbread Man</i> - <i>The Enormous Turnip</i> - <i>The Very Hungry Caterpillar</i> - <i>Chicken Licken</i> - <i>The Little Red Hen</i> - <i>The Three Little Pigs</i> - <i>The Monkey and the Crocodile</i> - <i>The Monkey and the Cap Seller</i> • Using lunch time, outdoor play, indoor play and interest areas to engage the children in conversation. • Playing the guessing game with children. • Organising pretend play. • Encouraging the children to participate in lots of group activities where the children get the opportunity to converse with one another. (Let the children converse in the language they are comfortable in.) Guiding Question for Assessment • Does the child attempt to engage in conversation with known/unknown children and adults?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-1.1 b Attempts to understand gestures, signs, expression while talking/interacting	• Role-play • Game: Body language charades • Flash cards • Emotion cards • Dumb charade	• Making use of body language to help the children understand gestures as well as using hand gestures. • Using the right tone, voice, gestures, signs and expression while talking to the children. • Pointing to an object and calling out its name. • Making gestures an everyday part of interaction with the children. (If a child uses gestures, acknowledge it.) • Playing body language charades. Guiding Question for Assessment • Does the child understand hand gestures, signs, expressions during interactions or while talking?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-1.2 Observes with interest, illustrated books/posters with big font	• Picture books • Big storybooks with big font • Videos • Smart boards • Pictures from old books and magazines • Dramatisation • Picture reading poster • Reading area with appropriate books	• Reading a lot of picture books to the children every day. • Asking the child about her/his favourite part of a story. • Reading half of the picture book and letting the children read the other half. • Showing and reading a lot of picture storybooks and asking the children to retell the story in their own words. • Using big books to draw attention to the text. (Expose children to big picture books with big font every day, for at least a week.) • Asking the children some open-ended questions about the story. • Showing videos of different stories like that of animals, fairies, etc. • Giving the children picture books to read/go through whenever they feel like. Keep the books within the reach of the children. • Making a picture book with the involvement of children using pictures from old books and magazines. • Giving the children a set of pictures of a known story and asking them to put these in a sequence. • Asking each child to tell a story and dramatise the story as well. • Singing rhymes and songs with the children. Guiding Question for Assessment • Is the child interested in illustrated books/posters with big font?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-1.3a Expresses likes-dislikes using gestures/ body language	• Social-emotional games • Circle time • Songs • Stories on emotions • 'I like' cards • Show and tell	• Talking about likes and dislikes using body language and gestures during circle time. • Singing the song: "Do you Like Broccoli Ice Cream." • Letting the children express their likes and dislikes by saying 'I like' and 'I don't like' e.g., 'Foods I like and dislike'. • Organising a group activity by dividing the children into groups of five or six and letting them make a collage of things they like/dislike. • Teaching the children through 'DIY' activities, how to express their likes and dislikes using gestures and body language. Guiding Question for Assessment • Is the child able to express her/his likes and dislikes through body language and gestures?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-1.3b Expresses fondness/liking for animals/birds in her/his surroundings-plays and talks to them	• Circle time • Songs/rhymes • Visit to the zoo • Nature walk • Twigs, feathers, • Dry grass • Materials to make a mask • Waste paper • Outline of animals for colouring	• Discussing about the animals and birds the children see in their surroundings during circle time. (Ask them if they have seen a bird's nest or feathers lying or a bird perched on a tree. Tell them that there are many more animals.) • Talking about the different kinds of animals one by one i.e., domestic, wild and aquatic/water animals. • Singing songs/rhymes like "Old Mc Donald", "Five Little Monkeys", "Five Little Fishes" with the children. • Providing children with opportunities to visit animal farms, a zoo, etc. where they can see different animals. • Taking the children for a nature walk as often as possible. (Even a common dog, bird or a butterfly would excite the children a lot.) • Helping them collect feathers, twigs and dry grass. (Once back in the classroom, have a discussion on what all they saw outside during the nature walk and let them draw what they liked the best. Accept any drawing even if it does not look like what they say they have drawn. Give each child a chance to describe her/his drawing.) • Letting children select a long feather from the ones collected and do feather printing. • Helping children make a nest with the twigs and dry grass collected during nature walk. • Giving children the materials to make a mask of any wild animal. (You may cut out the mask and let the children colour it, e.g., making a monkey face on a paper plate.) • Organising for children to colour within the outline drawing of any domestic animal, tearing paper and pasting it within the outline drawing of a fish. Guiding Question for Assessment • Does the child express fondness for animals/birds in her/his surroundings?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-1.4a Recites repeatedly interesting poems, songs with actions, participates in rhythmic activities	• Age-appropriate rhymes/songs • Music player • Tambourine • Music and movement activities • Child -friendly musical instruments	• Making children perform action songs like: - “Put your right hand in...” - “If you’re happy and you know it..” - “Five little monkeys jumping on the bed...” - “I am a Teapot ...” - “Teddy Bear, Teddy Bear...” • Playing with sound and rhythm and asking the children to move to the beat of the music. A tambourine can also be used. Guiding Questions for Assessment • Does the child recite poems/songs with actions? • Does the child participate in rhythmic
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-1.4b Sings/hums rhyming words/ sentences from familiar poems and stories	• Reading/literacy area • Storybooks • Poems • Classroom library • Post-story activities • Game: Rhyming words • Action songs • Music and movement activities	• Reciting the same poem every day during the circle time so that the children are familiar with them. • Asking the children to sing along every time you play or sing a poem. • Playing a game with rhyming words. (Give the children a word and ask them to say a rhyming word. Give all the children a chance.) • Creating a classroom library to arouse interest in books/stories and inculcate reading habits. • Narrating / reading the same story to the children every day from a big storybook, at least for a week, as children love to hear the same story again and again. • Doing an activity based on a story. (After the story session is over the children can do an activity based on the story e.g., ask the children to illustrate or enact the story. They can also talk about their favourite character or tell the story in their own words.) Guiding Question for Assessment • Does the child sing/hum rhyming words/sentences from familiar stories and poems?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-1.5 Picks selected books with curiosity and interest. Flips over pages to make sense of it	• Circle time • Classroom library • Dramatisation • Self-made storybook • Old books and magazines • Newspapers • Colour pencils • Paints • Printing tools • Props for stories	• Reading a variety of storybooks during circle time to the children. Showing children the illustrations and the sentences written on it by pointing the index finger on the lines while reading the book. • Helping them understand that we flip pages from the right to the left and read from the left to the right. • Asking open-ended questions in between the stories to arouse curiosity. • Giving the children opportunities to handle/ read a lot of books and reading print material. • Keeping the storybooks at the level of the children so that they can pick up any book of their choice whenever they feel like it. • Creating interest in the stories by using voice modulation and an enthusiastic body language. • Doing activities based on the story after reading it e.g., colouring or doing different type of printing within the outline of one of the characters in the story. • Dramatising some of the stories along with the children using props. For example, to dramatise the story of the “Three Little Pigs”, make the three houses with the help of the children. • Making a picture storybook with the help of children. Asking them to get pictures from old books, magazines, newspaper etc. and build a story. Ask the children to give it a title. Guiding Questions for Assessment • Does the child select books with curiosity and interest? • Does s/he flip over pages to make sense of it?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-1.6 Exhibits skills of early literacy and print awareness in the class and at home, for example, recognising/reading the wrapper of their favourite toffee or biscuit	• Storybooks in the class library • Labels for objects in the classroom • Sight word chart • Word wall • Labelled activity areas	• Reading a lot of big storybooks to the children during circle time. (Show them the illustrations and with the help of the index finger point to the words as you read them.) • While telling or narrating a story make it come alive by using voice modulation and facial expressions. • Making children sing poems and songs every day. • Helping children understand how to turn pages, how to find the top and bottom of a page, and how to identify the title and the front and back covers. • Providing for a print-rich classroom by: - Labelling all the objects in the classroom to create print awareness. - Having a chart of sight words in the classroom e.g., <i>a, the, is, was, and you</i>. - Having a classroom library with lots of age-appropriate storybooks with big pictures and only about a couple of lines written. • Showing pictures of familiar wrappers and letting the children identify them. • Giving the children alphabet cards in duplicate and asking them to sort them into pairs. • Saying words and asking children "What is the beginning sound?" • Making children dramatise a story. Guiding Question for Assessment • Does the child exhibit skills of early literacy and print awareness in the classroom and at home?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-1.7 Listens attentively and repeats familiar words and their sounds	• Storybooks • Rhymes • Games like 'Simon says...', 'I spy with my little eye....', The 'yes and no', Chinese Whisper, Sit/stand, Jump in/out • Find the beginning sound • Nature walk	• Doing a lot of storytelling and singing songs/rhymes during circle time. Use stories to develop children's listening skills. • Making sure that the child listens attentively to others when they are talking in a group. • Developing listening skills in children by asking them to close their eyes and listen to the sounds they can hear. This can be done during nature walk too. • Saying a word and asking the children to identify the beginning sound. • Playing the "Sit/stand" game with the children. • Making a circle on the floor and asking the children to jump in and out of the circle. • Using story time to teach children listening skills. • Playing games like 'Simon says.....', 'I spy with my little eye....', The 'Yes and No', 'Chinese Whisper'. • Helping the children develop their vocabulary by using words in different contexts. Guiding Question for Assessment • Does the child listen attentively and repeat familiar words and their sounds?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-1.8 Identifies the various familiar sounds in the surroundings for example- sound of the falling rain, chirping of the birds, etc.	• Musical instruments • Recordings of various sounds • Nature walk • Picture cards of various animals, means of transport • Musical instruments	• Having a free conversation during circle time, about what all sounds the children hear on their way to school. Next have a guided conversation about the various sounds that animals make, of musical instruments, of means of transport, etc. • Taking the children for a nature walk and asking them about the sounds they can hear in the environment. Once you are back in the classroom, play a game/ do a recap activity to see how many different sounds the children heard. • Showing picture cards of various animals, means of transport, musical instruments, rain, thunder etc. and asking them to make the sounds of the given pictures. • Asking the children to close their eyes and identify the sounds of different musical instruments that you are playing. Guiding Question for Assessment • Is the child able to identify various familiar sounds in the surroundings?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-1.9 Attempts to write by drawing lines, scribbling	• Thick crayons • Waste paper • Activity sheets to trace on curved, horizontal and vertical lines • Dotted pictures • Pencil • Glue • Objects to be used for printing	• Providing the children with paper and thick crayon for scribbling and drawing lines. • Doing various activities like printing, tearing paper, pasting paper, colouring within an outline, etc. to develop fine motor skills of the children. Once the children have a proper grip on the crayon, help them to draw horizontal and vertical lines by tracing along dotted lines. Once they are able to draw horizontal and vertical lines, move to curved lines. • Encouraging them to draw whatever they like. It may not look like what they are saying it is, but it is fine so long as they are trying. • Asking the children to describe what they have drawn and appreciating their efforts to motivate them. (Only once their grip is good, give them pencils, in PS-II /III.) Guiding Question for Assessment • Does the child attempt to write by drawing lines, scribbling?

SECOND LANGUAGE

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-1.1 Participates in singing poems, rhymes	• Circle time • Poems/rhymes • Games • Outline of a sheep • Cotton	• Singing the same poem every day during circle time so that the children get familiar with them. (Ask the children to sing along every time you play or sing a song/ poem.) • Playing a game with rhyming words. (Give the children a word and ask them to say a rhyming word. Give all the children a chance to say the rhyming words.) • Doing an activity based on a rhyme. For example: "Baa, Baa, Black Sheep". Asking the children to paste cotton within the outline drawing of a sheep. Guiding Question for Assessment • Does the child participate in singing poems and rhymes?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-1.2 Participates in music and movement activities	• Action songs • Dance movements • Balloons • Handkerchief • Chairs • Music Player	• Making the children play 'Dance, Dance - Freeze, Freeze' (rhythmic music). When the teacher says "dance" they dance and the moment she/he say "freeze", they stop. • Letting the children dance to music by throwing and catching balloons. • Organising for children to play musical chairs, do animal dances by moving like the animal whose name you call out, put a handkerchief on their head and keep dancing until it falls off. Guiding Question for Assessment • Is the child participating in music and movement activities?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-1.3 Enjoys listening to stories bilingually	• Circle time • Bilingual Storybooks • Props • Puppets • Activities • Outline of “A Hare and a Tortoise”	• Reading aloud stories to the children during circle time every day. • Telling stories using props, voice modulation, facial expressions, body language, puppets etc. While telling the stories use both, the first and the second language. Listening to stories will help children develop vocabulary and also help them develop the interest to read. • Encouraging children to ask questions in between the story. (A bilingual story will help all the children from different backgrounds, understand the story.) • Doing an activity based on the story. For example, for “The Hare and the Tortoise” story, the children can crumple green crepe paper and paste it on the shell of the tortoise and then colour the rest. They can also paste cotton within the outline drawing of a rabbit. Guiding Question for Assessment • Does the child enjoy listening to stories bilingually?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-1.4 a Spends time in the reading area/ play area	- Labels in all interest areas - Reading area - Play area - Appropriate books in the reading area	- Having a variety of areas like reading, kitchen, dramatics, puzzle, beads of different colours to thread, sort, match etc. - Making the interest area very creative and interesting for the children to want to go there and spend time. (The interest areas may be equipped with different kinds of manipulatives, musical instruments, dolls, doll houses, toy cars, car garages, blocks, magnifying glass, microscope, colour mixer, etc.) - Taking the children to the interest areas and letting them choose the one they would like to play in. - Encouraging the children to play in whichever centre they desire or an interest area of their choice to develop their decision-making skill. - Getting age-appropriate books with big bold pictures and only a couple of lines written. Guiding Question for Assessment - Does the child spend time in the reading corner/play area?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-1.4 b Looks/explores books, posters/ available material	• Reading area • Lots of books/posters • Literacy related activities • Poster making activities • Book making	• Doing a lot of picture reading, storytelling with big and attractive pictures/storybooks during circle time. (After telling a story, children can be given a picture related to a character from the story and they can talk about it.) • Narrating more than half of a story and then asking the children to complete it. Make storytelling interesting by asking the children to predict what they think will happen next. • Having lots of books/ picture books and posters in the reading area of the classroom. The books should be colourful and have an interesting element in them. • Letting children explore what they would like to read. Keep books within reach of the children and encourage them to pick up a book and read. • Engaging children do arts and crafts activities related to the stories read, for example, children can make the face of a bear using a paper plate for the story 'Goldilocks and the Three Bears'; for the story 'The Gingerbread Man' give them a cut-out of the Gingerbread Man and let them colour it. Guiding Question for Assessment • Does the child look/explore books/ posters/ other available material?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-1.5 Identifies familiar sounds in the environment	• Nature walk • Circle time discussion • Sounds in the environment • Sounds of different animals, birds, bees, storm, rain etc. • Sound box • Recording of different sounds	• Talking to the children about the sounds in the surroundings, then, asking them to close their eyes and identify the sounds of different animals, birds, bees, storm, rain, etc. which are played one by one during circle time. • Taking the children for a nature walk and asking them to listen to the sounds in the environment. Then taking them back to the classroom and asking them which sounds they heard in the environment. • Asking the children to close their eyes and listen to the sounds that they can hear and letting them talk about it. Guiding Question for Assessment • Does the child identify familiar sounds in the environment?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-1.6 Spends time in the reading area/play area	• Reading / play area • Lots of books/posters • Literacy related activities • Poster making activities • Book making	• Having a variety of areas like reading, kitchen, dramatics, puzzle, beads of different colours to thread, sort, match etc. • Making the interest area very creative and interesting for the children to want to go there and spend time. (The interest areas may be equipped with different kinds of manipulatives, musical instruments, dolls, doll houses, toy cars, car garages, blocks, magnifying glass, microscope, colour mixer, etc.) • Taking the children to the interest areas and letting them choose the one they would like to play in. • Encouraging the children to play in whichever centre they desire or an interest area of their choice to develop their decision-making skill. • Getting age-appropriate books with big bold pictures and only a couple of lines written. Guiding Question for Assessment • Does the child spend time in the reading corner/play area?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-1.7 Expresses liking for a few books	• Reading area • Lots of story books/picture books of different kinds	• Reading storybooks and exposing the children to a lot of books every day. (Have interesting books like pop-up books, books that make sounds, books with big attractive pictures, etc.) • Giving children the opportunity to go to the reading area as often as they can and observe which books each child is reading. • Talking to the children about the books they like. (Let them express which books they like the most and why.) • Using voice modulation and facial expressions while reading a story and asking the children to predict what they think will happen next. Guiding Question for Assessment • Does the child express liking for a few books?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-1.8 Explores the reading area and shows interest in books	• Labels in the reading area • Old magazines, story books, newspapers, picture cards • Graded books, children's literature, pop-up books, big books, lap books • Flannel boards with cut-outs of favourite characters	• Having an exclusive reading area equipped with age-appropriate graded books, children's literature, pop-up books, big books, lap books, etc. • Making available a variety of puppets like finger puppets, glove puppets, stick puppets to be used as props for storytelling, read aloud, shared reading, dramatisation and so on. • Making available old magazines, story books, newspapers, picture cards for children to create their own stories. Guiding Questions for Assessment • Does the child spend time in the reading area? • Does the child enjoy looking at the books? • Does the child create her/his own short stories?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-1.9 Pretend plays with toys	- Interest areas with different centres e.g., kitchen centre, puppet corner, costume centre/ dramatics centre - Simple science equipment like magnifying glass, microscope, magnet, plants, objects, science magazines, stopwatch, items collected by children, plastic beaker, scales, etc.	- Encouraging the children to use the centres like the kitchen centre, puppet corner, costume centre/dramatics centre, simple science equipment, etc. and allowing them to play in these centres as and when they like. - Giving them a comfortable environment to pretend play. Guiding Question for Assessment - Does the child pretend play with toys and puppets?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-1.10 Sings/hums words/lines/parts of songs and rhymes, in own language/L2	- Collection of poems/songs - Circle time - Music area - Music and movement activities	- Exposing the children to a lot of singing, music and playing of musical instruments during circle time. - Playing songs in the children's own language and making sure all the children are participating. - Repeating the songs and rhymes in the children's home language every day. Guiding Question for Assessment - Is the child singing or humming words/lines/parts of songs and rhymes in her/his own language?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-1.11 Scribbles with crayons	- Thick crayons - Variety of paper/ newspaper	- Giving the children thick crayons and paper/newspaper to scribble on. Making sure all the children scribble and that they have a firm grip on the crayon. Guiding Question for Assessment - Does the child scribble with crayons on the paper provided?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-1.12 Collects objects from their immediate environment e.g., leaves, twigs, pebbles, feather etc. and talks about them bilingually	- Nature walk - Objects from the environment like leaves, twigs, pebbles, feathers	- Talking to the children bilingually about their immediate environment, during circle time and listening to what they have to say patiently. - Making children sing songs/rhymes/poems about the environment. - Taking the children for a nature walk as many times as possible in a week. (Give each child a small bag to collect objects they like from the environment. Listen to what they are conversing about carefully during the walk. Observe what kind of things they pick up from the environment. If they do not know what a certain object is, tell them bilingually. Once they are back from the walk, ask them to explain what and why they have collected a particular item. Put together all the items the children have collected and help them make a collage with it.) Guiding Questions for Assessment - Did the child collect objects from the immediate environment? - Is the child able to tick the boxes which have pictures of the objects which s/he may have collected during the nature walk? - Is the child able to talk bilingually about the objects collected?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-1.13 Watches cartoons/ films of a short duration	- Appropriate cartoons - Children's films - Smart board - Cartoon Strip	- Giving children opportunities to watch cartoons or films meant for small children. Keep explaining what is going on so that all the children understand what they are seeing. Show the children something interesting (age and developmentally appropriate) and ensure that the cartoons/films are of a short duration. Guiding Question for Assessment - Is the child able to watch cartoons/films of a short duration?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-1.14 Participates in singing songs and rhymes	- Songs/rhymes - Music and movement activities	- Exposing the children to a lot of songs and rhymes. (Make sure all the children are participating. The songs/rhymes should be interesting for the children.) Guiding Question for Assessment - Does the child participate in singing songs and rhymes?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-1.15 Talks about friends, school, etc.	- Circle time - Small group play time	- Giving the children an opportunity to talk amongst themselves during circle time. - Letting children discuss their friends, school and home. - Talking to the parents and finding out if the children are talking about their school, friends, etc. Guiding Question for Assessment - Does the child talk about her/his school, friends, etc.?

DEVELOPMENTAL GOAL 3

CHILDREN BECOME INVOLVED LEARNERS AND CONNECT WITH THEIR IMMEDIATE ENVIRONMENT (IL)

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL1.1 Uses all senses to observe and explore the environment	• Different objects e.g., a feather, a piece of cloth, a comb, an eraser, a pencil, a toothbrush, a cotton ball etc., • Feely bag • Smelly bottles • Lemon, honey • Toffee, salty biscuit • Recorded sounds of different animals • Circle time • Game: Scavenger hunt	• Giving the children different objects and asking them to name what they see, smell, taste, hear and feel, during circle time. • Playing “Scavenger Hunt” with the children. • Taking the children for a nature walk and asking them what they can see, hear, feel and smell. • Giving the children a feely bag and letting them feel and tell what they touched. • Giving the children smelly bottles and letting them identify the smell. • Asking children to identify the taste after being blindfolded (food items like, a lemon, a spoon of honey, a salty biscuit, a toffee, etc. can be used). • Letting children listen to the sounds of different animals and asking them to identify the animal. • Showing children different objects and asking them to identify what they see. Guiding Question for Assessment • Is the child able to understand the use of the five senses?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL1.2 Identifies and names common objects, sounds, people, pictures, animals, birds, events, etc.	• Circle time • Rhymes • Pictures • Storybooks • Picture books • Labelled objects • Nature walk • SMART board • Picture cards • Worksheets	• Singing rhymes during circle time on animals, means of transport, seasons, family, birds, events, etc. to help children identify and name common objects. • Doing picture reading with the children. • Showing the children various picture charts and talking about the different things that they see in the charts. • Reading a lot of stories on various topics so that the children develop a vast vocabulary of various things and objects. • Showing the children picture books of animals, birds, people and telling them what each one is. Familiarising them with the sounds of the animals. • Labelling everything in the classroom and talking to the children about those objects. • Taking the children for a nature walk and telling the names of the different objects they see outside like the trees, bushes, insects, birds, etc. • Showing objects/places present in the neighbourhood /community on the SMART board or in reality and helping children learn about their importance, e.g., an ambulance, a hospital, a grocery store, a medical store, a fire engine, etc. • Celebrating and learning about different festivals and events through dramatisation. • Giving the children flash cards of objects to make pairs. Guiding Question for Assessment • Is the child able to identify and name common objects, sounds, people, pictures, animals, birds, events, etc. in the environment?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL1.3a Remembers and recalls 2–3 objects seen at a time	- Memory game - Matching cards - Picture bingo - Picture cards - Picture board - Activity -“What is missing?”	- Playing memory games with children. (Show all the picture cards to children. Let them take turns to choose any two cards that match. If the child makes a successful match, s/he gets to take another turn. If it does not match, the cards are returned to their original position.) - Playing ‘Picture bingo’ with the children. (Players take turns to select a card. If the card matches an image on the players board, they have made a match and get to take another turn. If it does not match, the card is placed back face down.) - Showing the children about four or five objects on a tray, giving them some time to have a good look and then removing one item without the children seeing it. Asking children to identify the missing item. - Playing a memory game. (Show the children about five to six objects. Give them some time to have a good look. Cover the items and see how many objects each child can recall.) Guiding Question for Assessment - Is the child able to remember and recall 2-3 objects seen at a time?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL1.3b Identifies the missing part of a familiar picture	“What is missing?” cards - Flash cards with simple objects/animals with a part missing in each	- Making picture cards of objects/ animals/ people with some part missing and asking the children to identify the missing part e.g., a lion without a tail or a chair without a leg. Children can be asked to make similar pictures with missing parts. Guiding Question for Assessment - Is the child able to identify the missing part in a picture?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL1.4 Places 3–4 objects of two groups in one-to-one correspondence	• Objects in their surroundings • Chart with four big squares • Large buttons, beads, bowl, a table • Self-corrective cards • Big dice	• Doing the “placing the buttons” activity: Give the children big buttons of different shapes/ colours and a chart with four big squares. Each square should have a number written on it. Ask the children to place as many buttons (of the same shape/colour) as the numbers written, on each square. • Doing one to one bead counting: Keep a bowl on a table. Give a child some big beads and a big dice. Let the child roll the dice, see the number on it and place the same number of beads in the bowl. The same activity may be repeated for other children as well. • Giving the children self-corrective cards with the numbers written on one side and either dots or pictures of the same number drawn on the other: Undo the sets and mix them up. Ask the children to match the self-corrective cards. Guiding Question for Assessment • Is the child able to place 3–4 objects of two groups in one-to-one correspondence?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL1.5 Compares two objects based on one observable property, for example length, weight, or size	• Circle time • Objects of different sizes, lengths and weights • Pencils • A feather/a stone • Pictures of a giraffe and a rat	• Helping students realise that objects can be sorted on the basis of their colour, shape, size, or texture. Showing them examples of each of the properties. • Explaining to the children the difference between big/ small, tall/ short, long/ short, heavy/ light through a variety of activities: - Show the children two apples- one big and one small. Ask each child to hold both the apples and say which is big and which is small. - Show children two pencils of different lengths and ask them which is long and which is short. - Similarly, take two objects, like a feather and a stone. Let children hold them and identify which is heavy and which is light. - Show pictures of a giraffe and a rat and ask the children - "Who is tall and who is short?" or "Who is big and who is small?" Guiding Question for Assessment • Is the child able to compare two objects based on one observable property, for example, length, weight, or size?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL1.6 Seriates / arranges 2–3 objects/ picture cards in a sequence for example- shades of colour, size, length, occurrence of events	• Story cards • Events of a day cards • Nesting cups • Circle time • Three sticks of different lengths/sizes • Leaves	• Talking to the children about seriation. (Take three cars of different sizes and place them from the smallest to the biggest or biggest to the smallest. Explain that it can also be done on the basis of length, shades of colour, etc.) • Giving the children nesting cups and asking them to put them in the order from big to small in a line or like a tower. • Providing the children three sticks of different lengths and asking them to arrange them from short to long on a table/ alternatively three or four leaves of different sizes or shades of green can be given to the children to seriate on the basis of size or colour (any one). • Giving picture cards of events for putting in the right sequence. (Three or four simple flash cards of events of a day can be given to the children to place in the right sequence. Similarly, simple story cards can be given for seriation. Buttons, blocks of different colours/sizes, pebbles, picture cut-outs, etc. can also be used.) Guiding Question for Assessment • Can the child seriate or arrange various objects/picture cards given to her/him in a sequence of either size, length, shades of colour or occurrence of events?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL1.7 Enjoys stories based on occurrence of different events	• Storybooks of various festivals • Dramatisation of festivals • Props, costumes • SMART board • Internet • Animation movies • Festival food • Clothes • Decorations • Pictures	• Explaining to the children why local, national and religious festivals are celebrated. This can be done a few days before the festival so that the children understand why the festival is being celebrated. • Showing a cartoon or an animation film of a festival to the children on a SMART board. • Celebrating local, national, religious, and harvest festivals in school by making the children or the teachers dramatise them. Guiding Questions for Assessment • Does the child enjoy festivals or any event related stories? • Does the child enjoy talking about festivals/events (local context)?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL1.8 a Solves simple day-to-day problems by herself/himself or with adult support	• Circle time • Interest areas • Blocks • Storybooks • Mazes • Puzzles	• Role playing with puppets about a child who does not share her/his toys with friends and this leading to a conflict. (Ask how the children would solve this problem. Discuss the solutions given by the children and praise them for their efforts. Talk about the best way to solve the problem. This activity can be done during circle time.) • Telling the children stories about problems that children face and how they manage to solve the problem. • Posing questions like, "What would you do in a situation where someone is not giving you back your toy or is teasing you?" • Helping children solve simple problems (for example, a fight over certain toys) by themselves or by giving them some suggestions or solutions from which they can choose the one they think is the best. • Giving a group of children some blocks and asking them to build a tower or a bridge. (The children can be allowed to come up with the best solution to complete the tower or bridge. A cue can also be given.) • Asking children questions like, "What do you think will happen next?" while telling or reading a story. • Making a simple maze activity sheet and letting the children solve it (more complex puzzles can be given with time). Guiding Question for Assessment • Is the child able to solve simple day-to-day problems by herself /himself or with adult support?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL1.8 b Expresses curiosity about the immediate surroundings and asks related questions	• Interest area • Tools for exploration • Nature walk • Sand and water	• Telling the children, stories and asking open-ended questions during circle time. • Selecting stories that interest the children and also arouse their curiosity. • Showing the children picture books of topics they are not familiar with. • Asking a lot of questions related to things children talk about and also encouraging them to ask questions. (Children love asking questions. Always respond to them patiently. Interest areas are the best places for children to develop their curiosity. When the children express curiosity, encourage them and tell them what they want to know. Do not ignore their queries.) • Taking the children for a nature walk and encourage them to look around. • Encouraging the children to explore and providing them with the tools needed for exploration. • Providing children with opportunities to play with sand and water. (This helps to arouse their curiosity. They learn how to make houses and various other things with sand. They can also perform simple experiments to see that some things sink in water while others don't.) Guiding Questions for Assessment • Does the child ask questions and express curiosity about her/his immediate surroundings? • Is s/he exploring and collecting things?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL1.8 c Demonstrates awareness and sensitivity towards environmental concerns, for example, watering plants	- Plants - Water - Animals - Flowers - The environment	- Taking the children for a nature walk and talking about why we need plants around us, what plants need to survive, why we should not pluck flowers, why we should save water, etc. - Doing environment related activities with children such as watering plants, adopting a tree, etc. - Teaching children about the concept of “Reduce, Reuse, Recycle” - telling them ways to save water such as turning off the tap while brushing, using a bucket and a mug to take a bath and not the shower, etc. - Sensitising them towards animals in the environment, discussing how many of the animals are becoming extinct and ways to save them. Also talking about not hurting or teasing animals, etc. Guiding Questions for Assessment - Does the child understand why s/he needs to be sensitive towards animals, plants and the environment? - Does s/he understand the concept of “Reduce, Reuse, Recycle”? - Is the child conscious about saving water? - Are the parents talking to their children about the environmental concerns?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL1.9 Counts to three objects	Different objects in the classroom and outdoors like pencils/crayons, leaves, flowers, doors, windows of the classrooms, desks, chairs, etc.	- Giving opportunities to count any three objects in the classroom or outdoors. (This can be done every now and then. Simply rote learning the numbers would be difficult for the children to understand as children at the preschool stage do not understand abstract concepts.) - Helping the children count pencils 1,2,3 or leaves 1,2,3 and so on. Guiding Question for Assessment - Is the child able to count objects up to three?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL1.10 Recites poems/ stories based on number names up to 5	- Number rhymes - Number stories - Circle time - Number cutouts and flash cards	- Reciting rhymes and telling stories to the children during circle time. - Reinforcing the concept of numbers through rhymes like: 1,2,3,4,5 once I caught a fish alive - Baa, baa, black sheep 5 little ducks went out to play 5 little monkeys - Narrating stories like "Goldilocks and the Three Bears", "The Three Little Pigs", etc. Guiding Question for Assessment - Is the child able to repeat / recite number rhymes?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL1.11 Recites poems using number names up to 5 by hand movements like fingers to show numbers	- Number rhymes - Number stories - Circle time	- Helping the children learn number rhymes by showing their fingers for each number. Guiding Questions for Assessment - Is the child able to show her/his fingers to show numbers? - Is the child able to recite number rhymes?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL1.13 Compares two numbers up to 3 and uses vocabulary like more and less	• Objects • Two boxes • Worksheets	• Doing fun activities with children, such as asking them: "Give me 2 cookies/ Give me 3 cookies" or "Who has got more cookies who has got less cookies?" and so on. Guiding Questions for Assessment • Is the child able to use vocabulary like more or less when comparing two or three quantities.
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL1.20 Uses vocabulary related to money in poems and stories	• Circle time • Real money • Poems • Stories • Discussion • Play money	• Singing rhymes with children like: "hot cross buns, hot cross buns, one-a-penny, two a penny...." • Creating stories and talking about Indian currency. • Keeping play money in the activity areas (dolls area, market area etc.). • Showing real money to the children for better understanding. Guiding Questions for Assessment • Is the child able to participate in stories, poems and discussions? • Is the child able to understand the concept of money? • Is s/he able to identify money related vocabulary used in day-to-day life?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL1.21 Uses vocabulary to express length through poems, riddles, jokes, and stories	• Circle time • Stories • Poems • Jokes • Discussion	• Encouraging children to measure their tables/ chairs using their hand span. (They can also do so with crayons and pencils.) Guiding Questions for Assessment • Is the child participating in stories, poems, riddles, jokes and discussions related to length? • Is the child able to understand the concept of length?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL1.22 Uses vocabulary related to weight in poems and stories	• Circle time • Stories • Poem • Discussions/ experiment using different objects with varying weights	• Doing an experiment to show the difference in weight of different objects (this can be done in the interest area). • Making sure that all the children are participating in the discussions, stories, poems, riddles and jokes. • Creating a weight balance using DIY with children and helping them to weigh their favourite small toys/ miniatures. Guiding Questions for Assessment • Does the child participate in the stories, poems, riddles, jokes and discussions? • Is the child able to understand the concept of weight? • Is s/he able to use the vocabulary in day-to-day life? • Did the child participate in the experiment?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL1.23 Uses vocabulary to express capacities through poems and stories	• Circle time • Stories • Poems • Discussion/ experiment using different containers with varied capacities	• Doing an experiment to show the difference in capacities of different containers (this can be done in the interest area). • Making sure that all children are participating in the discussions, stories, poems, riddles and jokes. Guiding Questions for Assessment • Is the child able to participate in the stories, poem, riddles, jokes and discussions? • Is the child able to understand the concept of capacity? • Is the child using the vocabulary in day-to-day life? • Did the child participate in the experiment?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL1.25 Identifies basic shapes like a ball, shoe box, birthday cap, ice-cream cone	Circle, square, triangle, rectangle, ball, shoebox, birthday cap, handkerchief and ice-cream cone	- Discussing basic shapes like, a circle, square, triangle and rectangle. - Doing activities to make sure that children understand the basic shapes. - Making children compare real objects to identify their shapes. - Singing songs and rhymes on basic shapes. - Making DIY toys using cut-outs of basic shapes with children. Guiding Questions for Assessment - Does the child participate in the discussion on shapes? - Is the child able to understand the concept of different shapes? - Is s/he able to use the vocabulary in day-to-day life? - Is the child able to compare different objects to their shapes?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL1.27 Follows/ reproduces a simple pattern like clapping hands, clicking fingers, tapping feet, etc	- Songs on patterns - Games on patterns - Circle time - Patterns in hunting the classroom	- Singing the rhyme, "When you're happy and you know it....." - Playing simple games and asking children to do some basic actions. Guiding Questions for Assessment - Does the child participate in songs or patterns and perform simple actions? - Does the child understand the meaning of the different actions in words? - Does the child participate in simple games on patterns?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL1.28 Identifies / counts objects around like her/ his own body parts and draws inferences like two hands, one nose etc. through poems	• Number songs/rhymes • Number games • Circle time • Number calendar • Number dominoes • Number related worksheets	• Using circle time to sing rhymes / songs on body parts. (Make sure that the children are able to identify their body parts.) • Encouraging children to count parts of their bodies by drawing inferences from the poem. Guiding Questions for Assessment • Does the child understand the words used for the different parts of the body? • Is the child able to count the body parts? • Does the child participate in simple games?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL1.29 Uses vocabulary in daily life like today, tomorrow and yesterday	• Collection of song/rhymes • Related games • Circle time • Daily weather chart and conversation	• Singing rhymes/songs to help the children understand the use of words like today, tomorrow and yesterday during circle time. • Giving examples to help the children relate to these words. (Make sure that they use these words in their daily life by relearning them often.) Guiding Questions for Assessment • Does the child understand words like today, tomorrow and yesterday? • Does the child show interest in participating in songs/rhymes? • Does the child use words like today, tomorrow and yesterday in her/his daily life?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL1.30 Explores different technological tools like TV, remotes, mobile phones, and other available gadgets in the house	• Interest areas • Various technological tools and equipment • Related child-friendly gadgets	• Exposing the children to age-appropriate technology. • Keeping age-appropriate child-friendly technological tools to play with, for example, an old camera, toy telephone, walkie-talkie, etc. Guiding Questions for Assessment • Does the child show interest in technological tools in the interest areas? • Does s/he identify the use of each item? • Can s/he name each item?

EVS as a separate subject starts in Class III while in Classes I and II, it is integrated in Languages and Mathematics. However, elements of EVS are integrated in all activities and experiences from Preschool 1.

POINTS TO CONSIDER

- ✓ The codified numbers of learning outcomes should not be treated as hierarchical or stand-alone. In each class, across the foundational stage, the experiences and activities may be provided in an integrated manner, simultaneously across the learning outcomes and developmental goals.
- ✓ Activities/experiences designed and targeted for a particular Learning Outcome, for a particular class, will also address a number of other Learning Outcomes, within and across the three developmental goals (domains subsumed).
- ✓ The children must be observed in different settings/locations (e.g., how does she/he interact individually/in small group/large group, etc.).
- ✓ Assessment should not be based on only one or two Learning Outcomes, rather, it should be viewed holistically.
- ✓ Children's learning needs to be assessed in a progressive manner (the term wise progress of the child in each domain should be in a positive direction).

Preschool - II

***Competencies
&
Learning Outcomes

Assessment***

***Early Learning
is most meaningful when it is integrated across the
Three Developmental Goals***

DEVELOPMENTAL GOAL 1

CHILDREN MAINTAIN GOOD HEALTH AND WELL-BEING (HW)

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 2.1 Describes self in terms of physical characteristics	• Hand or full-length (child's height) mirror • Dolls • Books • Writing and drawing tools like crayons, sketch pens, markers, colour pencils, chalk, etc. • Storybooks on myself, family • Flash cards on 'I can do' • Materials to create 'My Book' using DIY technique	• Playing mirror game where children look at themselves in the mirror at home/ centre. • Using mats or other special spots to designate a child's personal space during circle time. • Giving children a variety of crayons, markers, papers and other art materials. • Reading books aloud and discussing about self-awareness. • Providing opportunities to the children to look at self-photos and talking about growth. • Helping children identify themselves by gender and having a stable sense of their gender identification. • Talking to the children about all the things they can do e.g., their eyes can see, their ears can hear, etc. Guiding Questions for Assessment • Is the child able to speak a few lines about herself/himself, e.g., likes/dislikes, gender, favourite things/people, etc.? • Does the child talk about herself/himself in terms of physical characteristics?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 2.2 Identifies close family members, friends and neighbours	• A variety of papers • A variety of thick crayons, markers, and other writing tools • Family photos/album • Magazines/newspapers to tear pictures from and create a collage • Storybooks on myself and my family, friends etc. • Creating a family tree using photos	• Discussing with the children during circle time about their families to help them understand its importance. • Helping children identify the important people in their lives. • Reading aloud a book about a family and talking about its characters. • Talking to the children about a picture of their family members and friends. • Working on a real tree branch to hang pictures and names of family members (Place the branch in a container or a pot with rocks to hold it in place. These small, created trees may be displayed around the classroom.) • Encouraging children to speak about their friends/group of friends. Guiding Questions for Assessment • Is the child able to complete the family tree? • Is the child able to understand that friends share and play with each other? • Does the child identify positive and negative feelings associated with belonging or wanting to belong to a group?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 2.3 Expresses own preferences and interests	• Circle time discussions • 'I can do' cards (Refer to HW 2.1 and 2.2)	• Encouraging children to talk about their own interests during circle time. • Offering choices to children to visit their own preferred interest areas. • Retelling of favourite stories. • Reading books aloud and discussing about self-awareness. Guiding Question for Assessment • Does the child tend to choose only activities that s/he is familiar with?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 2.4 Waits for her/his turn and follows two-line simple instructions	• Crayons (to make class rules) • Simple job responsibility charts • Labelled and number coded activity areas • Command cards	• Involving children in creating simple classroom rules so that they feel a sense of ownership. • Singing songs/ rhymes. • Helping children transition smoothly from one activity to another. Guiding Questions for Assessment • Does the child show awareness of routines? • Does the child respond to transitions, and participate in activities? • Does the child respond when given an instruction?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 2.5 Makes adjustment in the classroom and with other children	• Play in activity areas • Books • Writing and drawing tools like crayons, sketch pens, markers, colourful pencils, chalk, etc. • Storybooks • Flash cards • Materials	• Helping children learn simple age-appropriate rules and expectations in social situations, social interactions and social play. • Making positive comments on the contributions of children in activities, tasks and play. • Using a daily schedule chart to help children follow the day's activities. Guiding Questions for Assessment • Does the child adjust with other children in the classroom? • Does the child follow classroom rules? • Does the child engage socially with classmates and adults around her/him?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 2.6 Shows focus on a self-selected activity or task to completion	• Small group play time in activity areas • Individual play time/activity • Age and developmentally-appropriate toys and play materials • Writing and drawing tools like crayons, sketch pens, markers, colour pencils, chalk, etc. • Storybooks • Flash cards	• Encouraging children to do as much as they are able to do, independently (Avoid hand holding.) • Pointing out and complimenting children when they use good judgement e.g., "Jolly, I'm glad to see you carrying those scissors so carefully." • Modelling and encouraging practice of self-help skills that the child has not yet mastered. • Providing a variety of activity areas that meet the needs and interests of different children. • Encouraging children to continue with their play/task/activity until it is completed. • Designing and equipping all the interest areas with sufficient play and art materials to facilitate children's access to and selection of materials with which to complete a task. • Providing opportunities to practice wherever required. • Modelling the behaviour that you expect from the child. Guiding Questions for Assessment • Does the child push away an adult trying to help or say, "I can do it!"? • Can the child accomplish all the steps in a daily routine? • Is the child able to finish a task, game or an activity? • Does the child need help as s/he is trying to focus on completing any task/activity?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 2.7 Describes her/his feelings and their causes, e.g., "I am angry because she/he broke my block tower"	- Chants/ songs - Daily schedule displayed - Feeling and expression cards 'I can do' cards - Play in activity areas - Circle time/talk time (Refer to HW 2.9)	- Establishing and using chants/songs to help transition from one activity to another. - Responding to a child's request for any help or support in a timely and prompt manner. - Helping children communicate their needs and wants. - Creating and displaying a daily schedule that balances both quiet and active times that allows children to channelise their physical energy. - Arranging the classroom and dividing it into zones to provide areas for quiet, soothing and calming down activities. Guiding Questions for Assessment - Does the child express her/his feelings during small group play time and circle time? - Does the child react when frustrated or angry? - Does it take the child a long time to settle and calm down after being upset? - Does settling and calming down require your intervention?

The teacher must intervene immediately when a child's behaviour begins to escalate.

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 2.8 Expresses own preferences, interests and makes choices	(Refer to HW 2.1 to HW 2.7)	(Refer to HW 2.6) Guiding Questions for Assessment - Does the child ask questions? - Does the child show preference for any particular play area? - Does the child express interest in particular activities? - Is the child able to make her/his own choices?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 2.9 Suggests solutions to conflicts (with guidance)	• Role play • Talk time • Feeling games • Feeling cards • Storybooks on emotions • Charts with steps like 'calm down', 'talk about solution finding', 'discuss the problem', 'think of positive options', 'conflict resolution' and so on. • Riddle solving • Well zoned-out activity areas in an enabling learning environment	• Reading aloud and discussing such storybooks that show characters regulating behaviour. • Helping children learn simple steps to conflict resolution (these may also be displayed with the help of picture cues). • Modelling what you want to see. Guiding Questions for Assessment • Is the child able to engage in simple social skills like sharing, learning, etc.? • Is the child able to resolve conflicts with adult support?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 2.10 Plays cooperatively with other children and makes plan for what and how they will play	• Toys and play material • Dolls and accessories • Well-equipped dramatics area • Small group play	• Providing activities having different rules that apply to different settings in the interest areas. • Helping children make new friends and learning to get along with others through different group games. Guiding Questions for Assessment • Is the child able to follow designated rules of different areas? • Does the child interact within her/his group and new groups?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 2.11 Shows caring behaviour (hugs, pats) and shares belongings with other children	(Refer to HW 2.1 to 2.10)	- Engaging children in discussions about the difference between feelings and behaviour e.g., telling them “It is great to feel excited when you watch your favourite cartoon, but you should not jump on the chair.” “It is okay to get angry, but you must not hit others because it hurts them.” - Encouraging children to express their feelings in the dolls/dramatics play area. - Modelling appropriate verbalisation of emotions during a day’s routine. - Encouraging children to share their belongings and praising them when they do so. Acknowledge children's emotions during play and daily routine. (Refer to HW 2.6) Guiding Questions for Assessment - Does the child display emotions like happiness/sadness/affection? - Does the child interact with people? - Does the child show understanding of the connection between behaviour and her/his feelings? - Does the child display caring behaviour?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 2.12 Demonstrates sensitivity and acceptability towards children from diverse backgrounds including children with special needs	• Inclusive and stimulating learning environment • Appropriate toys and play materials linked to children's interests and learning goals (Refer to HW 2.1 to 2.11)	• Making positive comments on the contributions of children in activities, tasks, and play. • Encouraging children to identify the feelings of different characters in a story during storytelling. • Providing such activities that promote respect for diversity (culture, special needs, and language). • Discussing and comparing children's preferences (favourite food, colour, storybook) and talking about the importance of everyone's culture and background. (Refer to HW2.6 and HW 2.10) Guiding Questions for Assessment • Does the child show understanding of feelings/emotions? • Is the child able to understand that her/his classmates come from different backgrounds? • Does the child demonstrate respect for others in her/his behaviour? • Is the child sensitive towards children with special needs?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 2.13 Demonstrates hygiene and sanitation practices and healthy eating practices with increased independence	• Role play • Riddles on hygiene and healthy eating habits • Charts on healthy eating habits • Picture cards on health and hygiene • Books related posters at the child's eye level and at appropriate places • Board games on health and hygiene (e.g., games based on Snakes and Ladders)	• Discussing and demonstrating to the children how to clean up one's play space. • Giving reminders with pictures/flash cards and verbal cues (on good hygiene and sanitation practices) on how to appropriately use play materials. • Using signs/ pictures/flash cards/songs (such as songs on cleaning up, washing hands, brushing teeth twice a day, using toilet appropriately, etc) for making children aware of good hygienic practices. • Providing sufficient time for cleaning up play space/ play materials. • Using pictures and print to label storage boxes, open shelves /drawers for easy clean up. Providing a space for children to store their personal belongings. • Labelling sanitation related places/objects with appropriate pictures and cues at the eye level of children. • Modelling appropriate related to healthy eating habits for the children to follow. • Inviting doctors to the classroom to talk to the children on personal hygiene and eating healthy food. Guiding Questions for Assessment • Does the child participate in clean-up routines? • Does the child maintain hygiene? • Does the child handle and look after classroom materials e.g., toys, furniture, storybooks, etc.? • Does the child use markers/crayons on paper or does s/he still draw on walls or on other surfaces? • Does the child follow age-appropriate hygienic practices in daily routine?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 2.14 Demonstrates awareness about good touch and bad touch (with guidance from parents and teachers)	• Related storybooks • Posters at eye level and at relevant places • Discussions during circle time • Appropriate films/videos	• Helping children to learn the correct names of all their body parts, including private body parts. • Making children aware that they are in control of who touches their bodies, e.g., show children videos /films where 'good' and 'bad' touch has been projected (The film should be age-appropriate.) Also display posters of body parts - 'good' and 'bad' touch. • Telling stories to reinforce the concept. Guiding Questions for Assessment • Does the child understand that most touch are 'good touch'? • Is the child able to identify 'bad touch'?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 2.15 Recognises common dangers/ hazards and takes safety precautions	• Related storybooks • A variety of puppets for related story telling/ dramatisation • Safety charts • Discussion during story telling	• Providing opportunities for children to learn how to keep themselves both healthy and safe. Discussing problems, consequences and ways to prevent or respond. • Exploring appropriate personal safety strategies - beginning to realise the importance of road safety, precautions to be taken during play while handling learning tools, etc. • Helping children understand (through puppet shows and discussions) that many substances can be dangerous, knowing the safety rules that apply to taking medicines, handling sharp objects, common hazards, etc. • Narrating a story for children to know what to do or who to seek help from when feeling unsafe. • Helping children to develop simple safety rules and strategies to protect themselves from potentially dangerous situations. (Refer to HW 2.14) Guiding Questions for Assessment • Does the child look after and protect herself/himself in difficult situations, during pretend play? • Is the child able to recognise and safeguard her/his needs and rights? • Does the child demonstrate increasing independence in recognising situations that are safe versus dangerous? • Does the child understand the importance of preventive measures (e.g., seat belts or helmets; internet and phone safety; stranger danger, appropriate versus inappropriate touch)?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 2.16 Demonstrates gross motor coordination and control in play activities involving walking, running, jumping, climbing, etc.	• Materials and play equipment for gross motor skills • Games like hopscotch, chain, etc. • Hoopla rings • Hurdle race • Balloons and Bubbles • Variety of Balls • Climbing equipment • Rope	• Organising for children to participate in active gross motor games such as, ball games, etc. • Making children do different gross motor activities like climbing, jumping, hopping, clapping, running, etc., through the 'Simon Says' game. • Organising other activities for children such as, age- appropriate hurdle race chasing balloons, popping bubbles, etc. Guiding Questions for Assessment • Does the child demonstrate gross motor coordination and control in play activities and on play equipment? • Is the child able to kick and throw a ball? • Is the child able to run, jump, zigzag, and move in ways that require sudden shifts in balance and weight?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 2.17 Explores and participates in music, dance and creative movements	• Music and movement activities • Collection of action songs • DIY musical instruments • Drum • Music equipment/system (Refer to HW 2.16)	• Providing opportunities to children for shaking their hands and legs, twirling around, swinging their arms, tapping their foot, jumping, running and learning some semi-classical movements. • Making children dance freely with actions and expressions on rhymes and songs. • Getting children to do balancing of different parts of the body, rhythmic movements with hand and eye coordination to music. Guiding Questions for Assessment • Does the child show awareness about instructions given for creative body movements such as, twirling around, swinging their arms, tapping their foot, clapping to music, imitating a simple action, etc.? • Is the child able to move her/his body easily? • Does the child enjoy doing sensory perceptual movements and activities with her/his peer group? • Does the child participate readily in music, dance and creative movements?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 2.18 Exhibits fine motor skills and performs tasks that require more complex eye-hand coordination such as cutting out shapes, free-hand drawing, colouring, threading beads, stringing, copying, tearing, pasting, lacing, etc., with moderate levels of precision and control	• Writing and drawing tools like crayons, paints, brushes • Origami sheets, paper for scribbling • Drawing paper • Buttoning frame • Old magazines/ newspapers • Beads, string • Child friendly scissors and glue • Shape cutouts • Flat brushes • TRIPOD activities • Variety of papers • Lacing/weaving board	• Organising for children to express their thoughts, experiences and ideas using a variety of writing tools. • Helping children to strengthen their fine motor muscles through activities like copying, tearing, pasting, lacing, etc. • Providing opportunities for children to use buttoning frames (with small and big holes) during play in activity areas. • Making children tear pieces of papers from old magazines, apply glue using a flat brush and paste these papers in a drawn picture. Guiding Questions for Assessment • Does the child exhibit age-appropriate precision in her/his fine motor skills? • Does the child perform tasks requiring complex eye-hand coordination? • Is the child able to think on her/his own and use her/his own imagination to create individual artwork? • Is the child able to comprehend and express her/his thoughts on paper in the form of drawings, scribbling and paintings?

DEVELOPMENTAL GOAL 2
 CHILDREN BECOME EFFECTIVE COMMUNICATORS (EC)

Early literacy skills

Writing for self-expression

Makes use of her/his knowledge of letters and sounds, invents spellings to write

Makes effort to write in conventional ways

Responds to reading with drawings/ words and meaningful sentences

Writes rhyming words

Writes meaningful sentences using naming words and action words

Writes messages to express herself/himself

Uses mixed language codes

Writes for different purposes in the classroom's activities and at home, such as making lists, writing greetings to grandparents, messages/ invitation to friends, etc.

Key Competencies

Writing with Purpose

A row of six colorful circular icons at the bottom of the slide. From left to right: a pink circle with a white pencil icon, a purple circle with a white globe icon, a light green circle with a white checkmark icon, a dark green circle with a white paper plane icon, an orange circle with a white flag icon, and a purple circle with a white megaphone icon.

Writing with Purpose

FIRST LANGUAGE

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-2.1 Attempts to engage in conversation in school and at home with unfamiliar teachers, new friends, school staff, other adults, etc.	• Picture reading posters (different themes) • Conversation starters • Family album • Photographs of friends and self • Circle time discussions • Small group interaction time • Theme-based conversation	• Displaying and demonstrating a warm, welcoming behaviour towards ALL the children. Greeting the children by their name at arrival and departure time. • Establishing consistent classroom routines and encouraging children to follow these in a flexible manner. • Engaging in conversations with each child throughout the day. Asking simple questions to take the conversations further with the children. • Getting down to children's level (sit on the floor or on a chair) during conversations as often as possible and maintaining eye contact with each of them. • Modelling/using a social story to teach conversational etiquettes of listening and waiting for one's turn to talk e.g., "Jyoti is talking now. When she finishes it is your turn." Guiding Questions for Assessment • Does the child interact with unfamiliar caregivers, teachers and other familiar adults? • Does the child make friends easily and engage in conversation?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-2.2 Observes with interest and talks about available children's literature in the class with friends	• Pictures, storybooks • Picture reading posters • Information books • Children's literature from varied sources in graded form	• Providing age-appropriate children's literature in the reading area. • Providing opportunities for creating DIY books during small group play. • Encouraging parents to share old and appropriate story books with the school. <i>(Refer to ECL1-2.1)</i> Guiding Questions for Assessment • Does the child engage in interaction with her/his friends while exploring books? • Does the child observe the print in the classroom and talk about it?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-2.3 Makes various sounds/words for play- for example using pencil as a train/scooter and makes sounds like an engine/horn	Ideas to use different objects/toys as a symbolic play	- Offering children opportunities for pretend/symbolic play. - Giving children the opportunity to identify sounds in the environment - Making children enact driving different means of transport during free play. - Engaging children in conversation on the 'Means of Transport' that they like. - Making children sing rhymes with actions on traffic lights and different modes of transport. Guiding Question for Assessment - Does the child show enjoyment from pretend play and interrelate it to environmental sensitivity?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-2.4 Sings/recites interesting poems with actions, participates in rhythmic activity	- Action songs/poems - Musical instruments - Rhyming words chart	- Encouraging children to sing aloud and recite clearly with actions and voice modulation. - Asking children to perform different movements using their body parts e.g., clap, twirl, jump, hop, skip etc. to music. - Providing the children words and asking them to pair each word with a rhyming word which makes sense. - Making the children recite or sing as many rhymes and songs to expose them to rhyme and rhythm. Guiding Questions for Assessment - Does the child participate in group music and movement activities? - Does the child recite poems with actions? - Can the child provide rhyming words?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-2.5 Attempts to understand the flow and directionality of the print during the read aloud sessions	• Panchtantra tales • Storybooks • Well-equipped reading area • Print-rich classroom • Old appropriate magazines • Food wrappers	• Allowing children to pretend read and guiding accordingly. • Keeping the reading area well equipped with a variety of children's literature (age and developmentally appropriate) where children have easy access to books that help in enhancing print awareness. • Letting children watch how print works by moving the finger beneath the print from left to right. • Exposing the children to a wide range of reading material e.g., food wrappers, old magazines, etc. Guiding Questions for Assessment • Does the child read from left to right and top to bottom? • Does the child like to read the same book over and over again? • Does the child participate in print awareness activities? • Does the child try to read food wrappers?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-2.6 a Recognises, labels, etc., for example sign/symbol of ambulance	• Age-appropriate books • Duly labelled activity areas • Signs/symbols displayed with pictures at appropriate places	• Providing a print-rich environment and various age-appropriate books. • Encouraging children to read and create their own storybooks. • Keeping books at children's level for easy access. (Refer to ECL1-2.5) Guiding Questions for Assessment • Does the child show interest in reading signs and symbols? • Does the child point out the labels in the classroom?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-2.6 b Identifies own name in writing	• Books, magazines etc. • Name cards • Letter stencil • Name puzzles (of self and friends)	• Motivating children to find letters of the alphabet in their names, in objects and materials. • Providing books and print material to enhance the identification of the letters of the alphabet. • Emphasising beginning sounds of words. Guiding Questions for Assessment • Is the child able to use knowledge of letters and sounds to identify her/his own name? • Does the child enjoy playing name games? • Can the child fix her/his name puzzle? • Is the child able to join the letters and create her/his own name?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-2.7 Identifies a particular sound in different words-for example 'n' sound in name, nail, net	• Sound cards • Sound wall • Flash cards • Picture cards • Sound discrimination games • Sound stories	• Making children decode words with regular reading practice. • Encouraging children to read aloud to help them associate individual sounds with printed letters. Guiding Questions for Assessment • Does the child remember the early sound in a word by the time s/he figures out the latter sound? • Does the child identify the initial sound in her/his name?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-2.8 Listens and identifies repeatedly occurring events in familiar stories, poems, etc.	• <i>Panchtantra</i> tales • Appropriate storybooks • Poems and rhymes • Story cards • Read aloud sessions	• Engaging children in conversations about storybooks to enhance understanding of the words in the stories and the stories themselves. • Providing opportunities for active learning through experiences that build language and vocabulary and thus enhance comprehension. • Supporting comprehension of storybooks that are read aloud through visual representations e.g., props, illustrations in big books, acting out episodes or scenes from the story, etc. Guiding Questions for Assessment • Does the child talk about other similar stories/poems? • Does the child ask and answer questions related to familiar poems and stories?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-2.9 Expresses by drawing symbolic pictures, paying attention to figures, colours, sizes, etc. and talks about it	• Drawing files • Colouring books • Crayons • Water colours • Coloured pencils • Variety of papers	• Communicating verbally with children to analyse their drawings. • Exposing children to colouring tools like drawing and colouring books, crayons or water colours. Guiding Questions for Assessment • Is the child able to represent through symbols? • Is the child able to express her/his feelings through drawings? • Is the child able to talk about the symbolic pictures or drawings?

SECOND LANGUAGE

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-2.1 Attends/ participates/ listens to others during conversation	• Adult-child interaction • Child-child interaction • Interaction with materials and the environment • Circle time discussions • Listening games • Show and tell activity	• Providing meaningful, simple jobs that allow each child to participate in the classroom. • Providing adequate time, space and materials to children to work together in small and large groups. • Providing simple, short poems/songs and activities to engage children during circle time. • Displaying children's work and names in the classroom. • Engaging children in real conversations. • Making groups of two to three children of similar proficiency levels to facilitate instructional conversations. • Making groups of ECL2 children with ECL2 native speakers so that they can hear ECL2 spoken regularly. Guiding Question for Assessment • Does the child participate in games e.g., social, cooperative, rule-based, with turn taking?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-2.2 Sings short poems and rhymes	• Music and movement activities • Musical instruments • Books • Collection of poems/rhymes • Charts of small poems displayed	• Selecting words that include sounds that are common to both languages and separates similar sounds. • Asking children to repeat words before attempting a task. • Including such poems and rhymes that focus on pairing movement and action with rhythmic passages. (Use choral responses.) Guiding Questions for Assessment • Does the child who is learning ECL2 vocalise speech sounds and sound patterns of the second language? • Does the child experiment using second language speech sounds and words?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-2.3 Listens to the picture stories with bilingual text	- Read aloud sessions - Bilingual storybooks - Story flash cards - Flannel board with cut-outs of familiar stories	- Modelling/using a social story to teach conversational etiquette of listening and waiting for one's turn to talk e.g., "Jyoti is talking now let her finish. Your turn is next". - Restating important information by using synonyms and visual cues. - Using the child's home language as base to support the development of listening skills in ECL2. - Providing simple, easy to understand instructions in the child's home language followed by ECL2. Guiding Questions for Assessment - Does the child express her/his thoughts clearly in her/his home language? - Is s/he able to understand synonyms while listening to a story?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-2.4 Takes interest in bilingual books and talks about them bilingually	Bilingual books (Refer to ECL2-2.3)	- Reading to children a variety of concept-related books e.g., birds/animals, vegetables/fruits, transportation, etc. - Providing toys, play materials and opportunities that elicit the use of descriptive language like role playing/dramatisation of a restaurant, market, doctor-patient, etc. - Joining the play and modelling the use of descriptive words in the play scenarios like, "The clay is soft and smooth, look at the colour of the clay, it is brown..." Guiding Questions for Assessment - Does the child use expressions while talking about her/his favourite bilingual books? - Does the child take interest in bilingual text? - Is the child able to use vocabulary of the second language during conversation?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-2.5 Identifies few letters and sounds	• Reading areas • Letter-puzzles • Alphabet chart • Alphabet stencils • Clay moulding (letters) • Letter-sound chart • Language games (sound discrimination) • Print-rich classroom	• Speaking clearly and at an appropriate pace (neither too fast nor too slow). • Encouraging children to use the language when making requests, expanding upon their language or gestures with appropriate language e.g., "Do you want the yellow colour? Here's the yellow colour." • Using songs, chants, and finger play to enhance speech and language. • Using multi-sensory approaches for teaching the sounds of the letters of the alphabet. Guiding Questions for Assessment • Is the child able to identify the sounds and letters related to the language? • Does the child match the particular sound with the appropriate letter?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-2.6 Recognises labelled objects, names, etc.	• Labelled shelves • Labelled toy boxes • Print-rich classroom • Labelling in the activity areas • Name cards • Name puzzles	• Labelling materials such as, containers and different areas of the classroom to indicate where the materials belong. • Using visual representations along with the words on the labels so that the children can read them easily. Guiding Questions for Assessment • Does the child identify the containers by looking at the labels pasted on them? • Does the child understand the symbols along with the words?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-2.7 Picks picture books, talks about posters	- Picture Books - Charts - Picture reading posters (on different themes)	- Providing daily opportunities for children to independently pick books, posters and other text and try to read and explore them. - Providing plenty of daily opportunities for children to talk to other children and adults in the classroom. - Offering children opportunities to visit the reading area and explore a variety of books. - Displaying relevant picture reading posters on different topics at the eye level of children. (Refer to EL2-2.3, ECL2-2.4 & ECL2-2.8) Guiding Question for Assessment - Does the child pick picture books and posters?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-2.8 Flips over pages of storybooks and attempts to read on his/her own	- Age-appropriate storybooks - Children's magazines/ books	- Engaging in conversations with children during storybook reading. (Focus some of the conversation on new vocabulary in the story.) - Supporting children in expanding their responses and adding details while engaged in group activities, such as, 'Read aloud' and 'Show and tell' time. Guiding Questions for Assessment - Does the child participate in group activities like reading, 'Show and Tell', etc.? - Does the child demonstrate independence in reading?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-2.9 Shares toys with friends and pretend plays	- Well-equipped toy area - Age and developmentally appropriate toys	- Encouraging children to engage in pretend play with their friends. Guiding Questions for Assessment - Does the child share/relate/interact with others during play? - Does the child share toys with friends during pretend play?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-2.10 Identifies a few rhyming words	- Rhyming word chart - Rhyming word cards with/without words - Rhymes having rhyming words	- Offering children opportunities to identify rhyming words during circle time, small and large group time, interest area time, storybook reading and outdoor play time, etc. - Singing simple poems having rhyming words with pause and actions/ gestures. - Encouraging children to match and identify familiar pictures that rhyme with each other. - Providing the children with rhyming word cards to match. Guiding Questions for Assessment - Does the child engage in group discussions? - Does the child enjoy singing with her/his peer group? - Does the child participate in rhyming activities? - Is the child able to match the rhyming words cards? - Is the child able to identify rhyming words in poems?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-2.11 Draws pictures depicting some event/situation / feelings for friends, parents, sibling, etc.	- Variety of papers - Drawing files - Drawing and colouring tools	- Helping children to use their imagination to draw events/situations (do not judge children's drawings). - Making children draw faces to express their feelings. - Providing opportunities for children to make a scrapbook to record their expressions and feelings for their friends and family. Guiding Questions for Assessment - Does the child draw pictures to express her/his feelings? - Is the child able to depict through drawings, events/situations, and explain or describe them?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-2.12 Observes and talks about the posters and other print in the classroom	- Picture reading posters (on different topics) - Food wrappers - Toy boxes wrappers - Reading area	- Encouraging children to observe pictures, posters and other text in the classroom and talk about it. - Keeping magazines, old newspapers, wrappers of food items and toy boxes in the reading area to create interest in print and talk about it. (Refer to ECL2-2.6 & ECL2-2.7) Guiding Questions for Assessment - Does the child participate in verbal communication about posters/prints? - Does the child point out print/text in the classroom and ask questions?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-2.13 Enjoys watching favourite cartoons/films	Age and developmentally appropriate videos and films	- Showing children appropriate films/videos under adult supervision. - Encouraging children to talk about the film and express their feelings about it. Guiding Question for Assessment - Does the child watch cartoons/movies attentively?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-2.14 Sings short songs/ rhymes about birds/ trees animals, etc.	Collection of poems/rhymes on different concepts/topics	(Refer to ECL2-2.2)
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-2.15 Express her/his thoughts through drawings	(Refer to ECL2-2.11 & ECL1-2.9)	(Refer to ECL-2.11)

DEVELOPMENTAL GOAL 3

CHILDREN BECOME INVOLVED LEARNERS AND CONNECT WITH THEIR IMMEDIATE ENVIRONMENT (IL)

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 2.1 Uses five senses to observe and explore the environment	• Mystery feely bag, smelly bag • Sandpaper • Sponge • Leaves • Sound boxes • Textures -Fabric pieces • Environmental material e.g. pebbles, twigs, petals, feathers, shells, leaves, etc. • Magnifying glass • Microscope • Weighing scale • Shampoo/lotion, candles • Visit to a nearby - park - garden - zoo, etc.	• Giving the children the opportunity to explore their surroundings by observing different things around them. • Letting the children listen to different sounds that can be heard by sitting quietly. • Making the children touch and feel different textures like wool, cotton, leather, leaves, etc. (Children can compare things by feeling, seeing, smelling, hearing, and tasting them.) • Organising for the children explore things using scientific tools e.g., a magnifying glass, a microscope, a weighing scale, etc. • Preparing 6-8 smelly bags and letting the learners smell them and match those that are the same. • Playing sounds for the children and having them guess what sound it is. Pictures can be provided to ensure proper association. • Showing suitable pictures to the children and asking them questions like, "What will you see, hear, taste, feel and smell, if you were there in the picture?" Guiding Questions for Assessment • Does the child collect different things from her/his surroundings like, different types of leaves, twigs, pebbles, shells, etc. and compare them according to their shape, colour, and size? • Is the child able to describe a given picture of an indoor/outdoor scene? • Is the child able to feel the objects in the feely mystery feely bag and describe them? • Is the child able to identify different sounds from the given containers that have objects in them that rattle, clink, and make loud/ soft noises such as, sound made by coins, pebbles, cotton balls, bells, baby rattles, bits of paper, bubble wrap, etc.? • Is the child able to identify different things like shampoos, lotions, candles, etc. by smell?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 2.2 Describes common objects, sounds, people, pictures, animals, birds, events, etc.	• Picture cards • Real objects - fruits, vegetables • Toys • 6-8 piece puzzle cards • Picture dominoes • Picture – letter dominoes • Game – Show and tell	• Providing children opportunities to discover their surroundings by explaining about the animals and birds around them. • Encouraging children to observe different colours, shapes, textures, sizes, etc. of different things, comparing similarities and differences and explaining their observations in detail. • Playing mixed sounds of different things such as birds, transport, animals, clapping, sneezing, etc. and asking the children to identify/recognise them. Guiding Questions for Assessment • Does the child differentiate pictures, and arrange them in designated groups? • Is the child able to describe an object, person, picture, animal in 5-6 sentences? • Does the child arrange puzzles of different kinds appropriately? • Is the child able to draw from her/his imagination, objects around her/him?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 2.3a Remembers and recalls 3–4 objects seen at a time	- Memory tray with common objects - Feely bag - Storytelling (recalling 3-4 objects/people from the picture book)	- Providing the children opportunities for directly experiencing and interacting with objects, thinking, concentrating and focussing on recalling names of the objects seen. - Showing a tray (memory) having some common objects like, an eraser, a pencil, a scale, a chalk, a crayon, a pen, a brush, a comb, etc. for a few seconds and then covering it. Asking children to recall the items seen. Guiding Questions for Assessment - Is the child able to recall the names of the objects from the memory tray seen at a time (3-4 objects)? - Is the child able to recall 3-4 pictures/objects from the picture reading poster?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 2.3b Identifies 3-5 missing parts of a picture of a familiar object	- Pictures with one part missing - Picture puzzles	- Providing opportunities for the children to identify the missing parts of a picture, complete a picture or a picture puzzle of familiar objects. Guiding Questions for Assessment - Can the child identify and complete a given picture puzzle? - Does she/he take too much time or does she/he do it easily?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 2.4 Places 4–5 objects of two groups in one-to-one correspondence	• Pom-poms • Number cards • A dice • Picture cards • Popsicle sticks • Egg tray • Letters or numbers with corresponding sounds or objects	• Making the children match counted objects with the corresponding number card. • Asking the children to throw a dice and count the same number of pom-poms. • Showing a number card and asking the children to count corresponding number of popsicle sticks. Guiding Question for Assessment • Is the child able to touch count the objects in one-to-one correspondence (1 to 5 objects)?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 2.5 Compares and classifies objects by two factors like shape and colour, size and shape, etc. Describes objects using size words like big/small, tall/short	• Blocks • Balls • Pom-poms (different sizes and colours) • Buttons • Objects from immediate surroundings like leaves, flowers, pebbles, twigs, seeds, etc.	• Giving the children toys to sort/divide into two groups like big and small. • Organising for the children to make towers with blocks and use pre-number terms such as tall and short. • Making the children segregate pom-poms in different bowls according to their colours and shapes. Guiding Questions for Assessment • Does the child see similarities and differences between objects? • Does the child group different objects with one or more attributes? • Is the child able to sort objects according to their shape, size and colour? • Is the child able to describe objects using terms like- big/small, tall/short/long, etc.?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 2.6 Seriates / arranges 3–4 objects/ picture cards in a sequence for example- shape, size, occurrence of events	- Measuring cups - Spoons - Blocks - Leaves - Twigs - Bathing sequence cards - Germination of seed cycle cards etc.	- Providing opportunities for the children to stack blocks in a sequence, like-red, blue, green; red, blue, green and so on. - Making the children arrange objects from the smallest to the biggest, biggest to the smallest, shortest to the tallest or thinnest to the thickest. - Giving opportunities to the children to observe and explain the sequence of daily routines, or even occurrence of events in nature. - Asking the children to count forward verbally. Guiding Questions for Assessment - Does the child arrange picture cards in a sequence? - Does the child organise blocks in order e.g., from the smallest to the biggest and so on? - Does the child narrate a story in a sequence?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 2.7 Narrates random events of her/his daily life in her/his own words	- Picture reading posters (on different themes) - Circle time (discussion) - Show and tell game - Daily routine depiction cards (in sequence)	- Providing opportunities for the children to talk on different events/topics during circle time and free conversation time. - Motivating the children to talk about their daily routine from getting up in the morning to the time they go to sleep. - Encouraging children to picture read posters and describe them in their own words. Guiding Questions for Assessment - Is the child able to recall and narrate events in her/his own words? - Is the child able to picture read posters on different themes?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 2.8a Provides solutions to simple problems / situations	• Storytelling • Well-equipped dramatics play area • Mazes (developmentally appropriate) • Jigsaw puzzles • Open- ended questions	• Providing opportunities for children to use skills they have learned previously. • Narrating a story to the children (ask the children to add the climax). • Reading aloud a story to the children and asking them to enact a problematic situation. • Asking the children to identify a simple problem and come up with solutions. • Encouraging the children to think 'out of the box'. • Posing open-ended questions to the children based on a story read. Guiding Questions for Assessment • Does the child identify problems or challenges by asking, "What could be the issue here"? or "What could be done to solve this?" • Is the child able to use skills of critical and creative thinking when s/he is solving simple problems or situations?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 2.8b Expresses curiosity about the immediate surroundings and asks questions (develops related concepts)	• Creating DIY using environmental materials • Well-equipped discovery area • Nature walk • Conversations during circle time • Open-ended questions and materials	• Helping children to be keen observers and explorers in their immediate surroundings. • Engaging children in real conversations. • Organising unstructured and structured play. Guiding Question for Assessment • Is the child exploring her/his immediate environment through simple observations/ manipulations, or asking questions?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 2.8c Demonstrates awareness and sensitivity towards environmental concerns (example - watering plants, not plucking flowers, or do not hurting animals)	• Nature walk • Potted plants for watering • Watering cans • Child-friendly tools for cleaning • Water play • Sand play (Refer to IL 2.8b)	• Sensitising children towards nature e.g., stray animals, plants. • Making them aware about keeping the environment around them clean and green. Guiding Question for Assessment • Is the child sensitive towards plants and animals in her/his surroundings?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 2.9 Counts and perceives objects up to five	• Objects for counting such as: - Beads - Blocks - Colourful buttons - Toys - Miniatures • Number cards • Egg cartons • Rhymes/songs on numbers	• Providing a variety of objects that can be used for counting. • Questioning the child's understanding of quantity, e.g., asking, "How many do you have?" • Using a puppet to model correct counting of individual objects. • Modelling one-to-one counting of objects during finger plays and songs. • Providing tools to help the child organise number sets such as egg cartons cut to hold a specific number of eggs e.g., a 4-apple carton holding 4 clay /plastic apples. • Providing opportunities for children to model counting songs throughout the day. Guiding Questions for Assessment • Does the child attempt to count items? • Does the child touch each object while counting? • Does the child call out digits as s/he counts each object?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 2.10 Can count forward and backward from a particular number up to 5	Backward counting rhymes and games (Refer to IL 2.9)	- Providing objects for the children to count forward and backward. - Making the children jump forward and backward on the count. Guiding Questions for Assessment - Does the child attempt to count items? - Can the child count forward and backward up to 5?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 2.11 Identifies numerals with corresponding numbers up to 5	- Number-based stories and rhymes with number cut outs - Number-object dominoe cards - Number calendar - Calendar cut-outs - Numerals	- Encouraging the children to count and state the last number. - Telling the children number-based stories and rhymes to reinforce number recognition. - Exposing the children to a number calendar to identify numbers. Guiding Questions for Assessment - Can the child count items in a row? - Does the child arrange and play with number-object dominoes? - Can the child read numbers on a calendar? - Can the child recite number rhymes?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 2.12 Develops a sense of presence/ absence of objects (for example, one sweet was on a plate if eaten nothing is left)	- Relevant worksheets - Concrete subtraction and zero games	- Playing games with children like - 'Hide and seek', 'Scavenger hunt', 'Peek-a-boo', etc. Guiding Question for Assessment - Does the child know that objects continue to exist even though they cannot see or hear them?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 2.13 Compares two numbers up to 5 and uses vocabulary like more than, less than	- Modelling numerate behaviour by adults - Objects for comparison	- Providing opportunities for children to observe the quantity of objects divided into two groups. - Encouraging children to “act out” the number comparison. - Prompting them to use terminology like “more than” and “less than” (add these words to the sight word list for children). Guiding Questions for Assessment - Does the child recognise a number and its value? - Does the child use the terms ‘more’ and ‘less’ in her/his conversation?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 2.14 Combines two groups up to 5 objects and recounts	Two sets of objects for counting and comparison (Refer to IL 2.13)	(Refer to IL 2.13) Guiding Questions for Assessment - Does the child recognise a number and its value? - Does the child use the terms “more” and “less” in her/his conversation?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 2.15 Takes out objects from a collection up to 5 objects and recounts	(Refer to IL 2.9 to 2.14)	(Refer to IL 2.9 to 2.14)

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 2.20 Identifies Indian currency coins	- Well-equipped math/manipulative area with play money - Dramatics area with play money	- Opportunities to visit and play in math and dramatics area and explore play money. Guiding Questions for Assessment - Does the child identify Indian coins/notes? - Does the child talk about Indian coins/notes?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 2.21 Compares two objects in terms of their lengths as longer than/ shorter than, taller than/ shorter than	(Refer to IL 2.13 to 2.15)	Guiding Questions for Assessment - Does the child use comparative mathematical vocabulary? - Does the child arrange objects in order of their length? (Refer to IL 2.13 to 2.15)
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 2.22 Uses vocabulary to express weight through poems, riddles, jokes, and stories	- Circle time/talking time and discussions - Collection of related poems/songs/riddles - Modelling numerate behaviour by adults - Number stories	- Modelling numerate behaviour. - Singing action number/songs, music and movement activities with children to help them explore spatial sense and weight related vocabulary. - Storytelling based on weight. - Opportunities to play with different objects and using mathematical vocabulary. Guiding Question for Assessment - Is the child able to use simple weight related vocabulary?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 2.23 Uses vocabulary to express capacities through poems, riddles, jokes and stories	• Circle time • Stories on pre-number concept • Poems • Riddles • Word wall • Weighing balance • Weighing machine	• Providing various sand play and water play equipment and observing children using mathematical vocabulary. • Creating a kitchen area or market area and encourage children to play. Guiding Questions for Assessment • Is the child able to participate in the stories, poem, riddles, jokes and discussions? • Does the child respond to riddles and provide answer?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 2.25 Describe the physical features of various solids/shapes in her own language. For example- a ball rolls and has no corners, a box slides and has corners, etc.	• Shape manipulatives • Blocks of various sizes	• Providing rhymes/songs on shapes. • Providing variety of solid shapes and asking children to talk about them sing songs, etc. • Identifying and naming the solid shapes • Using the various solid shapes to create structures. Guiding Questions for Assessment • Does the child talk about solid shapes? • Does the child explain the shapes in her/his own words? • Does the child create structure using the various solid shapes?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 2.27 Identifies the unit of repeating a simple pattern and extends the pattern	• Pattern cards • Pattern songs • Sequence stories • Sequence cards	• Encouraging the children to follow a given pattern or design. • Encouraging children to observe a common pattern in their immediate surroundings and talk about it. • Providing play opportunities to explore simple patterns using concrete objects. Guiding Question for Assessment • Is the child able to repeat and extend a pattern?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 2.28 Collects objects from her/ his surroundings based on simple instructions for example: bring 2 spoons, etc.	• Common objects for play • Visit to a nearby garden/park to collect objects • Basket to collect objects	• Encouraging children to listen to and follow the simple instructions. Guiding Questions for Assessment • Can the child follow one to two instructions? • Does the child need a reminder instruction? • Does the child follow and understand the numeral called out in the instructions?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 2.29 Identifies special days like Saturday, Sunday, holidays, etc. for example: Sunday is a holiday	• Number calendar • Week cards • Rhymes on weekdays • Rhymes on holidays/ festivals • Display of daily routine	• Announcing each morning what you are doing and what day it is. • Singing songs for each day of the week. • Using a calendar and understanding the functions of calendar. • Creating a calendar with children. • Using the vocabulary, 'yesterday, today, tomorrow'. • Talking about weekdays and weekend days. Guiding Questions for Assessment • Does the child use the vocabulary 'yesterday, today, tomorrow'? • Does the child respond to questions related to calendar time during the circle time discussion?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 2.30 Demonstrates awareness about technology like T.V., mobile phones Note: - It is practically impossible to ignore the new technology in the present scenario. However, teachers need to find new, interesting and child-friendly ways to introduce technology so that it does not harm the children or create stress for them. Rather, they should be able to enjoy and discover the advantages in a fun and meaningful manner. - A designated 'tech area' must be created and rules for usage must be set. All technology interventions that must be age and developmentally appropriate.	- Technology area equipped with child-friendly play equipment like camera, walkie-talkie, mic, toy, telephones, old cell phones, computer - Labelled boxes of tech-educational games	- Guiding children to discover the advantages of using and exploring computers in a developmentally appropriate manner. - Making use of interactive websites and educational software that offer games/activities like memory, sorting, cognitive and language activities. - Displaying a calendar with each child's name written along with pictures and indicating the days when each child can play on the computer. - Helping children understand taking turns since only one/two children can play in the computer area at the same time (use a timer). - Writing the names of educational software games, websites on a board and sharing these with parents and families. - Choosing games that can be enjoyed by all the children in the group. - Encouraging children to click pictures using an old digital camera. - Introducing themes/topics using websites as a starting point to draw children's attention, using some animated characters, etc. - Using web for searching pictures and activities related to the theme. Guiding Questions for Assessment - Does the child have any technology related vocabulary? - Does the child wait for her/his turn? - Does the child show her/his interest in any specific game?

EVS as a separate subject starts in Class III while in Classes I and II, it is integrated in Languages and Mathematics. However, elements of EVS are integrated in all activities and experiences from Preschool 1.

POINTS TO CONSIDER

- ✓ The codified numbers of learning outcomes should not be treated as hierarchical or stand-alone. In each class, across the foundational stage, the experiences and activities may be provided in an integrated manner, simultaneously across the learning outcomes and developmental goals.
- ✓ Activities/experiences designed and targeted for a particular Learning Outcome, for a particular class, will also address a number of other Learning Outcomes, within and across the three developmental goals (domains subsumed).
- ✓ The children must be observed in different settings/locations (e.g., how does she/he interact individually/in small group/large group, etc.).
- ✓ Assessment should not be based on only one or two Learning Outcomes, rather, it should be viewed holistically.
- ✓ Children's learning needs to be assessed in a progressive manner (the term wise progress of the child in each domain should be in a positive direction).

Preschool - III

&
Learning Outcomes
with
Ideas for Pedagogical
Practises and
Assessment*

*Early Learning
is most meaningful when it is integrated across the
Three Developmental Goals*

DEVELOPMENTAL GOAL 1

CHILDREN MAINTAIN GOOD HEALTH AND WELL-BEING (HW)

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 3.1 Describes self and others in terms of physical characteristics, gender, interests, likes, dislikes	• Dolls and house-keeping materials • Child's photographs (from birth till date) • Child size mirror • Big flat paint brushes to draw self-portrait • Child-friendly easel • Name cards with and without pictures/ logos/ photos, big books, lapbooks • Glove puppet (male and female) • Body part puzzle • Body puppet • Storybooks on feelings	• Providing opportunities for free talk during circle time and throughout the day's routine. • Planning activities with name cards/name tags. • Organising free play in interest areas where children get ample time to interact in small groups. • Getting children to make DIY friendship bands and friendship cards. • Making children complete and fix puzzles of 10-12 pieces of body parts (face puzzle, full body puzzle with and without knobs). • Providing opportunities to create and talk about "My favourite book of animals/birds/ toys/flowers/ fruits/vegetables", and so on. • Creating opportunities to make and talk about "I can do" cards. • Helping children create a self-album, "All about Me" and talking about it in the whole group (This can be a daily activity where one child can talk about her/his album and if possible, the child's album can be displayed on the 'Smart Board' integrating appropriate and active use of technology wherever feasible). • Appreciating each child's efforts and accepting individual differences in children. • Encouraging children to talk about their likes and dislikes related to objects, stories, animals, behaviour, etc. Guiding Questions for Assessment • Can the child express herself/himself in a few sentences? • Does s/he express her/his likes and dislikes? • Does the child have any speech defect, fear/ threat or emotional problems? • Does the child display overall body coordination?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 3.2 Exhibits understanding of relationship of Preschool with extended family members	• Films, Film strips • Songs, Rhymes, Games • Nature walk • Visitors like parents/family members • Supporting staff • Availability of caring and supportive adults in the form of teachers, helpers, support staff and other caregivers • Name cards (with bold print and pictures) for teachers and support staff especially for the initial three months to help children identify the staff	• Creating a supportive climate where children feel free to express themselves. • Providing opportunities for the children to: - view films, film strips and other media - work in small groups - sing songs/ create rhymes - play games about specific topics - draw/scribble on a large piece of paper - appreciate wonders of nature e.g., budding flowers, growing seedlings, various coloured leaves, etc. • Making the children explore both the indoor and outdoor environment without being fearful. • Encouraging children to accept, welcome and interact with visitors in the classroom. • Conducting activities which give children a sense of success and achievement. • Praising each child's efforts and ensuring a positive attitude towards children. • Organising individual activities such as use of self-help skills. • Getting children to follow classroom routines, e.g., putting away used material before starting another activity. <i>Refer to pedagogical practices suggested under HW 3.1</i> Guiding Questions for Assessment • Does the child respond and interact with familiar adults? • Does the child follow classroom routines?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 3.3 Demonstrates independence in activities	- Age and developmentally appropriate toys and play materials (jigsaw puzzles, inset-boards, BINGO games, matching-identification and naming activities) - Small/ large group and individual activities	- Providing opportunities for the children to play and explore toys and materials in activity areas on their own (choice time). - Encouraging children to keep the play materials back in the storage space (shelves and boxes) after they finish playing with them, to inculcate the habit of keeping things in their place. - Talking about their preferences, likes and dislikes. - Organising small group activities where children sit, share and work with others or are given independent tasks to complete; joining activities with other children. - Conducting activities where children make attempts to solve their simple day to day problems independently and seek adult assistance if they need (e.g., Ma'am please zip my coat, I lost my hair clip, please take me to the washroom). Guiding Questions for Assessment - Does the child independently invent new ways to use blocks/ toys collections of items or other material? - Is the child able to join or fix pieces by herself/himself without assistance, in order to complete a puzzle? - Is the child able to sort objects or toys independently? - Does the child show her/his preference during choice time? - Does the child complete her/his task/activity independently in a given time?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 3.4 Follows instructions and simple rules at the same time	• Command cards • Toys that can be explored in small /large groups and individually • Display of daily routine at eye level (with and without pictures to support the print) • Job responsibility chart depicting each child's responsibility for that week • Display of simple classroom rules along with pictures at the eye level of children • Low shelves duly labelled along with pictures to help children keep back the materials	• Providing opportunities and ideas to the children for: - Storytelling and reading aloud. - 'Simon Says', game (adapt it to the Indian context and replace 'Simon' with a child's name). - Developmentally appropriate circle/ group games that involve simple rules (both indoor and outdoor). • Using simple two-three instructions (by an adult) and asking a child to listen carefully and follow the instructions e.g., "Go and bring me the biggest red ball"....etc.. • Organising activities where children are encouraged to take turns/ share. • Encouraging children to follow simple rules and routine and telling them why they need to do so. • Planning transitional activities where they follow and change from one task/ activity to another (e.g., "Put your toys back on the shelf and come for story-telling). <i>Also refer to pedagogical processes suggested under HW 3.1</i> Guiding Questions for Assessment • Can the child follow simple instructions and rules? • Can the child follow more than one instruction at a time? • Does the child often ask for the instructions to be repeated? • Does the child listen to and answer appropriate open-ended questions? • Is the child transiting from one activity to another smoothly?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 3.5 Shows adaptability to any changes in the routine/daily schedule	• Job-responsibility chart • Daily routine chart displayed at the entrance of the classroom (depending upon the setup of the school) • Puppets as props • Variety of greet time activities/ energisers • Daily attendance chart for self-signature	• Making children sign in on a daily attendance sheet/chart. • Using name cards for play activities. • Reading out the daily routine chart (displayed at the eye level of children) with or without pictures/logos. • Organising for children to move smoothly and quickly to another play area once they have finished a task/play activity in one area. • Reading out the job-responsibility chart to the children for them to follow. • Asking children questions like, "What are you doing now? What will you do next after you finish colouring?" – the expected responses would be: "Once I finish this colouring, we will all go outdoors", "After listening to the story, we will sing a song and then go home" and so on (This will also help in their assessment). • Organising for children to do activities individually and fulfilled in a group. • Providing opportunities for engaging in free and theme-based conversations. • Helping children to make friends (some children with disabilities may need extra help in developing friendships). • Developing classroom strategies that support friendships. • Tell them stories related to sharing with others, caring for others, etc. • Encouraging children to greet in different Indian languages everyday in the morning. (e.g. – 'Sat Shri Aka!' (Punjabi), 'Vanakkam' (Tamil), 'Kumno' (Khasi), 'Namaskar' (Oriya) and so on. Guiding Questions for Assessment • Can the child read the routine chart with the help of pictures/logos/ clues • Is the child able to follow the routine and adapt to changes in the routine? • Does the child respond favourably to daily routines, schedules of the school especially the FLN activities?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 3.6 Focusses attention to complete tasks/topics assigned by others	• Play in indoor areas • Outdoor play equipment • Variety of Dominoes • Music and Rhymes • Puzzles and mazes • Worksheets • Construction blocks (Refer to HW 3.3 to HW 3.5)	• Making the children listen to music and rhymes. • Organising for the children to complete puzzles and mazes (Observe whether the child is attentive and focussed). • Providing opportunities for children to create a DIY and completing it with the support of peers and an adult. • Providing situations for children to answer open ended questions and give alternate solutions. • Ensuring children complete a worksheet after exploring concrete play with manipulatives. • Providing opportunities for the children to complete a construction with blocks or any other objects or create a collage. • Encouraging children to keep the toys and other play materials/ papers back to the designated and labelled storage space after the play/activity is over. Guiding Questions for Assessment • Does the child display focus and attention while doing a task, e.g.: – Can the child join or fix a few pieces in order to complete a puzzle? – Can the child sort the given objects or toys? – Is the child able to complete an assignment or task in a given time?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 3.7 Expresses emotions through verbal and non-verbal modes (gestures, drawings)	• Feeling or smiley cards • Picture reading posters • Variety of papers with writing and art tools • Name cards with logos • Puppets • Value/moral based stories and rhymes • Theme based conversation, Theme board on “Me and My family” • Mirror games and activities • “Show and Tell” activities • Nature walk	• Creating smiley/feeling cards and talking about each emotion. • Reading aloud using big books and lapbooks. • Providing opportunities for dramatisation of familiar stories. Also providing children with a variety of experiences which will form the basis for their creativity to blossom. • Retelling stories and using puppets as props. • Providing for free conversation and talking time for expressing emotions. • Using of dictated drawings. <i>Also refer to pedagogical processes suggested under HW 3.1.</i> Guiding Questions for Assessment • Does the child react to play materials? • Is the child able to handle minor conflicts during play? • Does the child express and display emotions verbally? • Does the child express her/his emotions through body language (movement and posture) or drawings? • Is the child upset /calm when emotional?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 3.8 Takes responsibility and makes choices based on own preferences and interests	- Job responsibility charts/cards and weekly leadership cards - Expression cards e.g., "I like..." and "I do not like..." - Puppets and props for play and expression - Relevant rhyme collection - Choice time-interest areas, water play area (wet area), sand play, etc.	- Making children conscious of their job/responsibility through charts and cards. - Providing opportunities for the children to enjoy free play time in the interest areas of their choice, exploring toys and play materials. - Making the children express through drawings/mask making, dramatisation, creating/constructing or through statements e.g., "I like..."; "I can" and so on. - Encouraging children to take on leadership roles. Guiding Questions for Assessment - Does the child use full sentences to express her/his preference? - Does the child select the play areas based on her/his own interest? - Does a child spend time in all the interest areas? - Does the child take responsibility? - Does the child display leadership qualities?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 3.9 Suggests solutions to conflicts and makes age-appropriate adjustments	- Puzzles with 8 -10 pieces or more depending upon the child's fixing skills - Maze with variety (worksheets and floor mazes) - Open-ended questions - Unifix blocks for creation - Pattern making cards/worksheets - Stories based on problem solving, inculcating values 'unity in strength' and so on	- Providing for small group play activities in well-equipped activity/interest areas. - Giving children experiences for fixing a variety of puzzles and completing a maze. - Asking children to create a DIY and complete it with the support of peers and adults. - Asking children open-ended questions, letting them answer and give alternate solutions. - Giving a climax to children in an incomplete story and encouraging them to give it an end with a new twist. <i>Also refer to pedagogical processes suggested under HW 3.11</i> Guiding Questions for Assessment - Does the child apply problem solving skills? - Is the child able to give response to questions like "How did you do it?"

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 3.10 Demonstrates willingness to include other's ideas during interaction and play	• Such toys and games that require others' support and help or that can be played with a partner or in a group • Materials to create a collage story making in a group • Story cards (making and creating DIY toys, stories etc.)	• Making and creating stories with the children. • Playing sentence completion games like, "I went to the market, bought apples and". • Encouraging children to ask others for suggestions while making a DIY toy, block building, collage making and so on. • Providing opportunities to the children for: - displaying and describing their feelings. - offering assistance to others. - discussing feelings and their causes <i>Also refer to pedagogical processes suggested under 3.9.</i> Guiding Questions for Assessment • Does the child engage in planning with others? • Does the child willingly play and interact with others? • Does the child follow instructions and listen to others during small group play and circle time discussions?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 3.11 Helps peers who are in need during large and small group activities	• Blocks • Interest areas • Materials for collage creation • Toys (Also refer to HW 3.1 to 3.10)	• Organising for free play in interest areas and sharing during DIY making, collage creation, construction with blocks and so on. • Helping children solve conflicts during play. • Providing opportunities to the children to work and share with others and helping children in coping/dealing with others e.g. If a child is bothered by another child's behaviour s/he should tell her/him politely, "Please don't push me", or "Do not use all the green colour leaves please". • Planning such activities which encourage children to respond politely. More small group activities where they establish relationship with peers e.g. holding hands with other children when going outside to play, making the effort to sit near another child. • Organising small group activities in which children get opportunities to: - cooperate and share material with other children. - take turns to play with toys/ objects and adapt to new situations. Engage in play with other children. <i>Also refer to the pedagogical processes suggested under HW 3.6, 3.9 and 3.10.</i> Guiding Questions for Assessment • Does the child participate in small and large group games and activities? • Does the child approach her/his friends for help while working / constructing? • Does the child help and cooperate in large and small group activities?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 3.12 Demonstrates sensitivity and acceptability towards children from diverse backgrounds including children with special needs	• Story cards • Rhymes in local context • Storybooks that have children with special needs as characters • Relevant stories	• Reading to the children selected storybooks that talk about children with special needs so that the children are sensitised towards them. • Creating a classroom environment and infrastructure that welcomes ALL children. • Using greeting time to teach children how to greet, e.g. saying 'Hello' in different languages. • Avoiding the use of gender biased statements while interacting with children. Guiding Questions for Assessment • Does the child listen to others during play in small group/circle time? • Does the child offer help to her/his peers coming from diverse backgrounds? • Does the child bully/make fun of any child? • Is the child sensitive towards children with special needs?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 3.13 Maintains and displays basic health, hygiene, sanitation and healthy eating practices with increased independence	• Health and hygiene related cards like sequence cards on washing hands • Displays at the eye level of washing hands and other similar signs in the corridor and the washrooms • Dolls and washable toys for bathing, cleaning and wiping • Sanitiser, masks • Rhymes on health, hygiene and sanitation • Storybooks on hygiene and cleanliness • Display of pictures and posters depicting cleanliness and good habits	• Displaying children's poster of healthy, hygienic habits using pictures and signs at the eye level of children. • Creating DIY board games like modifying the Ludo to a 'Health' game and Snakes and Ladders to a 'Cleanliness' game. • Doing "Show and Tell" activity using health flash cards. • Creating appropriate worksheets. • Helping children inculcate habits like throwing trash in a bin, closing the faucet, using a hanky while sneezing/coughing, not throwing trash/litter out of a moving vehicle, rather keeping a small bin in the car not spitting in the open, etc. • Ensuring children are in good health, fit enough to do simple exercises and group activities and have no symptoms of infectious diseases. • Designing suitable activities for children to learn how to look after themselves and to acquire knowledge of self-care, hygiene, table manners, safety, etc. • Developing activities and games for maintaining habits of healthy eating and good hygiene through daily routines such as washing hands before and after meals and also after using the toilet. • Talking to the parents to learn about children's habits at home and guiding children with patience, in accordance with their abilities, to contribute towards their own health, safety, and well-being. This also includes integrating motor skills to complete tasks. Guiding Questions for Assessment • Does the child follow routine sanitation practices? • Does the child follow healthy eating habits? • Can the child independently follow simple health and hygiene practices?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 3.14 Demonstrates awareness about good touch and bad touch and maintains distance from strangers	• Story cards on 'Good' touch and 'Bad' touch • Collection of appropriate stories with illustrations, to tell children at their level • Puppets and dolls as props • Films and videos on 'Good' and 'Bad' touch	• Telling related stories at the children's level during circle time to create awareness about being touched at inappropriate parts of the body. • Organising parents' orientation on the same. • Showing the children films and videos on the subject and thereafter having a discussion. Guiding Questions for Assessment • Does the child display any sign that alerts you? • Does the child talk about 'good' and 'bad' touch when explained through a story or a film/video shown?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 3.15 Follows basic rules of safety at home, preschool and playground	• Display chart with safety signs/logos • Child-friendly Traffic lights (installed outdoors along with zebra line) • Safety cards with signs and logos for 'read and act' • Toy vehicles and play kits like an ambulance, a doctor set, a fire engine, a police van, etc. for dramatisation • Wet area such as (water play area, sink area, etc.) • Sand pit/tray	• Creating a checklist for safety measures to be taken both indoors and outdoors while in school. • Sharing picture reading posters like a road scene, a market scene, a playground etc. with children. <i>Also refer to the pedagogical processes suggested under HW 3.14</i> Guiding Questions for Assessment • Does the child follow safety rules in the classroom and on the playground? • Is the child aware of the use of safety rules to be followed at home? • Does the child follow instructions of safety in the wet area and in the sand play area?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 3.16 Demonstrates gross motor skills with greater coordination, control and strength e.g., running, jumping, throwing, kicking, and catching, etc.	- Variety of different sized/textured and musical balls - Balance beam - Wide rope or cloth that can be spread in length for walking and balancing - Skipping rope - Bean bags - Climbing ladder - Child-friendly basketball, - Baskets or old buckets for throwing objects/balls into - Rings for catching, freebies and so on - Outdoor equipment for gross motor skills such as tyres of different sizes, swings, slides, climbers, sand pits, Jungle gym, wheeled toys, etc. - Music system	- Providing for activities involving music and movement. - Making the children play a variety of outdoor sports and games to improve their motor skills. - Asking the parents and family members to share the games/activities that they played in the classroom. - Making children play traditional and popular games like 'Statue', etc. Make sure the games involve movement and body coordination. - Playing songs and asking children to sing along and do actions as well. - Telling related stories at the children's level during circle time to create awareness about being touched at inappropriate parts of the body. - Planning more advanced games/activities for each of the gross motor skills. - Creating an awareness for self-protection through daily activities, (such as discussion on 'good touch'/'bad touch', storytelling, so as to reduce or prevent child or sexual abuse). - Providing opportunities to master gross motor skills and concepts of basic body actions, including balancing, moving and body control. - Adapting a variety of motor developmental activities to help children learn the right postures, develop co-ordination, flexibility, sensitivity, strength, sense of rhythm and imagination. - Providing sufficient age and developmentally appropriate outdoor activities (both organised and un-organised) to develop their gross and fine motor skills. Guiding Questions for Assessment - Is the child able to: - Bounce balls - Throw and catch - Kick objects - Climb, jump, skip - Water play with pipes and straws - Play with running water - Marble run - Are all the skills consistent with the age group of the child?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 3.17 Explores space and participates actively and creatively in music and movement activities	• Appropriate props for action songs • Teacher and children to make DIY musical instruments and other musical instruments • Music system along with a collection of local rhymes • Local musical instruments made by local crafts people • Sufficient space to move their bodies creatively and also get spatial sense • Collection of waste or low-cost materials to create DIY musical instruments and props • Collection of action songs, dance-drama activities	• Organising for the children to move creatively to music and explore spatial sense. • Using action songs to encourage the children to move their bodies accordingly. • Encouraging the children to use and learn new mathematical vocabulary while enjoying music and movement activities. • Helping the children release pent-up emotions as they move to music and explore space. • Helping the children create improvised musical instruments using food containers/boxes. • Arranging gross motor activities that require the use of sensory functions and enabling children to use their imagination and creativity in a fun filled way. • Talking about spatial relationships (first, middle, and last; right and left) and opposites (up and down; on and off). • Providing opportunities to the children for: - Singing action songs for the development of gross motor skills and rhymes related to healthy habits and cleanliness. - Simple dance movements. - Moving bodies to music. - Creating body percussion sounds. - Dance and drama. Guiding Questions for Assessment • Does the child explore his/her space fully in movement activities e.g., "See how I am moving the shoulder and how I am spreading my arms", "I've space next to me, come here?" • Does the child use mathematical vocabulary related to spatial sense? If yes, what?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 3.18 a Exhibits fine motor skills with precision and control	• Letters for stringing • Book handling • Cards • Child-friendly scissors • Writing and Drawing tools like thick crayons/ pencils/ markers/ paint brushes • Puzzles and play materials with and without knobs • Tangrams • Colourful play tiles • Variety of papers for paper folding/origami • Old magazines for tearing-pasting, making of paper toys, masks, puppets, games etc. • Appropriate worksheets related to emergent literacy • Buttoning frame • Vessels for pouring	• Providing the children child-friendly scissors to cut favourite pictures from old magazines/newspapers. • Conducting a tearing and pasting activity where children tear small pieces of papers and paste these to create a collage/design or to fill enclosed outline space. • Letting the children fix in and complete puzzles. • Conducting all kinds of drawing, painting and craft activities involving eye-hand coordination and helping children to express their pent-up emotions through these (It also gets them ready for writing). • Providing for sorting and patterning activities like picking up objects using a tong and transferring them to another bowl/box. • Giving Montessori apparatus like the Buttoning Frame, the Pink Tower (teachers may create their own materials like, zippers, snap/button frames and so on). • Organising activities for development of tripod grasp. • Planning games and conducting activities for developing fine motor skills such as, threading beads with small holes; tearing small pieces of paper and pasting on a given drawing; folding paper; extending a pattern; sorting leaves of different colours, using child-friendly scissors, etc. completing puzzles, building with blocks, using a keyboard, painting with a paint brush, cutting paper along a line, lacing shoes, etc. • Providing age and developmentally appropriate writing, dressing dolls with doll clothes (with zips, buttons, etc.), painting, drawing and colouring tools. • Facilitating and arranging for doing various types of art activities. Guiding Questions for Assessment • Does the child show interest in the block building and manipulative areas? • Is the child able to hold a pencil/crayon appropriately? • Can the child handle books, manipulate a spoon or other objects?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 3.18 b Uses coordinated movements to complete complex tasks like cutting along a line, pouring, buttoning	• Tripod activities • Child-friendly scissors to work in small groups • Old magazines/ books/newspapers to cut pictures, materials and frames for zipping, buttoning, attaching hooks to respective thread tags • Snapping /button frames, old child-sized clothes for the same (old child and adult sized clothing may also be kept in the dramatics area for pretend play) • Dress-up dolls (Create DIY card-board dolls for the same at teacher and child level), variety of complex dotted line picture worksheets involving letters (both Hindi and English) for completion, colouring within the picture and finally cutting along the dotted lines and collecting in self-labelled box for later pasting and decorating work • Scarves and paper streamers to move to music, CD'S of rhymes and musical instruments, simple musical instruments, props for dramatic play, puppets, full length mirror • Display of children's work prominently in the classroom, computer area (with supervision), magnifying glass, binoculars to explore and investigate; collage materials • Vessels for pouring	• Providing opportunities for children to achieve complex tasks like giving them an outline of a picture and asking them to cut along a line or making them pour any liquid from one vessel to another without spilling. • Providing opportunities to the children for: - Drawing - Colouring - Painting - Printing - Clay modelling and art activities - Collage making - Free play - Rhythmic movements - Creative dramas <i>Also refer to the pedagogical processes suggested under HW 3.18 a</i> Guiding Questions for Assessment • Is the child able to use coordinated movements? • Does child show interest in the block building and manipulative areas? • Is the child able to button and unbutton clothing/button frame? • Is the child able to cut along a dotted line using child friendly scissors? • Is the child able to pour from one container to another without spilling?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 3.18 c Uses a pincer grip (coordination of the index finger and thumb to hold an item) to hold and manipulate tools for drawing, painting and writing	• Thicker pencils and crayons, markers, highlighters • Child-friendly easels and thicker flat brushes • Variety of writing tools and art related child-friendly tools • Tripod activities	• Giving the children opportunities to: - Complete Geo-Board activities. - Thread a lace and complete a shape. Guiding Questions for Assessment • <i>Refer to HW 3.18 a</i>

DEVELOPMENTAL GOAL 2

CHILDREN BECOME EFFECTIVE COMMUNICATORS (EC)

Key Competencies

Concept Formation

- Colours, shapes, distance, measurement, size, length, weight, height, time
- Spatial sense
- One-to-one correspondence

Number Sense

- Count and tell how many
- Numeral recognition
- Sense of order (can count ahead of a number up to 10)

Number Operations

- Addition
- Subtraction
- Multiplication

Key Competencies

FIRST LANGUAGE

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-3.1 Engages in conversation in school and at home with unfamiliar teachers, new friends, school staff, other adults, etc. in her/his own language	• Picture reading posters • Read command cards, Picture talk cards, Conversation charts • Circle time activities • Free conversation (child initiated) • Guided conversation on themes covered under EVS (Teacher initiated) • Picture- reading • Storytelling, story-making during circle time and so on • Simple poems/rhymes • Play telephones • Modified teacher made musical instruments • Listening to sounds of nature • A doll house, props for role play, puppets (glove, stick), and a place to dramatise 'made-up stories' • 'Show and Tell' • Rhyming words • Solving simple riddles • Listening area/centre with CDs/cassettes of rhymes/stories/sounds	• Encouraging children to listen, describe, ask questions and express opinions about everyday experiences/objects. • Planning and initiating free conversations with children at appropriate moments such as, during morning assembly, circle time, small group time, snack time and encouraging children to engage in conversation with each other. • Encouraging children to raise questions to promote discussion and critical thinking skills. • Providing a print-rich classroom display that stimulates children to think and talk about. • Creating a listening centre in the classroom. • Taking advantage of daily activities e.g., while in the kitchen, encouraging the child to name the utensils needed, discussing the food items on the menu, their colour, texture, and taste. Asking questions like, "Where does food come from? Which foods do you like? Which foods do you dislike? Who will clean up?" • Reciting familiar rhymes and pausing prior to the rhyming word to allow children to fill in the "auditory blank" with the missing word. Guiding Questions for Assessment • Is the child responding to open ended questions during storytelling, circle time and other relevant situations? • Does the child listen to others during conversation? • Does the child actively participate in conversation in her/his own language? • Does the child interact with unfamiliar adults and children?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-3.2 Selects a book from the reading area and attempts to understand the story with the help of pictures and can predict the written text	- Reading area equipped with graded storybooks - Flash cards - Conversation charts - Picture books, Information books such as books on animals, birds, transport, plants, toys and so on - Posters displayed at the reading area or mini library in the classroom - Puppets as props in the reading area related to the storybooks, big books, lap books, old magazines, etc.	- Providing opportunities and organizing activities for the children to: - listen and follow simple directions e.g., "Go and bring the ball to me, or Get the ball and throw it in the tub". - tell stories (listening and responding). - retell stories in a series of pictures (individually and in groups). - show and tell. Guiding Questions for Assessment - Can the child retell a familiar story? - Is the child attentive and engaged in whole group activities? - Does the child respond during story telling or circle time?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-3.3 Expresses their experiences of reading poems/ stories in their own language and talks about it and shares it with friends	<i>Same as prescribed in ECL1-3.2</i>	- Conversing in a relaxed and emotionally supportive atmosphere with the children. - Allowing the children to express their views and feelings during circle time. - Demonstrating the correct pronunciation and sentence structure in a friendly manner during conversation with the children. - Using vocabulary e.g., small/large, before/after, open/close, etc. as often as possible. - Encouraging the children to express and share their ideas, opinions, experiences of poems and stories read. Guiding Questions for Assessment - Is the child able to express her/his opinion of a familiar story or poem? - Is the child's attention span and engagement in whole group activity increasing? - Does the child show interest in books and other reading material? - Does the child share her/his experience of stories and poems with others?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-3.4 a Uses appropriate intonation and modulation of voice while reciting interesting poems/songs in her/his own language	- Collection of poems and rhymes, songs - Picture books - Poems displayed on chart	- Using picture books and poems with playful alliteration to help children hear a variety of words with the same beginning sound. - Using simple and complex sentences throughout conversations /interactions with children. - Maintaining eye contact and a friendly gesture when talking to children. - Leading children in singing songs and reciting poems and ensuring the children use the correct intonation and modulation of voice. - Talking about words and sounds during daily activities. - Providing situations to children for role play. - Giving children two-to-four-line riddles. - Doing picture reading with the children. Guiding Question for Assessment - Is the child able to recite poems using the correct intonation and modulation of voice?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-3.4 b Recites with fluency with appropriate intonation parts of familiar poems in her/his own language	- Display of poems/rhymes with rhyming words highlighted in different colour - Collections of familiar poems /rhymes	- Using a variety of songs and chants and being playful with segmenting and blending words. - Making the children recite the same poems over and over again so that they can recite with fluency. - Emphasising not only on fluency but proper intonation and modulation of voice during recitation. Guiding Question for Assessment - Is the child able to recite familiar poems fluently? - Does the child recite with appropriate intonation and modulation of voice?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-3.5 a Gives their favourite storybooks to the teacher to narrate a story	- Graded Storybooks of children's interests - Reading area	- Reading to the children their favourite storybooks. Give them a free hand in selecting their favourite book. - Asking the children to describe the character of the story, events in the story. - Displaying alphabet books in the classroom and allowing the children to look at and handle books (age and developmentally appropriate). - Encouraging the children to handle books. Guiding Questions for Assessment - Does the child prefer to pick up books from the library herself/himself? - Does the child ask others to read to her? - Does the child participate in foundational literary activities?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-3.5 b Observes attentively the objects in the pictures, talks about them and writes their name by using invented spellings	- Picture reading posters - Big books - Picture books - Flash cards - Picture cards - Old colourful magazines/ books with big illustrations	- Using children's names and their name cards to point out initial and end sounds. - Using picture reading poster on different topics and encouraging children by asking open-ended questions. - Providing writing tools and a variety of papers for early attempts of writing, e.g. signing on the attendance charts using invented spellings. Guiding Question for Assessment - Does the child show interest in the reading area? - Does the child observe the objects in the picture reading poster/story book and talk about them? - Does the child attempt to write her/his name?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-3.6 a Reads with the understanding of print awareness	• Labelled classroom • Picture cards with print at the bottom • Sight words displayed with appropriate clear pictures • Story cards with print • Duly labelled activity areas • Picture-word dominoes • Picture dictionary • Visual discrimination flash cards such as: A A VA Cat Car Cat Cat • Self-corrective puzzles with pictures on one side and corresponding letters on the other • Reading readiness worksheets/books (age appropriate) in all the interest areas on topics that are relevant	• Giving children lots of exposure to the letters of the alphabet in their surroundings (in books, on refrigerator magnets, on blocks, labels, wrappers, in soups and cereals, in their names, stories, titles of paintings written for them, in their own attempts to write, in the reading and writing area). • Answering and asking questions. • Using an extensive vocabulary that consists of words familiar to their experiences and cultural background. • Preparing name cards for all the children. • Creating a print rich environment in the classroom by: - Arranging the language and literacy area attractively and providing age-appropriate literature. - Providing soft, comfortable furniture for the children to sit on and read with enjoyment. - Drawing children's attention towards printed labels, signs and sight words, as they come up in everyday activities. - Explaining to children how print is read, how letters make particular sounds. - Having a word wall at the eye level of children (words seen and heard during story telling). - Asking children to sequence story cards. - Preparing an early literacy album which includes early name writing attempts, special scribble messages, such as letters, lists, drawings with dictated stories.

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
		• Providing opportunities for the children: – Identify rhyming words in rhymes and poems as well as think of new words that also rhyme. – Visually coordinate (matching) such as matching of shapes, figures, letters and words. – Play with dominoes (pictures, sound, colour, dots). – Collect pictures from old magazines and sort them into different categories, then match and sort upper case (capital) and lower case (small) letters, e.g., all 'B' 'b' in one basket/box, all 'C' 'c' in one box/basket. – Spot a different letter or word in a strip for the odd one out made and given to them. • Developing a class storybook about an activity or event they have experienced together and encouraging them to illustrate the book and write in any word, letter, or symbol (e.g., their own names, a symbol that represents a word). Asking them where they want to keep/display the "Made in Class" storybook so that they can read it whenever they want to. Motivate them to read their DIY/ self-made book. • Modelling and discussing the correct way of book handling. Guiding Questions for Assessment • Does the child try to read the print around her/him? • Does s/he pretend read? • Does the child keep her/his finger beneath the print as s/he reads? • Is the child able to identify the cover, back cover, the title (of a book), where the story begins/ends? • Is the child able to handle a book correctly? • Does the child display an understanding of print awareness?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-3.6 b Reads the story by understanding/arranging the pictures in the sequence of events	• Variety of story cards with one-two line print on each of the card • Toys/objects of choice • Sequential thinking cards	• Organising for the children to tell a story from the illustrated books and making story cards for the same. • Asking the children to arrange the story cards from left to right and then to narrate the story in their own words. • Providing opportunities for children to prepare story cards from magazine pictures/old books and creating a story of their own. • Making children collect toys and objects of their choice and then narrate a story using these objects/toys as they arrange these from left to right. • Organising for children to arrange sequential thinking cards of any event from left to right and describing the event. Guiding Questions for Assessment • Can the child read the print and understand what it means? • Does s/he understand directionality and move from left to right and top to bottom? • Is the child able to arrange pictures in the sequence of events? • Is the child able to narrate a story in he/his own words in a proper sequence? • Is the child able to create stories using objects?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-3.7 Identifies repeated sounds in words occurring in familiar stories/ poems	• Stories and poems based on sounds • A print rich classroom • Display boards at the eye level of children • Sandpaper/textured letters, magnetic letters • Word wall • Sight words and signs • Graded picture storybooks • Flash cards, alphabet blocks, display of storybooks, information books, magazines on a rack in a reading corner, an alphabet book • Sound boxes/sequence story cards • Street signs, traffic signs, store fronts, etc. • Labels on confectionaries, name card with logos • Rhyming games • Lotto game (matching games with letters, sounds and words), name games, game of matching letter, words, 'I Spy' game • Sound and picture dominoes, picture-letter dominoes	• Using the children's names and their name cards to point out the initial and final sounds, segment the syllables, and then blending and segmenting the sounds. Using their names help the children blend words they are very familiar with. A good way is to do name chants for blending initial sounds of their names, for example: <i>It begins with a /m/</i> <i>And ends with /ark/,</i> <i>Put them together</i> <i>and they say _____(Mark)</i> • Planning activities, games and providing opportunities for playing a rhyming word game. • Narrating simple stories to children. • Telling children to recognise the cover of a storybook. • Asking open ended questions while telling the story to understand whether children have comprehended the story e.g., "What do you think will happen next?" "How would you feel if that had happened to you?" or whether they can recognise the beginning, middle and end of the story. • Encouraging and intervening in children's early attempts to read and write. • Making children match objects that begin with the same sound, e.g., chalk- chair, blocks- box, etc. • Playing phonetic awareness games with children, e.g., "how many words can you think of that begin with the 'm' sound?" (moon, monkey, mat). • Facilitating age and developmentally appropriate books. Children can do storytelling, reading aloud, looking at books and handling them, turning pages and holding a book correctly.

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
		• Playing the 'I spy' game with children for visual auditory association such as 'I spy' pictures/objects in the classroom that start with the initial sound 'P'. • Preparing activity sheets after giving concrete and hands-on experiences to children related to reading and writing readiness, e.g., 'Colour the pictures that-begin with the sound 'g'. • Discriminating phonemic sounds while reading or speaking. • Ensuring children can handle picture books properly and flip through the pages in the right direction. • Working with dominoes, story cards. • Drawing attention explicitly to words that sound alike while reading aloud to children. Guiding Questions for Assessment • Does the child respond to the sounds in her/his environment? • Can s/he identify the initial and end sounds of her/his names or words occurring in stories and poems? • Is the child able to orally blend initial sounds with the rest of the word? • Can s/he orally blend all the sounds in two and three sound words? • Can s/he consistently orally segment the beginning sound in a word? • Can s/he make words that begin with the same sound?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-3.8 a Identifies repeated sounds, words etc. in stories, poems, songs	• Word wall • My first "Word Book" • Labelling in the classroom/interest areas/storage boxes/baskets • Rhymes with sounds/rhyming words, collection of rhymes and stories that have sounds, repeated words, rhyming words and a sequence • Collection of various alphabet materials; alphabet tiles, rocks, cards, magnetic letters, linking cube letters, wooden letters etc. to build different words • Scrabble	• Making children hold big letters and physically make words together. • Playing very simple scrabble with the children. Let them construct words appropriate to their level and age. • Giving children opportunities to create their own riddles and rhymes using appropriate vocabulary. • Organising for children to cut out words from magazines. Paste these on the word wall and read them. • Making children identify sounds, rhyming words in the songs/rhymes/stories and making /adding a rhyming word to the string. Children can match rhyming pictures as they call out the words. • Making children read storybooks with alliteration. • Clapping for each syllable in children's names, and then encouraging children to follow along and do the same. Guiding Questions for Assessment • Does the child respond to the sounds in her/his environment? • Can s/he orally blend all the sounds in two and three sound words? • Does the child appear to understand the difference between words that are similar sounding such as bar/bit, cup/cut, or pan/pin?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-3.8 b Predicts about the written text with the help of pictures and print, previous experiences and information, letter-sound association, etc.	• Storybooks • Labels	• Giving children lots of exposure to the letters of the alphabet in their surroundings (in books, on refrigerator magnets, on blocks, labels of soups, cereals, in their names, stories, titles of paintings written for them, in their own attempts to write, in the reading and writing area). Guiding Question for Assessment • Is the child able to predict written text?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-3.9 Takes interest in writing (invented spellings) her/his own name, names of friends and objects around her/him	• Running black/white board at children's eye level • Variety of paper-lined, unlined, etc. • Coloured chalks, crayons, pencils, felt pens, slates, etc. • Note pad to scribble/ write on • Setting up a small writing area/centre in the classroom • Photographs of children/ adult writing • Making greeting cards; invitations • 'Book Week' celebrating chalk-talk stories, various letter games and activities • Letters cut from magazines for making a collage • Writing tools/props at dramatic play areas • Labels, stamps, coloured paper • Making lists • Appointment cards for the doctor's office created by children • Daily opportunities to write (without stress) • Other materials that promote writing, such as a typewriter, magnetic letters, wooden letters, and blocks with letters	• Giving children the opportunity to dictate words and ideas to an adult (story dictation) who can then read it back to the children in their own words. This can be a very empowering and enlightening experience. • Encouraging early attempts to write by providing the children with notepads, blank paper and thick pencil. • Planning and organising stress free writing readiness activities in an emotionally supportive environment. • Encouraging children to notice similarities and differences. • Providing opportunities for colouring, drawing lines in various forms and shapes and tracing along a given line. Also joining dots, tracing on letters/ numerals etc. and writing their own names. • Motivating children to create advertisements for a 'Book Week'. • Making children create letters out of sandpaper, foil, pipe cleaners to strengthen fine motor skills. • Encouraging children to use different writing tools (age and developmentally appropriate) e.g., a child writes/signs at the language area/entry to the classroom. • Giving children a chance to experiment with a variety of simple writing forms (listing names). Guiding Questions for Assessment • Is the child scribbling, attaching labels to the scribbles, or is the child drawing a picture/character from the book? • Is the child copywriting? (Remember, copywriting is a stage in writing. Encourage children to do so, especially when they do it voluntarily).

SECOND LANGUAGE

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-3.1 Introduces herself/himself bilingually	• Poster of “My body” duly labelled • Name cards for each child • Name puzzle • Conversation charts on related themes • Photos of children’s family members • Word wall	• Teaching-learning through repetition and in a child friendly way. • Using observable big gestures and physical demonstrations and also saying that word. • Creating a positive learning environment with a good display of print (both in the familiar and unfamiliar language but not in a cluttered manner). • Using such teaching practices that are engaging and fun for ALL children. • Creating, doing and allowing for own play-by-play and teaching culture and diversity alongside the play and weaving it as a part of play based activities. • Smiling and making eye contact with children and using friendly greetings – for example, saying ‘Namaste, Welcome, Good morning’ to the family members, visitors/ new teachers/ volunteer parents as they enter the classroom and asking, ‘How are you?’ to the friends/neighbours. • Preparing ‘name cards’ for each child along with her/his logo and doing activities with name cards. Guiding Questions for Assessment • Is the child able to introduce herself/himself bilingually? • Does the child use friendly greetings?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-3.2 Sings songs or rhymes with actions	• Props to use while singing songs/rhymes • Musical instruments made out of waste materials to accompany the group song • Collection of action songs	• Collecting fun rhymes and displaying one or two at the eye level and changing them every 20-25 days. • Encouraging children to use eye contact, taking turns, talk and listen, speak politely. • Using props and musical instruments to create a children's orchestra. One group can sing with actions while the other can play the musical instrument. • Asking children to repeat words before attempting a task. • Including such poems and rhymes that focus on pairing movement and action with rhythmic passages. • Using choral responses. Guiding Questions for Assessment • Does the child understand what a rhyming word/game consists of? • Does the child who is learning ECL2 vocalise speech sounds and the sound patterns of the second language? • Does the child experiment using second language speech sounds and words?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-3.3 Flips over the pages of bilingual work in the reading area	Age and developmentally appropriate bilingual books in the reading area	- Making children talk with their elbow partner, sing a song/rhyme/and read /look at storybooks/information books/print together. - Doing picture reading on each theme and motivating children to ask questions. - Encouraging children to collect and paste photographs of their family members in a scrap book to create a photo album. - Joining the child's play and modelling the use of descriptive words in play scenarios like, "The clay is soft and smooth. Look at the colour of clay, it is brown..." Guiding Questions for Assessment - Does the child demonstrate love for bilingual age-appropriate books? - Is the child able to handle books carefully?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-3.4 Attempts to respond using familiar words and expressions	- Print rich classroom - Activity areas - Circle time discussions 'I can' do cards - Emoji/smiley cards	- Introducing new words during story time by using various strategies - explaining, pointing to pictures; using expression, etc. - Using words and sentences easily understood by children. - Listening to children with patience and allowing them sufficient time to think. - Enabling children to learn about conversations by listening to the teacher's conversations with others. - Talking about and defining new words in a very simple way when reading aloud by connecting what children already know to the new words. Guiding Questions for Assessment - Can the child name familiar places in her/his environment e.g., a grocery store, a park, a school, a hospital? - Does the ECL 2 child demonstrate understanding of ECL 2 words?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-3.5 Recognises letters and corresponding sounds	- Letter puzzles - Letter cut outs - Letter – sound worksheets	- Providing opportunities to the children to match letters with corresponding objects. - Making the children sing songs on letters and relevant sounds. Guiding Questions for Assessment - Does the child identify the letters and say their sound? - Is the child able to blend three letter sounds?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-3.6 Attempts to read familiar signs	- Labels in ECL2 - A variety of storybooks	- Including second/unfamiliar language into the daily activities and displaying in the classroom environment like, labelling on the door, window, drinking area, play area, activity areas and so on. Ensure that the objects and places are labelled in ECL1 and ECL2 using two different colours. Guiding Questions for Assessment - Does the child show enjoyment of reading? - Does the child try to read familiar signs and label in ECL2 in the classroom? - Does the child participate in reading related activities?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-3.7 Predicts a story with the help of the pictures	- Storybooks in the second/unfamiliar language - Story cards	- Making children sing songs in the second or unfamiliar language. - Reading books to children in the second or unfamiliar language, having bold font/print and clear colourful illustrations. Guiding Question for Assessment - Is the child able to predict a story using pictures as a clue?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-3.8 Participates in shared reading of the story	- Appropriate books kept on open shelves in baskets - A cosy area created and converted for reading	- Providing opportunities to work in pairs/small groups and look at books. - Encouraging children to pretend read/read on their own. Guiding Question for Assessment - Does the child participate in shared reading?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-3.9 Talks about her/his favourite toy	- A variety of age and developmentally appropriate toys - Creating of DIY toys using low cost/no cost materials	- Motivating children to talk about their toys during free conversation/circle time or during play in the interest area. - Encouraging children to create DIY toys using waste materials with the support of teachers/adults. Guiding Questions for Assessment - Does the child talk about her/his favourite toys? - Does the child join or fix pieces in order to complete a puzzle? - Is the child able to create DIY toys using waste materials?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-3.10 Enjoys and creates nonsensical rhyming words	- Rhyming words - Charts and posters - Worksheets on rhyming words - Objects for matching, identification and rhyming of words	- Making children play games in the second unfamiliar language. - Showing cartoons and children's films in the second language (age and developmentally appropriate). - Making a string of rhyming words with the children. - Making children sing rhymes having rhyming words that come repeatedly. Guiding Questions for Assessment - Is the child able to create rhyming words in ECL2?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-3.11 Attempts to scribble/write a few familiar words	- Writing tools e.g., pencils crayons - Markers and sketch pens - Worksheets for encircling the 'called out words'	- Providing writing tools and encouraging the child to undertake early attempts to write (appreciate children's efforts). - Asking the children to copy words from the board/word wall. - Making children encircle the 'called out words' with a marker/sketch pen. Guiding Questions for Assessment - Can the child scribble / write a few familiar words? - Can the child correctly copy words from the board?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-3.12 Identifies objects in her/his immediate environment	- A variety of objects like leaves, twigs, pebbles, beads, buttons, etc. - A variety of activities for development of sensory-perceptual skills/ abilities	- Providing the children, a variety of objects from the environment for sorting matching, identification, and naming. - Organising for children to experience nature and observe things around them e.g., taking them for a nature walk or around the school. - Providing stimulation through various activities and situations to develop children's sensory-perceptual ability, e.g. - Taste - Prepare a tray with cookies, lemon slice, bitter gourd- and ask children to identify the taste (sour/ sweet/ salty/ bitter). - Touch- Prepare a tray with cloth of different texture, cotton, a stone, a feather, a sponge, etc. Blindfold the children and ask them to guess by feeling the materials. - Similar activities may be conducted for sound and smell. - Restating important information by using synonyms, and visual cues. (Use the child's home language as base to support the development of listening skills in ECL2). - Giving simple, easy to understand instructions in the child's home language followed by ECL2. - Providing as many opportunities to children as possible to use ECL2 in the classroom settings. Guiding Questions for Assessment - Can the child identify objects in her/his environment e.g., plants, animals, means of transports, shops etc.? - Can the child identify objects by their smell, taste, sound or touch?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-3.13 Enjoys watching age-appropriate cartoon/films	• Projector • Images of animals, birds, transport ,etc. • Camera • Mobile phone • Cartoon films (age-appropriate) with permitted screen time	• Using a projector to share a story in a whole group, circle time. • Providing children a mobile phone or camera to click photographs e.g., photographs of animals/birds and make their own book. • Organising for children to view/watch short films on animals/birds/transport and connect with FLN component. Guiding Questions for Assessment • Can the child identify images of birds, animals, etc.? • Does the child talk about and use new vocabulary while talking about her/his favourite cartoon/film.
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-3.14 Shares feelings for birds/ animals/ trees	• Nature walk • Discussions and informal conversations • Picture charts • Resource book on nature, etc.	• Taking children out for a nature walk. • Providing opportunities for children to display and describe their feelings towards animals and plants. • Providing opportunities for making DIY paper folding activities/origami Guiding Question for Assessment • Does the child display feelings for birds/animals and plants? • Does the child demonstrate sensitivity towards her/his immediate environment?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-3.15 Draws pictures to communicate messages	- Variety of papers, newspaper - Thick markers, sketch pens	- Providing opportunities for children to express their feelings through drawings/ paintings/ scribbles. - Allowing the children to explain what the drawing represents (Ask questions about what the people/animals in the drawing are doing and you will find out how the children's drawings reveal so many aspects of their routine). - Giving children opportunities to represent their ideas on paper / on an easel or through DIY toys (make art a regular activity of your routine and allow children to experiment. Do not impose your ideas on them). - Observing the process, and not just the product. Decode the children's drawings as this would help to know children better. Guiding Question for Assessment - Is the child able to express her/his feelings, dreams and joys through drawings?

DEVELOPMENTAL GOAL 3

CHILDREN BECOME INVOLVED LEARNERS AND CONNECT WITH THEIR IMMEDIATE ENVIRONMENT (IL)

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 3.1 Uses all the senses to observe and explore the environment	• Environmental materials for observation, exploration, 'touch and talk' about • Nature walk • Variety of textured materials like sandpaper letters, numbers, objects of different shapes • Sensory games, letters/stories and magnetic letters • Touch cards • Texture based objects • Storybooks • Sand and water play • Sound book/ boxes • Feely bag with objects to enhance sense of touch	• Providing opportunities for children to experience nature and observe things around them. • Organising outdoor experiences to observe, explore and discover and later discussing with children what they've seen, heard, felt, etc. • Providing stimulation through various activities and situations to develop their sensory-perceptual functions. (the activities should involve observing, collecting, describing and recording information through a variety of means). • Giving children opportunities for sharing ideas/experiences. Guiding Questions for Assessment • Is the child exploring the manipulatives? • Does the child need support? • What kind of vocabulary does s/he use? • Does the child know about her/his immediate surroundings?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 3.2 Notifies and describes finer details of common objects, sounds, people, pictures, animals, birds in the immediate environment	• Objects and pictures/flash cards of familiar animals, birds etc. to talk about • Visual discrimination or 'odd one out' cards	• Asking the children to observe and describe objects around them (during circle time) in their own words. • Taking the children for a nature walk to see animals and birds closely (They will also observe people, objects and plants around them). • Letting the children look at the pictures of animals and talk about their physical characteristics e.g., it has a long tail/ a beak/ear, etc. Guiding Questions for Assessment • Does the child show curiosity with respect to her/his immediate surroundings and ask related questions • Does the child use new vocabulary while talking about objects in the immediate environment? • Does the child show an awareness of the similarities and differences between sounds, animals, people, objects seen/available in the immediate environment?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 3.3 a Remembers and recalls 3–4 objects seen at a time	- Familiar objects - Toys and picture cards - Conversation/picture reading posters - Storybooks with clear illustrations - Grocery store/Park visit - Memory game	- Asking the children to listen to and repeat 4-5 numbers seen. - Showing the children a series of 4 -5 toys or other objects and then covering it with the cloth. Asking the children to recall the objects that they have seen. - Asking the children to recall any 4-5 items/objects after visiting a grocery store/park, etc. - Looking (together with the children) at a picture reading poster and talking about it / a story with good illustrations and later asking the children to recall any five objects, characters in the story or poster. Guiding Questions for Assessment - Is the child responding to activities? - Can the child remember and recall 4-5 objects seen at a time?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 3.3 b Identifies 3-5 missing parts of a picture of a familiar object	- Missing part game - A missing fun calendar or creating DIY Missing Book - Visual discrimination cards with 4-5 parts of the picture missing	- Showing the children 3-5 objects/ pictures and later either removing or covering them with a cloth. Asking children to name the missing objects/pictures. - Asking the children to complete an incomplete drawing (age appropriate) and later labelling it verbally. - Providing two visual discrimination cards (with one card having a few missing parts/pictures) and asking the children to identify the missing parts/pictures in the card. <i>Also refer to the pedagogical processes suggested under IL 3.3a</i> Guiding Questions for Assessment - Can the child identify the missing parts of the pictures of familiar objects? - Can the child complete an incomplete drawing?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 3.4 Places 5–6 objects of two groups in one-to-one correspondence	• Bottle caps • Counters • Toys • Leaves	• Arranging and sequencing bottles caps in a row and asking the children to place the same bottle caps below the row. They can repeat the same with other objects as well. • Asking children to distribute toys/objects/cookies to each child during meal time. • Making the children touch and count leaves, counters, toys, etc. Guiding Questions for Assessment • Can the children track the objects they count? • Do they touch and count?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 3.5 Compares and classifies objects by three factors like shape, colour and size, etc. Correctly uses position words (besides, inside, under) to describe objects	• Objects having different shapes, colours, sizes, lengths for counting, and sorting • Picture cards for classification • Pattern making cards with cut-outs • Excursions /Nature walk • Multiple classification cards • Categories game • Story cards, Sequential thinking cards • Puzzles of greater complexity • Maze or worksheet to solve • Reasoning cards of a more advanced level • Manipulative objects	• Preparing an environment which will stimulate the children to match, classify, seriate, sequence, solve, hypothesise and experiment. • Giving opportunities to the children to interact freely with objects and materials. • Encouraging the children to observe, explore and describe (also give them time to reflect). • Posing simple problem-solving questions to the children such as, "What will you do if you want to put a toy on top of the cupboard?" • Providing opportunities to the children for learning about a concept through lots of hands -on experiences. • Making the children participate in activities such as exploring colours in the classroom, nature walks and also talking about it. • Making children listen to a story based on secondary colours. • Using position words while conversing, instructing children to familiarise them with such words. Guiding Questions for Assessment • Is the child exploring the manipulatives? • Is the child using the correct vocabulary to describe objects? • Does the child sort and label the objects that s/he has grouped? • Does the child describe her/his grouping of objects e.g., "These are all blue bottles or beads?" • Does the child use vocabulary like – up, over, above, in, under, below, big blocks, small blocks or use labels for different shapes and so on correctly? • Can the child follow directions like, "Keep the ball on top of the shelf, or Keep the doll under or on top of the table?"

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 3.6 Seriates / arranges 4–5 picture cards/objects in a sequence for example- shape, size, occurrence of events	• Pictures of the same objects/ animals/ fruits/birds etc. in varying sizes, lengths, heights, etc. • Objects of different sizes • Sequential cards with events or stories the children are familiar with	• Encouraging the children to compare size, e.g., 'The biggest teddys; for length, e.g., 'The longest piece of cloth'; for height, e.g. 'The tallest boy'; for volume, e.g., 'The amount of milk in the cup'; for weight, e.g., 'A heavy bucket of sand' and for time, it could be, 'Time to tidy-up'. • Ordering flash cards with numerals (1-10). • Encouraging children to compare and seriate e.g., "This is the biggest, this is smaller than this and this is the smallest." • Using a sand timer to let children know that there are only five minutes left to tidy up the Block Area. • Giving the children cards with a familiar story or event to put them in a sequence. Guiding Questions for Assessment • Does the child use the materials? • Can the child sort the materials into different categories? • Can s/he describe and use mathematical vocabulary while arranging the objects in order/sequence? • Does s/he see how these materials are the same and how they are different? • Is the child able to sequence story or event cards? • Is the child able to order objects by weight, size, length, etc?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 3.7 When telling a story, can understand time related events, e.g. what happened first, who came at night, etc.	• Story props, Story collection that has time related events, (e.g., The lion and the hare, <i>Ghar ki khoj</i> (NCERT Publication), The Little Red Hen, and so on. • Poems related to time (e.g. Hickory Dickory Dock) • Games like “What is the time Mr. Wolf?” • Stories like- ‘Telling Time’ by Jules Older, ‘The Clock Struck One’ • Indian tales/Panchatantra tales based on sequence and numbers	• Displaying the daily timetable to create awareness of time in their life. • Telling a stories based on time to help them understand about events related to time. • Discussing the day’s routine with the children. Asking them to illustrate the day’s events as they occur. • Making the children recite rhymes and play games related to time. Guiding Questions for Assessment • Does the child possess an time related vocabulary? • Can the child talk about or illustrate what happened first, what happened later?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 3.8 a Provides solutions to simple problem - solving situations with reasons	• Maze (floor and worksheet) • Puzzles with and without knobs • Collection of stories based on a single problem • Collection of stories based on problem solving • DIY puzzles • Open-ended questions • 'What is missing' games • Story cards to be arranged in a sequence • Locks and keys • Puzzles based on stories	• Providing many natural, open-ended materials both indoors and outdoors. • Using such age-appropriate storybooks that focus on a single problem e.g., 'The Lion and the Hare', 'The Pigeon and the Hunter'. • Giving problem-solving activities with increasing complexity. • Making children do self-corrective number puzzles to solve, in which one part has a digit and the other has the same number of objects. They can also be asked to complete picture puzzles with increased number of pieces. • Giving children more complex mazes (age appropriate) to complete and helping them create a floor maze. • Motivating children through positive feedback to encourage them to solve problems on their own. • Talking through a problem-solving process with children to help them think better. • Asking children open-ended questions like, "What do you think will happen next?" and so on and encouraging them to think about alternate solutions. • Organising open-ended fun activities for children. Guiding Questions for Assessment • Does the child work on puzzles of different complexity? • Is the child able to use a key to unlock? • Is the child able to solve simple problems?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 3.8 b Engages in investigating and manipulating objects in the environment, asks questions, inquires, discovers, and constructs own ideas and predicts	• Toys with tricky systems • Sorting items • Mystery bag with objects, pictures for matching, solving, fixing, constructing, like tangrams, colourful cut-outs of shapes for creating objects • Toy vehicles • Toys that pull apart • Colour and shape sorters, construction, art and craft kit • Materials to create DIY toys • Information books to look at • Surprise items (weekly) to let children explore and talk about • 'Nature walks and Visits', (like visits to a garden, grocery store, fire-station, clinic, police station etc.) • Sensory activities with increased complexity	• Providing ample opportunity for children to investigate, manipulate and create objects. • Taking the children for/to nature walks, a grocery store, a fire or police station, clinic to give them a first-hand experience of things happening around them. • Helping children to be keen observers/ explorers in their immediate surroundings and encouraging them to ask questions, predict and form their own opinion. • Engaging children in real conversations. • Organising unstructured and structured play. Guiding Question for Assessment • Is the child exploring through simple observations, or manipulations, or asking questions?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 3.8 c Demonstrates awareness and sensitivity towards environmental concerns (e.g., Does not waste water, switches off the light when not in use, etc.)	• Small waste food containers to grow plants (Keep them on a windowsill and let children watch the plants grow) • Toy watering can and water sprayer to water the plants • Potted soil, seeds, magnifying glass, etc. • Cardboard/or waste tins/boxes to create a dustbin • Storybooks/Internet	• Providing opportunities to the children to connect with the environment and encouraging them to discuss environmental concerns. • Involving the children in creating DIY objects e.g. a cardboard dustbin to throw waste paper and dry trash. • Creating awareness and engaging the children in reducing, reusing and recycling through cleanliness drive, discussions and poster making competitions. • Working together in a garden e.g. planting trees, watering plants. • Making a display chart or poster involving children e.g. closing the faucet while brushing and other such DIY posters. • Decorating a paper bag using art activities like finger/pattern painting. • Planning for water conserving activities and discussing other environmental issues. • Reading stories that highlight environmental awareness and sensitivity. • Talking about the water cycle in a very simple manner. Guiding Questions for Assessment • Does the child throw litter in a bin? • Does the childcare for her/his immediate environment? • Does the child close the faucet or taps after using and switch off the lights without reminders?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 3.9 Counts to 10 objects	- Abacus, Montessori number rods, Number-Picture Dominoes, - Objects like buttons, toy cars, bottle caps, counters for counting	- Making children listen to the counting sequence in rhymes, like: - Five Little Ducks... - Ten in the Bed... 1, 2, 3, 4, 5, Once I Caught a Fish Alive... - Ten Green Bottles... - Five Little Monkeys... 1, 2, Buckle My Shoe... - Making Mathematics a fun and daily activity for children and relating it to concrete objects e.g., Counting all the objects in a group, for example body parts, buttons on clothes, steps on a staircase, counters, or caps, toy cars, colour, pencils, crayons, etc. - Arranging objects/toys in a row for children to count (Later, children will be able to start counting from any object without having to arrange them). Guiding Questions for Assessment - Is the child able to recite some number rhymes? - Is the child able to count objects up to 10?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 3.10 Can count forward and backward from a particular number up to 9	- Floor numerals pasted in the form of feet - Number calendar - Cutouts of numerals, Abacus, textured numbers	- Asking the children to order numbers from the smallest to the largest, or largest to the smallest. - Making children use counting songs to count backward and forward. - Asking children to create number plates for toy cars. - Getting children to use different numbers as the starting point for practising to count. For example, "Start counting from 6 or 10". Children can count forwards and backwards. They can be asked, which number comes before, or which number comes after, a given number. - Making children place pictures of items in order from the biggest to the smallest and counting forwards and backwards and later doing the same with numbers. Guiding Questions for Assessment - Does the child count in a stable order? - Is the child able to count forward and backward? - Can the child tell you the number that you missed?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 3.11 Identifies numerals with numbers and writes numerals up to 9	- Phones, clocks, calendars, price lists, currency calculators, keyboards and so on - Stories that have numbers in them - Number stencils	- Creating awareness in children about the existence in numbers of various objects of their daily life, like phones, currency, calendars, clocks, wrappers, keyboards, etc. - Providing lots of number training, writing activities. - Making the child write numerals and numbers alongside (they can trace on these). - Reading aloud to the children stories with numbers to reinforce. <i>Also refer to the pedagogical processes suggested under IL 3.10</i> Guiding Questions for Assessment - Is the child able to identify numerals with numbers? - Can the child write numerals up to 9?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 3.12 Demonstrates the awareness that things reduce in number and become nil (For example 3 birds sitting on the branch of a tree fly away one by one, at the end no bird is left on the branch)	- Collection of poems, stories based on the concept of subtraction - Story cards for retelling and explaining the concept - Games with concrete objects, toy animals/ vehicles, dolls and so on - Worksheets for practice only after enough exposure to concrete materials/toys	- Making children play 'I Spy' or other games to help children identify shapes, numbers and patterns. - Providing lots of practice to reinforce the concept of subtraction through concrete objects. Thereafter providing worksheets for practice. - Making the children hop on zero (Movement activity). Guiding Questions for Assessment - Is the child able to subtract numbers up to 9? - Does the child understand the meaning of 'Zero'?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 3.13 Compares two numbers up to 10 and uses vocabulary like more than, less than	- Number cards - Number dominoes - Dot dominoes - Number self-corrective puzzles <i>Refer to IL 3.12</i>	- Removing rings/ fruits from a basket (one by one) and letting the children observe how the basket becomes empty to introduce zero. - Letting the children: - touch, count and use comparative language. - continue touching and counting objects. - explore, observe and trace numerals. Guiding Questions for Assessment - Is the child exploring the manipulatives? - Does the child need support? - Is the child using the correct vocabulary?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 3.14 Combines two groups up to 9 objects and recounts	(Refer to IL 3.10, 3.12 & 3.13)	(Refer to IL 3.10, 3.12 & 3.13)
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 3.15 Takes out objects from a collection of up to 9 objects and recounts	Refer to IL 3.12	- Making children build blocks in the Block Area, join interlocking blocks; play and create with number blocks. - Organising children to sing more rhymes / poems on pre- numbers and numbers. - Creating and constructing with empty boxes, and containers. - Making children count each toss of the ball as they play a ball game. - Counting with children as they climb steps or walk. - Create board games to involve children in Mathematics and make it a fun filled activity. - Helping children when rolling a dice to count, move and stop according to the number shown on the dice. Guiding Questions for Assessment - Ask the children questions to count and recount, e.g., toys from the toy box, pencils, etc. - Is the child able to take out objects from a collection of up to 9 when called out?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
Competence of subtraction starts developing after the age of 4 years i.e., Preschool 2 stage	• Objects like beads, marbles • Poems/ rhymes on subtraction • Stories on subtraction • Abacus • Number cards • Candies	• Encouraging children to talk about the number of things in the pictures they have drawn. • Modelling using objects, simple word problems, such as, "If I have 3 candies and I give you 2, how many will I have left?" • Singing songs and rhymes like, "Five little ducks went out to Play...", "Five little monkey jumping on the bed..." • Read aloud stories focussing on problem solving and indirect subtraction concept. Guiding Questions for Assessment • Does the child understand subtraction concepts?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
Competence of relating addition and subtraction starts developing after the age of 6 years i.e., Class 1	• Toys/Blocks • Board games • Bottle caps	<i>Although we do not encourage this particular concept at this stage, but you can always do fun activities using toys, manipulatives</i> • Making children add the total number of blocks/toys etc. in the play area. • Modelling addition using a set of objects e.g., using bottle caps to put together an addition problem - Show 3 bottle caps and add 1 more bottle cap to make 4. • Playing board games with children that require counting and simple adding with fun. Guiding Questions for Assessment • Does the child understand addition and subtraction concepts in a play situation, e.g., role play in the market area set up in the classroom using play money?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 3.20 Identifies Indian currency notes	• Play money • Set up a grocery store/market /toy store with items /materials having price tags • Story plots for dramatisation • Food and grocery items with price labels on sticky notes, or price cut-outs of shopping catalogues • Indian currency notes and coins of different denominations • Materials for making a PIGGY BANK	• Providing opportunities to the children for: - Manipulating, counting with play money. - Role playing and dramatisation of familiar stories based on numbers. • Setting up of a grocery store /market scene with number counters/play money. For example, for a week or fifteen days, a market area may be designed/setup, with stores of children's interests, like toy store, cookie store, ice-cream shop, etc. The children can visit these during free indoor play time and get engaged in payment transactions through role play. Children can role play as buyers and sellers. • Making the children match similar play coins/notes. • Calling out the number on the coin for identification by children. • Asking the children to find out which coin /note is different (odd one out) from coins notes arranged in a row. • Making the children read Indian currency notes and coins and doing a "Show and tell" activity. • Organising for the children to make impressions/coin rubbings with real coins using coloured pencils on a paper placed on a coin. Letting children make their own play money. • Talking to the children about how we pay for different items, using coins, notes, cards and through mobile phones. • Asking children to collect old receipts or price tags and using them in the mini market area in the classroom.

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
		• Encouraging children to practice counting in the mini market area while doing shopping for example, counting the number of apples you put into the bag. • Talking to the children about how to save money and discussing how they spend money. Children can be involved in making a DIY PIGGY Bank. Guiding Questions for Assessment • Can the child use the play money in the market area during role play? • Can the child match similar play coins? • Can the child take out a specified coin after a number is called out?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 3.21 Compares three objects in terms of their lengths, height as longest/shortest/ tallest/shortest	- Ribbons/straws/twigs/cloth strips/ropes cut to different lengths - Child length mirror - Measuring tape - Masking tape, double tape	- During the shopping for groceries, discussing what the children will buy, how many they will need and what they will make. - Collecting leaves/twigs/ feathers during the nature walk and arranging them in order. - Using appropriate mathematical vocabulary like, this twig is the longest and this twig is the shortest, while arranging objects in order. Guiding Questions for Assessment - Does the child use mathematics vocabulary like-longest, longer, long, tallest, shortest?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 3.22 Compares two objects in terms of their weight as heavier than/ lighter than	- Weighing balance - Weighing machine - Kitchen weighing scale - Objects for weighing - Recipe cards with pictures - Note pad, pencils	Same as above (<i>variations may be incorporated according to the concept</i>) Making provision for a kitchen scale in the mini-shop/market area to weigh foods, such as, a box of cookies or a packet of noodles and ordering items by weight. Guiding Questions for Assessment (Refer to IL 3.21)

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 3.23 Compares capacities of two vessels like bottles, glasses, bucket, etc.	• Relevant objects and materials for conservation • See-through transparent bottles, glasses, buckets, mugs, etc. • Water/juice or any other liquid	• Offering children opportunities of water play, sand play. • Providing various sand play and water play equipment and observing children using mathematical vocabulary. Guiding Questions for Assessment • Does the child use mathematics vocabulary like, more/less?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 3.25 Identifies 2-D shapes by tracing the faces of 3-D shapes on a plane surface	• 2-D shapes • Papers and pencils for tracing the shapes • Shape puzzles in three to four pieces • Shapes for seriation/ ordering • More advance shape cards • Shape lacing card • Blocks in different shapes and numbers printed on it • Loose shape cut-outs for creating patterns and design • Shape templates and stencils for tracing • Stories, songs and rhymes on shapes	• Making the children sing rhymes / poems on shapes. • Providing opportunities to the children for: - identify and name the children to objects/ pictures having different shapes (recapitulating what they have done in Preschool -1 and introducing new shapes). - observing, exploring and identifying more shapes on shape cards, in the immediate environment. - identifying and naming more shapes using shape dominoes, shape cards. - completing more advanced shape puzzles. - talking about geometric shapes during block building. - Playing with shapes (cutouts, dominoes, puzzles, etc.). • Conducting nature/field walks and asking the children to look for shapes in the environment. • Providing music, movement activities and experiences to explore space. Guiding Questions for Assessment • Does the child fix-in the shape puzzles? • Does the child identify the shape of an object e.g., when asked, "Look at this ball, what shape is it?"

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 3.26 Uses vocabulary like half roti / half glass of water, etc. in daily context	- Stories/Poems using such vocabularies - Daily circle time interaction - Small group activities especially in discovery area, manipulative area and during mealtime	- Providing opportunities to the children for: - drawing different shapes - colouring in a given outline. - naming and describing shapes. - Making the children understand through hands on and concrete experiences the concept of half and full. - Talking about sharing food, toys, storybooks to help children imbibe good values. - Planning lots of pre – number games and activities. - Making children play memory games – e.g., “What is missing”? and the game of ‘categorise’ using any concept e.g., shape, vegetable etc. Guiding Questions for Assessment - Can a child show halves and each piece as s/he peels an orange? - Can the child identify half? - Does the child share food items with her/his peers?
Learning Outcomes	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 3.27 Creates new patterns with leaf printing or thumb printing, etc.	- Environmental materials like twigs, leaves, pebbles, flowers, pinecones, shells, feathers and other play kitchen gadgets etc. - Ink pad - Poster /powder colours - Variety of papers - Pattern making cards	- Providing opportunities and activities for: - completing the sequence of a pattern-e.g., big leaf, small leaf, big leaf, small leaf and so on (A, B, A, B pattern). - placing/arranging objects/pictures in order (from left and proceeding towards the right). - comparing objects and seriating them in order of size, height, distance, etc. - using language related to position of objects up-down, front-back), etc. - arranging sequential thinking cards e.g., bathing sequence, germination, etc. - art activities like, leaf impressions, finger painting and thumb printing, etc.

Learning Outcomes	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
		Guiding Questions for Assessment • Does the child extend the pattern on her/his own? • Does the child create and extend only one type of pattern? • Does the child also describe her/his pattern? • Does the child use objects and other manipulatives?
Learning Outcomes	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 3.28 Draws inferences from situations that surround her/him for example: I have more red pencils than blue	• Stories and poems • Riddles • Collection of open-ended questions • Relevant discussions during circle time and play in manipulative area	• Providing opportunities for individual, small group and circle-time activities. • Encouraging children to talk about their collection of toys and telling which is more/less (in terms of colour of the toys, types of toys, etc, • Create a "My Number Collection" book with self-drawn pictures. • Intentional conversation using mathematical vocabulary, creating role play and drama situations with planned dialogues. • Making the children solve and create simple riddles. Guiding Questions for Assessment <i>Refer to 3.13 and 3.14</i>

Learning Outcomes	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 3.29 Recites the names of the days of the week and months of the year	• Rhymes/poems • Riddles • Display of daily schedule chart • Calendar with slider and using it daily during circle time • A poster or chart with days of the week and names of the month boldly written	• Making children sing rhymes on days of the week and months of the year. • Doing calendar related activity during circle time. • Writing the date and day in front of the children and drawing children's attention towards it. • Making a small calendar grid (with a cardboard) and attaching it to the calendar. Letting one child (turnwise) move it to the particular date/day, as a part of the circle time calendar activity. • Writing the date on children's worksheets in front of them. • Displaying the date and day chart and a number calendar. Guiding Questions for Assessment • How are children talking about dates/days and how are they moving the grid to the date/day slot? • How does the child count the numbers? • Is the child able to name the days of the week and months of the year?

Learning Outcomes	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 3.30 Describes usage of commonly available technological tools around her/him	• Developmentally appropriate tech tools and use of these under adult supervision • Smart Board, play phones, walkie talkie, old digital cameras etc. (age appropriate). • A Computer (should be in a separate enclosure / activity area where children have the freedom to operate the computer) – to be done strictly under adult supervision. • Appropriate e-content or digital stories (followed by the concrete /read aloud method of storytelling). • Child-friendly programmes (age and developmentally appropriate software) for different concepts • Action songs for reinforcement • Reading and Mathematics readiness software and extended learning and reinforcement • Adequate adaptive devices for children with special needs • Computer related accessories such as speakers, digital cameras, blank CD's etc. Printer, • Paper for printing • Drawing and painting software • Rhymes and stories • Inexpensive cameras attached to the computer • Printable worksheets for children	• Encouraging the children to use computers to explore new topics of their interest (child's level). Moving objects on a computer screen. • Helping the children to operate through a software programme. • Providing opportunities to the children to: - work with other children on a programme. - strengthen fine motor skills (as they handle the mouse, keyboard and coordinate the cursor). - work on a computer as it promotes fine-motor development and eye-hand coordination. - use the touch screen e.g., putting all the red apples in a red basket, green apples in a green basket. - use one-to-one correspondence matching activities e.g., 'finding one pair of trouser for each person'. - explore language and literacy related software (both teacher initiated and child initiated). - listen to and watch movies based on fairy tales/ stories. - use computer related terms such as cursor, mouse, key board, printer. - use the keyboard (clicking on the keyboard and typing letters). • Making use of language and literacy related software (that can extend vocabulary, read and highlight spoken text). • Making available reading readiness and mathematics readiness software so that children can make connections between speech and print. • Providing opportunities to the children for using paint brush tool while drawing or painting, moving the cursor onto the picture of a box and clicking it, using a mouse to move the <i>cursor on the screen</i>. • Allow children to print their favourite pictures and create a class book.

Learning Outcomes	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
		Guiding Questions for Assessment • Does the child use technology related vocabulary? What are these words? • In what context does s/he use them? • Does s/he show interest towards such devices and tools? • Is the child exploring these tools? • Is the child's fine motor skills advancing?

EVS as a separate subject starts in Class III while in Classes I and II, it is integrated in Languages and Mathematics. However, elements of EVS are integrated in all activities and experiences from Preschool 1.

POINTS TO CONSIDER

- ✓ The codified numbers of learning outcomes should not be treated as hierarchical or stand-alone. In each class, across the foundational stage, the experiences and activities may be provided in an integrated manner, simultaneously across the learning outcomes and developmental goals.
- ✓ Activities/experiences designed and targeted for a particular Learning Outcome, for a particular class, will also address a number of other Learning Outcomes, within and across the three developmental goals (domains subsumed).
- ✓ The children must be observed in different settings/locations (e.g., how does she/he interact individually/in small group/large group, etc.).
- ✓ Assessment should not be based on only one or two Learning Outcomes, rather, it should be viewed holistically.
- ✓ Children's learning needs to be assessed in a progressive manner (the term wise progress of the child in each domain should be in a positive direction).

CLASS - I

***Competencies
&
Learning Outcomes
with
Ideas for Pedagogical
Practises and
Assessment***

***Early Learning
is most meaningful when it is integrated across the
Three Developmental Goals***

DEVELOPMENTAL GOAL 1

CHILDREN MAINTAIN GOOD HEALTH AND WELL-BEING (HW)

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 4.1 Recognises different body parts and uses various body movements	• Child's height mirror • Circle time for discussion and free talk time • Poster on body parts (with labelling) • Riddles on body parts • Body part puzzles • Tactile toys • Cutouts (flash cards) of external body parts • Show and tell activity • Storybooks • Story - The Monster Family • Collection of relevant Rhymes • Worksheets on Body Parts for children to label • Sight word chart • Action command cards	• Discussing the functions of each part of the body (external body parts) with the children during circle time. • Playing the game 'Simon says': (starting with children touching one part of their body. The game can gradually be made complex, e.g. touching two parts of the body at a time. This encourages body awareness and self-regulation). • Involving children in activities such as, 'Mirror, Mirror on the Wall' (ask one child to come in front of the mirror and perform any action with any part of her/his body. Then the next child can come, mimic the first child and also perform a new action. After five children have done this, the activity can be started all over again. As a variation, one child can perform an action and another child can copy the same). • Colouring within the outline of a child. Guiding Questions for Assessment • Does the child recognise and name the different body parts? • Does s/he use various body movements? • Does the child follow instructions during the movement activities? • Does the child name and point out the body part on the poster? • Does the child use various body movements during indoor and outdoor games?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 4.2 Demonstrates love and respect for immediate and extended family and neighbours	• Value based stories on family/neighbourhood • Storybooks on Families • Relevant Videos • Family songs/rhymes • Circle time discussion • Family photo/album, • Collection of favourite objects/ toys • Open-ended questions about daily rituals • Parent to come to the classroom and play games, • Worksheet on 'F f' for family • Picture reading poster on family work/their functions etc. • Flash cards related to family/neighbours	• Having an open conversation with the children, during circle time, about the elders in their family/ extended family, school, etc. (discuss that the family is all about loving and caring for one another just as we do in school. Show through pictures that not just people, all living beings including animals, birds and insects have families too). • Using songs, rhymes, and storybooks to teach children about loving and respecting their family. • Asking the children to learn from watching their elders, to always be polite, respectful and caring towards others. • Using picture reading of charts of families helping/respecting each other to reinforce family values. • Guiding children to make a family tree by pasting pictures of each member of the family. Guiding Questions for Assessment • Does the child demonstrate love and respect for her/his immediate and extended family and neighbours? • Is the child using the appropriate words and sentences while picture reading? • Does the child participate in songs and rhymes? • Is the child able to create stories about a family?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 4.3 Takes part in exercise, play and movements for fun and exercise	• Fun games such as 'I sent a letter to my father', 'Hop Scotch', 'Dog and the Bone', 'Seven Tiles', 'Catch me if you can', etc. • Yoga, Aerobics • Outdoor Play equipment such as – Jungle gym, slides, footballs and balls of various sizes, crawling tunnel • Musical instruments like drums, tambourines, etc. • Collection of developmentally appropriate fitness and music and movement activities • Physical and motor games like obstacles race, four corners, run and catch/touch the number/letter	• Making the children go outdoors and playing games like, 'I sent a letter to my father', 'Hop Scotch', 'Dog and the Bone', 'Seven Tiles', etc. • Encouraging children to do yoga/ aerobics, free hand exercises regularly. • Playing music and letting children dance on their own. • Providing an opportunity to the children for free play on the swings, jungle gym, slides, etc. • Planning for rhythmic creative music and movement activities for the children. Guiding Questions for Assessment • Does the child take part in play and movements for fun and exercise? • Does the child display coordinated body movements? • Does the child enjoy participating in fun games and exercises?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 4.4 Follows three to four instructions/ rules at a given time	- Games to follow instructions like - 'Blindfold', 'Simon Says' 'Chinese Whisper' and so on - Drawing game worksheets full of shapes like square, circle, rectangle, and triangle with instructions to colour the square - red, circle - yellow, rectangle - green, triangle - blue, red light - green light, etc. - Display of job responsibility chart with pictures as covers - Display of daily schedule chart	- Blindfolding any one child who must listen carefully and follow the instructions given by the teacher to find something (e.g., go 5 steps forward, then 3 steps to the left, etc.). - Playing games such as 'Simon Says', gradually increasing the length of the command (e.g., "Simon Says shake your right hand", "Simon says shake your right hand, then touch your belly"). - Playing 'Chinese Whispers' (make the children sit in a circle. The adult may whisper two or three sentences to one child and ask her/ him to tell the same to the next child. Listen to what the last child has to say). - Describing a picture that the children cannot see and asking them to draw the picture from the verbal instructions. Guiding Questions for Assessment - Is the child able to follow all the instructions given before a game in a given time? - Is the child able to follow the instructions given during a game? - Is the child able to draw a picture from verbal instructions?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 4.5 Shows adaptability to any changes in routine, makes adjustment	• Songs and rhymes • Finger plays • Small play in the interest areas • Display of daily routine chart • Display of job responsibility chart • Music and movement activities • Print and numeracy rich classroom	• Helping the children understand that sometimes, there could be changes in the routine and that they have to learn to adapt and adjust. Ensure that the process is slow so that children are not burdened. • Discussing with the children (by allowing the rules to be bent or softened every now and again, a child can learn that while it is not a permanent change to the rules, this semi-permanent change comes with new challenges). • Allowing for the children's concerns to be heard and solutions to be given. • Providing opportunities to the children to make their own choices. • Telling the children stories on changes in life and how to adapt to them. • Praising the children and motivating them when they show adaptability and try to adjust to changes. • Singing songs, playing word or guessing games, reciting rhymes, or doing finger plays with the children. Reading aloud from storybooks • Doing activities like, join the dots, find the difference, crosswords puzzles, riddles etc. • Watching/observing the children carefully and if they are unable to adapt to changes giving them more opportunities and time for such experiences. Guiding Questions for Assessment • Is the child able to keep up with the transitions between activities? • Does the child like to follow the same routine every day or is s/he ready for changes in the routine activities?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 4.6 Shows increased attention span; chooses and completes an activity started	• Objects for creating DIY toys • Colouring books • Weaving board • Beads and string • Jigsaw puzzles • Card games such as Memory game, spot the difference • Storybooks • Riddles • Lego • Story cards • Dance-drama activity • Worksheets (related to different concepts)	• Playing with the children like solving jigsaw puzzles, memory games, spot the difference, Lego, complete the story, treasure hunt, etc. • Reading to the children age-appropriate storybooks that will help the children focus and build their attention span. • Including physical exercises in between activities to break the monotony (e.g. play the game sit/stand, extend it to raise your right hand or left hand etc.) • Using dancing games to improve the concentration level of the children. • Giving children weaving, stringing, drawing and colouring activities for building concentration. They can also make and create DIY toys and fixing puzzles and Lego blocks. • Encouraging the children to complete an activity they have started • Making the children complete incomplete stories and arranging the story cards in a sequence. Guiding Questions for Assessment • Does the child show increased attention span while doing activities? • Does s/he complete the activity started by her/him in a given time? • Does the child get distracted easily? • Does the child show interest in the physical exercises conducted in between activities to break the monotony?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 4.7 Expresses her/his emotions in socially approved ways e.g., "stops crying and explains why s/he was crying"	• Songs and rhymes like - "If you are happy and you know it, clap your hands" (stomp your feet, jump up high, turn around, give a smile, laugh out loud). • Picture of different emotions • Child height mirror • Relevant storybooks based on values and emotions • Self - regulation activities during circle time	• Singing songs and reciting rhymes to learn about different emotions and ways to express them through songs and rhymes. • Playing games and doing activities with the children to learn about feelings. • Using circle time to talk to the children about different feelings and how these can be expressed. • Learning about coping strategies • Asking the children to name different feelings • Using story books that talk about expressing emotions and feelings. • Dramatizing expressing of emotions • Showing the children pictures of each emotion. • Making a dice of different emotions and asking each child or a small group of children to roll the dice and then express the emotion on the side of the dice that is facing upwards. • Making the children match emoji emotions on worksheets/flashcards. Guiding Questions for Assessment • Does the child express her/his emotions in socially approved ways within and outside the classroom? • Is s/he able to express her/his feelings of a particular emotion? • Does the child identify and name the emotion picture cards?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 4.8 Plays/participates in activities, makes friends according to their own choice, preference and interest	• Small group play in activity areas • Different types of outdoor games: group or individual as per children's choice • Board games • Puppets • Dramatisation on familiar rhymes • Songs and rhymes • Jigsaw puzzles • Using Internet Areas: building towers, bridges with blocks in small groups • Value-based stories (on friendship, care, helping each other) • Age-appropriate toys and loose objects to create and construct	• Reading to the children stories on caring, sharing and friendship. • Giving opportunities to the children to participate in developmentally appropriate activities like playing lots of indoor and outdoor games both individually and in groups. • Making the children sing rhymes and songs together, listen to/reading stories and ask open ended questions like, 'What do you think the man wanted to do?' • Encouraging the children to make friends with children of similar interest. • Giving opportunities to the children to choose the activity they would like to do as well as the people with whom they would like to interact with. Guiding Questions for Assessment • Does each child play/participate in activities as an active partner? • Does s/he make friends of her/his own choice, preferences, and interests? • Does the child participate and share toys and materials with her/his friends? • Does the child prefer her/his choice for any particular interest area? • Does the child use 'I want', 'I like' kind of sentences?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 4.9 Deals with minor conflicts that arise during play or activity and suggests solutions	• Open ended questions/picture reading • Discussions on conflict resolution, group activities • Poster making, drawing and colouring • Problem solving activities • Small group play in interest areas • Relevant collection of stories on problem solving etc. • Charts on prosocial behaviour	• Helping the children understand that when a conflict arises, they should first calm down, state and understand the problem and be empowered to deal with the conflict. • Encouraging the children to use language that helps to problem solve and not aggravate the further. • Giving opportunities to the children to learn from their own mistakes. • Modelling of prosocial behaviour for the children to see and inculcate. • Talking about a conflict and reading age-appropriate books on how to solve conflicts. • Picture reading and making charts on pro-social behaviour and going through it with the children periodically. Guiding Questions for Assessment • Does the child deal with minor conflicts that arise during play or activity on a day-to-day routine? • Is the child able to suggest solutions? • Is the child able to answer open-ended questions or conflict situations?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 4.10 Plays or works cooperatively and enjoys playing/ working with others, involves all and takes initiative in framing rules for games or play activities	• Games like ludo, monopoly and other board games • Outdoor play equipment, • Dramatization, puppetry, • Group and individual games • All indoor and outdoor group games	• Encouraging the children to wait patiently for their turn to come be it in work or in play. • Cooperate in play through dramatisation. • Involving the children in classroom tasks where they have to work collectively. • Giving opportunities to the children to get involved in a lot of group activities/games. • Reading stories to the children related to cooperation and teamwork. • Using circle time to talk to the children about playing or working cooperatively, encouraging the children to take initiatives to frame rules for group activities or games. • Encouraging the children to play games where they have to follow rules and wait for their turn. Guiding Questions for Assessment • Does the child play or work cooperatively with other children? • Does she/he enjoy playing/ working with other children? • Does she/he take initiative in framing rules for games or play activities? makes? • Does the child wait for her/his turn during play and other activities?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 4.11 Extends help, cares and shares play and learning material	• Materials to create and construct • Board games, toys, outdoor play equipment • Storybooks about sharing and caring • Chart with the names of all the children • Flash cards and picture books, smiley stickers, poster, reading material collage making • Painting activity with only one bottle of each colour • Games where taking turns is inbuilt, sharing day (Refer to HW 4.8 to HW 4.10)	• Discussing with the children during circle time why sharing is good for the children, praising the child who shares and cares for others in front of all the other children (to appreciate the good sharing habits in other children). • Playing board games or outdoor games with the children that involves sharing and caring. • Reading aloud stories about sharing, caring and helping others. • Making a chart with the names of the children and when they show concern or share, give them a smiley. At the end of the week get the children to clap for the child with the maximum number of smileys. • Discussing that caring for others is very important. Examples can be given through flash cards or picture books. • Having a 'sharing day' where the children bring toys, food, storybooks, etc. from home and share these with their friends. <i>Also refer to the pedagogical processes suggested under HW 4.8 to HW 4.10</i> Guiding Questions for Assessment • Does the child extend help, care and share play and learning material with others? • Does the child understand the meaning of sharing and caring? • Does s/he share her/his toys and other materials with others?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 4.12 a Shows cooperation in group activities	- Group activities in the interest areas, science centres - Storybooks - Group games - Painting activity - Yoga - Picture talk - Tug of War - Classification activities in small groups - Human letters, group quiz, problem solving activities <i>Refer to HW 4.8 to HW 4.11</i>	- Helping the children to learn about cooperative projects by creating work/play teams for projects in learning centres and outdoor activities. - Teaming up children with diverse skills and needs who can learn from each other. Some children will naturally act as models, leaders, and guides for others. - Doing problem-solving activities in science such as building the tallest possible structure using Jenga tiles/blocks, etc. - Providing opportunities for group reading, group games and other group activities to teach and encourage cooperation. <i>Also refer to the pedagogical processes suggested under HW 4.8 to HW 4.11</i> Guiding Questions for Assessment - Does the child show cooperation in group activities? - Does s/he participate willingly in all the group activities?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 4.12 b Respect's others' rights and culture, diversity, sensitive to special needs	- Books, smart board - Dolls representing different parts of India - Internet information - Dresses of the different States of India - A classroom day, a school day, parade of different states of our country/Indian cuisine day, Art exhibition - Value based stories like the Panchatantra tales, folk songs, local games, etc	- Helping children learn to respect other cultures and diversity; being sensitive to special needs and identifying ways in which we are all more alike than different. - Organising discussions during circle time using picture books, charts, or the smart board by highlighting similarities and differences. - Helping the children to understand that every individual has rights and that we must respect these; that we need to be sensitive to children with special needs and must not hurt their sentiments. Inclusive education means that students can access and fully participate in learning, alongside their similar-aged peers, supported by reasonable adjustments and teaching strategies tailored to meet their individual needs. - Learning either through books or the internet about the different types of people that live around the world - Encouraging children to role model from their own culture as well as from other cultures. - Organising fancy dress activities where the children come dressed as people from different parts of the country. Guiding Questions for Assessment - Does the child understand that every individual has rights just as she/he does? - Does she/he respect others' rights, culture, diversity? - Is she/he sensitive to children with special needs while sharing experiences, doing activities, sharing information? - Does she/he understand the similarities and differences in people?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 4.13 a Maintains hygiene and cleanliness and healthy eating practices independently	• Word wall having related words • Collection of songs on the topic • Pictures, storybooks, smart boards, flash cards, real fruits and vegetables • Pictures demonstrating the way to wash hands, how to brush teeth • Dentist's visit to the school • Poster making group activity • Collage of different meals like breakfast, lunch and dinner • Materials/pictures for collage making • Circle time discussions • Quiz questions on hygiene & cleanliness • Games like 'Dumb Charade' • Dustbin (DIY) making activity	• Ensuring that children bring healthy food to school. Talk about junk food. • Checking the nails, ears and hairs of children fortnightly. • Inviting a dentist/ doctor to the class to talk to the children about dental and body hygiene. • Singing with the children songs on healthy eating, hygiene and cleanliness. • Encouraging the children to follow proper health and hygiene practices such as: - brushing the teeth twice a day, once in the morning and once before going to bed (is extremely crucial and help in keeping germs and diseases at bay). - washing hands regularly (prevent children from getting sick). - taking care of one's hair (talk about problems like dandruff, lice, and infections of the scalp). - blowing the nose gently when it is blocked (makes breathing easier) and putting used tissues in the bin. Washing hands afterwards. - covering the mouth with a tissue, or handkerchief when sneezing or coughing. - eating nutritious food as a healthy mind lives in a healthy body. - using a sanitizer when not in a position to wash hands. • Helping the children to make a dustbin with waste material for the classroom. • Holding a quiz on Health and Hygiene. Guiding Questions for Assessment • Does she/he understand the concept of good hygiene and cleanliness? • Does the child follow good hygiene? • Does she/he know the difference between healthy and junk food?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 4.13 b Identifies locally available food items, avoids wastage and understands the importance of food and water as a source of energy for work and play	• Fresh fruits and vegetables • Picture cards of fruits, vegetables, food items • Picture of sources of water • Information from internet, smart board activities during circle time on these concepts • Songs/Poems in this theme (food) • Picnic with locally available food • Collage on sources of water • A debate on water as a source of energy for work and play • 'Show and tell' on locally available foods • Group discussion on what we would do without water • Water play in the wet area • Discussion on mealtime and table manners	• Showing all kinds of fresh fruits, vegetables in the classroom and discussing which vegetables need to be cooked and which can be eaten raw and semi cooked. Telling the children the importance of eating seasonal fruits and vegetables. • Discussing with the children the reasons why we need to wash vegetables and fruits thoroughly before eating or cooking. • Helping the children understand during circle time that there are so many people in this world who do not get food to eat, hence, we must not waste food. • Exposing children to local sources of water, through pictures and concrete examples. • Learning about the important uses of water, how it is a scarce natural resource and that we must not waste it. • Explaining to the children how food gives us energy which we use to work and play. • Making the children sing songs and recite poems on food. They can be asked to create small riddles on fruits and vegetables. • Motivating the children to talk about local foods, fruits and vegetables as a 'Show and Tell' activity. • Discussing and demonstrating the correct way of eating and following etiquettes. Guiding Questions for Assessment • Does the child identify locally available food items? • Does s/he avoid wasting food? • Does the child understand that food helps her/him to grow? • Does the child demonstrate confidence during the 'Show and Tell' activity?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 4.14 Exhibits awareness about good touch and bad touch and expresses her/his feelings with trusted adults and maintains distance from strangers	• Picture books • Narratives/videos on good and bad touch • Smart boards, charts showing some messages related with this theme • Internet-information • Discussions, story cards on good touch and bad touch, • Collection of such appropriate stories with illustrations • Orientation of parents/families • Visit of experts to school ☛ During discussion, if a child does not make eye contact, talk to her/him separately.	• Discussing with the children that their body is very special and they need to look after it. • Emphasise on the fact that some parts of their body are very private and should not be exposed or touched. • Narrating examples of good touch and bad touch. If they feel uncomfortable when someone touches them they must shout out, 'no, no, no' loudly so that some other adult can hear them or run to a person they know or feel secure with. • Apprising children that they must confide in either their teacher or their mother in case they feel uncomfortable or uneasy when someone touches them and feel its a bad touch. • Creating awareness in the children about interacting with strangers and people they do not like to trust. • Reading aloud stories on the topic and showing the children videos and films to create awareness. • Organising visits of experts from the Police stations, Social Welfare Boards or Doctors to talk to the children about keeping themselves safe and secure. Guiding Questions for Assessment • Does the child exhibit awareness about good touch and bad touch during discussions? • Does s/he express her/his feelings with trusted adults and maintain distance from strangers?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 4.15 Identifies common hindrances to safe play or common mishaps at school, playground, road, and home, takes measures to prevent such accidents	• Sight word wall • Circle time activities such as songs/rhymes, stories, poster making • Pictures of electrical appliances • Pictures/visuals of ambulance, police car, fire brigade, etc. • Problem solving, creative thinking, creative expression activities • Role play on fire fighters • Make all the road signs and show and tell • Draw emergency vehicles • Walk around the school • Doctor's visit • Doctor's kit for role play • First Aid Kit	• Explaining and discussing with children during circle time why they should not push or play rough on outdoor play areas like slides, jungle gym or the playground. • Discussing about road and home safety rules and how to prevent accidents. • Doing mock drills in groups to make the children think and discuss, how to prevent any accidents at home, on roads, in schools. • Developing awareness about emergency numbers and making sure that the children know them such as ambulance, fire brigade, police station, etc. by heart and their significance. • Apprising the children about careful use of electrical appliances or plug points and advising them to stay away from them, and only use these under the guidance of elders. • Organising activities for the children to: - role play on fire fighters - make all the road signs and 'show and tell' - draw emergency vehicles and write their emergency numbers - walk around the school and check for things that are unsafe for children - a doctor to visit the school and talk to invite the children about safety rules and first aid (preferably a parent) - make safety posters by pasting pictures - sing road safety songs - match simple road signs. Guiding Questions for Assessment • Does the child identify common hindrances to safe play? • Is she/he aware of the common mishaps at home and school, on the playground, on the road, and take measures to prevent such accidents? • Does s/he know to follow the road safety and playground rules?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 4.16 Displays strength, judgment and decision-making in gross motor skills	• Variety of small balls • Games like - musical chairs, football, hopscotch, hit the target, throw a ball into the clown's mouth, nine rolling pins and so on • Old newspaper • Balance board • Skipping rope • Outdoor play equipment • Collection of gross motor activities	• Providing action games/activities for gross motor skills like - running fast, picking up a small ball from the floor/playground, turning around fast and running back without falling, skipping, walking on a balance board. • Asking the children to jump forward, taking off with both feet and landing on both feet. • Organising for the children to play game like musical chairs, football, hopscotch, nine rolling pins, etc. • Providing the children with old newspapers for making paper balls of various sizes. • Asking the children to jump over an object that is ten inches high, taking off with and landing on both feet. • Making the children stand on one leg for 10 seconds without losing balance or holding other's hands for support. • Drawing a circle and asking the children to stand around it and play the game in/out with them. • Asking the children to hop on one foot for twenty steps or more without losing balance. • Making the children take decisions during games and accepting their own mistakes. • Helping the children make their own simple rules for games so that the children are able to judge the right and wrong decisions. Guiding Questions for Assessment • Does the child display strength, judgment and decision-making in gross motor skills while doing activities? • Does s/he have the ability to make the right decisions on her/his own or with the support of elders? • Does s/he have good gross motor skills?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 4.17 Participates actively in music, dance and creative movements like role play, dramatisation, etc.	• Props like paper streamers, etc. • Action songs • Musical instruments • Videos • Stories for dramatisation • Collection of rhymes/songs/poems • Improvised musical instruments (DIY) to be made by children • Old dresses/clothes, sunglasses, old artificial jewellery, shoe-boxes, caps, wigs, shoes, register, writing tools, purses, mirror, pretend food, spoons, aprons, kitchen accessories, child-sized tables and chairs, pans, glasses, etc.	• Encouraging the children to participate and perform simple dance steps and creative movements using props like paper streamers, ribbons, etc. • Providing opportunities for the children to make their own musical instruments using no-cost and environment friendly materials (e.g., a match box filled with seeds/pebbles can be used to shake in rhythm while singing rhymes, etc.) • Creating situations to differentiate between various sounds: → High-low → Loud-soft → Fast-slow → Smooth-harsh • Making the children play simple musical instruments. • Planning for dramatisation of stories on that interest the children and providing for role play using the materials given. • Memorizing/reciting at least six to seven lines at a time, using voice modulation and learning to know when it is her/his turn to speak. Guiding Questions for Assessment • Does the child participate actively in music, dance and creative movements like role play, dramatisation, etc.? • Does s/he have coordinated movements? • Does the child differentiate between different sounds?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 4.18 a Displays fine motor skills with accuracy and control, engages in art integrated activities/drawing/colouring, collage making, etc.	• Play dough/clay • Water play • Sand play • Sewing and lacing cards • Multi-pieces FLN related to puzzle • Peg toys • Dressing frames • Number and letter puzzle • Number and letter cut outs to create collage • Concrete materials and toys • Writing and drawing/painting tools like crayons, water colours, brushes, pencil, paper of different types, scissors, glue, thread, spray • Shape cutouts	• Planning activities for developing fine motor skills, like: - Drawing recognizable pictures - Colouring within the lines and with a one-sided stroke - Holding a pencil with a 3-finger grasp - Writing letters and numbers independently with clear handwriting - Cutting different shapes using scissors - Making collages by using pictures and gluing and pasting them independently - Doing tearing and pasting activities independently • Making the children do all types of printing activities independently using paint and their fingers, thumb, palm and thread. • Stringing beads with small holes • Making the children mould clay and create different models of fruits, vegetables, houses, animals, etc. • Encouraging the children to make pictures and number related posters, number calendar, etc. Guiding Questions for Assessment • Does the child display fine motor skills with accuracy and control? • Does s/he engage in art integrated activities/drawing/ colouring, collage making, etc.?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 4.18 b Uses coordinated movements for using scissors, buttoning, shoe lacing, writing	• Dressing frames like - buttoning shirts, using the hook, using the zip • Child - friendly scissors • Shoe lace frame board • Old magazines • Lacing and weaving board • Coloured chalks and pencils • Writing board/slate (Refer to HW 4.18 a)	• Providing the children hands-on-activities such as: - Combing their hair in well-coordinated movements. - Learning to button their shirts, tying shoelaces, using the hook, zip and press buttons. - Learning to use scissors to cut pictures from old magazines or newspapers beginning with a straight line to more complicated shapes. - Writing neatly and correctly at least six to seven sentences at a time with a chalk or pencil. Guiding Questions for Assessment • Does the child use coordinated movements for using scissors, buttoning, shoe lacing, writing? • Is s/he able to write at least six to seven sentences at a time, neatly and correctly?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 4.18 c Grips pencil correctly, uses smooth, controlled finger and hand movements that also require eye-hand coordination (e.g., pours water into a water bottle with a small opening with little spillage, traces shapes)	Refer to HW 4.18a and 4.18b • Concrete materials and toys for play • Multi piece puzzle • Scissors • Paper • Bottles • Water • Colours • Fork and spoon • Napkin • Variety of paper • Variety of writing and painting tools	• Setting up activities for the children that require eye-hand coordination like holding a pencil with a tripod grip (using the thumb, index and middle finger). • Ensuring that children having good and smooth pencil control. • Generating movement with the fingers and not the wrist while writing, colouring or drawing. • Asking the children to draw detailed pictures with recognisable objects. • Making the children pour water from one bottle to another without spilling, completing a 20 piece puzzle, cut neatly around shapes, etc. • Demonstrating the use of a fork and spoon for eating. Guiding Questions for Assessment • Does the child grip the pencil correctly? • Does she/he have good eye-hand coordination (e.g., pour water into a water bottle with a small opening with little spillage, traces shapes)? • Does she/he use smooth, controlled finger and hands movement?

NOTE: Refer to all the materials/resources along with pedagogical practices from Preschool 1 to Preschool 3 for better understanding and add/use your imagination to further ignite the children's creativity.

DEVELOPMENTAL GOAL 2

CHILDREN BECOME EFFECTIVE COMMUNICATORS (EC)

Early literacy skills

Writing for self-expression

Makes use of her/his knowledge of letters and sounds, invents spellings to write

Makes effort to write in conventional ways

Responds to reading with drawings/ words and meaningful sentences

Writes rhyming words

Writes meaningful sentences using naming words and action words

Writes messages to express herself/himself

Uses mixed language codes

Writes for different purposes in the classroom's activities and at home, such as making lists, writing greetings to grandparents, messages/ invitation to friends, etc.

Key Competencies

Writing with Purpose

FIRST LANGUAGE

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-4.1 Uses own language/school language to express their needs and ask questions to gain information	• Related Storybooks • Circle time • Word wall • Sight word chart • Appropriate riddles on different topics • 'Question cards' with pictures for discussion starter • Information books on various themes like – transportation, plants, nature, ocean life, how things work etc.	• Exposing the children to a variety of information books on various themes and encouraging them to ask and answer questions related to them. • Providing situations for children to converse with peers and teachers in a stress-free and fear-free environment. • Encouraging the children to ask and answer questions after a story session and use phrases like, 'May I..', 'Could you, please....', etc. appropriately using both home and school language. • Using circle time to converse on various topics related to daily events, health, hygiene, values, etc. • Encouraging children to solve and create simple riddles on common objects, animals, plants. • Motivating children to read storybooks to build their vocabulary and expression. Guiding Questions for Assessment • Is the child able to use common phrases apart from the supervised language sessions? • Does the child take interest in answering questions related to stories/information books? • Is the child able to frame questions with clarity? • Does the child use gestures (expression) while asking and answering questions?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-4.2 Selects books from the reading area and talks about/narrates the story with the help of the pictures	• Reading area /Class library with age-appropriate books (storybooks and information books) • Story bags or story baskets • Story cards related to stories books/unfamiliar story • Props and puppets to accompany the story • 'Story-question strips' with pictures • Collection of pre and post story – related activities	• Allowing the children to spend some time in the reading area /class library to encourage them to engage with books both through illustrations and text. Keep changing the books fortnightly. • Asking the children to share their opinions on the storyline, characters or an end to the story that they would have preferred. • Letting the children tell the story to their peers (informal manner), using pictures whenever and wherever necessary. They can be encouraged to use props and puppets during story telling. • Giving a chance to all the children to read out aloud to gain confidence and build expression (Tell the children that story telling is an art which has to be cultivated). • Doing a lot of pre and post related story activities like dramatizing the story, asking the children to narrate the story in their own words or change the ending of the story. They can be asked to illustrate on their own, cover of a story, frame questions on the story, etc. Guiding Questions for Assessment • Does the child visit the reading area? • Is the child sticking to a particular kind of text for a long period of time e.g. reading comics/jokes/riddles only? • Does the child arrange the story cards in sequence and narrate the story? • Does the child show a preference for stories with common themes?

NOTE: It is possible that all children may not show the same level of enthusiasm and/or start reading right from the first day. Teachers are advised to practice patience with such children and allow them to engage with written material at their own pace.

However, if the child continues to exhibit such behaviour for a month, teachers may guide the children to explore various texts/themes/genres.

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-4.3 a Connects personal experiences with the read/familiar stories in their own language and talks about them	- Sequential thinking cards - Familiar <i>Panchantra</i> stories - Story cards - Circle time	- Creating situations for the children to share their understanding the story and also share similar experiences (if any) with others. - Helping the children to enrich the discourse by picking up and including specific instances from the shared stories and connecting these with their real life experiences. - Using circle time for the children to narrate their experiences of events, people, problems with fluency, use of appropriate vocabulary and experiences. Guiding Questions for Assessment - Is the child able to connect the shared story with any real-life event? - Is there coherence of thoughts while she/he is expressing herself /himself? - Does the child show fluency in speech and use appropriate expressions?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-4.3 b Makes some rules for their favourite games	• List of favourite games with pictures • Manuals with rules for some games • Outdoor play equipment and related sports • Vocabulary cards (sports words) • Talking time	• Giving children the opportunity to work in groups, with each group getting to decide their own rules for a game of their choice. They can also invent a new game and make instruction manuals of their own in groups. Provide children manuals with rules for reference. • Familiarising the children through conversation with vocabulary that predominantly consists of sports related terms. • Encouraging children to play games such as, 'Simon Says.....' • Encouraging the children to share their invented game and the rules of the game with other groups and also participate in group activities where they get to follow instructions/pay attention to what is being stated. Guiding Questions for Assessment • Is the child (group task) able to make rules for her/his favourite games independently or with the support of elders?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-4.4 Identifies rhyming words in familiar poems and songs and creates new rhyming words	- Rhyming words picture cards - Display of poems/rhymes with rhyming words highlighted - Objects and toys that rhyme with each other	- Giving the children picture of objects, animals and asking them to pair these with their own rhyming words. - Providing opportunities for the children to observe and 'identify rhyming pairs' as a beginner level activity for this learning outcome e.g., encircling the rhyming words given in worksheets. - Making the children work on tasks where they have to sort/pick suitable rhyming words for the words given to them e.g., matching, multiple-choice questions, etc. or identify words from textbooks/any storybook and writing a word to make a pair of rhyming words. Guiding Questions for Assessment - Is the child able to identify rhyming words in familiar poems/songs? - Does the child create new rhyming words for a given word? - Is the child use pseudo words in different writing activities? <i>Note- Pseudo words, though of no importance linguistically, reflect the child's awareness of language and must be seen as a (good) sign.</i>

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-4.5 Predicts and attempts to make meaning of the text (textbooks and children's literature) by turning over the pages back and forth	• Reading area with children's literature (storybooks, textbooks) • Illustrations/pictures of children's literature (made by teacher or already available) • Old magazines, children's magazines, etc.	• Providing ample scope for children to spend time in the Reading Area handling books, magazines and other children's literature. • Giving opportunity to the children to make guesses about the storyline in the middle of a story. • Organising for the children to work in pairs on stories and discussing the forthcoming events. • Encouraging the children to make guesses about their stories and sharing their guess(es) with the rest of the class. • Creating situations for the children to make sense of new words using the given context e.g. turning over the pages back and forth and rereading the text and observing illustrations. Guiding Questions for Assessment • Is the child able to predict and attempt to make meaning of the text?

NOTE: Use of popular texts must be avoided and new books introduced as there is a high chance that the children, already being familiar with popular texts, may stick to the endings they already know of.

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-4.6 Relates the picture with the text to predict and understand NOTE: Avoid stepping in while children are in the middle of deciphering a word/phrase and/or reflecting over an illustration.	- Picture books - Picture reading posters - Labelling in the print-rich classroom environment	- Giving the children opportunities to explore books with illustrations as per the reading level of children. - Allowing children to spend some time on silent reading on a daily basis, letting them interact with different texts and work out the association between the pictures and the texts while reading. Guiding Questions for Assessment - Is the child able to make guesses about a word/phrase on the basis of corresponding picture(s)? - Is the child able to make connections and weave in her/his observations of pictures in the form of a single story?

Learning	Suggested Learning	Suggested Pedagogical
ECL1-4.7 Talks about birds, animals in their surroundings (home, school, neighbourhood) and writes a few words about them by using invented spelling/ conventional writing	- Old magazines - Nature walk - Flash cards - Writing tools, notebooks, papers (lined and unlined)	- Taking the children for nature walks on a weekly/fortnightly basis to observe plants, animals and other objects in their surroundings. Have a detailed discussion about their experience and motivate them to talk about it individually. They can also share their written experience with the class. This will help them develop confidence and speaking skills. - Asking children to pay attention to any one thing/object during their walks and sharing the information with their peer group. - Encouraging children to note down their experience(s) in the form of a drawing, prose or verse. Guiding Questions for Assessment - Is the vocabulary used by the children related to Environmental Science? - Does the child talk about familiar birds, plants, animals in the surroundings? - Does the child write a few words about them?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-4.8 Shows awareness of figures of letters and sounds while reading stories, poems and makes use of it while writing NOTE: Some children may exhibit writing styles different from the conventional ones. For such children, teachers may create small groups to focus more on writing the letters.	- Letter and number cutouts - Letter-sound corrections worksheets - Letter-sound correspondence charts - Related storybooks and poems - Writing tools - Lined and unlined papers	- Giving children the opportunities to participate in different activities such as: - frequently organised shared reading sessions followed by reading aloud sessions. - writing sessions where children get to write letters. e.g., writing the first letter of the word 'mango' in order to associate the picture with the letter. - using sandpits, etc. to make the writing activity more fun or interacting more with letters, after getting familiar with the alphabet, especially the ones which often become a part of mirror write/reverse letters e.g., writing b as d and vice-a-versa. - Asking the children to interpret unfamiliar/new words on their own/in their group. Guiding Question for Assessment - Does the child show awareness about figures of letters and sounds while reading a story?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-4.9 Labels the self-drawn pictures and the pictures made available to them (invented spellings) NOTE: A chart representing grapheme-phoneme (letter-sound) correspondence in consonants may be shared with the children.	- Writing and painting tools - Variety of papers - Pages from children's magazines - Newspaper (Children's section) - Body Parts chart displayed - Child's height mirror - Word wall - Sight-word chart	- Creating scope for the children to label things/objects they see around them, their drawings and other pictures in magazines, newspapers. - Asking the children to label using the first letter of the word e.g., writing the first letter 'T' for 'Tag'. They can use invented spellings provided it makes sense. Guiding Questions for Assessment - Does the child display knowledge of grapheme-phoneme (letter-sound) correspondence? - Is the child able to invent spellings on her/his own/with the support of elders?

SECOND LANGUAGE

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-4.1 a Listens to English words, greetings, polite forms of expression, and responds in English /home language like 'How are you?', 'I'm fine.', 'Thank you', etc.	• Related word wall - Toy - telephone • Sight word chart • Collection of different words written on greeting cards, storybooks • English book (For Beginners) • Flash cards with a wide range of pictures and words • Vocabulary related games and activities • Collection of child-friendly English language related activities	• Creating situations where the children can use expressions that are a part of day-to-day life like, Thank You, Sorry (both in their home language and English) with other people. • Encouraging the children to express themselves, for example, speaking out aloud in front of the class during circle time, whispering/talking using a toy-telephone, conversing in different settings, doing mock exercises using polite words, reciting simple, short English rhymes and practicing simple English phrases, including the daily schedule and different themes. • Playing games like – English 'call and response prompts' such as, 'everybody clap your hands and eyes on me'. • Creating a daily routine, adhering to it and prioritising teaching-learning of English vocabulary. Guiding Question for Assessment • Is the child able to use polite words (expression) in English as well as in the home language in various situations?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-4.1 b Talks about the available print in the classroom.	• Alphabet and number chart • Storybooks • Reading area • Labelled materials/boxes/shelves • Logos and signs • Name cards	• Creating a print and numeracy rich environment for children to observe, explore, identify. Displaying a variety of storybooks, magazines, children's literature. • Giving the children the opportunity to observe and explore different posters, charts on walls, logos, signs and billboards and share their assumptions of the same e.g., making guesses about the content based on pictures. • Discussing signs with children and symbols relevant to day-to-day life e.g, traffic signs, signs related to PWD. • Labelling boxes, shelves, cupboards, objects for children to talk about. Guiding Questions for Assessment • Is the child able to recognise signs and symbols in her/his immediate environment? • Does the child describe the displayed relevant print in the classroom?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-4.2 Sings and recites poems/rhymes and draws pictures	- Collection of songs/rhymes - Lined and unlined papers - Writing and painting tool - Poems displayed on a chart	- Organising for the children to hear songs that include humour, fun words, tongue twisters, alliterations, etc. - Making the children sing songs/rhymes with actions individually and in groups. - Letting the children create their own poems and depicting the poems through drawings. - Giving opportunities to the children to collect and compile local poems with the help of parents and create a unique rhyme book. Guiding Question for Assessment - Is the child able to recite poems/rhymes, sing songs? - Is the child able to depict poems through drawings?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-4.3 Picks storybooks from the reading area and tries to read the pictures	- Reading area - Graded story books - Picture reading posters - Cutouts of labelled pictures	- Exposing the children to posters for observation and picture reading. - Providing opportunities to the children to share their understanding about the stories by logically linking illustrations/pictures. - Helping the children use cutouts of labelled pictures to create a story in their own words. - Providing the children graded storybooks to pretend read. - Helping the children create a 'story book' using their favourite pictures and sentences (text). Guiding Questions for Assessment - Does the child visit the reading area? - Is the child able to read/narrate a story on the basis of pictures? - Does the child show awareness about figures of letters, sounds and words while reading a story?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-4.4 Responds orally to questions related to stories/poems bilingually	• Appropriate, graded collection of stories • Poems based on familiar topics • Story charts/story cards • Digital stories • Poems with pictures displayed on charts • Pre and post-story activities including questions related to the particular story	• Creating opportunities for the children to hear songs that include humour fun words, tongue twisters, alliterations. • Making the children sing songs/rhymes with actions individually and in groups. Children can also create their own poems and depict the poem through illustrations. • Collecting and compiling local poems with the help of parents to create a unique rhyme book. • Encouraging the children to create and write poems and then using these poems to develop their reading skills. • Helping the children to interpret the text and find answers from texts using clues and also answering questions using code-mixing. (Refer to ECL2-4.2) Guiding Question for Assessment • Does the child listen to stories attentively? • Does the child respond to questions based on stories and poems orally (bilingually)?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-4.5 Forms letters correctly, uses Sound-symbol correspondence to write invented spellings	• Letter blocks and cutouts • Cards with lower case letters • A keyboard • Alphabet matching board • Slates/chalk board • Alphabet stencil • Alphabet chart • Lined and unlined papers • Writing tools • Alpha Puzzle • Magnetic letters • Picture-Letter-Sound dominoes • Phonic sound learning worksheet	• Making the children listen to the sounds and syllables in words that help them learn to read and write. • Ensuring that the children write letters from top to bottom and say the sound of each letter. • Using words from magazines and copying in their notebooks. • Playing 'scrambled spelling' with the children using alphabet blocks and letter cut-outs. • Reading out a simple sentence for children to write down in invented spelling and then writing all the versions written by the children on the board and circling the correct version. Guiding Questions for Assessment • Does the child form letters correctly? • Is the child able to use sound symbol correspondence to write corrected spellings?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-4.6 Recognises familiar signs, logos and labels in the environment	• Sign charts/posters displayed at the eye-level of the children • Picture charts/ picture reading posters duly labelled	• Interpreting the text and finding answers from the texts using clues. • Answering questions using code-mixing. • Including labels in the second language (L2) into the daily activities and displaying in the classroom environment, like, pasting names on the door, window, water area, water drinking area, play area, activity areas and so on. Guiding Questions for Assessment • Does the child show enjoyment in reading? • Does the child try to read familiar signs/labels/logos in the classroom? • Does the child participate in reading related activities?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-4.7 Connects text with illustrations while reading a story	• Alphabet stencil • Alphabet chart • Lined and unlined papers • Writing tools • Colourful storybooks	• Providing opportunities to the children to explore books with illustrations, engage with different texts and work out the association between pictures and texts. • Encouraging the children to use the illustrations to predict what the title of the book is all about. <i>Refer to ECL2-4.4 & 4.5</i> Guiding Questions for Assessment • Does the child respond to books/stories and point to the text and illustrations? • Does the child point to text and move her/his finger beneath the text and talk about the related illustration? • Does the child create illustrations from the text that s/he is reading?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-4.8 Creates her/his own story by writing a few words mixing codes	• Reading area • Print rich classroom • Literate behaviour by adults • Writing Tools • Lined and unlined papers • Old magazines • Flash cards • Picture series • Web-based materials	• Encouraging the children to play with words, read graded stories/ picture books, use symbols, mix the oral language, picture print and use their own experiences with peers, parents, adults to create/write their own story. • Helping the children to begin to read words from their immediate environment and use them in writing. • Providing opportunities to the children for regular and interesting interactions with print for motivation towards reading and writing. • Helping the children to express themselves on paper without feeling pressurised for correct spelling. <i>Also refer to pedagogical processes suggested under ECL2-4.4 & 4.5.</i> Guiding Questions for Assessment • Is the child able to distinguish many print features? • Does the child label her/his pictures, and attempt to write stories? • Does the child use her/his own words to compose a message? • Does the child express her/his story/poem by mixing codes?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-4.9 Brings a toy and introduce it in the class	• Toy area in the classroom • Toys brought by the children • Objects to create DIY toys	• Asking the children to bring toys with them (if they want to) to school and talk about it. • Giving an introduction of a toy in the class to help children understand the activity. • Demonstrating how to create toys from objects in small groups. Guiding Questions for Assessment • Is the child able to introduce her/his toy in the class and discuss about it? • Is the child able to create DIY toys in a small group?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-4.10 Creates rhyming words based on the available text	• Poems having rhyming words • Worksheets based on rhyming words • Games on rhyming words • Objects and toys that connect with fun • Rhyming words that bond with matching cutouts	• Providing opportunities to the children to sort/pick suitable rhyming words for the word already given to them e.g., matching, multiple-choice questions etc. • Making the children play games having rhyming words - choosing a few words from textbooks/read aloud storybooks and writing a word to make a pair of rhyming words. • Ensuring the inclusion of both oral and written rhyming activities. Guiding Questions for Assessment • Does the child know how to rhyme words? • Does the child listen to the sounds within words and identify the word part? • Does the child recognise rhyming words and generate her/his own rhyming words? • Does the child match the rhyming objects? • Does the child create her/his own rhyming words based on the available text?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-4.11 Writes words beginning with the same letter	- Letter stencil - Print rich classroom - Pictures of words that start with the same letter e.g. Apple, Apricot - Letter and words cut outs - Writing tools	- Providing opportunities for experimenting with repeating sounds in alliteration activities (French fries, Peter Piper, etc.) - Helping the children to make stories using a target sound supported with related toys/props. - Making the children create and play with tongue twisters. Guiding Questions for Assessment - Is the child able to repeat the starting letter of the words? - Is the child able to write her/his alliteration related to any topic?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-4.12 Participates in shared reading of the story	- Variety of books - Tricky words - Sentence cutouts strips - Song/poem or a chart - Big book story - Print-rich classroom - The morning message on the notice board - Reading Area	- Providing opportunities for the children to: - hear and interact with their peers and discuss a story. - model literate behaviour like fluency, word reading, etc. - learn about a book (reading the cover, predicting the end, looking at the pictures talking about the characters, etc.) - Encouraging the children to participate in shared reading of stories, notices, messages, poems, charts, etc. Guiding Questions for Assessment - Is the child able to identify and read the front cover and back cover of a book? - Is the child able to predict the end of a story? - Can the child answer questions related to a story? - Is the child able to tell a story using sentence strips?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-4.13 Share their likes about a cartoon/film	- Favourite cartoon/film of children - Audio visual aids	- Exposing the children to movies/cartoon sessions twice/thrice a week. - Encouraging the children to share a few excerpts on their favourite character, scene/part with peers. e.g., My favourite character in _____ is XYZ. S/he is smart and resourceful. I like when s/he fools everyone. Guiding Question for Assessment - Is the child able to describe her/his favourite cartoon/film in class?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-4.14 Enjoys and creates nonsensical rhyming words	- Poems having rhyming words - Worksheets based on rhyming words - Games on rhyming words - Objects and toys that connect with fun - Rhyming words that bond with matching cut-outs - Nonsensical rhyming words	- Providing opportunities to the children to sort/pick suitable rhyming words for the word already given to them e.g., matching, multiple-choice questions etc. - Making the children play games having rhyming words - choosing a few words from textbooks/read aloud storybooks and writing a word to make a pair of rhyming words. - Ensuring the inclusion of both oral and written rhyming activities. Guiding Questions for Assessment - Does the child know how to rhyme words? - Does the child listen to the sounds within words and identify the word part? - Does the child recognise rhyming words and generate her/his own rhyming words? - Does the child match the rhyming objects? - Does the child create her/his own rhyming words based on the available text?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-4.15 Makes a card for her/his friend, sending a short message	• Writing and painting tools • Papers • Old magazines • Sample greeting cards, birthday cards • Sample short messages • Child- made cards • Lined and unlined papers • Thick chart paper • Child friendly scissors • Glue • Tape • Ribbon/yarn	• Brainstorming on ideas with children to encourage them to create greeting cards. • Motivating the children to practice writing by signing, writing stories, etc. and observing some samples shared by teachers. • Making the children participate in card making activities with a focus on various contexts e.g. Birthday Invitations, Greetings, Writing a small message, etc. • Giving practice to the children to write in lines and convey messages through drawings, along with short phrases. Guiding Questions for Assessment • Does the child talk about her/his writing? • Does the child show interest and create a message for a poster/greeting card/own drawings? • Does the child express and vent out her/his feelings through drawing and writing?

DEVELOPMENTAL GOAL 3

CHILDREN BECOME INVOLVED LEARNERS AND CONNECT WITH THEIR IMMEDIATE ENVIRONMENT (IL)

Key Competencies

Concept Formation

- Colours, shapes, distance, measurement, size, length, weight, height, time
- Spatial sense
- One-to-one correspondence

Number Sense

- Count and tell how many
- Numeral recognition
- Sense of order (can count ahead of a number up to 10)

Number Operations

- Addition
- Subtraction
- Multiplication
- Division

Measurement

Length, Mass, Volume, Temperature

Shapes

2 D shapes, 3D shapes, Straight Line, Curved Line, Plain and Curved Surfaces

Data Handling

Pattern Recognition
Calendar Activity
Use of Technology

Key Competencies

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 4.1 Notifies and describes finer details of objects such as colours, sounds, their surface, animals, birds in the immediate surroundings	• Blocks/dice of different colours, coloured bottle caps • Storybooks with big colourful pictures • Battery operated toy cars • three-to-four-piece puzzles of animals and birds • Audio clips having different kinds of sound which are common in the children's environment • (DIY) toys	• Providing opportunities for the children to observe different colour blocks, dice, bottle caps and group them on the basis of colour and then on the basis of shape (allow them to observe finer details of the available objects for developing classification skills). • Giving the children some pieces of metal (safe) and plastic objects and asking them to identify the differences in the sound when they strike the ground or any other surface. • Encouraging the children to identify the sound made by familiar animals or birds in audio clips. Guiding Questions for Assessment • Is the child able to identify and classify 2-3 kinds of objects at a time, based on their different criteria? • Is the child able to identify sounds of familiar birds and animals in the audio clips?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 4.2 a Identifies common objects, plants, animals, signs on the boards in the immediate neighbourhood	• Balls, shoes, tiffin boxes • Pictures of familiar plants and flowers like rose and marigold • Big pictures or posters showing common signs like school nearby or speed breaker, signs related to left right direction, traffic signals	• Showing the children pictures of common plants and animals. • Taking the children for nature walks to help them observe plants/animals in their surroundings. • Developing awareness in children regarding signs such as: a speed breaker, a school close by, direction (right, left etc.) signs on boards (paper boards may be created involving children). • Conducting activities in the classroom like, asking children to walk straight, turn left or right or back, etc. Guiding Questions for Assessment • Can the child identify common objects in the environment and classify them on the basis of 2-3 features? • Can the child read sign boards in the immediate surroundings? • Can the child identify common plants and animals in her/his surroundings?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 4.2 b Identifies directions with the support of adults and makes sketches of places	• Signs/directions in the school • Stories having narrations of directions along with directional signs • Cardboards, papers, sketch colours and other writing or drawing mediums to make sketches, cartridge sheets or chart papers • Writing tools	• Offering scope for observation and recall by children of their journey from home to school e.g., how many turns they take, turns in which direction, etc. • Encouraging the children to draw a sketch of their journey from home to school individually or with the help of friends from their neighbourhood. • Providing opportunities to the children to draw sketches showing the direction from the classroom to the playground in the school or from home to a common market/ stationery shop they often visit. • Motivating the children to make a sketch of places visited with the help of adults who accompany them. Guiding Questions for Assessment • Is the child able to recall recent visits to places and draw related sketches? • Is the child able to read the logos/signs in her/his immediate surroundings? • Is the child able to identify different directions with the support of elders?

Note: Allow the children to ask adults/ teachers if they need any other material (give scope for free thinking and problem solving).

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 4.3 a Remembers and recalls more than 5-6 objects seen at a time	- Various objects of different colours, shapes, dolls, picture books, bangles and other objects available in the surroundings - Toys - Number cutouts	- Showing the children certain objects, removing them after some time and letting the children recall the objects (5-6) seen by them. The number of objects may be varied as the activity progresses (it can be an individual as well as group activity). Guiding Question for Assessment - Is the child able to recall the objects which were shown to her/him, after a while?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 4.3 b Identifies 4-6 missing parts of a picture of a familiar object	- Puzzles of different kinds (with knobs, without knobs), - Picture cards, 'what is missing' card, observation or memory card, - Toys or blocks with fixing and removing arrangements - Pattern-making ship - Related worksheet	- Providing opportunities to play with puzzles of different kinds (with some parts removed) - Identifying missing parts in a given picture/card/object. - Manipulating parts of the toys and other play materials individually and in group activity. Guiding Questions for Assessment - Is the child able to identify missing parts of a picture of a familiar object? - Is the child able to fit blocks in holes of different sizes and shapes? - Is the child able to arrange number cutouts in order? - Is the child able to identify the missing number in a row?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 4.5 Compares and classifies objects/pictures based on multiple factors and demonstrates understanding of position	• Objects of different types (properties for classification basis) • Blocks of different colours and shapes • Cloth clips of different colours and designs • Fruits and vegetables, etc. • Picture cards of animals, birds, fruits, numbers, vegetables, etc.	• Asking the children to classify objects based on one observable property at a time (like colour, shape, animal or bird, food item and non-food item, etc.) and then on the basis of another property (e.g. classifying on the basis of shapes having the same colour). Guiding Questions for Assessment • Is the child able to classify objects on the basis of different properties such as colour, shape, size, etc. individually or in a group, using one/two/three properties at a time. • Is the child able to assess her/his own work to see if s/he has done it correctly? • Is the child able to tell the position of pictures placed in a row?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 4.6 Seriates/ arranges more than 5 objects based on a developed criteria	• Nesting • Stacking toys • Scales of different sizes • Balls and coins of different sizes, bowls and other similar things commonly available in our surroundings • Picture cards showing same object in different sizes • Toys in seriated order • Measurement cards (to be arranged in order like biggest-smallest, etc.) • Similar worksheets	• Providing opportunities to the children to arrange objects in a sequence based on length or size. • Encouraging the children to order different containers from less to more in capacity. • Explaining to the children that from one side it is an ascending and on the other side it is descending sequence. <i>(This is little advanced and should be done once seriation is understood).</i> • Asking the children to seriate the members of the family based on their heights from tallest to shortest or vice versa. Guiding Questions for Assessment • Is the child able to seriate objects on a developed criteria such as length, capacity, size, weight, height, etc. • Is the child able to assess her/his own or peer work? • Can the child describe on what criteria she/he has arranged the objects?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 4.7 Describes his/her daily routine in sequence using words in the morning, afternoon, evening, and at night	• Pictures of rising sun (for morning), full sunshine (afternoon), setting sun (evening) and dark sky (night) • Picture cards showing common activities of children • Collection of songs related to daily routine sequence	• Showing the children picture cards depicting routine activities and discussing about them. • Giving the children opportunities to recall and talk about the activities in which they are involved before coming to school and after school. • Asking the children to identify their routine in the morning, afternoon, evening and at night and developing a sequence of routine activities. • Allowing for free conversation and encouraging the children to figure out how their routine/ daily activities are the same and how they differ from the others. • Helping the children to identify activities which are repeated from morning to evening on most days. • Making the children sing songs on daily routine activities. Guiding Questions for Assessment • Is the child able to describe her/his daily activities in sequence. • Can the child arrange sequential activity cards in order and describe the events?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 4.8a Provides solutions to simple problem-solving situations with reasons and solves the problem independently	• Work sheets developed by Teachers • Concrete objects: pencils, books, pens, bananas • Storybooks or self/teacher created stories having numerical or simple problem situations	• Creating various situations from the context of the child related to numeracy, e.g., How many books or pencils or bananas are there? • Providing concrete objects and letting the children make two piles with equal number of objects using counting or one to one correspondence • Narrating stories having numbers and asking questions based on numbers during the storytelling. Guiding Questions for Assessment • Does the child offer solutions in a small group play conflict situations? • Is the child able to fix puzzles? • Can the child provide answers to open-ended questions? • Is the child able to solve mazes on her/his own?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 4.8 b Shows curiosity and interest in exploring the environment, takes interest in experimentation and exploration, draws inferences and predicts	• Photo album having pictures of vehicles, trees, birds and animals commonly seen in the child's surroundings • Water containers of different sizes • Soluble colours • Salt, sugar, lemon, etc.	• Narrating stories in the class having concepts of numbers. • Discussing with the children by using a photo album, which objects/things/creatures they see in their immediate surroundings. • Talking to the children about their experiences with plants, animals and birds in their surroundings. • Doing experiments with water using different solubles (let children explore which substance dissolves faster and why?) • Letting the children explore through experiments and explain their experiential learning. Allow the children to predict results. Guiding Questions for Assessment • Does the child reflect curiosity and interest in exploring the environment? • Does the child take interest in doing experimentation? • Does the child show interest in simple experiments held in the classroom? • Does the child guess or estimate the answer?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 4.8 c Demonstrates awareness and sensitivity towards environmental concerns (example – planting flower plants, watering them regularly, saving water by planting trees, etc.)	• Small pots to plant saplings • Small water jugs • Sand-play equipment • School garden • Gardening equipment • Stories and poems on saving water and planting trees	• Encouraging the children to bring saplings of the plants they want to grow. • Providing the children help and guidance of the gardener who can also explain the method of planting a sapling/tree. • Developing awareness in the children on how to take care of plants by watering, giving them warmth of the sun and observing their growth • Encouraging the children to share their experiences on how they take care of plants at home. • Narrating stories and poems on trees, plants to create awareness towards the environment. Guiding Questions for Assessment • Does the child regularly observe her/his own potted plant and other plants potted by the peers? • Does the child share her/his feelings about the growth of plant with peers, parents, the gardener and you? • Does the child close the faucet after washing hands? • Does the child care about her/his immediate surroundings?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 4.9 Counts objects up to 20, concretely and pictorially	- Commonly available objects, sweets, ice cream sticks, beads for counting - Worksheets/Pictures of different number of objects (answer can be written on the backside of the worksheet or picture cards) - Spike Abacus	- Providing opportunities to the children for counting different objects, such as: - counting and telling the number of objects from any two collections. - counting up to 10/15 using at least three objects from each collection. - Using different pictures for the children to count the objects shown in a picture and writing their answer at the top e.g., "How many objects are there in a specific picture card?" Guiding Question for Assessment - Is the child able to count objects independently/ with the support of elders? - Is the child able to count objects both pictorially and concretely?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 4.10 Can count forward and backward from a particular number up to 20	• Number cards • Spike Abacus • Number blocks • Dominoes with different numbers <i>Refer to ILM 4.9</i>	• Conducting group activities for forward and backward counting. • Giving the children the opportunity to assess each other during the group activity of counting forward and backward from a particular number. Guiding Question for Assessment • Is the child able to count forward and backward from a particular number up to 20?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 4.11 Identifies numerals with numbers and writes numerals up to 99	• Number cards • Number Dominoes • Worksheets with different number of objects • Number charts • Plain paper and pencil • Calendar • Number rods • Number puzzles <i>Refer to ILM 4.9 & ILM 4.10</i>	• Encouraging the children to count the number of objects in different picture cards and matching them with corresponding number cards. • Drawing the attention of the children to how numerals are written after number 10, i.e. from eleven to 19, we prefix '1' before the numbers from 1 to 9 and then after 20, we prefix '2'. This process continues till 99. Guiding Questions for Assessment • Can the child identify numerals with numbers on her/his own? • Can the child write numerals upto 99 independently/with the support of elders?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 4.12 Develops the concept of zero	• Various concrete objects like tennis balls, small cubes, dice, etc. • Big container to keep objects for showing activities • Worksheets related to the same • Stories on the concept of zero	• Conducting activities to develop the concept of zero, for example, putting tennis balls (or other small objects) in a container and taking out one ball at a time till the container is empty. Asking the children to do the same on their own. • Using ICT activities with the children, such as, taking out (drag) fishes from a pond, one by one, till it is empty. • Telling the children stories on the concept of zero. Guiding Question for Assessment • Is the child able to answer questions related to the concept of zero?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 4.13 Compares two numbers up to 20 and uses vocabulary like bigger than or smaller than	• Worksheets with different number of objects • Number calendar • Concrete objects like dice, counters, blocks • Group of objects depicting bigger group/smaller group of objects • Stories	• Providing the children two worksheets showing different number of objects and asking the children to tell which one is bigger and which one is smaller and why? • Narrating to the children simple stories having numbers. • Asking the children questions to assess the child's understanding of 'bigger than and smaller than' during classroom interaction and story telling. • Using number calendar during circle time. Guiding Questions for Assessment • Can the child compare numbers up to 20? • Can the child use mathematical vocabulary such as, 'bigger than' and 'smaller than' while playing in a manipulative area?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 4.14 Constructs addition facts up to 18 by using concrete objects and applies them in daily life	- Common objects for counting like beads, counters, flexi-cubes, leaves, twigs, crayons - Spoons, bowls, clothes pins, and other similar objects for counting - Props and materials for setting up a market area - Worksheets	- Dividing the children into groups and giving them plenty of concrete objects and encouraging them to group the objects in different sets of 8, 9, 12, 15 up to 18 objects (using objects that are similar or different). - Setting up a market area (e.g., Toy area/grocery store) and encouraging children to do role play using the play money. Guiding Question for Assessment - Is the child able to construct addition facts up to 18 using concrete objects/manipulatives? - Does the child use mathematical vocabulary during role play?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 4.15 Constructs subtraction facts up to 9 by using concrete objects and applies them in daily life	- Common objects for counting, like beads, counters, flexi-cubes, leaves, twigs, crayons - Spoons, bowls, clothespins and other similar objects - Worksheets	- Using the 'take away' or 'what is left' method, for example, If you have 8 pencils and your friend takes 2 pencils, how many pencils will be left with you? - Offering children plenty of such activities that involve simple subtraction using concrete objects. - Setting up a market area (e.g. Toy area/grocery store) and encouraging children to do role play using the play money. - Planning a visit to a departmental store to give children a hands on experience on functional numeracy. Guiding Question for Assessment - Does the child construct subtraction facts upto 9 by using objects? - Does the child use mathematical vocabulary during role play/ daily interactions?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 4.16 Develops relationship between addition and subtraction of numbers	- Real objects such as balls or pencils or beads, etc. - Abacus - Number line - Games on addition and subtraction	- Making the children understand that addition and subtraction are the inverse operations/opposite of each other. Using simple questions, discussions, classroom activities to show that one can undo an addition through subtraction and undo a subtraction through addition. - Conducting games to develop an understanding of the relationship between addition and subtraction, for example: - Making the children collect some small objects available at home/school. Let them keep five on the table and then add two more. Ask the child to count and tell how many objects are there before and after addition. Make the child understand that if you want to get back to five objects, you have to subtract two. If you take away a further two, you'll have three on the table. To get back up to five, you need to add two. - Organising for number line games such as, number line jumping game. (After learning to do simple addition and subtraction on the number line, children need to be guided to start at the first number and then jump the right number of spaces for the second number. The place where the child lands is the answer). Guiding Question for Assessment - Is the child able to understand the relationship between addition and subtraction?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 4.17 Develops strategies for repeatedly adding numbers up to 10, sum not exceeding 20	• Number cards • Dice, stickers • Real objects such as balls, blocks, beads, candies, etc.	• Organising games involving counting in the class, for example, to practice addition by combining two or more sets of objects: If the child has 4 candies and her/his friend has 7 candies, they will count the number of candies in all, by counting one collection at a time. This is a single digit addition largely (the sum should not exceed 20). The same can be repeated with number cards or stickers for reinforcement. • Providing the children opportunities to use a dice to play in a group of three: Two children take turns to throw the dice and the third child notes down the numbers on the dice thrown and adds. Children take turns on rotation. • Organising a Number Card Game e.g., write out the numbers 1 to 10 twice, making 20 separate number cards. Turn the cards face down and pick any two at random. Ask the child to add the two numbers. Guiding Question for Assessment • Is the child able to develop a strategy of repeatedly adding numbers upto 10 and get a sum not exceeding 20?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 4.20 Represents an amount up to Rs. 20 using notes/coins	• Different currency notes (Indian) • Coins of different denominations	• Conducting activities involving use of currency notes and coins of different denominations to make different amounts like 14, 16, 20, 10, etc. Guiding Question for Assessment • Is the child able to recognise currency and coins up to 20?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 4.21 Estimates and measures short lengths using non uniform units like a finger, hand span, length of forearm, footsteps, etc.	• Ribbon, paper strips, newspaper, notebook, pencil-box, bag, scarf, handkerchief • Worksheets	• Providing opportunities for the children to measure and compare their own heights with that of their peers in the class using a ribbon (e.g., who is the tallest?) • Making children measure the lengths of a ribbon, notebook, pencil-box, etc. with their fingers and hand span and the distance between two things e.g.- two desks, two chairs, etc. with their feet or steps. • Asking the children to circle the bigger object, tick the longest object, measure the sides of a triangle with the help of a ribbon or paper strip, on worksheets. Guiding Questions for Assessment • Can the child estimate and measure length using non-uniform units such as their finger, hand palm, etc.? • Can the child measure the longest and shortest thing in their bag by using a paper strip?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 4.22 Compares three objects in terms of their weight as heaviest/lightest	- Pencil, eraser - Colour box - Water bottle - Pencil-box	- Providing opportunities for the children to measure or estimate the weight of objects like, a pencil, eraser, empty water bottle, filled water bottle, notebook, and a textbook. Children can also compare the weight of different objects and tell the heaviest and the lightest object. - Conducting individual and group activities related with this skill. Guiding Questions for Assessment - Can the child compare objects in terms of their weight as heavy, heavier and heaviest? - Does the child use mathematical vocabulary?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 4.23 Estimates and measures capacities of containers using uniform non-standard units like a cup/ spoon / mug, etc.	- Glass - Mug - Jug - Bucket - Cup - Spoon	- Providing opportunities for the children to measure and compare the capacity of containers used in daily life, in terms of non-standard units. - Conducting group discussions about the capacity of each container. - Conducting activities such as, filling a bucket with the help of a mug/cup to estimate water in different containers, then filling the mug with a spoon and so on - Explaining the children that these are non-standard units but uniform units of capacity measurement are also available. Guiding Question for Assessment - Is the child able to understand the difference in the capacity of different containers?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 4.24 Appropriately uses vocabulary like hot or cold about objects/ weather, etc.	- Ice, hot water, cold water - Various objects having different temperatures - Bowl with ice - Bowl with warm water	- Letting the children touch surfaces with different temperatures to feel and say whether hot or cold (ensure safety of children while they touch different surfaces). - Keeping two jugs with reasonably hot and cold water and encouraging children to put their hand in jugs one by one and express their feeling. Guiding Question for Assessment - Is the child able to use appropriate vocabulary related to temperature?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 4.25 Identifies and describes 3D shapes with their observable characteristics. For example- a shoe box is a cube and has 6 faces, 8 corners, a ball is sphere with no corner and no flat surface/s a cap or a pen is a cylinder with a round surface	- Posters showing 3 'D' shapes - Real objects such as a ball, marble - Glass, interactive visual aids, shoe boxes, tiffin box 3 D objects - Cylindrical objects - Spherical objects	- Letting the children observe everyday objects such as a ball, shoe box, tiffin box, etc. - Explaining to the children the properties of 3 D shapes with the help of real objects and posters, such as, all 3 D shapes are solid. - Encouraging the children to notice the difference between 2 D shapes and 3 D real objects, for example, showing a circle drawn on a piece of paper and a ball. - Using interactive visual aids to make children understand the concept of 2 D and 3 D shapes. Guiding Questions for Assessment - Is the child able to point out 3 D shapes in the surroundings? - Is the child able to visualise a shape by touching it, with her/his eyes closed?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 4.26 Identifies the relationship between half and whole using paper folding, daily life context like folding of roti/ sandwich, etc. and clothes (bedsheets, handkerchief, etc.)	• Origami paper • Napkins • Chapatis • Waste newspaper • Sheets cut into squares or circles	• Providing the children origami paper to fold and make different shapes. • Making the children fold a chapati into half and then opening it to make a whole or using a napkin while eating and then folding it in different folds after use. Guiding Questions for Assessment • Is the child able to fold square/circular/rectangular shapes and speak about it? • Is the child able to follow directions given for folding?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 4.27 Observes, extends, and creates patterns of shapes, numbers, and musical/sound patterns. For example, arrangement of shapes/ objects/ numbers, etc.: - For example 1, 2, 3, 4, 5, . . . 1, 3, 5, . . . 2, 4, 6, . . . 1, 2, 3, 1, 2, etc.	• Objects with different shapes, blocks, counters, bear blocks, number blocks • Designs on clothes and dupattas, dress • Designs in paintings, tiles in the surroundings • Pattern cards/strips	• Providing opportunities for the children to: — use papers/ handkerchief to do activities on their own on the concept mentioned in Learning Outcome. — observe a specific pattern made with numbers and shapes and creating a similar or different pattern using different objects available in the class. — extend the already developed patterns. — use both shapes and numbers or any other object for making the pattern. • Showing the children different dress materials and encouraging them to observe if some pattern is there. • Drawing the attention of the children to patterns in tiles, paintings, clothes, etc. Guiding Questions for Assessment • Is the child able to observe, extend and create patterns using cut-outs of shapes? • Is the child able to identify pattern in the music?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 4.28 Collects, records (using pictures/ numerals) and interprets simple information by looking at visuals. (For example, in a picture of a garden the child looks at different flowers and draws inference that flowers of a certain colour are more)	• Picture of a market • Picture of a fair • Picture of a park having flowers • Visit to a market, park, etc.	• Encouraging the children to observe pictures, identify and write: - how many petals are there in the flower? - which colour flowers are more in the park? - how many people are walking in the park? - how many shops are there in the market? - how many swings are there and how many children are near every swing? - which stalls are the most in the fair? • Encouraging the children to share their experiences of their visits to park, markets or any other place with their peers. Guiding Questions for Assessment • Can the child draw an inference that flowers of a certain colour are more in number in the picture? • Is the child able to identify various colours of flowers, shops in the market, their numbers and other features?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 4.29 Identifies the names of the days of the week and months of the year for day/ month	- Calendar showing dates, names of the weekdays, months, holidays - Individual month calendar - Weekly schedule displayed on the board in the classroom	- Providing adequate time and opportunities to the children to look at calendars of different types and see details in terms of days in a month. - Discussing with the children the weekly schedule in the classroom to understand the names of the days of the week as well as the tasks to be done on different weekdays. Guiding Questions for Assessment - Does the child identify/and name the weekdays, dates of the month, months of the year correctly? - Does the child use the calendar meaningfully?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 4.30 Uses some of the technological tools available around	- Computer - Software: Paint	- Providing opportunities to the children to use and apply 'Paint' using big shapes and figures appropriate to the age of the children. - Encouraging the children to create /develop drawings on their own on the computer screen and fill them with colours of their choice. Guiding Questions for Assessment - Is the child able to understand the functions of different tools used for paint while using a computer? - Does the child explore and use age-appropriate technological tools?

EVS as a separate subject starts in Class III while in Classes I and II, it is integrated in Languages and Mathematics. However, elements of EVS are integrated in all activities and experiences from Preschool 1.

POINTS TO CONSIDER

- ✓ The codified numbers of learning outcomes should not be treated as hierarchical or stand-alone. In each class, across the foundational stage, the experiences and activities may be provided in an integrated manner, simultaneously across the learning outcomes and developmental goals.
- ✓ Activities/experiences designed and targeted for a particular Learning Outcome, for a particular class, will also address a number of other Learning Outcomes, within and across the three developmental goals (domains subsumed).
- ✓ The children must be observed in different settings/locations (e.g., how does she/he interact individually/in small group/large group, etc.).
- ✓ Assessment should not be based on only one or two Learning Outcomes, rather, it should be viewed holistically.
- ✓ Children's learning needs to be assessed in a progressive manner (the term wise progress of the child in each domain should be in a positive direction).

CLASS - II

***Competencies
&
Learning Outcomes
with
Ideas for Pedagogical
Practises and
Assessment***

***Early Learning
is most meaningful when it is integrated across the
Three Developmental Goals***

DEVELOPMENTAL GOAL 1

CHILDREN MAINTAIN GOOD HEALTH AND WELL-BEING (HW)

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 5.1 Maintains correct posture, uses various body movements to participate in games and sports	• Child's height mirror • Circle time for discussion and free talk time • Poster on body parts (with labelling) • Riddles on body parts, Body parts' puzzles, tactile toys, cutouts (flash cards) of external body parts • Storybooks, flash card exercises, rhymes • Story - The Monster Family • Imaginary animal Crawl, Wheelbarrow walking, Riding a bike, Swimming, Jumping on a trampoline, Jungle Gym, Crawling through a tunnel, Climbing a rope net, Jumping rope, Sit-ups, Sit-downs, Aerobics, Yoga, etc.	• Motivating the children to participate in various games and sports and also eat healthy. • Playing games and activities (both indoor and outdoor). • Singing action songs, conducting child yoga, tyre play, etc. • Organising games for the children like: - The Letter Game: Paste tape on the onto into different letters at a little distance from one another. Ask each child to stand on her/his favourite letter. Call out the name of an animal, e.g., 'frog'. Let the children hop like a frog on to the next letter. (Name of any animal may be called out). Let all the children have a chance. Gradually increase the difficulty level by asking them to jump backwards. - Hopscotch: Let the children play a simple game of Hopscotch (let the children draw their own hopscotch). Increase the difficulty level by timing the children. - Juggling a balloon: Take a group of five to seven children. Give them a balloon. Throw the balloon up in the air and let the children juggle the balloon so that it does not fall on the ground. Once it does, the next group gets a chance. Guiding Questions for Assessment • Is the child able to maintain correct posture at all times? • Is s/he able to use various body movements to participate in games and sports? • Does the child perform various body movements while doing physical activities? • Does the child maintain correct posture while doing tasks and sitting for chair-table work? • Does the child participate actively in group games?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 5.2 Demonstrates care and respect for immediate and extended family, friends, neighbours and pets	• Storybooks • Videos, songs, charts • Picture charts, family photo/album, collection of favourite objects • Storytelling on family, friends, neighbours and pets • Story telling by volunteer parents • Family related activities and games by volunteer parents • Colouring worksheets representing family activities • Greeting card making activity • Drawing a family tree • Collective mural representing children's families • Recycled materials • Parents and family members visit	• Making the children read storybooks and sing songs related to friends and family. • Helping to develop a loving and healthy relationship between the children, teachers and by asking the children to make greeting cards for family occasions. • Encouraging the children through meaningful conversations about caring and respecting everyone specially elders. This must include animals and birds too. • Showing videos and narrating stories on how to treat everyone with kindness and love and making children understand that some people are unkind to animals and we must never, ever do that. • Have a discussion on pets and how we should look after them. • Creating situation/s for children to show compassion, be honest and fair with others, display self-discipline in setting and meeting goals, make good judgments, show courage in standing up for their beliefs, show a sense of responsibility, show concern for the community, maintain self-respect. • Asking the children to draw a tree and write the names of their family members on the branches. • Insisting the parents or family members to the classroom to talk about family activities and events. Guiding Questions for Assessment • Does the child demonstrate care and respect for immediate and extended family members, friends, neighbours and pets?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 5.3 Follows rules and enjoys movement and rhythm, participates in play activities	- Modified musical instruments - Action songs and poems - Circle group games - Chart Job responsibilities - Making DIY materials with specified instructions - Play activities like 'Simon says', football, basketball, hide and seek, aerobics, musical chairs, dance on a tissue, dancing body parts, making rings with ribbons to the beat of the music - Making musical instruments and playing with them, freeze dance, musical trivia - Guessing the musical instrument through the sound of the instrument playing	- Making a chart of the rules and reading these once every morning. - Creating situations for the children to learn the rules and follow them during play activities. - Involving children in music, action songs and poem. - Exposing the children to various musical instruments for them to experience and choose the instrument of their choice. - Making the children listen to age-appropriate songs, watch dance-drama and action songs where children follow simple rules of group participation. - Helping the children experience different forms of dancing and enjoy the rhythm and the art. - Encouraging the children to create musical instruments using objects. Guiding Questions for Assessment - Does the child participate in play activities willingly? - Does the child follow rules during play activities? - Does s/he enjoy movement and rhythm?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 5.4 Follows complex instructions/rules; Starts creating her/his own rules	- Rule chart - Paragraph writing - Visual direction activities - Worksheets - Directions drill, exercises - Auditory activities - Scavenger hunt - Listen and draw	- Discussing with the children classroom and outdoor instructions with clear directions. - Making a chart of the rules to be followed and reading them at least once every morning, identifying the rules, and following through. Being consistent with following the rules. - Asking the children to think and write a paragraph on what their city/town would be like without rules. - Helping the children to develop their own rules for indoor and outdoor games. - Asking the children to draw a picture following the instructions given. The complexity can be gradually increased. Guiding Questions for Assessment - Can the child follow complex instructions/rules? - Is she/he able to make her/his own rules?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 5.5 Adjusts to any changes in the routine and asks others to follow the same	- Daily routine - Rules made by the children - Discussion and conversation	- Displaying the daily routine so that the children are aware about the changes. - Discussing with the children the changes in the routine before implementing the changes, so that they understand what the change is going to be like (children can also plan the change with the help of adults. They must feel positive about the changes and talk to their peers about following them). Guiding Questions for Assessment - Is the child able to readily adjust to changes in the routine? - Does s/he encourage others to follow the same?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 5.6 Shows increased attention span and persistence in tasks	- Memory games, tongue twisters, Uno, crossword puzzles, jigsaw puzzles, picture puzzles such as, 'spot the difference', 'what is wrong' in the picture', 'what is missing' or looking for 'hard-to-find' objects, etc. - Discussion and conversation	- Engaging the children in discussions, conversations, quizzes, etc., where they need to be attentive. - Playing games and conducting exercises to improve the attention span of children. - Playing board games, musical games, catch, bat and ball games like tennis, cricket, etc. with the children so that they are focused. - Having a fixed routine to prepare children for the task at hand as well as the next task. - Encouraging the children to use their energy for better concentration. - Conducting games and activities in the class such as memory games, tongue twisters, spot the difference - Asking the children to close their eyes for 60 seconds and try to concentrate on the sounds they can hear in their surroundings. Guiding Questions for Assessment - Is the child showing increased attention span over time? - Is she/he engaged in completing tasks? - Is she/he attentive during the tasks?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 5.7 Copes with emotions appropriately in varied situations	- Painted faces, emotion sorting game, mood meter, calm down yoga - Reading books on emotions - Feeling words/cards - Role play on different stories based on specific emotions - Art activities like collage making	- Initiating conversation with the children and discussing different types of emotions (e.g. Talk about the emotions they are dealing with and how they cope with them, how they take control over their decisions and assert their emotional rights). - Helping the children to understand that we all feel different emotions at different times due to our experiences in varied situations. - Making the children write down their feelings and emotions in a diary (e.g., I feel happy when....., I feel sad when.....). - Organising activities such as: - Painting faces of different emotions on eggshells or stones - Emotion sorting game - Mood meter (expressing how much of a particular emotion they are feeling on a range of 0 to 10). - Making the children do Yoga to help them stay calm and composed. - Teaching the children emotion/feeling words and reading to their stories on emotions. - Reading books on feelings/emotions and asking children open-ended questions. Guiding Questions for Assessment - Is the child able to cope with emotions appropriately in varied situations? - Is s/he able to express the emotion s/he is feeling?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 5.8 Selects games/ play equipment according to her/his own choice, preference, and interest	• Balloons • Badminton equipment • Jump rope • Maze made by tape • Treasure Hunt • Indoor/outdoor obstacle race • Charades, 'I spy'.., 'Simon says', Chess, Monopoly etc. ball, bat, basketball, swimming, board games	• Providing opportunities for the children to choose games that they would like to play. • Helping the children choose their play equipment as per their gross motor development. • Discussing that those who take a healthy diet have better gross motor development and are in a better position to play games. • Organising games such as, balloon throwing, badminton, skipping, treasure hunt, indoor/outdoor obstacle race, dumb charades, "I spy..", "Simon says", chess, monopoly, etc. Guiding Questions for Assessment • Does she/he show interest in games and activities? • Does the child like to select games/ play equipment according to her/his own preference and interest?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 5.9 Resolves minor conflicts independently or with the help of teachers or adults	• Conversation charts • Paragraph writing material • Chart of acceptable and unacceptable behaviour	• Displaying the chart in the classroom of acceptable and unacceptable behaviour. • Making the children understand through conversation, what is acceptable behaviour and what is not. • Discussing with the children what to do when a conflict arises. • Helping the children understand how to manage strong emotions, learn about empathy, understanding, communication and choice. • Brainstorming ideas on how to resolve minor conflicts. • Praising the children for their efforts to manage conflicts. Guiding Questions for Assessment • Does the child try to resolve minor conflicts independently? • Does the child resolve minor conflicts with the help of the teacher or adults?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 5.10 Enjoys playing with other children, follows rules and demonstrates leadership/ initiative as and when required	- Board games - Monopoly, memory games, puzzles - Storybooks - Pictures for copying - Tongue twisters - Outdoor and indoor games - Classroom rules - Sequencing activities	- Making the child recite poems on Rules , e.g., "Mary had a Little Lamb". - Setting rules in the classroom for the children to follow and making children understand that rules should not be broken. - Praising the children when good effort is made by them and when they exercise self-control and restraint. - Encouraging children to be good communicators, leaders and to work in a team. - Making the children understand the importance of taking initiative and develop in them decision making skills. - Building self confidence in children and teaching them to be kind. - Encouraging the children to think of a situation like " No rules followed in the classroom". Have a discussion and let the children express themselves freely. Guiding Questions for Assessment - Does the child enjoy playing with other children? - Does the child follow classroom rules? - Does the child demonstrate leadership/ initiative as and when required?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 5.11 Shows team spirit, teaches games and sports activities to other children in group	- Puzzles - Treasure hunt, Blind man's bluff - Three-legged race - Sports activities and materials - Group games	- Providing opportunities for the children to learn team building exercises by organising and conducting group games, sports, etc. - Making the children understand the value of individual and team success. - Engaging the children in activities and games like: solving puzzles, treasure hunt, blind man's bluff, three legged race and other team games. Guiding Questions for Assessment - Does the child clearly explain games and sports activities to other children in a group? - Does s/he display team spirit?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 5.12 Exhibits acceptance and tolerance towards differences among people and demonstrates sensitivity to diversity	• Pictures and audio-visual materials on diversity • Special days to celebrate diversity • Special cuisine days • Festivals and folk songs • Scrapbook • Storybooks on Diversity/ Differences/Children with Disability	• Encouraging the children to learn to respect herself/ himself as well as others, to learn about their own culture along with the culture of people from different states of the country as well as other countries (their food, festivals, dress, etc.). • Making the children understand through stories, anecdotes and narrations that tolerance means respecting others for their differences and modelling respectful and tolerant behaviour. • Displaying diversity in the classroom by celebrating special days of different states (the children can come dressed in clothes of that state and dramatise or role play). • Organising for special cuisine days of different states. Children can be asked to bring a special food item of a state. • Motivating the children to make a scrapbook on the attires, cuisines, songs, dances, etc. of different states of our country. Guiding Questions for Assessment • Does the child readily accept and tolerate differences? • Does the child demonstrate sensitivity towards diversity? • Is the child sensitive towards children with disability?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 5.13 a Demonstrates proper use of toilet, cleanliness after toilet use and exhibits cleanliness (self and environment), hygiene and healthy eating practices	• Videos on food groups • Videos demonstrating good habits and hygiene • Food chart • Visit by a local doctor/nutritionist/dentist • Discussion and activities on healthy eating practices	• Having a conversation with the children about proper hygiene that must be followed while using the toilet (e.g., washing hands properly after using the toilet and never forgetting to flush the toilet) as also washing before and after meals. • Developing awareness about healthy eating habits and helping children learn about the five food groups i.e. Vegetables, Fruits, Grains, Fats and Proteins. Display a food chart in the class. • Discussing about the importance of water for our body. • Showing videos on healthy food, good habits and hygiene to the children and thereafter having a discussion on the topic. • Creating awareness in the children about the "Ill effects of eating Junk Food". Let them reflect and make a list of all the junk food they eat and how it is likely to harm them. • Organising for a nutritionist/doctor/dentist to interact with children and discuss with them about self-hygiene and healthy food. A health check-up should be conducted too. Guiding Questions for Assessment • Does the child demonstrate proper hygiene when using the toilet and during meal time? • Does the child keep herself/himself and her/his surroundings clear? • Does s/he follow healthy eating practices?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 5.13 b Identifies the locally available, variety and different tastes shows awareness about seasonal food items, vegetables, fruits, etc.	• Clay, paint • Conversation and discussion • Smart board • Cooking without fire • 'Pretend farmers' market • 'Eat and tell the taste' game • Videos • Seasonal fruits and vegetables • Storybooks/poems on food	• Providing opportunities for the children to learn about the local fruit and vegetable markets on the smart board and through small videos (let the children look carefully and name the fruits and vegetables). • Organising a visit to a local market/supermarket for the children to see a variety of food items. • Conversing with the children about the seasonal fruits and vegetables (eaten during summer and winter) and the need to consume these. • Making models of fruits and vegetables with clay and paint. • Colouring shapes and identifying all the fruits and vegetables. • Conducting the 'Cook without fire' activity, i.e., encouraging children to make sandwiches, sprout salad, fruit chaat, sesame <i>laddos</i>, raita, <i>bhel puri</i>, etc. • Letting the children organise a 'Pretend Farmers' market to experience first-hand how markets function. • Playing the 'Eat and tell the Taste' game with the children. Guiding Questions for Assessment • Does the child identify locally available fruits and vegetables? • Does the child show awareness of seasonal food items e.g. fruits and vegetables? • Is the child able to differentiate the taste of different food items?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 5.14 Exhibits awareness and complains about bad touch and maintains distance from strangers	• Discussion and Conversation • Videos • Conversation with parents and adult caregivers • Policewomen/Counsellor/ Psychologist	• Organising for a visit by a policewoman/counsellor/doctor to talk to the children about stranger danger and related issues. • Discussing with the children and sharing their experiences of 'good touch' and 'bad touch'. • Showing videos on 'good and bad touch' and explaining to the children that it is 'bad touch' when someone: - touches you and you don't approve of it - someone touches you and it hurts - touches you and you feel uncomfortable - forces you to touch her/him - touches you and asks you not to tell anyone - touches your private parts • Discussing with the children what they should do when any of the above happens, such as: - running away from that person, - shouting out loudly 'No' or 'Help', - going and telling an adult whom they trust. • Warning the children about staying away from strangers or accepting anything from them. • Advising children not to sit on a stranger's lap, or kiss a stranger even in the presence of their parents or teacher. Guiding Questions for Assessment • Does the child exhibit awareness and complain about bad touch. • Does the child/children maintain distance from strangers?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 5.15 Reports to the teacher in the event of injury and/ or sickness in school (classroom/ playground) reports to the elders in the event of injury and/ or sickness	• Audio visual aids, videos • Discussions on common injuries or sickness • First aid box with scissors, band aids, thermometer, bandage, gloves, oximeter, masks, Dettol/ antiseptic solution, cotton roll, gauze, common medicines, ORS packets, etc.	• Discussing experiences of children (their own/of family members) related to different types of injuries/mishaps. • Creating a first aid box for the class with the involvement of the children and explaining that first aid needs to be given for injuries. Using a first aid box to demonstrate what they need to do if their friend or anyone in the family or neighbourhood is injured. • Creating awareness among the children regarding who should be immediately informed in case of an injury/ sickness. • Discussing with the parents to know more about their child and sharing with them, incidents of injury/sickness of the child in school. Guiding Question for Assessment • Does the child report to the teacher or to the elders in the event of an injury and/ or sickness in the school (classroom/ playground)? • Is the child aware of a First aid box and its use? • Is the child aware of sickness/injuries that are common at her/his age?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 5.16 Demonstrates eye-hand and neuromuscular coordination and motor fitness and develops strength, judgement and decision-making	• Ball-wall toss • Toss and catch, relay races, tennis, football • Puzzles • Balls of various types and sizes • Tennis equipment • Colouring and writing tools • Zippers and buttons • Movement activities • Manipulatives • Old typewriter in the writing area • Construction toys • Toy shoes with laces or similar objects	• Making the children understand that by now they have more complex in-hand manipulation skills. • Helping the children to learn about hand-eye coordination (e.g., whenever they write start making lines, their eyes send visual information to their brain to tell it where the hand is placed and whether their handwriting is legible). • Helping the children to handle writing tools, use scissors, develop climbing, balancing, running, galloping and jumping abilities. • Providing opportunities for the children to enhance decision making skills and display judgement by putting forth open-ended problems and situations. • Encouraging them to identify when a decision is to be taken and letting them take their own decisions, whether good or bad. • Introducing children to the local/ indigenous games by involving parents. • Making the children play simple games like hide and seek, knots and crosses, musical chairs, etc. Guiding Questions for Assessment • Does the child demonstrate eye-hand and neuromuscular coordination while doing activities? • Is a progress seen in the motor fitness of the child? • Is s/he able to display confidence, judgement and decision-making skills?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 5.17 Takes initiative in creative activities, dance, music, drama, role play, mimicry, imitation, etc.	• Two dice • Crossword puzzle • Ring • Blocks • Manipulative toys • Musical instruments • Puppetry and Role play • Items of a grocery shop • Mirror • Interest Areas • Games like 'Musical chairs', 'Passing the parcel', 'Simon Says'	• Encouraging the children to participate in creative activities and think of ideas for dramatisation through puppets and role play. • Making the children participate in creative activities like: - rolling two dice and following the instructions e.g. If you say, 'Add the numbers or subtract or multiply' they follow - solving crossword puzzles - tossing the ring - playing the game 'Simon Says' - building a tower with small blocks/legos - manipulating toys - playing musical instruments - making a pretend grocery shop in the classroom and engaging children in buying and selling of fruits and vegetables using make believe money for transactions - allowing children to imitate their elders, siblings, friends. Guiding Questions for Assessment • Does the child participate willingly in creative activities, such as dance, music, drama, role play, mimicry, imitation etc.? • Does she/he take the initiative to participate in these activities?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 5.18 a Shows precision in fine motor activities, drawing, colouring, writing, etc.	• Manipulative toys • Tools for drawing, colouring, painting • Multi-sensory visual motor activities • Child friendly scissors for cutting • Computers • Building blocks • 20-piece puzzle	• Providing opportunities for the children to develop their fine-motor skills and eye-hand coordination using appropriately sized equipment. • Creating opportunities for children to: - play with manipulative toys - draw, colour, paint - do multi-sensory visual motor activities - cut using scissors - do self-help tasks e.g. zipping, lacing - use computer keyboards - build different structures using blocks. Guiding Questions for Assessment • Does the child hold tools and instruments correctly? • Does the child take interest in multi-sensory activities? • Does the child show progress in fine motor activities organised in the classroom?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 5.18 b Uses coordinated movements while using writing/colouring tools	• Balls of different sizes • Scarves • Dough for rolling • Small pieces of paper • Pencil with an eraser • Small circles for colouring and tracing spirals	• Providing opportunities to the children to perform activities such as: - finger walking a ball using the fingers with the support of the thigh. Once this skill is achieved let them use the tripod fingers i.e., the thumb, index and middle fingers. - using the tripod fingers to walk a scarf kept on a table - using the tripod fingers to roll small balls out of play dough and crumple using small pieces of paper. - attempting somersaults with pencils. - using a pencil with an eraser at the back and while writing, turning the pencil around (without using the other hand) to use the eraser. • Asking the children to colour small circles and then trace the circles with a marker or coloured pencil. Guiding Questions for Assessment • Is the child able to finger walk a ball? • Can the child perform various tripod/finger activities? • Does the child need more support for doing better coordinated movements?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 5.18 c Demonstrates control and appropriate pressure when using writing and drawing tools	• Clothespin, push pin, tongs or tweezers • Beads • Small paper punches • Glue pens • Brush markers • Thin layer of sand • Waste paper • Origami • Printing of all sorts • Difficult shapes using scissors • Play dough/Putty	• Making the children do the following activities: - opening clothes pins and placing them onto a cardboard or a hanger. - using pencil grip for better holding of the writing tools - using small tongs or tweezers to squeeze and pick up items of different weights (ranging from light to heavy). - pushing beads into play dough or putty to make imprints that are clearly visible. - squeezing a small glue pen and creating small, thin lines • Asking the children to draw some figures and decorate them by tearing and pasting wastepaper. • Demonstrating some origami activities and encouraging children to do the same and many more. Guiding Questions for Assessment • Is the child exerting the right pressure while colouring or writing? • Does the child demonstrate control while writing or drawing. • Is the child engaged in tearing and pasting activities?

DEVELOPMENTAL GOAL 2

CHILDREN BECOME EFFECTIVE COMMUNICATORS (EC)

Early literacy skills

Writing for self-expression

Makes use of her/his knowledge of letters and sounds, invents spellings to write

Makes effort to write in conventional ways

Responds to reading with drawings/ words and meaningful sentences

Writes rhyming words

Writes meaningful sentences using naming words and action words

Writes messages to express herself/himself

Uses mixed language codes

Writes for different purposes in the classroom's activities and at home, such as making lists, writing greetings to grandparents, messages/ invitation to friends, etc.

Key Competencies

Writing with Purpose

FIRST LANGUAGE

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-5.1 Uses school language to express opinion, ask, question for different purposes	• Worksheets • Picture books • Storybooks • Conversation - free as well as specific on content • New words of content/text	• Providing opportunities for the children to express themselves in different situations like, conversing in different settings, e.g., making use of terms specific to the school environment and using frozen expressions like "Thank You, Please, etc." • Encouraging the children to ask questions related to an ongoing conversation in the school language. Guiding Questions for Assessment • Does the child show confidence in expressing and asking questions? • Are the expressions and questions posed by the child relevant to the topic?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-5.2 Talks about the characters from a familiar story. Draws the picture and writes, the name of her/his favourite characters	• Drawing sheets • Small blackboards • Age-appropriate storybooks and information books • Story bags or story baskets (the content may be changed after 15 days) • Story cards related to story books • Storybooks with folk tales • Easels • Flannel cut-outs of characters of stories • Crayons • Pencils and other writing tools • Letter stencil	• Motivating children to choose storybooks or other reading materials of their choice • Asking the children to draw/write about their favourite character(s) from stories. • Encouraging the children to use describing words (adjectives) to express their thoughts. • Asking the children their reasons for liking particular characters from a story. • Making the children talk about characters which are a part of local folktales, stories, etc. • Promoting the use of school language in conversations. • Asking the children to draw the pictures of their chosen characters and write their names by the side. Guiding Questions for Assessment • Is the child able to identify her/his favourite character from a familiar story? • Is the child using the correct spellings in writing?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-5.3 a Narrates stories and recites poems in her/his own language using her/his own style/way	- Sequential thinking cards - Familiar <i>Panchantra</i> stories - Story cards in child's language with pictures - Circle time for free conversation - Props/toys/puppets	- Narrating stories to the children using picture books and big books with proper modulation of voice. - Telling the children stories heard/read in the mother tongue/local language and in familiar language. - Encouraging the children to share poems and stories of their choice with the rest of the class and using props, puppets and/or toys for narration. Guiding Questions for Assessment - Can the child narrate stories and recite poems in her/his own language? - Does the child use props for narration?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-5.3 b Participates in class/school activities programmes, etc.	Language related activities e.g., poetry recitation, story narration, role play, etc. in the morning assembly and at cultural events	- Providing opportunities to the children to perform a variety of tasks where one of the four language skills is predominant. - Making the children participate in group activities and after a few months start doing these activities individually e.g., from choral recitation to individual recitation. - Organising for the children to participate in activities related to cultural significance and important days such as the Independence Day, Earth Day, etc. Guiding Questions for Assessment - Is the child participating in activities both at the class and school level? - Is the child able to perform individually?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-5.3 c Narrates stories or recites poems of her/his own choice	• Storybooks' basket • Poem books/booklet • Posters with pictures and text • Poem Posters • Props like finger puppets, toys, other small objects	• Encouraging the children to pick up story books/poem books of their choice and read these. • Providing opportunities to them to narrate stories/recite poems of their choice, whether these are given in the books kept in the classroom or not, using props and showing gestures. <i>Also refer to the pedagogical processes suggested under ECL1-5.3 a</i> Guiding Questions for Assessment • Does the child take interest in choosing her/his own books? • Is the child able to correctly use props while narrating a story or reciting a poem?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-5.4 Creates rhyming words and words with similar sounds, orally, in writing from familiar poems and songs	• Rhyming objects • Pictures that rhyme • Master matching board with cutouts for rhyming • Blackboard • Rhyming words • Poems, Songs • Audio and video equipment	• Providing opportunities to the children for filling the missing parts in poems (using rhyming words). • Letting the children listen to audio recordings of rhymes/ poems with rhyming words. • Encouraging children to create their own poems with rhyming words, recite them and later, put them in writing. Guiding Questions for Assessment • Is the child able to create rhyming words orally? • Does the child select appropriate rhyming words and try to write these?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-5.5 a Predicts and reads textbooks and children's literature in familiar context	• Textbooks • Storybooks • Old magazines • Children's literature • Words wall • Sight word chart	• Providing opportunities for the children to read and engage with a variety of children's literature and work out the sound-symbol association while reading. • Encouraging the use of sound-letter correspondence charts to get over minor hurdles themselves. • Asking the children to make guesses about a story based on the title and the cover page. • Giving the children ample scope to make assumptions about unfamiliar words on the basis of illustrations as well as context and share opinions on the basis of the texts. Guiding Questions for Assessment • Is the child able to make guesses about the story on the basis of the cover page and title? • Is the child able to anticipate the upcoming events in the text that s/he is reading? • Is the child able to retain and recall unfamiliar words after being told the pronunciation and meaning of the same? • Is the child able to substantiate her/his prediction?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-5.5 b Expresses her/his response, likes-dislikes, and asks questions	• Favourite toys • Board games • Circle time discussion • Small group play time • Shared reading time	• Giving the children ample opportunities to share poems/stories, ask questions (It is advised to move from objective to subjective questions. e.g., Who was Smiley? Was Smiley a good friend?). • Making the children share stories they have read and ask their peers to pick a character they liked the most and the one that they disliked along with their reasons for doing so. • Motivating the children to discuss their likes and dislikes among themselves. • Allowing the children to tell which toys/board games/person they like or dislike and why. • Encouraging children to ask their peers, questions about a story and encouraging their peers to answer. Guiding Questions for Assessment • Is the child able to answer with reference to the text when asked questions? • Does the child use vocabulary appropriately while expressing her/his likes and dislikes? • Is the child able to ask questions based on some text?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-5.5 c Attempts to read familiar and unfamiliar text and talks about it. For example- predicts with the help of print and pictures, Sound-symbol association, identifying the words with the use of prior knowledge and experiences	• Children's literature • Variety of children's story books • Visit to the reading area • Word cards • Sentence cards • Word-picture • Comprehension worksheet	• Providing opportunities for the children to learn sound-symbol association. This can only be achieved through exposure to a variety of literature and the habit of reading. • Creating opportunities for meaning making of unfamiliar words using previous knowledge. <i>Also refer to the pedagogical processes suggested under ECL1-5.5a</i> Guiding Questions for Assessment • Does the child read familiar and unfamiliar text? • Is the child able to predict the upcoming events in the text that s/he is reading? • Is the child able to retain and recall unfamiliar words after being told the pronunciation and meaning of the same? • Does the child understand sound-symbol relationships? • Is the child able to get the meaning of unfamiliar words using her/his previous knowledge?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-5.6 Understands events and characters in a picture story/story board (storybooks) and writes about them (conventional writing)	• Storybooks • Story boards • Collages • Picture books • Comic Strips • Reading area • Writing area	• Providing opportunities for the children to make sense of the given illustrations in a logical manner. • Making the children work individually/in pairs/ in groups to create a story/poem of their own (initially, the children may tell a story orally but also encourage them to write about the events and characters). • Giving the children (those who struggle with writing) cues to help them. Guiding Questions for Assessment • Is the child able to draw connections between pictures? • Does the child make appropriate use of vocabulary in narration and writing? • Does the child make use of pseudo words and/or overgeneralisation of linguistic rules while writing her/his story e.g., writing 'mans' instead of 'men'?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-5.7 Talks about characters, events based on the stories, poems and other texts	• Storybooks • Story boards • Collages • Picture books • Comic Strips • Reading area • Writing area	<i>Refer to the pedagogical processes suggested under ECL 1 5.2</i> Guiding Questions for Assessment • Is the child able to answer with reference to the text when asked questions? • Does the child use vocabulary appropriately while expressing her/his likes and dislikes? • Is the child able to ask questions on the basis of some text? • Is the child able to understand and talk about characters and events? • Does the child correctly relate the events and characters to respective stories/poems/texts?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-5.8 Writes making use of appropriate words/sentences (conventional writing) and different forms of expressions	• Notebooks • Loose Sheets • Textbooks • Relevant excerpts from any age-appropriate story narration • Diary entry • Word charts • Teacher/children made word charts along with the pictures • Writing area activities	• Providing opportunities for the children to: - write a few lines or sentences on different topics like, "My favourite cartoon/story/movie" etc. in a journal/notebook, on a daily basis. - write about different characters given in their textbooks using the information given in the textbooks (paraphrasing). • Encouraging the children to use other forms of expression like poems, drawings, etc. • Giving the child to write short diary, entries about daily events. Guiding Questions for Assessment • Is the child able to spell words correctly? • Does the child use age-appropriate grammar and semantics in the written material? • Does the child try to use different forms of expression?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-5.9 Extends the story in writing using imagination and creativity	• Story props • Variety of papers • Stories (150-200 words), • Excerpts of 2-3 lines such as short beginning of a narration • Help boxes containing cues • Writing and painting tools	• Providing opportunities to the children to: - extend a given story both in writing and illustrating it. - work out the possible upcoming events in a story. - share the different versions of a story with peers. - use cues from the "Help Box" to extend a story. • Motivating the children to take part in creative writing using a list of words/phrases as a prompts. Guiding Questions for Assessment • Do the thoughts of the child reflect coherence in writing? • Does the child reflect creativity in her/his written text/prose?

SECOND LANGUAGE

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-5.1 a Expresses verbally her or his likes/ dislikes about the characters, storyline, etc., in English or home language	• Storyline • Phrases for describing characters of a story • Cartoons • Cutouts of story characters • Story cards	• Providing opportunities for the children to: - use a variety of adjectival phrases while describing a character. - associate characters from the story with other characters in movies/texts/cartoons. - express their views on different events/characters, etc. Guiding Questions for Assessment • Does the child express verbally her/his likes/dislikes related to characters in a story in the home language or English?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-5.1 b Follows simple instructions such as 'Shut the door', 'Bring me the book' and such others	• Daily routine activities • Job responsibility chart • Command cards for instructions • Popular Indian games that involve following simple rules	• Making the children play instruction-based games like, sit-stand, statue, 'Simon Says', etc. • Displaying in the classroom a daily routine timetable/chart so that the children are aware of the activities of the day. • Preparing a job responsibility chart for delegating tasks to the children. • Organising for children to participate in activities where 3-4 instructions are given in one sentence. Guiding Question for Assessment • Does the child follow simple instructions in English/home language?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-5.2 Sings songs or rhymes with action, forms new rhyming words	- Collection of songs, rhymes having rhythmic words - Rhyming words - Rhyming words games - Props like puppets, masks, costumes	- Giving opportunities to the children to read songs and rhymes with proper intonation and repetition (whenever and wherever required). - Making the children work in small groups and expand a rhyme by adding 4-5 lines. - Encouraging the children to use props while reciting. Guiding Question for Assessment - Does the child sing songs or rhymes with action? - Is the child able to expand a rhyme using new rhyming words?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-5.3 Predicts the story, talks about the characters bilingually	- Age and developmentally appropriate bilingual books in the reading area - Folk Tales - Cutouts of story characters - Variety of graded story books	- Making children talk with their elbow partner, sing a song/rhyme/and read /look at story books/information books/print together. - Offering children opportunities to predict the next episode/happening or end of the story. - Motivating children to ask questions about the characters bilingually. - Providing situations for the children to make assumptions about the storyline. - Guiding the children to complete incomplete stories bilingually using cues (using story cards/charts, etc).. - Organising for the children to work in pairs/groups and think of phrases to describe a character. Guiding Questions for Assessment - Does the child demonstrate love for bilingual age-appropriate books? - Is the child able to handle books carefully? - Is the child able to predict the storyline based on incomplete sentences/text? - Is the child able to describe the characters in a story in her/his own words?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-5.4 Responds to the questions related to stories and poems, in home language or English or sign language, orally and in writing (phrases/ short sentences)	- Age and developmentally appropriate bilingual books in the reading area - Folk Tales - Cutouts of story characters - Variety of graded story books	- Providing opportunities for the children to: - listen to/read age-appropriate stories/poems. - locate answers in the text and share the same with their peers - move on to questions that provide scope for subjective answers. Guiding Questions for Assessment - Does the child answer questions related to stories/poems in home language /English in writing? - Does the child answer questions both orally and in sign language?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-5.5 Shares orally about events such as festivals celebrated in the neighbourhood bilingually	- Circle time discussion - Festival experiences of children - Food during festivals - Leaves of the Mango, Ashoka tree, etc.	- Creating opportunities for the children to: - narrate their experiences of observing/ celebrating/ participating in festivals. - share their favourite activities during festivals e.g., eating special food, decorating the house, interacting with family and friends, wearing new dresses, etc. - Asking the parents to let their children bring some item (if allowed) that is significant to their festivals to the classroom and asking the children to talk/write on the same e.g., leaves of the Ashoka/mango tree, diyas or a small Christmas tree, etc. Guiding Question for Assessment - Is the child able to share orally about festivals celebrated at home or in the neighbourhood?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-5.6 Recognises and writes /draws frequently occurring words/ pictures in a story being read	• Variety of papers • Writing and drawing tools • Graded storybooks with pictures	• Exposing the children to a variety of storybooks and having a discussion about the books read. • Giving the children the opportunity to draw/write words/pictures they can recall from a story they have listened to before and share their reason for selecting to write/draw the particular words/ pictures. Guiding Question for Assessment • Does the child recognise frequently occurring words/pictures in a story? • Can the child reproduce the same in writing/drawing?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-5.7 Tries to decode unfamiliar words while reading	• Sight word chart • Word wall • Word scrabble game • (age & developmentally appropriate) • Reading area	• Helping the children to understand that words are built from small sounds or phonemes. • Using manipulatives like magnetic letters, word games, etc. to help children learn letter-sound relationship. • Encouraging attention to letters and sounds while reading out to the children. Guiding Question for Assessment • Is the child able to decode unfamiliar words while reading?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-5.8 Creates a poster on her/his self-created story	• Sample posters • A variety of papers, chart papers (both lined and unlined) • Writing, drawing and painting tools • Old magazines to cut pictures from • Paint brushes, colours, etc	• Encouraging children write simple short stories. • Providing opportunities to the children to draw and create posters for their own stories. You can ask them to give a suitable title to their poster. • Show them a variety of posters to give them an idea of how a poster should be • Guiding the children to discover the main elements to be used while creating a poster. Guiding Questions for Assessment • Is the child able to create a poster for her/his self created story?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-5.9 Draws a poster showing her/his feelings for the toy	• A variety of papers, chart papers (both lined and unlined) • Writing, drawing and painting tools • Old magazines to cut pictures from • Paint brushes, colours, etc • Waste materials	• Encouraging the children to bring a toy with them (if they want to) on the day they have to make a poster to express their feelings for a toy. • Providing for children to create their own DIY toy using waste materials. • Guiding the children to create a poem on their favourite toy or express their feeling for it through a story or just gestures. Guiding Questions for Assessment • Is the child able to draw a poster for her/his toy? • Is the child able to express her/his feelings as s/he draws a poster of a toy? • Is the child able to write a few sentences or poem about her/his toy?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-5.10 Writes words beginning with the same letter	Collection 'Alliteration activities'	- Guiding the children to create an alliteration with words provided e.g., big/bear/back/brought - Asking the children to create tongue twisters with the given words. Some example of tongue twisters are: - I scream, you scream, we all scream for ice cream. - She sells, seashells by the sea shore - Exposing the children to poems where alliteration is used. - Teaching the children through a range of games, activities and stories to make them enjoy experimenting with repeating initial sounds and alliteration. Guiding Questions for Assessment - Can the child write words beginning with the same letter? - Can the child match, identify and name the words that begin with the same letter? - Can the child create new words that begin with the same letter? - Does the child participate actively in alliteration activities?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-5.11 Uses words related to size, shape, colour, weight, texture such as 'big', 'small', 'round', 'pink', 'red', 'heavy', 'light', 'soft', etc.	- Toys and learning materials in the interest areas - Small and whole group discussion - Sight words chart - Word wall	- Providing opportunities to the children to describe the objects in the immediate surroundings. - Organising nature walks. Children can be asked to collect/observe different things and describe them. e.g. Group 1 can observe different trees, Group 2 can observe different flowers and Group 3 can collect and describe pebbles, etc. They can use a list of adjectives for reference. Guiding Questions for Assessment - Does the child include words related to size, shape, colour, weight, etc, in her/his vocabulary? - Does the child use new vocabulary while playing and interacting with her/his peers? - Is the child able to read a sight words chart and word wall displayed in the classroom? - Does the child point out to the print/new words in the surroundings/a book and ask for its meaning?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-5.12 Reads texts other than the textbooks such as children's magazine, etc.	• Print rich classroom • Children's magazines • Textbooks • Puzzles, riddles, comic strips • Reading area	• Exposing the children to a variety of reading material in the reading area and encouraging them to engage with these. • Making sure that the children have access to storybooks that are age appropriate. Provide them ample time to read. • Letting the children explore materials like comic strips, jokes, puzzles, riddles, magazines and share the material with their peers. They must also enjoy the activities given in the magazines or newspapers. Guiding Question for Assessment • Does the child read a variety of texts other than the textbook?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-5.13 Writes small sentences about the cartoon/film, Writes small sentences about self, using a full stop	• Word cutouts • Sentence strips • Story cards • Variety of papers • Cartoons • Films • Small sentences	• Providing opportunities for the children to listen to excerpts on her/his favourite character, scene/part and writing about them. e.g. My favourite character in _____ is XYZ. S/he is clever. • Making the children watch movies/cartoons once a week (children can record their views regarding a particular scene/character in their notebook). • Making the children write about themselves and on related topics like, 'My Favourite Game', etc. using a full stop, capital letter' Guiding Questions for Assessment • Is the child able to write small sentences on cartoons, films, or about herself/himself? • Does the child use a full stop at the end of a sentence?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-5.14 Draws or writes a few words or short sentences in response to the environment (birds, plants, garden, etc.) poems and stories	• Variety of papers • Words and sentences cards • Environmental objects • Poems • Stories on different themes	• Encouraging the children to compose very short poems or write stories on nature. • Providing opportunities to the children explore a garden/ any open space within the school premises by themselves, in groups and organising nature walks. • Making the children draw a scenery or any picture relevant to the nature walk, describe "the outside" in a few sentences and share their experience with their peers. Guiding Question for Assessment • Is the child able to write a few sentences on the environment related to objects, plants, birds?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-5.15 Composes and writes simple, short sentences with space between words to express themselves	• Lined and unlined papers • Writing tools	• Providing the children with lines papers for them to write short sentences to express themselves on people, events and objects. • Ensuring that children write the sentences with space between words. • Providing opportunities to children to share the views on events, animals/objects around them in a few lines or write on different topics and enjoy writing. Guiding Question for Assessment • Is the child able to compose and write small sentences to express herself/himself? • Does the child provide space between words?

DEVELOPMENTAL GOAL 3

CHILDREN BECOME INVOLVED LEARNERS AND CONNECT WITH THEIR IMMEDIATE ENVIRONMENT (IL)

Key Competencies

Concept Formation

- Colours, shapes, distance, measurement, size, length, weight, height, time
- Spatial sense
- One-to-one correspondence

Number Sense

- Count and tell how many
- Numeral recognition
- Sense of order (can count ahead of a number up to 10)

Number Operations

- Addition
- Subtraction
- Multiplication
- Division

Key Competencies

Measurement

Length, Mass, Volume, Temperature

Shapes

2 D shapes, 3D shapes, Straight Line, Curved Line, Plain and Curved Surfaces

Data Handling

Pattern Recognition
Calendar Activity
Use of Technology

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 5.1 Identifies simple observable features of objects, plants, animals in the immediate surroundings	• Nature walk • Leaves from different plants • Picture cards of animals, puzzles • Books • Worksheets	• Taking the children for a nature walk followed by a discussion on: - different shaped leaves - texture of barks of different trees - colour and beauty of flowers • Playing memory card games with the children on animals and the food they eat. • Encouraging the children to bring leaves of the plants available in their neighbourhood and comparing them with the ones brought by other children. • Organising for the children to colour objects, animals, plants, do puzzles on them. • Give the children picture cards on animals and let observe their features and talk about them. • Conversing with the children about the importance of plants and animals and the need to take care of them. • Making the children do worksheets on features of animals, the food they eat and their habitat. Restrict it to common animals only. Guiding Questions for Assessment • Is the child able to recall the trees and plants seen during the nature walk? • Did the child observe particular features of plants and trees? • Did the child see animals in their natural habitat? • Did the child observe food eaten by animals in their surroundings? • Is the child able to talk about the ways to protect and take care of plants and animals in their surroundings?.

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 5.2 a Identifies objects, signs, places, common activities in the immediate neighbourhood	• Posters on different activities such as, a scene of a market, school, park, etc. • Flash cards of traffic signals and other road signs (speed limit, no parking) • Worksheets • Pictures of logos of common food joints • Videos of famous tourist places	• Providing the children opportunities to look at the posters and identify which activities they see commonly, who are the people who work in their places in the neighbourhood which they often visit, e.g. a park, a clinic, market, milk booth, café, etc. • Playing group games with the children using flash cards with different signs and explaining each sign. • Taking the children to a traffic park and then asking them to create a model of the same with the help of building blocks. • Asking the children to compose a poem on "Road Safety". • Creating awareness in the children about local tourist places in the town/city and their significance. • Showing the children pictures of logos of common food joints and asking them to identify these. Talk about the services provided by them. Guiding Questions for Assessment • Is the child aware of the objects, signs and places in her/his surroundings? • Is the child able to identify and talk about the common activities and places in her/his neighbourhood? • Does the child appreciate and talk about the service and support provided by workers in their immediate neighbourhood?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 5.2 b Identifies, directions and locates home, school in the pictures/sketches	- Picture cards - Hand drawn map/sketch of the locality where school and home are located - Blank paper and pencils/pens for free drawing	- Providing opportunities to the children to look at hand drawn maps/sketches and indicate their home and/or school on the map/sketch. - Providing help to the children to observe the Sun-rise and the Sun-set and explaining that the Sun rises in the East and sets in the West. - Guiding children on how to make rough sketches to show their home and school. Guiding Questions for Assessment - Is the child able to locate her/his home, school and other places of interest in the map of her/his locality? - Is the child able to draw a rough road map from the school to her/his home and vice-versa (home to school)? - Is the child gradually developing the concept of direction?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 5.3 a Remembers and recalls more objects seen at a time and describes a few in her/his own words	- Toy vehicles of different types (scooter, truck, car, bus etc.) - Bear blocks of two/three colours - Toy cups and water cans - Smaller objects like balls of different colours and sizes	- Providing opportunities to the children to look carefully at the toys and do their own thinking. Let them discuss with other children about the various vehicles that they have observed and talk about their experiences of travelling in different types of vehicles. - Asking the children to recall the objects they have seen and describe their features or uses (ask them to relate some experience with these objects like toys, balls or water cans, etc.). Guiding Questions for Assessment - Is the child able to recall objects seen by her/him? - Does the child display familiarity and engagement with different objects? - Is the child able to communicate using vocabulary of her/his own, while describing objects?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 5.3 b Compares given objects/pictures and identifies similarities and differences	• Same as for LO 5.3a. more similar objects can be added, if easily available • Picture cards showing some similar and some different objects	• Encouraging the children to look at a collection of objects closely and find out which objects are similar and why they think so. Let them identify similarity and differences on the basis of size, colour, function, uses of the objects, etc. • Helping children to find out differences in similar pictures (This would help in developing visual memory skills of children). • Discussing picture cards to point out how pictures in the card are similar and different. Guiding Question for Assessment • Is the child able to compare objects, pictures and find out similarities and differences in them?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 5.5 Compares and classifies objects/pictures based on multiple factors and describes them using properties	• Birthday candles • Crayons • Paper • Spoons • Ruler • Popsicle stick • Pencils • Aluminium foil • Paper clips • Rubber bands • Erasers • Leaves • Wooden and plastic blocks • Plastic blocks • Clay • Cotton • Piece of wire • Keys	• Providing opportunities for the children to classify by grouping different objects based on their properties. • Helping the children to move from one level of classification to two, three levels (e.g., classify on the basis of shape, then within one shape, classify on the basis of colour, then on the basis of size or weight or any other property). • Encouraging the children to classify some common household objects by their characteristics, while they are at home and asking them to explain the basis of their classification. • Making children describe the characteristic of a specific object. • Discussing with the children on how objects and materials can be defined/identified through specific "properties" or "characteristics". Guiding Question for Assessment • Is the child able to describe objects using certain properties? • Is the child able to do different levels of classification of objects and pictures based on their properties?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 5.6 Applies seriation in ordering numbers, measurement, etc.	• Bottle/Can lids • Blocks • Pencils • Measuring cups and spoons • Used crayons (all these things in different sizes) • Number flash cards • Currency notes, coins • Worksheets with pictures of different number of objects	• Providing opportunities for the children to do activities like: - comparing the size of lids/blocks and arranging them in ascending order (small to big). - comparing the length of pencils, used crayons and arranging them in descending order (longest to shortest). - comparing numbers given on flash cards and arranging the cards in a particular sequence. - Comparing the value of currency notes and coins and then arranging them from the lower to the higher value order. Guiding Questions for Assessment • Is the child able to arrange the given objects in a specific order? • Is the child able to explain the basis of seriation? • Is the child aware of the value of different currency notes and able to arrange them in a seriation?

NOTE: Remember only objects of the same kind in different sizes can be compared/seriated, e.g., a cup and a spoon cannot be seriated in ordering measurement.

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 5.7 Sequences events occurring according to their duration in terms of days; for example, does s/he remain in school for a longer period than at home	• Toy clock • Calendar	• Providing opportunities for the children to: - estimate the time spent by their peers and friends on different activities looking at a toy clock or real clock. - explain their daily routine and recall which activities they do before coming to school and after returning home. - analyse which activity they spend maximum time on. • Asking the children to share their experiences related to celebration of any event at home, for example, a marriage: How many days it continued (a calendar may be used, and the child may indicate with her/his fingers, which days were spent for different celebrations during the marriage). These activities can be done individually or as a group activity. Guiding Questions for Assessment • Is the child able to sequence events according to their duration (in terms of days)? • Is the child able to analyse duration of time spent on different activities by her/him/friends/other persons?

Learning Outcomes	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 5.8 a Demonstrates problem solving skills in day-to-day simple situations	• Six-piece puzzle • Objects to be kept for treasure hunt • Small objects like candies for distribution	• Giving the children pieces of a puzzle to fix correctly (independently /with support). • Asking the children to search for an object which is hidden in the classroom/play area only. • Giving the children candies to be distributed evenly in their group. Guiding Questions for Assessment • Is the child able to complete the task independently or with the help of peers? • Is the child able to think about and reach the likely areas to find the hidden object? • Is the child able to distribute candies in the group using the right method?
Learning Outcomes	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 5.8 b Shows curiosity and interest in experimentation and exploration and takes initiative in drawing inferences and reasoning	• Field trips • Nature walk • Water, juice, sugar, salt • Container for mixing	• Creating opportunities for the children to explore their surroundings by taking them for a field trip/nature walk to a farm/biscuit factory/ garden. • Initiating a discussion about what the children noticed during their trip. • Making the children mix different solubles like salt, sugar, juice in water and asking them to identify the taste. • Helping the children to draw inferences based on experiments with water, e.g., water has no taste of its own or it has no colour of its own. Guiding Questions for Assessment • Does the child demonstrate observation skills during the field trip? • Does the child show curiosity during the experimentation? • Does the child try to infer after mixing the solubles in water and tell the taste? • Does the child discuss the extension of the experiment with other things?

Learning Outcomes	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 5.8 c Demonstrates awareness and sensitivity towards environmental concerns (example - not wasting food, throwing waste in the bin, keeping water and food for birds and animals, etc.)	• Storybooks with environmental values like cleanliness, respect for food, love for animals, etc. • Picture cards • Scavenger Hunt	• Encouraging children to narrate their experiences related to wastage of food in marriages/ big functions/festivals and reflecting on it. • Asking the children to share their observations of people in their surroundings throwing waste here and there and having a discussion on it. • Initiating a discussion on their feelings about animals and birds (how they too feel hungry and thirsty) and the action taken by them or their family members. • Encouraging the children to take care of animals and birds around them by keeping mud bowls of water at convenient places for stray animals, grains and water for birds. • Organising a cleanliness drive in the school and the neighbourhood area. • Conducting a scavenger hunt. (Take the class out for a round of the school and picking-up trash, switching off lights/fans, etc.). Guiding Questions for Assessment • Is the child sensitive towards birds and animals? • Does the child throw waste in the bin, put off lights and fans and reuse paper? • Can the child discuss why food should not be wasted? • Is the child aware about the importance of trees in the environment?

Learning Outcomes	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 5.9 Counts objects up to 100 in group of tens	- Collection of Ice-cream sticks - Pop sticks - Rubber bands - Numeral cards (1 to 10) - Hundred number chart - Markers - Games	- Providing opportunities for the children to count and bundle ice-cream sticks in a group of 10, label a group of 10 ice-cream sticks as <i>one</i> using the numeral card. - Asking the children to count objects by 10s to find out the total making it 100. - Making the children read aloud the numbers on their hundred number chart and circle at the count of 10. - Circle Game Activity: Making the children stand in a circle, with one child starting the counting from number one and the next child carrying it forward. The child who counts number 10 will jump inside the circle. Similarly, at the count of 10,20,30 ...the children will jump inside the circle till they reach 100. Guiding Questions for Assessment - Is the child able to make group of tens using ice cream or pop sticks? - Is the child able to circle the correct number on the Hundred number chart?

Learning Outcomes	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 5.10 Can count forward and backward from a particular number up to 99	• Staircase • Number line on the floor • Hopscotch, Free play • Worksheets	• Asking the children to climb up the stairs and as they do so, call out the numbers aloud. When they reach the top, the teacher says 'switch', and the children climb down by calling out the numbers in reverse order. • Giving the children a number line to walk on. The number line can begin from any number e.g. 81.....92. Children can jump forward and backward on the number line by saying it aloud during free play. Guiding Questions for Assessment • Is the child able to count forward and backward up to 99? • Can the child do forward counting from any number? • Can the child count backwards from a particular number?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 5.11 Reads and writes number names and numerals for numbers up to 999	• Writing practice sheet • Place value blocks • Objects to count • Cards of number names	• Making the children understand that a number should be written in an expanded form to understand the concept of number names. For example, $901 = 900 + 1$. Nine hundred and one = Nine hundred one. • Asking the children to fill in practice sheets based on number names. • Playing games with the children with place value blocks (while playing with the place value blocks, children write the number formed on the place value blocks in numerals and also the number name in two separate columns). Guiding Questions for Assessment • Is the child able to write the expanded form of two/three-digit numbers? • Is the child able to comprehend three-digit numbers on the place value blocks and the number it depicts? • Is the child able to write the number name and its corresponding numeral correctly?

Learning Outcomes	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 5.12 Uses zero in place value system	- Paper cards - Pencils - Scale - Abacus - Place value sliders - Other objects commonly available at home/ in the school	Providing opportunities to the children to: - recall and discuss within a group the concept of place value. - play with the abacus to form 2 or 3 digit numbers. - form numbers using place value sliders. - Explaining to the children the concept of place value such as: The diagram shows a place value chart with columns labeled H (Hundreds), T (Tens), and O (Ones). Arrows point from each column to a corresponding multiplication box: an arrow from the O column points to a box with $9 \times 1 = 9$; an arrow from the T column points to a box with $5 \times 10 = 50$; and an arrow from the H column points to a box with $1 \times 100 = 100$. - Taking different numbers to show how the value of a digit differs with zero at a particular place (like 109, 011, 120), though alone, the value of zero is always zero or nothing. Guiding Questions for Assessment - Is the child able to use zero in the place value system? - Is the child able to understand the place value of zero in a two/ or three-digit number? - Does the child show different values of numbers with zero having different places on an abacus and place value slider? - Does the child think of her/his own numbers to explain the value of zero in the place value system?

Learning Outcomes	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 5.13 Compares and forms the greatest and smallest two-digit numbers (with and without repetition of given digits)	- Number cards - Colours - Pencil - Practice sheets	- Making the children form different two-digit numbers using number cards and comparing them. - Giving the children number cards to learn that 10 is the smallest and 99 is the greatest two-digit number (by comparing them with other two-digit numbers). - Making the children arrange numbers in ascending and descending order using number cards to explain the smallest and greatest number in the series developed by them. Guiding Questions for Assessment - Is the child able to form two-digit numbers using number cards? - Is the child able to compare two smallest and largest two-digit numbers logically?
Learning Outcomes	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 5.14 Develops her/his own strategies to add two numbers (sum not exceeding 99) and applies them to solve simple daily life problems/situations	- Number cards small blocks, counters - Bindis - Birds - Ice cream sticks - Manipulatives	- Making the children do additions by using countable objects such as blocks, counters, bindis, icecream sticks, etc. and manipulatives. - Encouraging the children to explore different ways to add two numbers. - Giving the children daily life situations to solve like, "How many bananas will be needed if four members in the family are given two each?" - Helping the children understand through practice that while doing addition, one must always start from the units and then tens. Guiding Questions for Assessment - Is the child able to add numbers on two cards correctly? - Does the child apply addition to solve daily life situations?

Note: Develop Rubrics to assess addition skills of children, e.g., whether children use concrete objects more comfortably to do addition, their progress from concrete objects to application in daily life situations.

Learning Outcomes	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 5.15 Develops her/his own strategies to subtract two numbers upto 99 and applies them to solve simple daily life problems/ situations	- Number cards small blocks, counters - Bindis - Birds - Ice cream sticks - Manipulatives - Balls, pencils	- Making the children understand the concept of 'taking away' by using concrete objects such as balls, pencils, ice cream sticks, counters, etc. - Asking the children to play in groups (in pairs) using a pair of dice: One child throws two dice together and writes the numbers obtained. S/he writes the greater number on top and the smaller number below it and tries to subtract. - Encouraging the children to do activities with their friends involving taking away in groups and discussing the result. - Asking the children to recall situations they observed at home or in any other familiar places where they had to apply 'taking away'. Guiding Questions for Assessment - Is the child able to apply 'taking away' activity to the concept of subtraction? - Does the child apply subtraction in daily life situations/problems?
Learning Outcomes	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 5.16 Appreciates and applies relationship between addition and subtraction of numbers	- Counters - Math manipulatives - Board Games - Pack of cards - Small objects easily available in the classroom like crayons, beads etc.	- Providing opportunities for the children to: - count, add, and subtract using their fingers within ten. - add and subtract using small objects, such as clothes pins, ice cream sticks, counters of sticks, counters of different colours (can be good for tactile learners). - Making the children practice subtraction equations to represent what is left. - Giving the children a thorough understanding of addition and subtraction and then explaining the relationship between addition and subtraction or depending upon the performance of the children, introducing the relationship at the appropriate time. Guiding Question for Assessment - Is the child able to apply the relationship between addition and subtraction of numbers?

Learning Outcomes	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 5.17 Develops the idea of multiplication of numbers and constructs and applies multiplication facts (tables) of 2, 3 and 4 in daily life situations	- Charts with tables of 2,3 and 4 - Some picture cards with groups of objects in twos, threes and fours	- Displaying charts with tables of 2,3 and 4 for children to observe. - Observing the children to see if they can identify a pattern. Letting them extend the pattern and thus construct the table. - Asking the children to look at picture cards and write the number of objects in the groups by counting. - Making the children add the groups (of objects) one by one progressively, e.g., to one group of two, add another group of two, which makes it four; add another group of two to four which will make it six. This explains that multiplication is repeated addition. - Keeping a bag of counters and asking the children to distribute three counters to each of their team members. Asking them how many counters would they need? (Allow them to estimate and then verify the same by actually doing it). Guiding Questions for Assessment - Is the child able to understand the idea of multiplication? - Is the child able to apply multiplication facts in real life situations?

NOTE: Once the children get an understanding of addition and subtraction, explain the relationship between addition and subtraction or depending upon the performance of the children, introduce the relationship at the appropriate time.

NOTE: Peer Assessment:

Allow the children to tell who was able to correctly distribute counters.

Learning Outcomes	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 5.18 Develops the idea of division of numbers as equal distribution/sharing	Plenty of small objects like candies, counters, biscuits, beads, etc.	- Creating situations for the children to play with concrete objects to make groups of two or three. - Changing the number of objects to be distributed from the whole quantity in each group to introduce the idea of division. Add an element of fun and problem solving by not providing an exact number of objects for groups that children are asked to make. Guiding Questions for Assessment - Does the child try to understand the concept behind the activity? - Is the child able to do the repetitive activity of distribution? - Is the child ready to learn division?

NOTE: Equal distribution/sharing is the first step to learn division

Learning Outcomes	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 5.19 Identifies appropriate operation (addition or subtraction) to solve problems in a familiar situation/context	- Commonly available concrete objects - Picture cards having different number of objects - Story cards or books with numbers occurring frequently	- Providing opportunities for the children to deal with a variety of real-life contexts either through pictures, concrete materials like toffees, pencils or verbal problems to learn problem solving. - Making the children construct and solve problems related to operations on numbers, for example, "It is your birthday and all children in the class are giving you gifts. Once you get all the gifts, tell me how many gifts will you get in all?" - Conducting games and activities involving estimation of sum and differences of two numbers. - Encouraging the children to discuss with their friends and ask questions like, "How did you estimate?", "Why did you add?" or "Why did you subtract?" This will arouse interest in the children to discuss various ways for addition and subtraction and the appropriate operation to be used to solve a problem. Guiding Questions for Assessment - Can the child correctly solve a problem involving addition and subtraction? - Is the child able to identify which operation is applicable to a particular context/problem/situation?

NOTE: Assess through guiding Questions like "How did you estimate?", "Why did you add?" or "Why did you subtract?"

Learning Outcomes	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 5.20 Represents an amount up to Rs. 100 using notes and coins	• Mock market • Dummy notes and coins of different values • Money chart • Worksheet on money • Role play area	• Providing opportunities to the children to: - observe notes of Rs 10, 20, 50 and 100. - coins of one, two and five and ten rupees. • Organising role play where children buy chocolates/pencils/other items and pay with dummy notes and coins. • Making the children collect coins on the basis of their value, to make a sum of e.g., 74 rupees or any other amount. • Asking the children to observe the Money chart. Guiding Questions for Assessment • Is the child able to calculate the correct amount of money in the role play setting? • Is the child able to count money coins or paper currency on the basis of their value to make a specific amount?

Learning Outcomes	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 5.21 Estimates and measures length/ distances using uniform non-standard units like a rod/ pencil/ thread, etc	• Paper strips • Thread • Ribbons • Scales • A rod	• Engaging the children in group/individual activities for measuring length of different objects/ distance using uniform non-standard units like paper strips, ribbons, thread, a rod, etc. • Making the children estimate the lengths of objects (like a table, a writing board, notebooks, books, etc) in the classroom or at home and then verifying the same through paper strips, ribbons, thread, a rod, etc. • Asking the children to put objects in ascending order as per length estimated by them and further confirm their answer. Guiding Questions for Assessment • Is the child able to estimate lengths/ distances? • Is the child learning from others while measuring?

NOTE: Assessment through observation and conversation.

Learning Outcomes	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 5.22 Compares objects as heavier than/ lighter than using a simple balance	- Simple balance (child friendly) - Different type of objects - Empty bottles/cans - Pencil boxes - Tiffin boxes	- Providing opportunities to the children to: - measure weights of different objects with the help of a simple balance. - write weight of objects on them with the help of paper stickers and also arrange different objects according to their weight in ascending/ descending order. Guiding Question for Assessment - Is the child able to tell which object is heavier or lighter in comparison to the others?

Learning Outcomes	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 5.23 Compares the capacity of different containers in terms of non-standard units for example cup/ spoon/ bucket, etc.	- Various containers and empty cans/bottles having their quantity written on them. - Different containers that are available in the child's vicinity like, glasses, spoons, jugs, mugs, buckets, etc.	- Encouraging the children (individually and in groups) to estimate capacities and to verify by actual measurement with the help of non-standard units. - Arousing curiosity in the children by asking them questions like, "Find out how many mugs/ spoons can fill this container?" Let them verify their answer by actual measurement. Guiding Questions for Assessment - Does the child compare the capacities of different containers and tell which is bigger or biggest, etc.? - Is the child able to verify her/his estimate by actual measurement ?

Learning Outcomes	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 5.24 Compares objects as hotter than as colder than by observable properties like condensation/steaming, etc.	• Metal plates • Warm water in a safe pot • Ice cubes • Steel tumbler • Electric kettle	• Asking the children to put ice cubes in a steel tumbler and observing the droplets that start surfacing on the sides. Explaining to the children that the surface of glass is colder than the surrounding air and therefore, when the water vapour present in the air comes in contact with the colder surface of the glass, it turns into liquid and is visible as water droplets. • Taking water in an electric kettle and allowing it to boil. Drawing the attention of the children towards the steam coming out from the kettle (children must be kept at a safe distance). • Putting hot water in a cup and covering it with a metal plate or surface lid. Showing the children how steam turns into water on cooling (through condensation) and can be seen in the form of droplets. • Making the children understand through hands on experience the concept of temperature (hot and cold). Ask the children to touch various objects to tell you which are hot or cold in relation to each other. Ensure no object is too hot for children to touch. Guiding Questions for Assessment • Is the child able to understand the process of condensation/steaming and explain it? • Is the child able to compare objects by their temperature (hotter or colder)?

NOTE: Teacher can conduct the experiments in the classroom with the help of some senior students or helper and keep children engaged.

Learning Outcomes	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 5.25 Identifies and describes basic 2D shapes such as rectangle, triangle, circle, and other shapes around her/him. For example, the pages of a book are rectangular and have 4 sides, 4 corners, and the trace of a bangle has no corner	• Solid shapes • Puzzles • Shape charts • Feely bags • Popsicles • Pipe cleaners	• Providing the children opportunities to: - play with solid puzzles filling the corners and details of each shape. - trace alongside a bangle to see that it has no corners. • Letting the children look at their notebooks and tell how many corners are there. • Making the children draw shapes of different objects which exist in their close environment and name them, like, a chapatti may be a circle, a notebook is a rectangle, a birthday cap is a cone, etc. • Asking the children to make any shape using popsicles. • Using feely bags with different shapes in the bag and asking the children to identify the shapes with their eyes closed, using their sense of touch. Guiding Questions for Assessment • Is the child able to correctly name the shapes from the chart? • Is the child able to tell how many corners a rectangle has? • Is the child aware of the fact that a circle has no sides or corners? • Is the child able to tell how many sides a triangle has? • Does the child try to talk about more objects with 2 D shapes?

Learning Outcomes	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 5.26 Identifies the relationship between half, quarter and whole using paper folding, daily life context like folding of roti/ sandwich, etc. and clothes (bedsheets, handkerchief, etc.)	• Paper pizza • Two slices of bread • Cheese slice • Kitchen cloth	• Asking the children to cut paper pizza into two equal halves using child-friendly scissors. • Asking the children to prepare their own sandwich with cheese in between two bread slices and cut it into 'half'. The two half pieces may be further cut into half pieces to make a 'quarter'. • Making the children fold a kitchen cloth into equal parts and continue with the activity once more. • Encouraging the children to call out loudly 'whole' and then 'half' after the first folding and then 'quarter' after the second folding. Guiding Questions for Assessment • Does the child correctly cut the given objects into two equal halves (Under adult supervision)? • Does the child cut half pieces further to make a quarter? • Does the child understand the concept of whole, half and quarter?

Learning Outcomes	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 5.27 Observes and generalises the patterns in numbers like in multiplication tables, 1-100 number grid or objects in the environment	- Calendar, number grid with bold numbers, number chart with limited numbers, say up to 40 - Multiplication tables (2 and 3) written in bold number	- Making the children observe the table of 2 and notice the pattern of 2, 4, 6, 8, or 0 in one's place. - Asking the children to observe the number grid and indicate the observable pattern. - Encouraging the children to observe and share if some number pattern is observed by them in their home or neighbourhood. - Making the children observe the calendar for a specific month and notice the pattern of days and dates. Guiding Questions for Assessment - Does the child notice the pattern in the table of 2? - Does the child observe patterns in numbers on a number grid? - Does the child observe patterns in terms of weekdays and dates in a calendar? - Is the child able to notice and explain a pattern?
Learning Outcomes	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 5.28 Draws inference based on the data collected such as the number of vehicles used in Samir's house is more than that of Angelina's, the price of a commodity is more than any other commodity in a rate chart, etc.	- Packets of daily use items with prices printed on them - Toy cars of different types with price stickers	- Encouraging the children to talk about how many members are there in each one's family/ how many vehicles are owned by the family and the type of vehicles. - Giving the children opportunities to observe food packets with prices written on them and letting the children compare and express which is costlier and which is cheaper. Guiding Questions for Assessment - Is the child able to compare her/his family size with other children in respective groups? - Is the child able to draw inference regarding which packet is costlier, on the basis of the price written on food packets?

Learning Outcomes	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 5.29 Identifies the days of the week and months of the year using a calendar in her daily life events	• Different types of calendars • Big sized font showing names of the weekdays, months and dates	• Explaining the concept of date and week through the daily routine of the children. • Explaining how many days make a week and how many weeks make a month with the help of a wall calendar. • Encouraging the children to find their birthday month in the calendar and mark their date of birth in that month. • Asking the children to write in a sequence children's birthdays in the class, month wise. Guiding Questions for Assessment • Is the child able to identify the days of the week and months of the year? • Is the child able to read the calendar? • Is the child able to tell how many days make a week, how many weeks make a month and how many months make a year? • Does the child identify her/his birthday month in a calendar? • Does the child correctly sequence birthdays of children in a group?

Learning Outcomes	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 5.30 Demonstrates interest/ curiosity in newer technology as per the child's context	Softwares: Tux Paint, Paint, 3 D paint	• Providing opportunities for: - using shape flashcards and connecting to real life objects. - performing experiments with shapes using the software 'Paint'. • Gamifying the classroom with fun activities. Guiding Questions for Assessment • Is the child able to get familiar with the softwares available? • Is the child able to use shape flashcards as desired?

EVS as a separate subject starts in Class III while in Classes I and II, it is integrated in Languages and Mathematics. However, elements of EVS are integrated in all activities and experiences from Preschool 1.

POINTS TO CONSIDER

- ✓ The codified numbers of learning outcomes should not be treated as hierarchical or stand-alone. In each class, across the foundational stage, the experiences and activities may be provided in an integrated manner, simultaneously across the learning outcomes and developmental goals.
- ✓ Activities/experiences designed and targeted for a particular Learning Outcome, for a particular class, will also address a number of other Learning Outcomes, within and across the three developmental goals (domains subsumed).
- ✓ The children must be observed in different settings/locations (e.g., how does she/he interact individually/in small group/large group, etc.).
- ✓ Assessment should not be based on only one or two Learning Outcomes, rather, it should be viewed holistically.
- ✓ Children's learning needs to be assessed in a progressive manner (the term wise progress of the child in each domain should be in a positive direction).

CLASS - III
**Competencies
&
Learning Outcomes
with
Ideas for Pedagogical
Practises and
Assessment**

***Early Learning
is most meaningful when it is integrated across the
Three Developmental Goals***

DEVELOPMENTAL GOAL 1

CHILDREN MAINTAIN GOOD HEALTH AND WELL-BEING (HW)

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 6.1 Participates in games and sports to strengthen and extend gross motor skills	• Badminton • Tennis • Football • Swimming • Jungle Gym • Balancing activities • Jump rope • Exploring • Organised sports • Push ups • Trampoline • Child Yoga • Discussions	• Providing opportunities for the children to learn through class discussions that as they grow, their muscles become stronger allowing them to do various tasks that need a lot of physical strength. • Helping the children to develop their gross motor skills, balance, muscle strength, coordination, muscle endurance and weight shifting. • Organising for the children to participate in games and activities such as, badminton, tennis, football, swimming, obstacle course, jungle gym, balancing, jump rope, push ups, trampoline, simple Yoga exercises (under adult supervision). Guiding Questions for Assessment • Does the child participate in games and sports? • Does s/he have good gross motor skills and strength? • Does the child show flexibility while doing age-appropriate Yoga exercises with adult supervision?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 6.2 Demonstrates care and respect for immediate and extended family, friends, neighbours, pets and surroundings	• Family games • Activity sheets • Books about families • Books about animals and their families • Word flashcards representing different family members, extended family included • Adapting family games to class games • Non-fire cooking activity • Visits	• Conversing with children during circle time about the people who help them (it may be a member of the family, friend or neighbour. This will give them a sense of belonging within the neighbourhood and community). • Asking the children to keep their surroundings clean and tidy. • Encouraging the children to spend time with the family (by playing games, helping around with household chores, planting trees, going on vacations/picnics/ movies, cooking and eating together, going for nature walks and cycling together). • Motivating children to engage in activities in the neighbourhood e.g. creating a book club, organising sports and cultural activities, celebrating festivals, planning for picnics in the neighbourhood. • Taking the children to a blind school, old age homes or orphanages where they can volunteer to help the inmates. • Encouraging the children to always be kind to pets and animals on the road. • Encouraging children to feed the poor in the community and look after the stray animals (and if an animal is hurt, call the animal society). Guiding Questions for Assessment • Does the child show respect for her/his elders, friends, pets? • Does the child keep her/his surroundings clean and tidy? • Does the child greet everyone in the school? • Does the child get involved in nature related activities like, watering the plants, feeding stray dogs? • Does the child participate in neighbourhood activities?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 6.3 Takes initiative, participates in all group and individual games, follows rules and cooperates in a team	• Balance beam • Trampoline • Swimming • Horse riding • Dancing • Cycling • Skating • Football • Tennis • Basketball • Equipment for other gross motor activities. • Display of rules for different games • Conversation related to the activities with children	• Conversing with the children to make them understand the importance of both individual and group games for physical and mental health. • Developing awareness about the stresses and challenges that children go through in both individual and group sports/games but helps them emerge stronger. • Creating awareness on the benefits of playing group and individual games (e.g. help to maintain good health, cultivate team spirit, build confidence, help in coping with failure/overcoming limitations, etc.) • Discussing the importance of rules in a game and why we need to follow them (children must understand the difference between rules and routines). Also talking about the importance of cooperation in a team. • Encouraging children to participate in various games and activities and making sure that they follow the rules. Guiding Questions for Assessment • Does the child read the displayed rules of the game and follow them? • Is the child taking initiatives to participate in group and individual games? • Does the child cooperate in a team? • Does the child create her/his own rules while playing/planning a gross motor activity?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 6.4 Follows complex instructions/rules; frames their own rules for invented games and activities	Activities such as: • 'Simon says' • Blindfold and instruct • Drawing only by following complex directions • Sit/stand game with more complex directions • Board Games • Indoor and outdoor games	• Ensuring full attention of the children through eye contact when asking them to follow complex rules/instructions. Giving clear instructions in a simple language. • Using visual cues with the help of facial expressions or body language for better understanding of the instructions or rules. • Motivating the children to design new games and activities. Helping children to frame their own rules while playing the game/doing the activity. • Playing the game 'Simon says' with children, with more complex directions. • Blindfolding a child and giving simple to complex instructions for the child to follow. Involving all the children in the game. • Drawing a certain complex shape or picture and asking children to draw it. • Playing the game sit/stand with more complex directions like: sit, lift your left hand and close your eyes, etc. Guiding Questions for Assessment • Does the child read the displayed rules of the game and follow them? • Is the child able to follow complex instructions/rules? • Does the child frame her/his own rules for invented games and activities?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 6.5 Demonstrates leadership qualities and suggests ideas for changes in daily routine	• Conversation with the children while conducting activities • Volunteering for class responsibilities • Games - Lead the blindfolded • All indoor/outdoor small/whole group games • Daily routine	• Developing the daily routine at the eye level of the children. Let them study it and suggest creative ideas • Organising activities to help develop leadership skills in the children e.g. making the children volunteer for class responsibilities. (Give children classroom tasks such as, looking after the discipline, making sure the children move in a line, making sure that all the children finish their lunch, etc. Observe who all come forward to take on the responsibility). • Asking the children to give creative suggestions for changes in the routine or activities. • Giving opportunities to children to plan for a group activity on their own. • Playing the game, "Lead the blindfolded" with the children. (Blindfold a child and let another child give her/him directions to go through the classroom). • Conducting the activity, 'Move the egg' (Divide the children into groups of four or five. Each group selects their leader. Give each group a spoon and an egg. The leader has to creatively find an effective way to transfer the eggs from one point to another. The group which completes the activity most creatively is the winner). • Discussing with children the qualities of a good leader (stress upon good communication skills, being a negotiator, being able to work in a team, being flexible, motivated, creative, committed and having the ability to take decisions). • Narrating stories of great leaders. • Encouraging children to suggest creative ideas while planning for group activities Guiding Questions for Assessment • Does the child demonstrate leadership qualities or try to lead by example? • Does s/he suggest or give ideas to bring about change in the daily routine?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 6.6 Concentrates on more complex projects and completes tasks even with a few interruptions	• Conversation /discussion • Memory games • Thinking games • Dance sequence games • Story based games • Statue game • Activities such as, sequencing stories, spotting the difference, joining the dots, spotting what is missing • Tongue twisters • Crossword puzzles/picture puzzles • Mazes • Word search	• Conversing with the children about events, people, animals, plants and then posing questions to check their attentiveness. • Providing opportunities for the children to increase their concentration levels. • Conducting for the children games and activities like: memory games, sequencing stories, spot the difference, join the dots, thinking games, tongue twisters, spot what is missing, dance sequence games, story based games, statue game, etc. • Making the children solve mazes, crosswords/picture puzzles, word searches to enhance their focus and concentration Guiding Question for Assessment • Is the child able to concentrate on more complex projects? • Is the child able to complete tasks even with a few interruptions?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 6.7 Manages emotions appropriately in challenging situations	• Interaction /discussion on various issues related to dealing with emotions • (DIY) Board games based on emoji expressions (using number and dot dice)	• Making the children understand through interactions and talks that just like them, the adults too experience a lot of different emotions at various times. However, we must learn to cope with our emotions. • Providing opportunities for the children to learn from real life experiences, how to deal with their emotions (tell the children stories and anecdotes or show them films like, "Taare Zameen Par", "Iqbal", "The Sound of Music"). • Organising discussions for the children on how to deal with emotions in various situations (how to understand/ identify the emotion one is feeling, whether it is negative or positive, counting up to ten to calm down, listening to music, or doing some deep breathing, diverting one's attention from the problem to a mood booster and lastly if one is unable to deal with the problem, talking to an adult). • Suggesting to the children that some of the ways of dealing with emotions are to: - express feelings and try to solve the problem. - develop strategies for creative solutions. • Play board games with the children based on emoji expressions. Children can be encouraged to create their own emojis. Guiding Questions for Assessment • Does the child deal with emotions appropriately in challenging situations? • Does the child identify and name the emoji emotions while playing board games?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 6.8 Chooses and continues playing and practice of games/sports activities of their own choices and interest	• Small group play in D-I-Y area well-equipped with loose objects/materials • Discussion/Interaction to conduct games/activities • Games and activities like: 'knots and crosses', building a huge tower, football, hide and seek, 'just a minute', 'complete the story', etc.	• Providing a wide range of activities and games for the children to choose from. Helping the children to make their own choices/decisions about the games and activities they want to participate. • Conducting various games and activities with the children like, 'knots and crosses' building a huge tower, football, hide and seek, 'Just a minute', completing a story, writing\ creating passages and stories, etc. Guiding Questions for Assessment • Does the child choose on her/his game/ sport/ activity? • Does she/he continue to play and practice the game/ sport/ activity of his/her choice?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 6.9 Takes care that conflict does not arise during play or activities, makes rules beforehand, resolves minor conflicts independently or with the help of adults	• Age-appropriate materials for play activities • Discussion during activities • Brainstorming • Related Stories • Small/large group play situations • Job responsibility chart/poster	• Looking at the different emotions with the help of a visual chart and discussing how to deal with each emotion. • Helping the children to identify the problem, brainstorming and finally coming to a solution (different situations, experiences, stories, anecdotes can be used to create an understanding of how to avoid conflicts during play). • Telling children, the meaning and importance of rules, how these should be decided in advance, before the game begins, to avoid conflicts. Guiding Questions for Assessment • Is the child able to take care of conflicts during play or activities? • Does s/he make rules before starting to play? • Does s/he resolve minor conflicts independently or with the help of adults?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 6.10 Exhibits pleasure in working, learning and playing together, Observes rules in games (individual and group) and other collective tasks	• Discussion/Interaction • Games: Memory games, Word games, Board games, Listening games, Action games, etc. • Word building and Math games • Dance/Drama/Music and Movement • Job responsibility charts • All indoor and outdoor games/activities	• Having a discussion on working and playing together. Tell the children it teaches us be caring, tolerant, patient and disciplined. • Encouraging children to do activities with other children (this will help in developing team spirit and children will also learn to follow rules and to work together happily and collectively). • Playing word/ board/ memory/ action games with children, doing group/team activities and reading together. Guiding Questions for Assessment • Does the child feel happy while working, learning and playing together with other children? • Does s/he observe rules in games (individual and group) and other collective tasks? • Does the child wait for her/his turn while doing activities in groups? • Does the child share her/his ideas/create rules and also follow them?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 6.11 Exhibits care, affection for team members, plays with others and cooperates in a team	• Small/whole group activities • Debates • Role plays/ Dramatisation • Group games • Art Projects • Science Projects/experiments • Outdoor play • Team sports/games • Board games • Flash/commands cards • Creation of related story/poster on love/affection/empathy, etc.	• Providing situations for children to role play model, caring and affectionate behaviour, acknowledge kindness and not being rude to others. • Brainstorming on how to be caring and affectionate towards one another. • Writing down on the blackboard, some ideas on how to be affectionate and kind and letting children add to the list e.g. We can be kind by greeting elders every morning, etc. • Fostering team building by giving opportunities to the children to participate in group activities, debates, role play, projects, team sports and games. • Motivating the children to create their own board games and play in a group. The rules of the game should be shared in advance. Guiding Questions for Assessment • Does the child show care and affection for team members? • Does s/he play with others and cooperate in a team?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 6.12 Demonstrates respect for others, their culture, food, festivals, etc., is sensitive to others' needs, shows tolerance, acceptability, etc.	• Information/ information related books • Videos • Internet • Poster making • Dramatisation/ role play /Fairs • Story telling • Competitions, debates • Food festivals • Parent volunteers • Making of cards • Collection of age-appropriate local songs/relevant pictures/films	• Creating situations for the children to learn about the culture, food and festivals of the different States of the country by showing videos, displaying books, using internet, etc. • Making the children watch dances of different States, dramatizing Indian folk tales, talking about the foods prepared during different festivals and the foods of their own State, organising talks, videos, discussions, films, visits by eminent Indians, etc. • Celebrating 'Incredible India Day', by telling the children stories of the past i.e. before and after independence, celebrating all Indian festivals to show respect for all cultures/ traditions. • Organising poster making competition on a topic like 'I Love My India', 'my Motherland'. • Encouraging children to learn about other countries as well, through books, internet, videos, etc. • Encouraging children to create a theme boards on different festivals/local events and local well known celebrities. • Making the children sing patriotic songs on special occasions and talking to them about the need to embrace, accept, tolerate and be sensitive to everyone old or young, abled or challenged, rich or poor and instil the pride of being an Indian. Guiding Questions for Assessment • Does the child show respect for others, their culture, food, festivals, etc.? • Does the child readily accept differences? • Does the child demonstrate sensitivity towards diversity?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 6.13 a Maintains cleanliness of classrooms, playground, toilets and bathrooms, home, room, utensils, and proper management of garbage	• Hygiene Quiz • Discussion/Debates • Paragraph writing • Letter Writing Tasks • Drawing • Songs • Cleanliness campaign • Poster-making • Writing/drawing tools • Old magazines • Story writing competition • DIY puzzle	• Organising a discussion in the classroom on the importance of self-hygiene and the need to keep our surroundings clean. • Showing the children the correct ways of using the toilet and how to keep it clean. • Making the children write a paragraph on why we need to keep our surroundings clean and the ways to do it. • Guiding the children to write a letter to the principal asking for hand sanitisers for their classroom. • Making the children draw a picture or make a poster of a playground full of garbage and a clean playground and organising a discussion on both the visuals. • Making the children learn songs on how to wash hands, personal hygiene (songs are a great medium to teach habits and values). • Organising an activity on how to prevent–spread of germs. • Doing activities to help children understand how germs spread e.g. Put sparkle on the left hand of a few children (ask them not to put the hand in the mouth) and let them go about their daily routine. After a couple of hours ask the children to check where all they can see the sparkle. They will find the sparkle in everything they have touched including the other half of the class who did not have sparkle on their hands. • Following up the activity with a discussing on how germs spread and explaining to the children that while we can see the sparkle, we cannot see the germs. Emphasise on the need to wash hands at regular intervals. Guiding Questions for Assessment • Does s/he exhibit cleanliness (self and environment)? • Does s/he follow hygienic and healthy eating practices?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 6.13 b Shows awareness of constituents of food (energy, body building, protection) items, implications of junk food, frequency of taking food	• Game: Touch, feel and say the name • Grow a garden • Cooking without fire • Salad making • Game 'Simon says': Name the food in each food groups • Chart with the 'Food pyramid' • Food wrappers • Food cans/pouches • Writing and drawing/painting tools • Variety of papers • Thick chart paper • Poster-making • Talking time on related themes/topics	• Providing situations for having a conversation/ discussion with the children on a nutritious and balanced diet. • Showing the children a food pyramid indicating a balanced diet with examples, followed by a discussion. • Displaying a food pyramid in the form of a chart to show that proportionate amounts of food belonging to certain specific, but basic food groups, such as fruits, vegetables, grains, pulses, etc. should be eaten regularly. The foods at the bottom must be consumed the most and the foods at the top of the pyramid must be eaten the least. • Talking to the children about the various food groups like grains, vegetables, fruits, milk/dairy, fish, meat, beans, nuts, etc. The children can be given a list of food items and they can categorise these into food groups. • Creating awareness among children about foods that are unhealthy, that that we must avoid, e.g. 'Junk foods,' as these foods have preservatives and are high in fat and sugar. • Organising /conducting activities in the class such as: - Touch-feel and say the name game: Blindfold the children and let them touch, feel and say the name of the food item. - Drawing and painting different foods. - Creating a small kitchen garden in potted plants and taking care of the plants. - Cooking without fire e.g., salad making, sprouts, sandwiches, coconut balls, <i>laddoos</i>, etc. Guiding Questions for Assessment • Does the child show awareness of constituents of food (energy, bodybuilding, protection) items? • Can she/he name some junk foods and give reasons for why we must avoid them?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 6.13 c Demonstrates importance of including a variety of food items in diet and frequently eating balanced diet	• Old magazines and food picture chart • Conversation/Discussion • Poster of balanced diet • Poster of food groups /food pyramid • Food wrappers • Display of real food items from the food groups • A display plate with a balanced meal • Child friendly scissors • Glue • Tape	• Discussing/having a conversation with the children on the various food groups and their importance as per the food pyramid. • Making children understand what a balanced diet means and why it is so important for our health. Telling the children, the consequences of not eating a balanced diet. • Encouraging the children to eat items from each of the food groups and drink adequate water to maintain good health. • Doing 'My healthy Meal' activity by asking children to cut and paste relevant food pictures on a paper plate. Later the child can be encouraged to write few sentences in her/his own language beneath each picture. • Displaying real food items from different food groups in the class as well as posters of a food pyramid and balanced diet in the classroom for the children to observe and study. • Encouraging the children to look at food cans, cartons, wrappers, packets to learn about the ingredients used and take a call on whether these are healthy for them. Guiding Questions for Assessment • Does the child understand the importance of including a variety of food items in her/his diet? • Does the child follow a balanced diet?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 6.14 Demonstrates awareness about personal safety and reports to the teacher or parents and adults about any bad touch/behaviour noticed, maintains distance and tells others to be safe	• Conversations in a group • Role play on personal safety • Books (information, magazines) • Videos/films on 'good', and 'bad' touch • Related Stories • Talks by women police, child counsellors • Visit of a child counsellor • Related posters displayed in the classroom and school gallery • Orientation of parents	• Creating awareness among the children about staying away from strangers as they can be dangerous. • Making the children understand what appropriate behaviour is (from strangers or even people they know). and what they must do if somebody crosses the line. • Clarifying to the children that there are three types of touches i.e. safe touch, unsafe touch and unwanted touch (emphasise on the need and ways to be safe through role plays, videos, films, stories and tell children that they should not hesitate to shout for help and go to the people they trust, such as teachers, parents, etc.). • Discussing that the children must keep their eye and ears open to ensure their friends are safe too. • Orienting the parents on how to ensure personal safety of their child at home. Guiding Questions for Assessment • Does the child demonstrate awareness about personal safety? • Does s/he understand that any bad touch/behaviour noticed must be reported to the teacher or parents? • Does s/he maintain distance and personal safety and tell others to do so too?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 6.15 Reflects and report to a responsible adult; Demonstrates supportive behaviours to soothe peers in case of injury/mishap/ sickness	- Activities to sooth and calm the child - Collection of songs/poems based on empathy - Music and movement - Discussion on children's work - First aid box - Films, videos on first aid, road safety, fire drills - Stories - Creative writing - Poster making	- Discussing with the children about not acting on impulse and telling them that just because s/he feels strongly about something doesn't mean it is always right. They must reflect on incidents and share if something wrong happens to someone. It is important to report it to their teachers or parents. - Talking with the children about what they should do when they see someone with an injury or sickness (how they should calm down the person and call for help). - Letting children write a story or illustrate and express themselves about a situation when someone is injured or sick. They can make a poster on the incident. - Conducting mock fire drills and talking about road safety, safety on the playground and while handling sharp objects. - Making the children sing songs and recite poems on 'Caring for others' or 'Showing Empathy'. Guiding Questions for Assessment - Does the child reflect and report to an elder/responsible adult in case of a mishap? - Does s/he demonstrate supportive behaviour to calm down peers in case of an/a injury/mishap/ sickness?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 6.16 Demonstrates neuromuscular coordination, coupling of movements, e.g. Can combine walk and run, sit and stand, run forward and backward	• Demonstration on exercises • Hanging bar • Skipping/jumping rope • Balance Beam • All gross-motor activities that involve walking/running • Adequate and safe outdoor play area	• Conducting exercises for the children to develop neuromuscular coordination in the children. (Begin with a double leg stance and gradually move on to a single leg stance. Once they are able to do a single leg stance, move on to a double leg stance and a single leg stance on a roller board. Then move on to one leg on a stable platform and the other on a roller board). • Organising simple exercises for the children such as hanging from the upper and lower body alternately, hanging from a hanging bar, crawling through tunnels, running forwards, backwards and sideways, using a rope to jump with both legs first, then with alternate legs and then with one leg. Guiding Question for Assessment • Does the child demonstrate neuromuscular coordination, coupling of movements, (e.g. combining walk and run, sit and stand, run forward and backward)?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 6.17 Involves/ Participates/takes initiative/shows leadership in music and movement activities, role play, dramatisation, simulation, mimicry, etc.	• Dances of India • Role play • Dramatisation • Mimicry • Music and movement activities • Musical instruments • DIY – (improvise musical instruments) • Collection of relevant music games/poems, etc.	• Creating opportunities for the children to learn, sing, dance and dramatise with the support of teacher/elders. They can explore dances of different States of India. • Making the children participate in different dances to finally be able to choose which one s/he may like to pursue. • Giving the children various musical instruments to try out, to help them chose which instrument they would like to play and pursue. • Letting the children listen to Indian and western music, practice mimicry and dramatization and involving them in these activities. • Using technology to help children learn the latest in music and movement. Encourage the children to inspire others. • Organising games and activities for the children such as musical games, dumb charades, etc. • Organising activities such as, finding out/ guessing the dance form and sound, role playing for an audience, giving dance/musical performances, doing mimicry, etc. Guiding Questions for Assessment • Does the child participate, take initiative, show leadership in music and movement activities, role plays, dramatisation, simulation, mimicry, etc.? • Does the child understand spatial sense while performing music and rhythmic activities? • Does the child express freely during role play?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 6.18 a Demonstrates precision in fine motor activities, drawing, colouring, writing, etc.	• Manipulatives • Blunt needle and thread • Origami materials/papers • Colour, clipping keys • Printing tools • Child friendly Scissors • Variety of Papers • Paints and brushes • Complex and advanced jigsaw puzzles • Easel • Drawing sheets • Writing and drawing tools • Drawing/sketch book	• Demonstrating and explaining to the children how fine motor skills impact function and hand use in small motor tasks. • Helping the children to develop the ability to coordinate the small muscles of the hand (to be able to grasp, pick up, release and copy patterns). Finally, these small muscles perform the movements used in writing. • Organising activities in the classroom to develop fine motor skills in the classroom. Some of the activities are listed below: - threading a needle - passing peas through a narrow neck bottle - origami activities - clipping pegs around a box - using scissors to cut various complex shapes - building a tall tower with blocks - doing printing on cloth or papers using different blocks - drawing and colouring. • Making the children solve complex jigsaw puzzles. Guiding Question for Assessment • Does the child demonstrate precision in fine motor activities such as drawing, colouring, writing, etc.?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 6.18 b Uses coordinated movements while using writing/colouring tools	• Child friendly scissors • Variety of papers – lined and unlined • Tube of toothpaste/ointment • Pencils, pens • Drawing tools	• Discussing with the children that handwriting needs a lot of coordination between the eye and the hand. • Developing in children controlled complex movements using tools like pencils, colours, pens, etc. • Offering many writing opportunities to children to improve coordinated hand movements (e.g., writing birthday messages, short notes, get-well-soon messages, thank you notes, illustrating and colouring story characters, and so on). Guiding Questions for Assessment • Does the child grip the writing tools appropriately and write with ease? • Does the child use the drawing and colouring tools with ease?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
HW 6.18 c Manipulates grade-appropriate tools and intricate materials with control and precision (e.g., cut and handle small pieces of paper to make a mosaic, keyboarding skills)	• Fine motor activities and related experiments • Kitchen tongs • Small dropper syringes • Thin paint brushes • Tweezers • Clothespins • Punching machine • Colour paper • Computer, keyboard with mouse	• Organising activities in the classroom to refine motor skills such as: - picking up small objects with a tweezer or a kitchen tong and putting them in a box or a jar. - using a small dropper for a science experiment. - using syringes for printing activities with water colours. - using a rubber band to wrap around the nails to make shapes (use wooden board with nails). - punching holes in a paper to make various figures. - using small wooden pegs to clip small pieces of paper on a string. - using a scissor to cut different coloured paper into small pieces of varied shapes and making a mosaic by pasting them on another paper. - using the paint brush tool to make beautiful paintings. Guiding Question for Assessment • Does the child manipulate grade-appropriate tools and intricate materials with control and precision (e.g., cut and handle small pieces of paper to make a mosaic, keyboarding skills)?

DEVELOPMENTAL GOAL 2

CHILDREN BECOME EFFECTIVE COMMUNICATORS (EC)

Early literacy skills

Writing for self-expression

Makes use of her/his knowledge of letters and sounds, invents spellings to write

Makes effort to write in conventional ways

Responds to reading with drawings/ words and meaningful sentences

Writes rhyming words

Writes meaningful sentences using naming words and action words

Writes messages to express herself/himself

Uses mixed language codes

Writes for different purposes in the classroom's activities and at home, such as making lists, writing greetings to grandparents, messages/ invitation to friends, etc.

Key Competencies

Writing with Purpose

FIRST LANGUAGE

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-6.1 Uses school language/own language to express likes-dislikes, responses to familiar incidents/events/ radio/ TV programmes	• Popular Jingles • Cartoons e.g., Sesame Street, Chhota Bheem, Bal Hanuman, My Friend Ganesha • Radio and television programmes for children • Small story videos • Conversation about common incidents in the community	• Providing opportunity for the children to interact freely with peers and other adults in the school context using vocabulary related to the school/classroom. • Encouraging the children to talk about their favourite cartoons or any important event once or twice a week. • Showing the children short story videos and letting them express their likes and dislikes in the story. • Giving the children opportunities to share their views on various issues in the classroom/neighbourhood/family while doing activities or during free time. • Providing post story activities related to the radio/T.V programmes and digital stories. • Exposing the children to a variety of films/cartoons/jingles and asking their views on these. Guiding Questions for Assessment • Does the child use appropriate phrases while talking? • Is the child able to retain and use unfamiliar words from different TV/radio/video programmes? • Is the child able to comfortably communicate her/his response (likes, dislikes) for a particular story/event/incident?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-6.2 Extends the story/ poem while narrating orally	• Stories with open endings • Poems with different rhyming schemes • Picture cards/posters	• Providing opportunities to the children to listen to a few examples of story extension, e.g. in the story “The thirsty crow”, ...after quenching its thirst the crow decided to meet Chirpy, the Parrot. Let the children share orally their own extended versions of stories/poems. • Making the children come up with rhyming words spontaneously when a rhyme is being shared. They can work in pairs and groups and extend rhymes. Let them use their own/school language. • Exposing the children to a variety of stories both familiar and unfamiliar. Showing them picture cards and posters for them to create their own stories. Guiding Questions for Assessment • Is the child able to use her/his imagination and creative thinking in story making? • Is the child able to select appropriate rhyming words as per the context? • Does the child participate in story extension and poem recitation with new rhyming words?

Note: Popular Rhymes may be used for such activities. At this stage, there is no need to formally introduce the concept of rhyming scheme. Create a warm environment in the classroom.

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-6.3 a Connects familiar material for example poem, story, poster, advertisement in her/his surrounding with her/his experiences while conversing	- Familiar Poems, Posters, Stories - Conversations in and outside the classroom - Advertisements commonly read by children or viewed on T.V.	- Creating situations in the class for the children to talk in groups, of experiences similar to the ones given in familiar stories. - Making the children write a poem/story on any experience on her/his own. - Encouraging the children to read and explore texts apart from their textbooks and read from the notice and bulletin boards in the school premises. - Discussing various advertisements with children and talking about the same or similar products that they use. Guiding Questions for Assessment - Is the child able to pick up relevant aspects from stories and relate the same with her/his life experiences? - Does the child talk about the connection of the advertisements (and products shown in advertisements) with her/his daily life?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-6.3 b Converses, asks questions, expresses opinion about characters, theme, pictures of familiar texts like-story/poem, etc.	- Free conversation - Picture of familiar texts, stories, poems	- Allowing for free conversation where the children can interact without inhibition or fear with their peers and teachers. - Providing opportunities for the children to read a variety of stories and pick the characters they liked and disliked the most. - Asking the children to share the reason for their not liking a particular character share the reasons for choosing the character which they liked the most. - Allowing the children to ask questions and/or give their response towards a story or a poem. Guiding Questions for Assessment - Is the child able to use correct vocabulary while giving a description? - Is the child able to give reasons for her/his liking or disliking characters in stories?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-6.3 c Talks about the activity like-morning message, conversation with family members etc. and illustrates, writes a few words about their favourite activity in copy/board/ display board	• Discussion on morning messages, displayed in school/class • Illustrations/pictures, drawings made by the children • Common conversation in the classroom	• Encouraging the children to discuss and share their feelings on morning messages and assembly activities during circle time. • Allowing the children to share (if they are willing to) any family conversation on a topic related to her/him. • Encouraging the children to use writings and drawings as a medium of expression to display their thoughts e.g., their favourite toy or sport, person, place or an event, etc. Guiding Questions for Assessment • Does the child use appropriate vocabulary while expressing herself/himself? • Is the child able to illustrate or write about any topic of her/his choice?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-6.4 a Narrates interesting and humorous stories, poems etc. with appropriate modulation of voice, speed, fluency, and style appropriate to the narration	• Story telling by teachers/parents • Shared reading sessions • Stories of Tenali Raman, Birbal, Mullah Nasruddin, Gopal Bhar, • Panchatantra Stories and stories on Malgudi Days, Jungle Books, etc. • Other stories selected by the children and teacher • Story cards • Graded storybooks	• Providing opportunities for the children to explore and read various stories suggested by teachers or adults. • Encouraging the children to narrate stories to peers briefly with voice modulation (Let them narrate stories individually with fluency and proper gestures). • Allowing the children to do a role play in pairs and groups, on a story. • Inviting the parents to the classroom to tell or read stories to the children. Guiding Questions for Assessment • Is the child able to use the correct vocal delivery appropriate to that narration while reading aloud? • Is the child able to pick up relevant elements when summarising the text? • Does the child enjoy and learn through shared reading?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-6.4 b Solves riddles, takes interest in language games, songs while understanding the rhythm	- Riddles - Popular as well as those created by teachers/parents - Limericks - Pictionary, Scrabble - Age-appropriate songs/poems - Language games - Songs with good rhythm (enjoyed by children)	- Exposing the children to different languages games e.g. scrabble, crosswords, pictionary, dumb charades, word <i>antakshari</i>, etc. - Encouraging the children to solve riddles using clues, create riddles in groups and pairs and play with friends. - Providing opportunities to the children to sing songs with rhythm and actions, individually and in groups. Guiding Questions for Assessment - Is the child able to use intonation at the appropriate points? - Is the child able to coordinate actions with words/ phrases in the poem/ song? - Is the child able to solve and create her/his own simple riddles?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-6.5 a Relates unfamiliar words from different texts while reading and understanding the story	- Storybooks, Age-appropriate clipping from different newspapers, stories - Letter sound correspondence chart - Unfamiliar words with objects/activities	- Making the children engage with books having picture-text correspondence. - Helping the children to make assumptions about the meaning of unfamiliar words they come across on the basis of the context and relating the unfamiliar word with previous knowledge. - Encouraging the children to use the letter-sound correspondence chart. Guiding Questions for Assessment - Is the child aware of grapheme-phoneme correspondence in reading aloud exercises? - Is the child able to make sense of unfamiliar words contextually? - Is the child able to relate to unfamiliar words while reading a story?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-6.5 b Reads and tells the numbers written on the pages of the books. For example – page no. 45,76,21	• Storybooks • Textbooks • Other reading materials having page numbers	• Organising activities for the children to figure out the use of page numbers and follow directions while reading a text aloud, e.g., using phrases like “Turn to Page Number 10”. • Making children answer questions related to page numbers that they are reading during the time allocated for the reading corner, e.g. “How many pages are there in this story?” • Telling the children that the story ends on page no. _____ “Page no. _____ is the last page of...” • Letting the children to share a few lines and then ask their peers to locate those lines and share the page number. (This can be demonstrated as a game). Guiding Questions for Assessment • Is the child able to identify specific page numbers? • Is the child able to retrieve when asked to locate specific lines on a specific page number?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-6.5 c Reads with understanding different texts (newspapers, children’s magazines, etc.) and writes about them in brief	• Child appropriate magazines • Activities: crosswords, reshuffled sentences of a story • Local children’s literature • Stories about festivals • Unfamiliar text from local sources	• Providing opportunities for the children to spend ample time on reading various texts. • Doing activities with children pertaining to extraction of information from different texts e.g., answering simple questions, making a summary of the texts read. Guiding Questions for Assessment • Is the child able to understand information from different texts? • Is the child able to write briefly about texts read by her/him?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-6.6 a Identifies the features of language (naming words, action words, repetition, punctuation marks) in different stories/poems/ texts	- Poems, Stories, text - Charts related to action words, Naming words, Punctuation marks (age appropriate) - Classroom conversation between children, children and teachers	- Conducting activities with the children in the class such as incorporating the concept of naming words and action words in everyday sessions. - Asking the children to look for naming and action words while reading a text and label the words as such. - Telling the children stories/poems with plenty of scope for repetition (words/ phrases/ sentences). - Facilitating read aloud of such stories and letting the children put the repeated phrase/catch phrase at suitable points. - Familiarising children with common punctuation marks e.g. full stop, question mark, comma, etc. Guiding Questions for Assessment - Is the child able to identify the relevant places to insert catch phrases and repetitions? - Is the child able to categorise naming and action words in various contexts? - Is the child able to use punctuation marks while reading and writing?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-6.6 b Makes use of naming words, action words, repetition, and punctuation marks while writing	- Age-appropriate stories, Billboards, Display boards, written text - Use of Punctuation marks, action words, naming words - Bulletin boards in the classroom with action and naming words	- Organising for the children to write short stories individually or with peers or taking adults' help using naming and action words with punctuation marks. - Providing the children with worksheets which have sentences without punctuation marks. The children have to insert punctuations at the appropriate places. - Asking the children to read pout text with proper pauses and tone to go with the punctuation marks. Guiding Questions for Assessment - Is the child able to comprehend the texts? - Does the child use naming and action words with punctuation marks appropriately while writing?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-6.6 c Reads with appropriate flow, intonation, voice modulation, familiar written texts (Mid-day meal chart, class name, title of favourite book, etc.)	• Age-appropriate stories, • Billboards, Display boards, written text • Small notices on school boards • Shared Reading sessions • Read aloud activities	• Providing opportunities for the children to - read food items from a menu card - read correctly names of classmates - read short notices on the school board • Organising for the children to read aloud stories in front of peers and adults with proper flow, intonation, modulation of voice and using props, role play in pairs/groups. Guiding Questions for Assessment • Is the child able to read different texts? • Is the child able to use intonation appropriately?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-6.7 a Participates and converses in the activities like - morning message, free talking time, etc.	• Morning messages • Poems, Stories • Circle time • Display of morning messages on school notice board • Word cut-outs	• Organising for the children to explore and share a poem/story/thought every morning. • Encouraging children to share their own morning message (any interesting thing or event noticed by them) with their peers. • Motivating the children to work with and play language games/activities (primarily focussed on speaking skills). • Offering children opportunities to develop simple and short morning messages using word cut-outs. • Reading of morning messages from the notice board. Guiding Questions for Assessment • Is the child able to select appropriate words while expressing her/his thoughts? • Is the child able to converse appropriately while sharing morning messages/poems, etc.?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-6.7 b Illustrates in copy/board/display board (<i>Haripatti – running writing board</i>), etc. and talks about their favourite activity	• Writing tools • Posters • Drawing tools, colours, etc. • Notebook, papers • Paints and brushes • Coloured chalks	• Giving the children opportunities to express their thoughts on different activities using illustrations and/or texts. • Encouraging children to use drawings and terms related to specific activities in illustrations. • Motivating the children to talk about their favourite activity. Guiding Questions for Assessment • Is the child able to correlate between thoughts and illustrations? • Is the child able to talk about her/his favourite activity?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-6.8 Writes about familiar texts in different forms of expressions about themes, events, characters, title, etc.	• Notebooks • Textbooks • Worksheets • Pens of different colours • Posters showing different forms of expression while writing-story, poems	• Encouraging the children to maintain a journal for their daily/weekly writing and write about what they liked and/or did not like about their day/week. • Asking the children to write about different characters of stories that they come across, in their notebooks. • Making the children illustrate their thoughts about different themes or events. • Ensuring that the children use proper punctuations in their writings. Guiding Questions for Assessment • Is the child able to use the correct words, spellings and meanings when writing? • Is the child able to use punctuation marks appropriately? • Is the child able to express different emotions in personal writing? • Is the child able to write a short character sketch?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL1-6.9 Writes short messages for example, “I have lost my blue cycle. Inform me if someone has seen/found it”	• Postcards • Story- A Letter to God • Cardboards with plain paper stuck on it	• Providing ample scope for the children to observe examples of messages. • Practising with the children to work with various prompts for writing messages e.g., Lost and Found, Birthday Wishes, message for recovery, message to a family member for a pet/toy, A Birthday Invitation, etc. Children can share these messages with their peers. Guiding Questions for Assessment • Does the child communicate / convey aspects of the message properly? • Does the child display coherence of thoughts in the message?

SECOND LANGUAGE

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-6.1 a Asks questions about the story and characters in the story, in English/home language	- Print-rich environment with clear labels, and illustrations - Relevant and contextual storybooks and cutouts of a story - Characters flannel board - Story telling session by teachers/parents using English as well as words from the child's language	- Providing opportunities to the children to listen to stories shared by parents and teachers (children can ask questions closely or remotely related to the story). - Encouraging the children to use age-appropriate English/ home language (through display of word-wall, sight words); offering children exclusive time to read these age-appropriate sight words and word wall. - Designing and offering pre and post story activities that include open-ended questions, role-play, and making of DIY toys, puppets, etc. Guiding Question for Assessment - Is the child able to understand the story? - Does the child ask questions about a story and characters in her/his English/ home language?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-6.1 b Develops vocabulary from her/his classroom and social environment	- Debate - Word wall - Sight word chart - Language board games - Free conversation in the class - Large and small group activities	- Giving the children ample scope to engage with materials related to different subject areas and social themes and encouraging them to discuss. - Encouraging small and large group activities and informal talks among the children. - Sitting with the children in groups, turn by turn, and observing their vocabulary development. - Conducting debates to give the children an opportunity to discuss and express their views to strengthen their vocabulary and speaking skills. Guiding Question for Assessment - Is the child able to learn new words from her/his social environment and the people s/he comes across?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-6.2 Recites poems individually/ in groups with intonation and fluency	• Circle time recitation • Music and movement time • Well-equipped listening area	• Making the children listen to and watch recorded performances of other children in the same age group. • Motivating children to recite and perform in groups with proper intonation. • Encouraging the children for their efforts by clapping or by other means. Guiding Question for Assessment • Is the child able to recite poems individually/in groups with fluency and intonation?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-6.3 Talks about her/his favourite story book/character	• Circle time • Read Aloud time • Story cards • Story character • Short storybooks • Classroom library area	• Encouraging the children to pick up storybooks of their choice from the library area and read these individually or with the support from their teacher/peers. • Making the children share opinions on the title/content/characters with their peers, teachers/parents as also their thoughts on different characters of their favourite story during circle time. Guiding Question for Assessment • Is the child able to read and talk about her/his favourite storybooks or characters?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-6.4 Participates in role play/skit in English/bilingually with appropriate expressions	• Dramatisation on familiar stories • Props for children • Costumes for dramatization • Parental involvement	• Organising events for the children to participate in various role play activities. • Encouraging the children to use English with or without home language with good intonation, voice modulation and appropriate expressions when role playing or doing a skit. • Involving the parents in dressing up children or helping them in their performance. Guiding Question for Assessment • Is the child able to participate in the role play using English, with appropriate expressions?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-6.5 Writes words/sentences to express her/his feelings. Draws about the same as well	• Word cards • Stencils for tracing • Writing area equipped with writing tools and papers • Eye level writing board • Chart of smileys • Drawing sheets, crayons, etc.	• Providing for the children to write from a personal perspective and on situations that include them as active participants, observers etc. • Encourage the children to draw, use smileys to express their feelings and emotions. Guiding Questions for Assessment • Is the child able to write words and sentences to express her/his feelings. • Does the child show interest in sharing feelings through drawings.
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-6.6 Reads print in the classroom/ school environment: poems, posters, charts etc.	• Print-rich classroom supported with relevant pictures • Word cards/charts • Age and developmentally appropriate sight words • Play activities on reading print • Story cards • Graded storybooks • Reading poster • Conversation chart	• Making the children read billboards of popular advertisements and note down the tagline/catchphrase in their notebooks. • Organising for children to work in groups and share information on different billboards near the school premises (on Covid/Dengue) and other topics. • Making the children choose stories and poem books, read them individually and in groups and share these with their peers. Guiding Question for Assessment • Is the child able to read print materials, posters, charts independently or with the help of peer/teachers?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-6.7 Reads small text in English	• Sentence cards • Word cards (supported with picture cues) • Food wrappers • Picture storybooks with one or two sentence text in English on each page	• Asking the children to explore a variety of material in the form of small text, stories or poems in English and engage with these. • Making children read food wrappers, notices, hoardings, etc. • Creating a print rich environment using English words and sentences. Guiding Question for Assessment • Is the child able to read small text in English independently?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-6.8 Narrates the story with the help of a poster	• Reading posters • Story cards • Story collage • Story making • Finger and stick puppet	• Creating a print rich environment and putting story charts and posters at the level of the children. • Asking the children read story posters to be used as props for narration. • Asking the children to use finger, stick puppets, etc. along with the posters. • Encouraging the children to make their own story with the help of a chosen poster. Guiding Question for Assessment • Is the child able to narrate a story with the help of posters and other props?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-6.9 Writes a message for a toy. For ex- "You are my best friend"	• Small cards/paper for writing • Writing board • Writing area equipped with tools • Different types of toys – animals, birds, dolls, cars, etc.	• Familiarising the children with the process of message/letter writing using their feelings, emotions and familiar phrases. • Asking the children to write personal messages for their favourite toy. Guiding Question for Assessment • Is the child able to write a message for a toy?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-6.10 Uses rhyming words for writing short sentences	• Poster and teacher made charts for familiar rhymes • Activity on rhyming words • Language games/activities during circle time • Group activities	• Organising activities for the children in the whole class and letting them speak out rhyming words freely. • Making small groups of children and asking them to frame short sentences using rhyming words. Guiding Questions for Assessment • Is the child able to frame short sentences using rhyming words? • Is the child able to use rhyming words for writing short sentences?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-6.11 Writes sentences using the familiar words	• Word cut-outs • Writing tools • Writing board, slates and notebooks • Free conversation among children • Whole class morning message activity	• Providing opportunities to the children to use their own words to write short sentences, complete short phrases/ simple sentences. • Asking the children to share their sentences with their peers and learn some new words from them. Guiding Questions for Assessment • Is the child able to write sentences using familiar words? • Does the child show interest in making sentences and sharing these with her/his friends?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-6.12 Writes short messages bilingually adding drawing, etc.	• Writing board • Drawing/writing tools • Notebooks • Old greeting cards • Small writing slips • Plain drawing sheets making space for drawing and message	• Demonstrating to children how to short write messages and adding a drawing. • Encouraging children to write short messages for various situations e.g., birthday invitation, New Year greetings, wishing on festivals, etc. bilingually. • Encouraging children to use pictures from old greetings cards or drawing pictures themselves, according to the occasion and the context of the message. Guiding Questions for Assessment • Is the child able to write short messages bilingually? • Does the child draw or paste a suitable picture according to the message?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-6.13 a Writes small sentences using full stops and question marks	• Storybooks or reading texts with small sentences • Different picture cards with one line text • Writing area • Writing paper and pens, pencils etc.	• Demonstrating to the children where to use full stops and question marks. • Making the children write simple short sentences with question marks. Guiding Question for Assessment • Is the child able to understand the usage of full stop and question mark?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-6.13 b Writes briefly about her/his visit to her/his hometown/park nearby/market bilingually	• Morning message activity in the form of conversation • Group discussion among peers • Picture and word cards	• Encouraging all children to participate in the morning message, conversation and letting them share experiences of visits to different places, in groups. • Asking each child to write briefly about her/his visit to a park/ market, etc. using words from both the familiar languages, individually or with the help of friends/adults. Guiding Question for Assessment • Is the child able to write about her/his visit to the hometown/ park/market, bilingually?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-6.14 Works in a team for the display of posters	• Word cut-outs • Old magazines • Writing and painting tools • Thick chart paper • Glue • Tape	• Encouraging the children to observe posters displayed and create their own. • Helping the children to: - translate ideas into pictures and words; - write/create slogans/quotations in pairs/groups. • Conducting a quiz with the children on slogans. Guiding Questions for Assessment • Is the child able to work in a team for display of posters? • Does the child depict/express her/his ideas for poster making?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ECL2-6.15 Develop useful messages for the school premises (classroom, garden, playground, etc.)	• Writing papers and sheets – A4 and A3 size • Sketch pens, pencils, erasers • Classroom discussion • Group activities • Sample messages	• Organising discussions in the classroom on various themes related to the classroom, garden, playground, etc. • Asking children for their suggestions on themes for developing messages for various spots in the school premises. • Organising for the children to work in groups on significant events, days and festivals and encouraging them to use the skill of creative writing. • Dividing the children into groups and encouraging them to write short messages for the spot assigned to their group. • Providing opportunities to each group to share their messages and give positive feedback. Guiding Questions for Assessment • Is the child able to develop messages for various places in the school building e.g., classroom, garden, playground, etc.?

DEVELOPMENTAL GOAL 3

**CHILDREN BECOME INVOLVED LEARNERS AND
CONNECT WITH THEIR IMMEDIATE ENVIRONMENT (IL)**

Key Competencies

Concept Formation

- Colours, shapes, distance, measurement, size, length, weight, height, time
- Spatial sense
- One-to-one correspondence

Number Sense

- Count and tell how many
- Numeral recognition
- Sense of order (can count ahead of a number up to 10)

Number Operations

- Addition
- Subtraction
- Multiplication
- Division

Key Competencies

Measurement

Length, Mass, Volume, Temperature

Shapes

2 D shapes, 3D shapes, Straight Line, Curved Line, Plain and Curved Surfaces

Data Handling

Pattern Recognition
Calendar Activity
Use of Technology

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 6.1 Identifies simple observable features of leaves, trunks and bark of plants, animals, and birds in immediate surroundings	- Leaves of different types - Binoculars (to observe birds and leaves carefully) - Magnifying glass - Nature walk	- Providing opportunities for the children to observe and explore the immediate surroundings i.e. home, school, neighbourhood, different plants and animals to identify their distinctive features such as their appearance, habitat, eating habits, bark of the plants, types of leaves, etc. - Ensuring that the children participate actively and take initiative in taking care of animals, birds, etc. Giving opportunities to the children to work individually as well as in groups for different activities. - Having a discussion with the children on the general ways to protect and conserve nature. Focusing on what the children can do in their own little way in their daily life to ensure preservation of environment. - Encouraging children to go for a nature walks with classmates/ parents/elders/ siblings and talking about what they observe during the walk. Guiding Questions for Assessment - Is the child able to identify plants, birds, animals on the basis of distinctive features? - Does the child able to recall the trees and plants seen during the nature walk?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 6.2 a Identifies objects, signs, places, activities at home/school/ neighbourhood	• Pictures of different objects and buildings in the surroundings such as grocery items, advertisements, road signs, hospitals, sign boards, etc., • Posters with relevant pictures and text • Discussion on posters, sign boards, etc.	• Asking the children to read pictures of different objects in the surroundings and talk about them. • Allowing the children to discuss about posters, sign boards, road signs, etc. with other children in the classroom. • Making the children draw and make their own signs and then explain them to the class. • Discussing with children, pictures of buildings such as, a hospital, a school, a market, etc. and talking about what happens in these places. Guiding Questions for Assessment • Is the child able to recall names of objects, activities, places from the surroundings on being shown the pictures? • Is the child able to explain the road signs and rules related to them?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 6.2 b Identifies directions, location of objects/places in simple map (home/classroom/ school) using signs/symbols verbally	• Compass, pictures of images of landmarks • Police station • Park, Temple • Maps	• Conducting activities for the children to identify directions using the compass (make a plus sign on paper, draw arrows showing the direction and write the first letter of the direction). • Asking the children to draw a simple map of their home/classroom and show different places related to them. • Conducting games for the children to identify directions (e.g., the game, 'Four Corners': children have to stand facing the sun, pointing towards the East. Depending upon the positioning of the sun, they can position themselves for the rest of the directions). Guiding Questions for Assessment • Is the child able to draw simple maps of her/his room/home, etc.? (Specify one only). • Is the child able to understand directions for the things placed in different directions? • Is the child able to tell the directions of different objects/corners in their classroom? • Is the child able to demonstrate the four main directions using arms and hands?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 6.3 a Remembers and recalls more objects seen at different point of times and describes them	- Variety of objects such as erasers, pencil, stapler, picture cards, balls, different storybooks, toys - Discussion on objects seen	- Providing opportunities for the children to observe a variety of objects at different times of the day. Asking children to recall and discuss with other children, the objects seen by them at the end of the day. - Making the children look at small and big objects to develop recall and memory skills. Guiding Questions for Assessment - Is the child able to observe and recall objects seen during the day? - Is the child able to describe the observed objects (big as well as small)? - Is the child able to describe the features of the objects?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 6.3 b Compares given objects/pictures and describes similarities and differences	- Similar looking different objects such as glasses of different materials, oranges, lemons. - Pictures showing the same scene, e.g., market scene, school scene, etc. with some minute differences.	- Asking the children to find out the differences in the similar looking objects provided (in terms of their material, shape, size, etc). - Encouraging the children to observe two, apparently identical pictures carefully, and note the minute differences. - Asking the children to compare and tell/write down a description of the similarities between the objects / pictures provided. Guiding Questions for Assessment - Is the child able to create a basic criteria for marking out similarities and differences of observable properties of objects? - Is the child able to read and observe various components of the pictures shown and tell the differences?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 6.5 Compares and classifies objects/pictures in different categories and describes the properties used for classification	• Blocks of geometrical shapes of different materials • Variety of ball pens, sketch pens, crayons, pencils, etc. • Miniature toys and pictures of animals, birds, fruits, vehicles • Stopwatch • Discussion during activities	• Encouraging the children to segregate objects on the basis of shape, colour, purpose and other properties. • Discussing with the children the basis of classification, as thought by them. • Encouraging children to discuss the existing basis and other possible bases of classification of the same objects, in their respective groups. • Conducting games in the classroom e.g., Dividing the children into groups and play a speed game of classification using a stopwatch. Guiding Questions for Assessment • Is the child able to group objects on the basis of their properties? • Is the child able to explain the basis of classification? • Does the child explore new ways of classification?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 6.6 Applies seriation in ordering numbers, ascending -descending number, and number patterns	• Number (one and two digit) cards • Dummy currency notes and coins of different denominations • Number sticks • Number pattern sheets • Worksheets • Seriation of numbers, making patterns	• Discussing and asking the children to arrange the number cards in ascending order and making them observe that, in the same arrangement, ascending order from one side can be descending order from the other side, • Playing games with the children using dummy currency and arranging it in seriation as per the denomination . • Asking the children to make different patterns using number cards/sticks. Guiding Questions for Assessment • Is the child able to arrange mixed currency notes in the right order? • Is the child able to develop different patterns with currency notes and explain the same? • Is the child able to comprehend the patterns in numbers on sheets?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 6.7 Sequences the events occurring according to their duration in terms of days/ months and hours	- Picture cards showing different time of the day from sunrise to sunset - Picture cards showing different activities - Annual Calendar - Blank Timetable sheet	- Creating opportunities for the children to prepare their home timetable on a blank timetable sheet, mentioning the estimated time taken for each activity. - Making the children read picture cards, showing different activities, time of the day from sunrise to sunset and place them in the right sequence of occurrence. - Asking the children mark the birthdays of people they know in different months on the calendar and then tell the sequence of the identified birthdays. Guiding Questions for Assessment - Is the child able to logically sequence their home activities in the blank timetable sheet provided? - Is the child able to sequence the events as given in picture cards? - Is the child able to sequence all birthdays marked in the calendar correctly?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 6.8 a Shows problem solving skills in day-to-day situations and in a group	- Currency - Role play - Blocks, counters - Pictures having different geometric shapes - Articles with price tags	- Providing various situations to the children to discuss issues such as, what they should do at home to reduce pollution. - Making the children play a shopping game where price tags are put on different articles (let them do the addition and subtraction and have fun!). - Organising a competition in the class to use a fixed number of pattern blocks to make different images in a fixed time i.e. say in five minutes. - Asking the children to make different patterns using geometrical shapes and play with them by making changes in the patterns. Guiding Questions for Assessment - Is the child able to suggest ways to check pollution at home? - Is the child able to make different patterns from blocks? - Is the child able to do addition and subtraction while transacting in the shopping game?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 6.8 b Shows curiosity and interest in experimentation and exploration, explains, and demonstrates scientific thinking	• Bar Magnets/Fridge magnets • Water containers • Materials as mentioned in the activity like, feathers, oil • Demonstration of experiments	• Giving opportunities to the children to play with a set of magnet bars (they can learn the properties of magnets through experimentation, e.g., opposite poles attract, like poles repel, iron is attracted by magnets but not steel or plastic, etc.). • Conducting experiments with the children e.g. Mix oil and water in a large container and add a few feathers to the mixture. Ask the children to remove the oil from the water and the feathers. Let them try to remove the oil without removing too much water and observe how the oil affects the feathers and how difficult it is to remove it from the water. • Showing the children fridge magnets and asking them why they stick to the fridge. Guiding Questions for Assessment • Does the child show curiosity and interest in experimentation and exploration? • Is the child able to explore magnetic/metal items in her/his surroundings with the help of magnets? • Does the child enjoy experimenting with magnets? • Does the child display scientific temper?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
IL 6.8 c Demonstrates awareness and sensitivity towards environmental concerns like showing concern towards pollution of water and air, cutting of trees, hurting animals/birds, etc.	• Newspaper clippings and videos on different kinds of pollution -air, water, etc. • A film on photosynthesis • Discussion on harmful effects of cutting down trees • Nature walk • Discussion on being sensitive towards animals	• Taking the children for a nature walk in the school and also asking them to go for nature walks with their parents, at a different time of the day and share their experience about the quality of air. • Making the children discuss in groups, the reasons for water and air pollution in their surroundings. • Letting children watch age-appropriate videos on the causes and effects of pollution. • Engaging the children in a discussion in the classroom to suggest ways to control pollution (You may give prompts like, recycling of items used in class and at home, etc.) • Discussing with the children about the harmful effects of cutting down trees and its effect on air pollution? Guiding Questions for Assessment • Does the child get involved in discussions? • Is the child able to express through words and body language the harm caused to animals/birds and plants? • Does the child observe the nature and the surroundings and discuss the damage caused to the environment?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 6.9 Counts objects to 1000 in groups of tens and hundreds	- Teacher made Place value cards of different sizes - Spike abacus - Dummy currency notes and coins with different denominations - Hundreds chart - Picture cards showing different quantities of objects	- Conducting individual and group activity using the Hundreds chart, the place value cards and the abacus to show different numbers (in groups of tens and hundreds) up to 1000. - Making the children count the objects in picture cards, joining a few cards and then asking the children to tell the final number after addition. - Asking the children to represent specific numbers using pictures, tallies, counters, currency, etc. Guiding Question for Assessment - Is the child able to count objects up to 1000 in groups of tens and hundreds?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 6.10 Can count forward and backward from a particular number (up to 999)	- Worksheets based on counting up to 999 - Number grid with a few numbers written - Teacher made number grid	- Providing opportunities for the children to do counting orally. - Making the children solve problems on worksheets provided. - Encouraging the children to develop problems on a blank number grid for their group. Guiding Questions for Assessment - Is the child able to write numbers up to 999 without missing on any number? - Is the child able to fill in the blanks on a sheet of counting (forward and backward) from a specific number such as 111 to 999?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment								
ILM 6.11 Reads and writes number names and numerals up to 9999 using place value	- Different place value blocks such as thousand, hundred, tens and ones - Place value charts - Number cards	- Asking the children to use number cards from 0-9 to explore and make 4 digit numbers and write their number names. - Encouraging group activity where one child writes a specific number and the other children read it and write its name. - Organising guided play with place value blocks for forming different numbers - Making the children draw place value charts and write the four-digit number placing it at the accurate place value such as: <table><tr><td>Th</td><td>H</td><td>T</td><td>O</td></tr><tr><td>8</td><td>9</td><td>9</td><td>0</td></tr></table> Guiding Questions for Assessment - Is the child able to tell and write the correct place value of a four-digit number? - Does child know how to construct number names up to four-digit numerals? - Is the child able to write correct numerals and number names?	Th	H	T	O	8	9	9	0
Th	H	T	O							
8	9	9	0							

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 6.12 Applies properties of zero in addition, subtraction, and multiplication of numbers	• Number lines drawn on papers • Practice sheets for addition and subtraction • Concrete objects e.g. counters, beads, coins, blocks, etc. • Multiplication tables • Activities with various numbers 0 to 100	• Asking the children to do addition of two numbers and subtraction of two numbers using the number line. • Organising practical exercises with concrete objects. • Explaining to the children that multiplying means having so many of the same sized groups and adding them. • Making the children understand that a particular number times zero or zero times that number give the same result (5×0 or 0×5). • Constructing the multiplication tables with the participation of children. Guiding Questions for Assessment • Is the child able to understand the concept of zero? • Is the child able to apply properties of zero in addition, subtraction, multiplication of numbers? • Is the child able to participate in the construction of multiplication tables?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 6.13 Compares and forms the greatest and smallest three - digit numbers (with and without repetition of given digits)	• Pencil, paper • Number chart • Number cards • Blocks with number written	• Providing opportunities for the children to: - write the smallest and greatest three-digit numbers with the help of given numerals or by choice. - write the smallest and greatest three-digit numbers, repeating at least one digit. - write the smallest and greatest three-digit numbers using numerals from 1 to 9. • Encouraging the children to use the place value concept to write the biggest and smallest number (provide necessary support). • Asking the children to compare the given numbers and tell the biggest and smallest number or arrange a few three-digit numbers in ascending order. Guiding Questions for Assessment • Is the child able to understand the concept of the smallest and greatest number? • Is the child using number cards and number blocks to create the smallest and greatest number with the same numerals? • Is the child able to compare numbers by their value? • Is the child using the place value concept while forming and comparing numbers?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 6.14 Appreciates the standard algorithm for addition of numbers where sum not exceeding 999 and applies it to solve simple daily life problems/ situations	- Algorithm table - Concrete objects like counters, beads, blocks - Place value cards - Number cards	- Making the children do additions (individual and group activity) by creating market situations to add and estimate bill amounts. - Providing place value and number cards with concrete materials and encouraging the children to use these for obtaining a specific number. - Encouraging the children to think of situations arising in their contexts where addition is required. - Making the children use paper and pen/pencil to write numbers and then add and also use the algorithm for addition activities. Guiding Questions for Assessment - Is the child able to use the algorithm for addition for daily life problems? - Is the child able to add prices of different products for calculating the bill amount? - Can the child suggest situations from her/his context for the use of addition? - Does the child write numbers correctly for doing addition? - Is the child able to do addition by writing numbers on paper?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 6.15 Appreciates the standard algorithm for subtraction of numbers up to 999 and applies it to solve simple daily life problems/ situations	- Algorithm table - Concrete objects like counters, beads, blocks - Cards with different number of objects - Number cards	- Organising a mock market in the classroom for the children to pay bills from their wallet and calculate the balance left (this can be done as an individual as well as a group activity). - Asking the children to do subtraction on a card with multiple objects by encircling the objects to be subtracted and then telling the number of objects left. - Encouraging the children to use paper and pen/pencil to write numbers and then subtract. - Giving opportunities to the children to use the algorithm for subtraction. Guiding Questions for Assessment - Is the child able to use the algorithm for subtraction? - Is the child able to add prices of different products for calculating a bill amount and then subtract it from the wallet money? - Is the child interested in learning subtraction using cards? - Does the child suggest situations from her/his context where subtraction is required? - Does the child write numbers correctly for doing subtraction? - Is the child able to do subtraction by writing numbers on a paper?

NOTE: Rubrics for assessing different levels of proficiency may be developed.

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 6.16 Applies the relationship between addition and subtraction in 3-digit numbers	• Number line • Concrete objects • Number cards • Activities with 3-digit numbers	• Explaining to the children that addition and subtraction are connected and are the opposite of each other. Use examples like, $2+5=7$, $7-5=2$, $7-2=5$ • Using concrete objects to make children understand the relationship and then using number cards for adding and subtracting big numbers. • Showing the children on a number line that addition can be undone through subtraction and vice-versa. • Making the children use paper and pen/pencil to explore the relationship by designing problems themselves. Guiding Questions for Assessment • Is the child able to understand and use the relationship between addition and subtraction? • Is the child able to practice addition and subtraction of three-digit numbers using the relationship? • Is the child able to create problems with different numbers and practice the relationship?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 6.17 Constructs and applies the multiplication facts (tables) of 5 to 10 in daily life situations	• Small objects such as pebbles, leaves, beads, blocks, counters • Empty egg trays • Visit to a departmental store • Chocolate chunks • Number line • Blank paper and pens • Worksheets	• Explaining to the children an arrangement of objects, pictures or numbers in rows and columns. • Allowing children to arrange the given objects in an order (array) like, five in one column and then rows having 5 objects in one row. • Organising for children to calculate the number of rows and columns in an egg carton, pack of bottles, chocolate bar, etc. • Explaining to the children multiplication facts of number 5 using the array. Guiding Questions for Assessment • Is the child able to construct the table of 5 for calculating in a given situation? • Is the child able to construct her/his own array?

NOTE: Worksheets can be developed to assess the understanding of the concept. Blank paper and pens can be given and children can draw their own arrays to construct multiplication table of 5, 6, 7 and so on.

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 6.18 Explains the meaning of division facts by equal grouping and finds it by repeated subtraction. For example, $12 \div 3$ can be explained as number of groups of 3 to make 12 and finds it as 4 by repeatedly	• Small objects such as pebbles, leaves, beads, blocks, counters, • Number line • Blank paper and pens • Worksheets	• Explaining to the children that division is a method that subtracts equal number of items from a group, also known as 'Repeated Subtraction'. • Providing concrete objects in bulk and asking children to put them in an array and then do subtraction from the same group. • Practicing repeated subtraction in different ways. These can be done as individual or group activities. Guiding Question for Assessment • Is the child able to understand the concept of division through repeated subtraction of equal group size?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 6.19 Analyses and applies an appropriate operation (addition and subtraction) to solve problems in a situation/context	• Stories involving numbers • Objects like toffees, nuts, biscuits • Paper and pencil/pen • Worksheets	• Engaging children in a story telling situations where they are posed with questions involving addition and subtraction without using a paper or pen. • Using concrete objects during storytelling to give children a better idea of addition and subtraction. • Encouraging children to recall situations from their own lives which involve addition and subtraction. Guiding Questions for Assessment • Is the child able to subtract and add mentally? • Is the child able to provide situations from her/his own life which involve these operations?

NOTE: Ensure participation of every child.
Observe and assess efforts made by the children in giving a reply during storytelling.
Assess whether replies provided by the children have an argument.
Assess performance on worksheets after storytelling.

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 6.20 Adds and subtracts small amounts (up to Rs. 500) with or without regrouping	• Currency of 5,10, 20, 100 rupees, notes and coins • Worksheets • Concrete objects • Paper and pen/pencil	• Making the children work on worksheets with addition and subtraction exercises with numbers and pictures. • Asking the children to add and subtract with the help of concrete objects with or without regrouping. • Encouraging the children to create their own word problems involving addition and subtraction and find solutions to these. Guiding Questions for Assessment • Does the child identify which operation (addition, subtraction) a particular problem requires? • Does the child add and/or subtract without concrete objects? • Is the child able to create mathematical problems on her/his own and also explain them? • Is the child able to find solutions to the problems created by her/him?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 6.21 Estimates and measures length and distance using standard units like centimetres or metres and identifies relationships	• Scale • Measuring tape • Table • Paper • Cloth • Discussions	• Demonstrating the use of a scale to measure the length of a notebook in centimetre or using a measuring tape to measure a piece of cloth in metres. • Asking the children to measure the length of the classroom using a measuring tape and explaining that for longer lengths, the unit used is metre or feet. • Encouraging the children to discuss at home and estimate the distance between: the school and their home, place of work of parents and their home, friend's house that they often visit and their own home. Guiding Questions for Assessment • Does the child choose the appropriate tool for measuring the length of a piece of cloth? • Is the child able to estimate the distance travelled from home to school? • Is the child able to measure short distances using a scale/tape using standard units?

NOTE: The teacher needs to explain to the whole class as to which popular scales/tools are used to measure length. Assess whether the children are understanding why different terms and units of measurement are used while measuring length and distance.

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 6.22 Weighs objects in her daily contexts using standard units– grams and kilograms using simple balance	• A simple weighing scale • Simple balance • Few standard units of weight • Feathers, paper balls, pebbles, oranges, apples • Discussion • Experimentation	• Providing opportunities for the children to play with different objects available such as paper balls, pebbles, etc. Children can measure their weights and compare which is the heavier or the lighter object. • Making the children use different units of weight available so that they can weigh different objects e.g., a water bottle, their tiffin boxes, pencil case etc. Let them make a table showing the weight of the different items with the help of a simple weighing scale. • Asking the children to measure the weight of an empty bag, filling that bag with some objects and then weighing it again. Letting children compare the change in weight. • Demonstrating measurement and helping children understand that two half kgs make one kg, by keeping standard weights on both sides of the scale. Guiding Questions for Assessment • Can the child compare light and heavy objects by their weight? • Is the child able to understand the relationship between grams and kilograms?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 6.23 Estimates and measures capacities of containers in terms of litres like a bucket can be filled up by 15 bottles of 1 litre	• Bottle • Mug • Bucket etc. with standard capacity • Containers of different capacities such as 0.5l, 1l, 2l, 15l, 20 l	• Providing opportunities for the children to conduct experiments by arranging containers such as bucket, bottles, mugs in ascending order based on their capacity. • Letting the children fill larger containers using smaller containers and thus estimating capacity and the relationship between both. • Asking the children to explain their experience of estimating the capacities of different containers through the activity. Guiding Questions for Assessment • Is the child able to arrange the containers in an order, ascending or descending? • Is the child correctly estimating capacities of bigger and smaller containers?

NOTE: Assess if children can explain their experiences and understanding of capacity estimate and measurement.

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 6.24 Measures temperature using a thermometer	- Clinical digital thermometer for measuring body temperature - Thermometer for measuring room temperature - Three jugs of water at different temperatures - The thermometer to measure the temperature of water	- Holding discussions with the children to explain that the intensity of heat can be measured with the help of a thermometer. - Showing the children, a thermometer to expose them to standard unit marks to measure temperature. - Telling the children that temperature can be measured in different units, Fahrenheit (F) or Celsius(C) or Kelvin(K) and that the normal body temperature of a human body is 98.6°F. - Motivating children to observe changes in temperature while water is kept for heating. - Encouraging the children to take the body temperature of any 5 classmates and recording it. Let them observe that the body temperature of individuals can vary. Guiding Questions for Assessment - Is the child engaged in observing the difference in the reading of the thermometer while measuring the temperature of water? - Is the child able to measure her/his body temperature and that of friends or family members?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 6.25 Draws/ represents straight lines in various orientations (vertical, horizontal, slant) by using a straight edge or by free hand	- Paper - Strings - Chair - Table - Notebook - Scale - Various lines vertical, horizontal, slanting, for discussion	- Providing creative situations for the children to fold paper to show straight line in different orientations-(vertical, horizontal, slanting, etc.). - Providing hands on experiences to the children in the classroom or in the playground with different objects such as, edge of a ruler, notebook, table, etc - Making the children use a pencil/pen to draw horizontal, vertical, or slanting lines, free hand. Guiding Questions for Assessment - Does the child represent straight lines in different ways using a straight edge? - Does the child explore making some figures with the help of straight lines? - Does the child understand the concept of a straight line?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 6.26 Identifies half, one-fourth, three-fourths of a whole in each picture by paper folding and in a collection of objects NOTE: Children may bring some examples from their homes to further explain the concept.	- Clay Cake - Sheets cut in circle shape - Sheets cut in square shape - Mathematical puzzles with pull apart parts - Paper folding activities	- Encouraging children to cut a sheet into four equal parts and write $\frac{1}{4}$ on all the parts. - Asking the children to cut a clay cake into four equal parts and then placing one part on a paper labelled as $\frac{1}{4}$. - Providing and letting children use mathematical pull-apart type puzzles to understand that all parts together make a whole, two $\frac{1}{4}$ parts together make a half and so on. Guiding Questions for Assessment - Is the child able to identify half, one fourth, three fourth of a whole paper? - Can the child fix the parts and understand the logic of combining $\frac{1}{4}$ plus $\frac{1}{4}$? - Does the child apply the same to other objects?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 6.27 Observes, extends, and generalises patterns in numbers up to three digits like patterns of numbers in multiplication tables, number chart up to 1000 or objects in the environment	- Number cards - Multiplication tables - Times Table - Number Chart - Objects commonly available	- Providing opportunities to the children to: - use objects available in the classroom to make a pattern - carefully look at a number chart and notice some pattern (with due prompts). - Displaying a variety of multiplication/times tables, allowing children to visualise patterns and show them. - Encouraging the children to work in groups and take each other's help to identify the patterns. Guiding Questions for Assessment - Is the child able to understand the concept of patterns? - Does the child take help of others to identify patterns (Team Learning)? - Is the child quick to notice patterns?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 6.28 Records data using tally marks, represents pictorially, and draws conclusions	• Whiteboard and marker • Lunch menu (a list of 5 items to be shared a day before, to choose from) • Food items like fruits, toffees, biscuits, salad, sandwiches, etc.	• Explaining to the children the fun activity on data collection and representation. • Dividing the class into groups of five and ask them what food items they have. Letting them make a list of food items that the group has and put tally marks against each item for every count. Displaying the food items and the count data on the board and try to make some bars or other figures to represent the data. • Explaining to the children that numbers are usually on the vertical side (y- axis), and what is being measured is usually on the horizontal side (x-axis). For example, here, food items would be on the x-axis, and the number of each food item would be on the y-axis. A different coloured marker can be used for each item, such as, green for salad and yellow for pizza. Children must be asked to look at the data graphs and answer questions like: - What is the favourite food/least favourite food of your class? - How many more children have got salad compared to pizza? - How many fewer children have got sandwiches compared to pizza? Guiding Questions for Assessment • Is the child able to pictorially represent items on a graph? • Is the child able to draw conclusions from a graph correctly?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 6.29 Identifies a particular date and corresponding day on a calendar	- Calendar for a week along with days and dates - Marker/sketch pens - Calendar of the different years with bold, big-sized numbers	- Making the children read the calendar and identify rows and columns. - Asking the children to identify the month of their birthday in the calendar and mark the day and date of their birthday. Once children get to know the method of identification of day and date, encourage them to mark the birthdays of their family members on the calendar. - Encouraging children to draw a calendar for a selected week/month with the days and dates. Guiding Questions for Assessment - Does the child understand rows and columns and identify the day on a particular date? - Is the child able to identify birthdays on a calendar? - Is the child able to draw a calendar for a week or month along with days and dates?
Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
ILM 6.30 Applies the knowledge of various technological tools in daily life	- Software: Paint 3 D - Windows video editor, Scratch	- Providing opportunities to the children to learn about various age-appropriate technological tools. - Providing for simple fun activities (using Paint 3D software). Guiding Questions for Assessment - Does the child create a simple storyboard on her/his own using the software available? - Does the child maintain originality in her/his project work?

EVS as a separate subject starts in Class III while in Classes I and II, it is integrated in Languages and Mathematics. However, elements of EVS are integrated in all activities and experiences from Preschool 1.

ENVIRONMENTAL STUDIES (EVS)

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
EVS 6.1 Identifies simple observable features (e.g., shape, colour, texture, aroma) of leaves, trunk, and bark of plants, animals and birds in the immediate surroundings	- Parts of a tree/plant lying on the ground i.e., leaves, flowers, twigs, fruits - Various leaves of plants for their aroma texture, shape, size (under guidance of the teacher) - Feathers of birds - Picture books of birds, animals - Cutouts/pictures of various kind of plants, animals - Dry leaves to make/create picture of birds, animals - Tree for bark rubbings	- Providing opportunities to the children to visit the immediate surroundings of the school/home to observe parts of the plants and collect parts of plants /trees and feathers of birds lying on the ground for doing activities. - Organising group activities (5-6 children in a group) to identify leaves based on their size, shape, aroma, texture, etc. - Asking the children to identify names of the birds whose feathers they have collected by seeing a picture book on birds. - Guiding the children to develop a scrap book with their collection of leaves, flowers, twigs, petals and naming them. - Providing opportunities to the children to create pictures of birds, animals, by using thumb prints, dry leaves, barks, etc. - Creating situations for the children to develop jig-saw puzzles of various animals, birds and plants. - Guiding the children to take bark rubbings from trees to see how they compare. Guiding Question for Assessment - Does the child participate willingly in organised visit of the surroundings? - Does the child participate in group work in the class for identifying leaves? - Is the child able to develop a scrap book of collected leaves and flower and label them? - Is the child able to do creative activities by using leaves, pollen grains, petals and colours she/he has collected? - Does the child develop DIY, zig-saw puzzles on her/his own or with the support of the teacher/elders?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
EVS 6.2 Identifies simple features (e.g., movement, at places found/ kept, eating habits, sounds of animals and birds) in the immediate surroundings	• Birds and animals in the surroundings • Birds and animal habitats • Pictures showing eating habits of common birds, animals • Visit to a garden, zoo to observe features of different birds, hear sounds of birds and animals • Audio tapes for recording sounds of animals and birds • Films on life of birds, animals • Picture charts of birds and animals	• Organising visits to nearby places/surroundings to help the children observe birds and animals; and their movements. • Assigning projects to the children to observe habitats of local animals and nests of birds and make a visual report. • Providing pictures of common birds and animals in small groups and asking them to discuss and collect data on their food habits. • Arranging visits to the zoo and garden for children escorted by elders/ teachers and asking them to make a report and also record sounds of birds using audio tapes or the cell phone of the teacher. • Showing age-appropriate short films on a bird's life/common animal's life to the children. Guiding Question for Assessment • Does the child participate willingly during a visit to the nearby surroundings? • Does the child show interest and participate in the project as planned? • Does the child get involved in group activity and do the identified tasks? • Does the child take interest in watching films and narrate/recall its content?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
EVS 6.3 Identifies relationships with and among family members	Parts of a tree/plant lying	- Organising individual tasks/activities to identify names of children's family members/relatives in a group photograph. - Asking each child to create a family tree and share it with their peer group, based on the data collected individually. - Organising group work to share nicknames of their family members and how they address them (relation with the child). - Asking each child to prepare a small write-up on her/his family and paste it below the family tree. Guiding Question for Assessment - Is the child able to identify her/his relationship with family members? - Is the child able to create a family tree of her/his family? - Is the child able to write a brief write-up on her/his family?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
EVS 6.4 Identifies objects, signs (vessels, stoves, means communication, signboards, etc.), places (types of houses/shelters, bus stand, petrol pump, etc.) activities (works people do, cooking processes, etc.) at home/school/ neighbourhood	• Toy/play objects of the household used in the kitchen (play vessels, play stove, utensils) • Toy vehicles and their pictures • Newspapers, T.V., computer, phone, cell phone, and their pictures • Signboards /signs • Visits to observe different types of houses in the surroundings • Visit to various working places in the vicinity • Pictures of various kind of houses	• Organising for the children to solve puzzles and be quizzed on household vessels through pictures shown. • Asking the children to draw pictures of vessels used in their kitchen and name them. • Discussing various modes of transport and asking them to share their experiences. While exposing them to a variety of road transport show them some common road signs and signboards displaying some information about an event, a product or a place. • Assigning small projects in groups to observe different kinds of houses in the nearby area and making a brief report with the help of the teacher/elders. • Organising for the children to visit a petrol pump, hospital, post office and discussing the role of these places in our lives. After the visit, ask them to give a brief presentation on it. They can be asked about other such places in their neighbourhood. Guiding Question for Assessment • Does the child actively participate and respond when quizzed? • Is the child able to draw visuals and name/label them? • Is the child able to distinguish different modes of transport? • Does the child take part in project work as assigned?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
EVS 6.5 Describes need of food for people of different age groups, animal/birds, availability of food and water and use of water at home and surroundings	• Vegetables eaten in raw and cooked form e.g., tomatoes, cucumber, cabbage, broccoli, onion etc. • Vegetables eaten only in cooked form like bottle gourd bitter gourd, potato, Indian round gourd (tinda) etc. • Seasonal fruits • Dishes made from wheat, rice, millets, gram flour • Dishes made for babies, children, older people on various Indian festivals • Food items given to pet animals/birds • Sources of water in the child's surroundings (home/school) • Pictures showing various uses of water at home, in the school • Pictures of sources of water for animals/birds	• Providing opportunities to the children to share their experiences, about what they know about different vegetables and fruits related to taste, their likes and dislikes. Talk them about seasonal fruits and vegetables and why these should be eaten. • Organising for the children, activities (quiz/puzzles) in the class and encouraging them to create their own quiz/riddles on fruits and vegetables. • Assigning a simple project to the children to write about what kind of dishes are made from wheat, gram flour, millet and rice (with the support of an adult). • Organising visits to a zoo or local places to expose the children to the food and water requirement of common birds and pet animals. Have a discussion post the visit. • Encouraging the children to share their experiences about water sources and organising a survey to observe other sources available in the school or surroundings. Discuss about the uses of water at home. • Asking the children to observe at home and discuss in the class about the vegetables that are eaten raw and those that are eaten cooked. They can be asked to prepare a salad of fruits and vegetables that can be eaten raw in the class. Guiding Question for Assessment • Does the child share her/his experiences related to fruits and vegetables? • Does the child get involved in classroom activities and participate with interest? • Does the child complete the project on her/his own or needs support? • Is the child able to give reasons for age related food habits of family members? • Is the child able to describe sources of water and food for animals? • Is the child able to talk about the uses of water at home and how it can be consumed?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
EVS 6.6 Describes roles of family members, family influences (traits/features/habits/practices), need for living together through oral, written or other ways	• Role of family members written on cards/sheets (each member including the child) • Picture of family members to discuss their habits, resemblance of features • Children's Learning experiences on living together (joint family). • Poems on family- nuclear family, joint family, single parent family	• Creating situations in the classroom for the children to share the kind of family they have (single parent/joint/nuclear). This can be achieved through an illustration by them. Let them also narrate experiences related with role of self and other family members. They can express through drawings, role play, written form the need to be there for each other • Organising a discussion in the classroom on the defined role of elders and her/his point of view on them. • Conducting a small group activity (5-6 children in group) in the class and asking them to discuss family member's habits, roles, features (height, weight, complexion etc.) they can talk about the similarity and differences they have observed among all. • Providing opportunities to the children to collect poems/stories/anecdotes on the theme, "My Family" and share these in the class. • Encouraging the children to write small poems/songs and draw pictures on the relevant theme. Ask them to present in the class and learn to appreciate each other's work. Guiding Question for Assessment • Is the child able to describe roles of the family members? • Does the child share or express her/his family experiences orally/in writing ways/through role play/using sign language or any other form? • Does the child show interest in writing stories/poem on the theme in her/his own words?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
EVS 6.7 Groups objects, birds, animals, features, activities according to differences/ similarities using different senses (e.g., appearance/ place of living/ food/ movement/ likes-dislikes/ any other features) using different senses	• Objects (environmental or ready-made) having similar observable properties e.g. leaves, feathers, balls, blocks, etc. • Objects/animals having variation in observable properties/ features e.g., leaves/feathers of different shapes, sizes, colours; animals that crawl and those that hop/jump/walk • Sensory environmental objects for activities (e.g., sense of smell, touch, sight, hearing)	• Going for a nature walk with the children and having discussions on the kinds of leaves, their colour, texture and other parts of the plants. They can collect some leaves and petals. • Providing opportunities to the children to observe birds and animals during a visit to a zoo or nature walk. • Asking the children to bring feathers lying on the ground of different birds in their neighborhood and identifying them with the help of pictures of birds. • Encouraging the children to use these feathers/leaves and make a picture-cum -record document , name them and share with other children in the class. • Providing opportunities to the children to observe movements of various birds and animals in their surroundings and demonstrate these in the class e.g. hopping like a rabbit, crawling like a snail, flying like a bird or walking like a dog. They can do this to music. • Blindfolding the children and giving them a variety of objects to smell and guess their names e.g. a rose, a perfume, kitchen spices, different fruits. A similar exercise can be done for sound, taste and touch. Guiding Question for Assessment • Does the child recall the trees and plants and their leaves that they collected during the nature walk? • Does the child describe features of each leaf she/he collected (e.g., edges of leaf, tip of leaf, texture, colour, size, etc.)? • Is the child able to develop a DIY herbarium on her/his own? • Is the child able to recognise environmental objects through use of the sense organs only? • Is the child able to demonstrate movement of some animals? • Is the child able to group animals and birds on the basis of observable features?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
EVS 6.8 Differentiates between objects and activities of present and (at time of the elders) (e.g., clothes/ vessels/ games played/ work done by people)	• Pictures of household objects e.g., T.V., telephone, mobile, pots, pressure cooker, microwave, air conditioner, air fryer, air purifier • Pictures of objects used during grandparents' time at home like coal, coal iron, earthen pots (matka), newspaper, playing cards, gilli danda, marbles (kancha), carom board, hand fans, lanterns etc. • Pictures of clothes used by the family members in different seasons and by the child • Pictures of clothes used by grandparents in the past like, dhoti, kurta, gamcha, hats(topi), razai masand, wool, cotton mattress, etc.	• Conversing with the children about the household objects they use and their experiences with them. • Providing opportunities to the children to discuss about their experiences and interaction with household items in the past with their parents and grandparents and share their findings in the class. • Playing group games with children using past/present era objects/pictures. • Organising group work in the class to make lists of clothes they use in different seasons. • Assigning a small project to each child to discuss with their grandparents/older family members about the clothes they used to wear and prepare a report on it. Guiding Question for Assessment • Does the child take part in class discussions? • Does the child talk about her/his experiences on the use of household objects? • Is the child able to differentiate between objects used earlier and those used currently by them and prepare a report on it?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
EVS 6.9 Identifies directions, location of objects/places in simple maps of (home/classroom/school) using signs/symbols verbally	• Directions on the card for identification (visual discrimination) • Compass • Map of home • Map of classroom • Map of school • Location of various places shown on a cell phone using GPS • Symbols used to show places on the map e.g., school, bridge, hospital, bus stop, post office, police station, market etc. • Cards showing various symbols of places separately	• Offering playful activities to the children to identify directions by using compass with the help of the teacher. • Creating opportunities and guiding the children to draw a map of their classroom/home and show/mark relevant places (landmarks) on the map. • Organising small groups in the class (5-6 children in each group) to make symbols to represents various places and mark these on the map of the school. Later discuss the group work in the class. • Helping the children to create directions (DIY) using waste materials and use/paste them at the appropriate places in the classroom/school. • Explaining to the children use of GPS on the cell phone to locate various places. Guiding Question for Assessment • Is the child able to draw a simple map of her/ his home/classroom /school? • Is the child able to create her/his own symbols of various places and mark these on a map? • Does the child identify directions in relation to her/his, standing/sitting position?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
EVS 6.10 Guesses properties, estimates quantities of materials/ activities in daily life and verifies using symbols/ non standard units (hand spans, spoons/mugs, etc.)	• Glass, bowl, spoon mug to estimate quantity of water • Scale/measuring tape for length • Weighing machine • Pictures/activities showing crude way of estimation (non standard symbols) • Balance • Objects/materials (solid, liquid) • Record keeping	• Providing opportunities to the children to work in groups and later independently on hands-on activities by using spoons, glasses, mugs filled with water. • Making the children observe and use a scale, measuring tape, weighing machine to use standard units in daily life. • Providing situations in the class to do activities related to water e.g., (estimating/guessing amount of water) and then verifying using non standard units. • Organising a group activity whereby asking the children to observe solid, liquid objects/materials and writing down observable properties of each group of materials. Guiding Question for Assessment • Can the child do hands on activities to estimate the amount of water? • Is the child able to use/non standard units to measure quantity/length of materials? • Can the child discriminate properties of solids and liquids?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
EVS 6.11 Records observations, experiences, information on objects/activities/ places visited in different ways and predicts patterns (e.g., shapes of moon, seasons)	• Children's records /expression on visited places with family • Mode of transports e.g., road, rail, air, water, used by children for visiting places e.g. hospital, school, relatives • grandparents houses/places, picnic spots, friend's places, etc. • Pictures of various modes of transport • Shapes of moon in the sky • Stars in the sky • Patterns in seasons	• Discussing with the children about different ways to keep a record of observations/information of visited places. Showing some samples of these during discussion. • Providing opportunities to the children to share their experiences related to various modes of transports they have used in life. • Assigning a small project-to the children on 'Modes of transport' (present and olden days) and asking them to prepare a visual report with the support of elders. • Encouraging the children to observe the moon in the sky and record its shape regularly for 15 days. Let them make a visual report on it. • Making the children write a song /poem on heavenly bodies. Drawing their shapes and describing them in their own words. • Talking to the children about patterns in seasons. Guiding Question for Assessment • Does the child use different ways to record the information of visited places e.g. written, pictorial, audio video? • Is the child confident in sharing her / his experiences related to modes of transports she/he used? • Does the child complete the assigned project on modes of transports (now and earlier) independently or with the support of elders? • Can the child identify the patterns of seasons?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
EVS 6.12 Creates drawings, designs, motifs, models, top, front, side views of objects, simple maps (of classroom, sections of home/ school, etc.) and slogans, poems, etc.	- Flowers petals, leaves, vegetables to design/create artwork - Motifs on various objects. - Zero cost materials e.g., wood shaving, dry leaves, groundnut shells - Slogans - Poems and stories - Different patterns on various objects at home/ schools/ market	- Providing support to the children to develop jig-saw puzzles on different objects. - Providing opportunities to the children to use dry leaves/petals and make pictures of different objects/animals. - Asking the children to observe patterns, designs and motifs on different household objects like crockery, linen, curtains, furniture, curios, vases and take inspiration from them to create their own designs, drawings, motifs using leaves, petals, paper, paint, colours, pulses, (rangoli, bookmarks). - Motivating children to write slogans on various themes. - Encouraging the children to write poems and stories on the related themes. Guiding Question for Assessment - Is the child able to develop DIY, jig-saw puzzles and use it? - Is the child able to use dry leaves/petals and create her/his own designs? - Does the child take interest in creating poems/stories/slogans?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
EVS 6.13 Observes rules in games (local, indoor, outdoor) and other collective tasks	- Materials used for local games both indoor and outdoor e.g., chess, marbles, carrom board, pitthu - Rules made by elders for play - Rules made by children for indoor/outdoor games - Team games e.g., cricket, kabbadi, football - Local games hop-sotch, seven titles, <i>gilli danda</i>	- Providing opportunities to the children to share their experiences related to the games they play with family and friends. - Organising the children into small groups and asking each group to list indoor and outdoor games they play along with their rules. After the activity, discuss the group report in the class. - Assigning a small project to each child to prepare a picture book on local indoor and outdoor games with play instructions. Let them include a small write-up on their likes and dislikes. - Discussing with the children what kind of problems they face while playing outdoor games particularly space constraints. - Developing awareness about the importance of team games through videos/discussions. Discuss the importance of games and play in our life. - Showing them films on games and sports like Chakde India, Iqbal, Shabash Mithoo, 83, dangal etc. Guiding Question for Assessment - Is the child able to share her/his personal experiences related to indoor and outdoor games? - Does the child willingly participate in team games and group activities? - Does the child do the project independently or with the support of elders?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
EVS 6.14 Voice's opinion on good/bad touch. stereotypes for tasks/ play/ food in family w.r.t. gender, misuse/wastage of food and water in family or food	• Videos on good and bad touch • Narratives/stories • Audio recordings • Stories on gender sensitivity • Picture showing gender discrimination related with food habits in the family • Pictures/videos on stereotypes in play activities • Narratives on wastage of food • Picture showing water wastage • Activities showing checking water and food wastage	• Creating situations in the class to discuss/share stories, narratives related to gender sensitisation. • Showing videos/films on stereotypes related to gender discrimination specially related to food served to boys and girls in the family. • Using informal approach e.g. videos, stories/narratives to discuss good and bad touch with the children in a very sensitive and discreet manner. • Discussing with the children good and bad touch related to both genders and asking them to share such lessons in the family. • Having a group discussion in the class on how to reduce food and water wastage at home/hotels/parties. • Assigning a small project to the children to observe what kind of food or water wastage they see in the family and at family functions and how these can be checked at the family level. They can write a report on their findings and share it in the class. Guiding Question for Assessment • Does the child take interest in listening to stories on gender issues? • Does the child watch videos/films on bad and good touch and understand its seriousness? • Does the child participate in project/ group work on food, water conservation? • Does the child ask questions or share concerns on gender issues?

Learning Outcome	Suggested Learning Materials and Resources	Suggested Pedagogical Processes and Assessment
EVS 6.15 Shows sensitivity for plants, animals, the elderly, differently-abled and diverse family set ups in surroundings. (For the diversity in appearance, abilities, choices - likes/dislikes, and access to basic needs such as food, shelter, etc.)	• Film / videos on protection of plants and animals in the surroundings • Narratives/Children's Experiences/Storybooks on sensitivity towards animals and plants • Narratives on diverse set up of families (joint, single parents/ adopted child) • Children's own experiences related to plants and animals care • Case study of a differently abled person picture showing diversity /variation is appreciation among people in the family / religion • Experience of children's related to food (likes / dislikes)	• Providing opportunities for the children to watch films / videos on showing sensitivity towards plants/ animals and conserving them, followed by a discussion in the class. • Allowing the children to share their experiences on how they take care of them. • Discussing family structures in the class without mentioning their merit and demerits. Explaining the reasons for diversity in family structures and later listening to children experiences in a sensitive manner. • Assigning a project to the children where they have to do a case study of a differently abled person with the support of elders and share the findings in the class. • Organising a group discussion in the class on the likes and dislikes of food eaten in the family. Guiding Question for Assessment • Does the child take interest in watching videos on plants/animals? • Does the child display care and sensitivity towards plants and animals? • Does the child participate in group discussions? • Is the child able to do a case study of a differently abled person with adult support?

POINTS TO CONSIDER

- ✓ The codified numbers of learning outcomes should not be treated as hierarchical or stand-alone. In each class, across the foundational stage, the experiences and activities may be provided in an integrated manner, simultaneously across the learning outcomes and developmental goals.
- ✓ Activities/experiences designed and targeted for a particular Learning Outcome, for a particular class, will also address a number of other Learning Outcomes, within and across the three developmental goals (domains subsumed).
- ✓ The children must be observed in different settings/locations (e.g., how does she/he interact individually/in small group/large group, etc.).
- ✓ Assessment should not be based on only one or two Learning Outcomes, rather, it should be viewed holistically.
- ✓ Children's learning needs to be assessed in a progressive manner (the term wise progress of the child in each domain should be in a positive direction).

Developmental Goal 1

CHILDREN MAINTAIN GOOD HEALTH AND WELL BEING (HW)

KEY COMPETENCIES:

- Awareness of self
- Development of positive self-concept
- Self-regulation
- Decision-making and problem solving
- Development of pro-social behaviour
- Development of healthy habits, hygiene, sanitation and awareness for self-protection
- Development of gross motor skills
- Development of fine motor skills and eye-hand coordination
- Participation in individual and team games and sports

HW1 Preschool 1	HW2 Preschool 2	HW3 Preschool 3 (BALVATIKA)	HW4 Class 1	HW5 Class 2	HW6 Class 3
HW1.1 Begins to state some physical characteristics about self	HW2.1 Describes self in terms of physical characteristics	HW3.1 Describes self and others in terms of physical characteristics, gender, interests, likes, dislikes	HW4.1 Recognises different body parts and uses various body movements	HW5.1 Maintains correct posture, uses various body movements to participate in games and sports	HW6.1 Participates in games and sports to strengthen and extend gross motor skills
HW1.2 Identifies close family members	HW2.2 Identifies close family members, friends and neighbours	HW3.2 Exhibits understanding of relationship Preschool with extended family members	HW4.2 Demonstrates love and respect for immediate and extended family and neighbours	HW5.2 Demonstrates care and respect for immediate and extended family, friends, neighbours and pets	HW6.2 Demonstrates care and respect for immediate and extended family, friends, neighbours, pets and surroundings
HW1.3 Participates in the activities and takes initiative	HW2.3 Expresses own preferences and interests	HW3.3 Demonstrates independence in activities	HW4.3 Takes part in exercise, play and movements for fun and exercise	HW5.3 Follows rules and enjoys movement and rhythm, participates in play activities	HW6.3 Takes initiative, participates in all group and individual games, follows rules and cooperates in team

Class-wise Learning Outcomes for each Developmental Goal

HW1 Preschool 1	HW2 Preschool 2	HW3 Preschool 3 (BALVATIKA)	HW4 Class 1	HW5 Class 2	HW6 Class 3
HW1.4 Waits for their turn and follows simple instruction with teacher's support	HW2.4 Waits for their turn and follows two-line simple instructions	HW3.4 Follows instructions and simple rules at the same time	HW4.4 Follows three to four instructions/ rules at a given time	HW5.4 Follows complex instructions/rules; starts creating their own rules	HW6.4 Follows complex instructions/rules; frames their own rules for invented games and activities
HW1.5 Seeks adult help in adjusting to a new environment	HW2.5 Makes adjustment in the classroom and with other children	HW3.5 Shows adaptability to any changes in routine/daily schedule	HW4.5 Shows adaptability to any changes in routine, makes adjustment	HW5.5 Adjusts to any changes in the routine and asks others to follow the same	HW6.5 Demonstrates leadership qualities and suggests ideas for changes in daily routine
HW1.6 Chooses an activity area and gets engaged in the activity	HW2.6 Shows focus on a self-selected activity or task to completion	HW3.6 Focuses attention to complete tasks/topics assigned by others	HW4.6 Shows increased attention span; chooses and completes an activity started	HW5.6 Shows increased attention span and persistence in tasks	HW6.6 Concentrates on more complex projects and completes tasks even with a few interruptions
HW1.7 Identifies her/his feelings wants and e.g., "I don't want to colour today." "I want to go out."	HW2.7 Describes her/his feelings and their causes e.g., "I am angry because he broke my block tower."	HW3.7 Expresses emotions through verbal and non-verbal modes (gestures, drawings)	HW4.7 Expresses her/his emotions in socially approved ways e.g., stops crying and explains why s/he was crying	HW5.7 Copes with emotions appropriately in varied situations	HW6.7 Manages emotions appropriately in challenging situations
HW1.8 Makes choices and expresses preferences	HW2.8 Expresses own preferences, interests and makes choices	HW3.8 Takes responsibility and makes choices based on own preferences and interests	HW4.8 Plays/participates in activities, makes friends according to their own choice, preference and interest	HW5.8 Selects games/ play equipment according to their own choice, preference, and interest	HW6.8 Chooses and continues playing and practice of games/sports activities of their own choice and interest
HW1.9 Resolves minor conflicts with the help of adults	HW2.9 Suggests solutions to conflicts (with support of adults)	HW3.9 Suggests solutions to conflicts and makes age-appropriate adjustments	HW4.9 Deals with minor conflicts that arise during play or activity and suggests solutions	HW5.9 Resolves minor conflicts independently or with the help of teacher or adults	HW6.9 Takes care that conflict does not arise during play or activities, makes rules beforehand, resolves minor conflicts independently or with the help of adults
HW1.10 Expresses joy while working and playing with other children	HW2.10 Plays cooperatively with other children and makes plan for what and how they will play	HW3.10 Demonstrates willingness to include other's ideas during interaction and play	HW4.10 Plays or works cooperatively and enjoys playing/ working with others, involves all and takes initiative in framing rules for games or play activities	HW5.10 Enjoys playing with other children, follows rules and demonstrates leadership/ initiative as and when required	HW6.10 Exhibits pleasure in working, learning and playing together; observes rules in games (individual and group) and other collective tasks

Class-wise Learning Outcomes for each Developmental Goal

HW1 Preschool 1	HW2 Preschool 2	HW3 Preschool 3 (BALVATIKA)	HW4 Class 1	HW5 Class 2	HW6 Class 3
HW1.11 Helps other children, cares, and shares belongings with them	HW2.11 Shows caring behaviour (hugs, pats) and shares belonging with other children	HW3.11 Helps peers who are in need during large and small group activities	HW4.11 Extends help, cares and shares play and learning material	HW5.11 Shows team spirit, teaches games and sports activities to other children in group	HW6.11 Exhibits care, affection for team members, plays with others and cooperates in a team
HW1.12 Begins to understand differences among people (based on ethnicity, culture, abilities and disabilities) and demonstrates sensitivity to diversity	HW2.12 Demonstrates sensitivity and acceptability towards children from diverse backgrounds including children with special needs	HW3.12 Demonstrates sensitivity and acceptability towards children from diverse backgrounds including children with special needs	HW4.12a Shows cooperation in group activities	HW5.12 Exhibits acceptance and tolerance towards differences among people and demonstrates sensitivity to diversity	HW6.12 Demonstrates respect for others - their culture, food, festivals, etc., sensitive to others needs, shows tolerance, acceptability, etc.
			HW 4.12b Respects other's rights and culture, diversity, sensitive to special needs		
HW1.13 Communicates immediate needs and follows hygiene and healthy eating practices with adult's guidance	HW2.13 Demonstrates hygiene and sanitation practices and healthy eating practices with adult's guidance	HW3.13 Maintains and displays basic health, hygiene, sanitation and healthy eating practices with increased independence	HW4.13a Maintains hygiene and cleanliness and healthy eating practices independently	HW5.13a Demonstrates proper use of toilet, cleanliness after toilet use and exhibits cleanliness (self and environment), hygiene and healthy eating practices	HW6.13a Maintains cleanliness of classrooms, playground, toilets and bathrooms, home, room, utensils, and proper management of garbage
			HW4.13b Identifies locally available food items, avoids wastage and understands the importance of food and water as a source of energy for work and play	HW5.13b Identifies the locally available variety and different tastes, shows awareness about seasonal food items, vegetables, fruits, etc.	HW6.13b Shows awareness of constituents of food (energy, body building, protection) items, implications of junk food, frequency of taking food
					HW6.13c Demonstrates importance of including a variety of food items in diet and frequently eating balanced diet

Class-wise Learning Outcomes for each Developmental Goal

HW1 Preschool 1	HW2 Preschool 2	HW3 Preschool 3 (BALVATIKA)	HW4 Class 1	HW5 Class 2	HW6 Class 3
HW1.14 Maintains distance from strangers and is aware about good touch and bad touch (guidance from parents and teachers)	HW2.14 Demonstrates awareness about good touch and bad touch (with guidance from parents and teachers)	HW3.14 Demonstrates awareness about good touch and bad touch and maintains distance from strangers	HW4.14 Exhibits awareness about good touch and bad touch, expresses their feelings with trusted adults and maintains distance from strangers	HW5.14 Exhibits awareness and complains about bad touch and maintains distance from the strangers	HW6.14 Demonstrates awareness about personal safety and reports to teacher or parents and about any bad touch/behavior noticed, maintains distance and tells others to be safe
HW1.15 Recognises common dangers and hazardous objects and places and keeps distance	HW2.15 Recognises common dangers/ hazards and takes safety precautions	HW3.15 Follows basic rules of safety at home, preschool and playground	HW4.15 Identifies common hindrances to safe play or common mishaps at school, playground, road, and home, takes measures to prevent such accidents	HW5.15 Reports to the teacher in the event of injury and/ or sickness in school/classroom/ playground, reports to the elders in the event of injury and/ or sickness	HW6.15 Reflects and reports to the responsible adult, demonstrates supportive behavior to soothe peers in case of injury/mishap/ sickness
HW1.16 Demonstrates gross motor coordination in play/ routine activities like walking, running, jumping, climbing, dancing, etc.	HW2.16 Demonstrates gross motor coordination and control in play activities involving walking, running, jumping, climbing, etc.	HW3.16 Demonstrates gross motor skills with greater coordination, control and strength e.g., running, jumping, throwing, kicking, and catching skills, etc.	HW4.16 Displays strength, judgment and decision-making in gross motor skills	HW5.16 Demonstrates eye-hand and neuromuscular coordination and motor fitness and develops strength, judgment and decision-making	HW6.16 Demonstrates neuromuscular coordination, coupling of movements, e.g., can combine walk and run, sit and stand, forward running and backward running
HW1.17 Explores and participates in music, dance and creative movements	HW2.17 Explores and participates in music, dance and creative movements	HW3.17 Explores space and participates actively and creatively in music and movement activities	HW 4.17 Participates actively in music, dance and creative movements like role-play, dramatization, etc.	HW5.17 Takes initiative in creative activities, dance, music, drama, role play, mimicry, imitation, etc.	HW6.17 Involves/ Participates/takes initiative/shows leadership in music and movement activities, role play, dramatization, simulation, mimicry, etc.
HW1.18 Exhibits fine motor skills and simple eye-hand coordination in various activities like	HW2.18 Exhibits fine motor skills and performs tasks that require more complex eye-hand coordination	HW3.18 a Exhibits fine motor skills with precision and control.	HW4.18 a Displays fine motor skills with accuracy and control, engages in art integrated activities, drawing, colouring, collage making, etc.	HW5.18 a Shows precision in fine motor activities, drawing, colouring, writing, etc.	HW6.18 a Demonstrates precision in fine motor activities, drawing, colouring, writing, etc.

(https://www.education.gov.in/sites/upload_files/mhrd/files/nipun_bharat_eng1.pdf)

Class-wise Learning Outcomes for each Developmental Goal

HW1 Preschool 1	HW2 Preschool 2	HW3 Preschool 3 (BALVATIKA)	HW4 Class 1	HW5 Class 2	HW6 Class 3
scribbling, printing, threading, colouring, clay moulding, tearing and pasting, etc.	such as cutting out shapes, free hand drawing, colouring, threading beads, stringing, copying, tearing, pasting, lacing, etc. with moderate levels of precision and control.	HW3.18 b Uses coordinated movements to complete complex tasks like cutting along a line, pouring, buttoning	HW4.18 b Uses coordinated movements for using scissors, buttoning, shoe lacing, writing	HW5.18 b Uses coordinated movements while using writing/colouring tools	HWD6.18 b Uses coordinated movements while using writing/colouring tools
		HW3.18 c Uses a pincer grip (coordination of the index finger and thumb to hold an item) to hold and manipulate tools for drawing, painting and writing	HW4.18 c Grips pencil correctly; uses smooth, controlled finger and hand movements that also require eye-hand coordination (e.g., pours water into a water bottle with a small opening with little spillage, traces shapes)	HW5.18 c Demonstrates control and appropriate pressure when using writing and drawing tools	HWD6.18 c Manipulates grade-appropriate tools and intricate materials with control and precision (e.g., cut and handle small pieces of paper to make a mosaic, keyboarding skills)

Developmental Goal 2

CHILDREN BECOME EFFECTIVE COMMUNICATORS (EC)

KEY COMPETENCIES:

Talking and listening

- Listening with comprehension
- Creative self-expression and conversation
- Language and creative thinking
- Vocabulary development
- Conversation and talking skills
- Meaningful uses of language

Reading with comprehension

- Bonding with books
- Print awareness and meaning-making
- Pretend reading
- Phonological awareness
- Sound-symbol association
- Prediction and use of previous experiences with knowledge
- Independent reading for pleasure and various purposes

Writing with purpose

- Early literacy skills
- Writes for self-expression
- Makes use of her/his knowledge of letter and sounds, invents spellings to write
- Makes effort to write in conventional ways
- Responds to reading with drawings/ words and meaningful sentences
- Writes rhyming words
- Writes meaningful sentences using naming words and action words
- Writes messages to express herself/himself
- Uses mixed language codes
- Writes for different purposes in the classroom activities and at home, such as, making list, writing greeting to grandparents, messages/invitation to friends, etc.

Note: ECL1 –First language- It may be noted that the goals suggested for first language, can be implemented for the mother tongue/first language/regional language of the child. For instance, Tamil, Telugu, Khasi, Gondi languages, etc. could be the first language of the child. The examples are drawn from child's literature and textbooks in Hindi language.

ECL2: Exposure to Second Language - Any other Indian language/ English could be the second language of the child, therefore, the goals suggested for the English, may be considered for the second language.

FIRST LANGUAGE					
ECL1-1 Preschool 1	ECL1-2 Preschool 2	ECL1-3 Preschool 3 (BALVATIKA)	ECL1-4 CLASS 1	ECL1-5 CLASS 2	ECL1-6 CLASS 3
ECL1-1.1 a Attempts to engage in conversation/ small talk with known/unknown children/adults in their own language/ home language	ECL1-2.1 Attempts to engage in conversation in school and at home with unfamiliar teachers, new friends, school staff, other adults, etc.	ECL1-3.1 Engages in conversation in school and at home with unfamiliar teachers, new friends, school staff, other adults, etc. in their own language	ECL1-4.1 Uses own language/school language to express their needs and ask questions to gain information	ECL1-5.1 Uses school language to express opinion, ask questions for different purposes	ECL1-6.1 Uses school language/own language to express their likes/dislikes, responses to familiar incidents/events/ radio/ TV programs
ECL1-1.1 b Attempts to understand gestures, signs, expression while talking/interacting					

Class-wise Learning Outcomes for each Developmental Goal

FIRST LANGUAGE					
ECL1-1 Preschool 1	ECL1-2 Preschool 2	ECL1-3 Preschool 3 (BALVATIKA)	ECL1-4 CLASS 1	ECL1-5 CLASS 2	ECL1-6 CLASS 3
ECL1-1.2 Observes with interest, illustrated books/posters with big font.	ECL1-2.2 Observes with interest and talks about available children's literature in class with friends	ECL1-3.2 Selects book from reading corner / reading area and attempts to understand the story with the help of pictures and can predict the written text	ECL1-4.2 Selects book from reading corner/reading area and talks about/narrates story with the help of the pictures	ECL1-5.2 Talks about the characters from the story familiar to them Draws the picture and writes, the name of their favourite character	ECL1-6.2 Extends the story/ poem while narrating orally
ECL1-1.3a Expresses likes/dislikes using gestures/ body language	ECL1-2.3 Makes various sounds/words for play-for example, using pencil as a train/scooter and makes sounds like an engine/horn	ECL1-3.3 Expresses their experiences of reading poems/ stories in their own language and talks about it and shares it with friends	ECL1-4.3 a Connects personal experiences with the read/familiar stories in their own language and talks about them	ECL1-5.3 a Narrates stories and recites poems in their own language using their own style/way	ECL1-6.3 a Connects familiar material for example poem, story, poster, advertisement in their surrounding with their experiences while conversing
ECL1-1.3b Expresses fondness/liking for animals/birds in their surroundings- plays and talks with them			ECL1-4.3 b Makes some rules for their favourite games	ECL1-5.3 b Participates in class/school activities programs, etc.	ECL1-6.3 b Converses, asks questions, expresses opinion about characters, theme, pictures from the familiar texts like, story/poem, etc.
				ECL1-5.3 c Narrates story/ recites poem of their own choice	ECL1-6.3 c Talks about the activities, like- morning message, conversation with family members etc. and illustrates, writes a few words about their favourite activity in the copy/ display board
ECL1-1.4 a Recites repeatedly, interesting poems/ songs with actions participates in rhythmic activities	ECL1- 2.4 Sings/recites interesting poems with action, participates in rhythmic activity	ECL1- 3.4 a Uses appropriate intonation and modulation of voice while reciting interesting poems/songs in their own language	ECL1- 4.4 Identifies rhyming words in familiar poems and songs and creates new rhyming words	ECL1- 5.4 Creates rhyming words and words with similar sounds, orally, in writing from the familiar poems and songs	ECL1- 6.4 a Narrates interesting and humorous story, poem etc. with appropriate modulation of voice, speed, fluency, and style appropriate to the narration

Class-wise Learning Outcomes for each Developmental Goal

FIRST LANGUAGE					
ECL1-1 Preschool 1	ECL1-2 Preschool 2	ECL1-3 Preschool 3 (BALVATIKA)	ECL1-4 CLASS 1	ECL1-5 CLASS 2	ECL1-6 CLASS 3
ECL1-1.4 b Sings/hums rhyming words/ sentences from familiar poems and stories.		ECL1-3.4 b Recites with fluency with appropriate intonation parts of familiar poems in their own language.			ECL1-6.4 b Solves riddles, takes interest in language games, songs while understanding the rhythm.
ECL1-1.5 Picks selected books with curiosity and interest, flips over pages to make sense of it	ECL1- 2.5 Attempts to understand the flow and directionality of the print during the read aloud sessions	ECL1-3.5 a Gives their favourite story books to the teacher to narrate the story	ECL1-4.5 Predicts and attempts to make meaning of the text (textbooks and children's literature) by turning over the pages back and forth	ECL1-5.5 a Predicts and reads textbooks and children's literature in familiar context	ECL1-6.5 a Relates unfamiliar words from different texts while reading and understanding the story
		ECL1-3.5 b Observes attentively the objects in the pictures, talks about them and writes their name by using invented spellings		ECL1-5.5 b Expresses their responses, likes/ dislikes, and asks questions	ECL1-6.5 b Reads and tells the numbers written on the pages of the book, for example, page no. 45,76,21
				ECL1-5.5 c Attempts to read familiar and unfamiliar text and talks about it-for example, predicts with the help of print and pictures, sound-symbol association, identifying the words with the use of prior knowledge and experiences	ECL1-6.5 c Reads with understanding different texts (newspaper, children's magazine, etc.) and writes about them in brief
ECL1-1.6 Exhibits skills of early literary and print awareness in the class/home, for example, recognizing/ reading the wrapper of their favourite toffee or biscuit	ECL1-2.6 a Recognizes, labels etc., for example, sign/symbol of ambulance	ECL1-3.6 a Reads with the understanding of print awareness	ECL1-4.6 Relates the picture with the text to predict and understand	ECL1-5.6 Understands events and characters in a picture story/story board (story books) and writes about them. (conventional writing)	ECL1-6.6a Identifies the features of language (naming words, action words, repetition, punctuation marks) in different stories/poems/ texts
	ECL1-2.6 b Identifies own name in writing	ECL1-3.6 b Reads the story by understanding/ arranging the pictures in the sequence of events			ECL1-6.6 b Makes use of naming words, action words, repetition, and punctuation marks while writing

Source: NIPUN Bharat: Guidelines for Implementation (2021). Department of School Education and Literacy, Ministry of Education, Government of India

(https://www.education.gov.in/sites/upload_files/mhrd/files/nipun_bharat_eng1.pdf)

Class-wise Learning Outcomes for each Developmental Goal

FIRST LANGUAGE					
ECL1-1 Preschool 1	ECL1-2 Preschool 2	ECL1-3 Preschool 3 (BALVATIKA)	ECL1-4 CLASS 1	ECL1-5 CLASS 2	ECL1-6 CLASS 3
					ECL1-6.6 c Reads with appropriate flow, intonation, voice modulation, familiar, written texts (mid-day meal chart, class name, title of favourite book, etc.)
ECL1-1.7 Listens attentively and repeats familiar words and their sounds	ECL1-2.7 Identifies a particular sound in different words, for example, 'n' sound in name, nail, net	ECL1-3.7 Identifies repeated sounds in words occurring in familiar stories/poems	ECL1-4.7 Talks about birds, animals in their surroundings (home, school, neighbourhood) and writes a few words about them by using invented spelling/conventional writing	ECL1-5.7 Talks about characters, events based on the stories, poems and other texts	ECL1-6.7 a Participates and converses in the activities, like, morning message ECL1-6.7 b Illustrates in copy/board/display board (haripatti) etc. and talks about their favourite activity
ECL1-1.8 Identifies the various familiar sounds in the surroundings, for example, sound of the falling rain, chirping of the birds etc.	ECL1-2.8 Listens and identifies repeatedly occurring events in familiar stories, poems, etc.	ECL1-3.8 a Identifies repeated sounds, words etc. in stories, poems, songs ECL1-3.8 b Predicts about the written text with help of pictures and print, previous experiences and information, letter-sound association, etc.	ECL1-4.8 Shows awareness of figures of letters and sounds while reading story, poems and make use of it while writing.	ECL1-5.8 Writes making use of appropriate words/sentences (conventional writing) and different forms of expressions	ECL1-6.8 Writes about familiar texts in different forms of expressions about themes, events, characters, title, etc.
ECL1-1.9 Attempts to write by drawing lines, scribbling	ECL1-2.9 Expresses by drawing symbolic pictures, paying attention to figures, colours, size, etc. and talks about it	ECL1-3.9 Takes interest in writing (invented spellings) own name, names of their friends and objects around them	ECL1-4.9 Labels the self-drawn pictures and the pictures made available to them (invented spellings)	ECL1-5.9 Extends the story in writing using imagination and creativity	ECL1-6.9 Writes short messages - for example, "g have lost my blue cycle. Inform me if someone has seen/found it."

Class-wise Learning Outcomes for each Developmental Goal

SECOND LANGUAGE					
ECL2-1 Preschool 1	ECL2-2 Preschool 2	ECL2-3 Preschool 3 (BALVATIKA)	ECL2-4 CLASS 1	ECL2-5 CLASS 2	ECL2-6 CLASS 3
ECL2-1.1 Participates in singing poems, rhymes	ECL2-2.1 Attends, participates and listens to others during conversation	ECL2-3.1 Introduces herself /himself bilingually	ECL2-4.1 a Listens to English words, greetings, polite forms of expression and respond in English /home language like “how are you?”, “I’m fine”; “thank you”, etc.	ECL2-5.1 a Expresses verbally her or his likes/ dislikes about the characters, storyline, etc. in English or home language	ECL2-6.1 a Asks questions about the story and characters in the story in English/ home language
			ECL2-4.1 b Talks about the available print in the classroom.	ECL2-5.1 b Follows simple instructions such as “Shut the door”, “Bring me the Book” and such others	ECL2-6.1 b Develops vocabulary from their classroom and social environment
ECL2-1.2 Participates in music and movement activities	ECL2-2.2 Sings short poems and rhymes	ECL2-3.2 Sings songs or rhymes with action	ECL2-4.2 Sings and recites Poems, rhymes and draws pictures	ECL2-5.2 Sings songs or rhymes with action, forms new rhyming words	ECL2-6.2 Recites poems individually/ in groups with intonation and fluency
ECL2-1.3 Enjoys listening to stories bilingually	ECL2-2.3 Listens to the picture stories with bilingual text	ECL2-3.3 Flips over the pages of bilingual work in the reading area	ECL2-4.3 Picks the story book from the reading area and tries to read the pictures	ECL2-5.3 Predicts the story, talks about the characters bilingually	ECL2-6.3 Talks about her/his favourite story book/character
ECL2-1.4 a Spends time in reading area/ play area	ECL2-2.4 Takes interest in bilingual books and talks about them bilingually	ECL2-3.4 Attempts to respond using familiar words and expressions	ECL2-4.4 Responds orally to questions related to stories/poems bilingually	ECL2-5.4 Responds to the questions related to stories and poems, in home language or English or sign language, orally and in writing (phrases/ short sentences)	ECL2-6.4 Participates in role play/skit in English/bilingually with appropriate expressions
ECL2-1.4 b Looks/explores books, posters/ available material					
ECL2-1.5 Identifies familiar sounds in the environment	ECL2-2.5 Identifies few letters and sounds	ECL2-3.5 Recognises letters and corresponding sounds	ECL2-4.5 Forms letters correctly, uses sound-symbol correspondence to write invented spellings	ECL2-5.5 Shares orally about events such as festival celebrated in the neighbourhood bilingually	ECL2-6.5 Writes words/ sentences to express her/his feelings. draws about the same as well

Class-wise Learning Outcomes for each Developmental Goal

SECOND LANGUAGE					
ECL2-1 Preschool 1	ECL2-2 Preschool 2	ECL2-3 Preschool 3 (BALVATIKA)	ECL2-4 CLASS 1	ECL2-5 CLASS 2	ECL2-6 CLASS 3
ECL2-1.6 Spends time in the reading area/ play area	ECL2-2.6 Recognizes labelled objects, names, etc.	ECL2-3.6 Attempts to read familiar signs	ECL2-4.6 Recognises familiar signs, logos and labels in the environment	ECL2-5.6 Recognises and writes/draws frequently occurring words/ picture in a story being read	ECL2-6.6 Reads print in the classroom/ school environment: poems, posters, charts, etc.
ECL2-1.7 Expresses liking for a few books	ECL2-2.7 Picks picture books, talks about posters	ECL2-3.7 Predicts the story with the help of the pictures	ECL2-4.7 Connects text with illustrations while reading the story	ECL2-5.7 Tries to decode unfamiliar words while reading	ECL2-6.7 Reads small texts in English
ECL2-1.8 Explores the reading area and shows interest in books	ECL2-2.8 Flips over pages of story books and attempts to read on her/his own	ECL2-3.8 Participates in shared reading of the story	ECL2-4.8 Creates her/his own story by writing a few words mixing codes	ECL2-5.8 Creates a poster on their self-created story	ECL2-6.8 Narrates the story with the help of the poster
ECL2-1.9 Pretend plays with toys	ECL2-2.9 Shares toys with friends and pretend- plays	ECL2-3.9 Talks about her/ his favourite toy	ECL2-4.9 Brings the toy and introduce them in the class	ECL2-5.9 Draws a poster showing his/her s feelings for the toy	ECL2-6.9 Writes a message for the toy, for example, you are my best friend
ECL2-1.10 Sings/hums words/lines/parts of songs and rhymes, in own language/L2	ECL2-2.10 Identifies a few rhyming words	ECL2-3.10 Enjoys and creates nonsensical rhyming words	ECL2-4.10 Creates rhyming words based on the available text	ECL2-5.10 Writes selective rhyming words in pair	ECL2-6.10 Uses rhyming words for writing short sentences
ECL2-1.11 Scribbles with crayons	ECL2-2.11 Draws pictures depicting some event/situation / feelings for friend, parents, sibling, etc.	ECL2-3.11 Attempts to scribble/write a few familiar words	ECL2-4.11 Writes words beginning with the same letter	ECL2-5.11 Uses words related to size, shape, colour, weight, texture such as big, small, round, pink, red, heavy, light, soft etc.	ECL2-6.11 Writes sentences using the familiar words

Class-wise Learning Outcomes for each Developmental Goal

SECOND LANGUAGE					
ECL2-1 Preschool 1	ECL2-2 Preschool 2	ECL2-3 Preschool 3 (BALVATIKA)	ECL2-4 CLASS 1	ECL2-5 CLASS 2	ECL2-6 CLASS 3
ECL2-1.12 Collects objects from their immediate environment e.g., leaves, twigs, pebbles, feather etc. and talks about them bilingually	ECL2-2.12 Observes and talks about the posters and other print in the classroom	ECL2-3.12 Identifies objects in their immediate environment	ECL2-4.12 Labels the objects such as furniture /mat/ blackboard/ reading area, etc.	ECL2-5.12 Reads texts other than the textbooks such as children's magazine, etc.	ECL2-6.12 Writes short messages bilingually adding drawing, etc.
ECL2-1.13 Watches cartoon/ films for a short duration	ECL2-2.13 Enjoys watching favourite cartoon/films	ECL2-3.13 Enjoys watching age-appropriate cartoon/films	ECL2-4.13 Shares their likes about the cartoon/film.	ECL2-5.13 Writes small sentences about the cartoon/film. writes small sentences about self using full stop	ECL2-6.13 a Writes small sentences using full stop and question marks
					ECL2-6.13 b Writes briefly about their visit to their hometown /park nearby/ market bilingually
ECL2-1.14 Participates in singing songs and rhymes	ECL2-2.14 Sings short songs/ rhymes about birds/ trees animals, etc.	ECL2-3.14 Shares feelings for birds/ animals /trees	ECL2-4.14 Describes their thoughts/ feelings for birds/animals/ trees, etc. verbally	ECL2-5.14 Draws or writes a few words or short sentences in response to the environment (birds, plants, garden, etc.), poems and stories	ECL2-6.14 Works in team for the display of the posters
ECL2-1.15 Talks about friends, school, etc.	ECL2-2.15 Express their thoughts through drawings	ECL2-3.15 Draws pictures to communicate messages	ECL2-4.15 Makes a card for their friend, sending a short message	ECL2-5.15 Composes and writes simple, short sentences with space between words to express themselves	ECL2-6.15 Able to develop useful messages for their school premises (classroom, garden, playground, etc.).

Developmental Goal 3

Children become Involved Learners and Connect with their Immediate Environment (IL)

KEY COMPETENCIES:

Cognitive Skills

- Observation, Identification, Memory, Matching, Classification, Patterns, Sequential Thinking, Creative Thinking, Critical Thinking, Problem Solving, Reasoning, Curiosity, Experimentation, Exploration

Number Sense

- Count and tell how many
- Numeral recognition
- Sense of order (can count ahead of a number up to 10)

Shapes

2D Shapes, 3D Shapes, Straight Line, Curved Line, Plain and Curved Surfaces

Sensory Development

- Sight, sound, touch, smell, taste

Concept Formation

- Colours, shapes, distance, measurement, size, length, weight, height, time
- Spatial sense
- One-to-one correspondence

Measurement

Length, Mass, Volume, Temperature

Concepts related to environment

- Natural - animals, fruits, vegetables, food
- Physical - water, air, season, sun, moon, day and night
- Social - myself, family, transport, festivals, community helpers, etc.

Number Operations

Addition, Subtraction, Multiplication, Division

- Data Handling
- Pattern Recognition Calendar Activity
- Use of Technology

PRESCHOOL 1	PRESCHOOL 2	PRESCHOOL 3 (BALVATIKA)	CLASS 1	CLASS 2	CLASS 3
IL1.1 Uses all senses to observe and explore the environment	IL2.1 Uses five senses to observe and explore the environment	IL3.1 Uses all senses to observe and explore the environment	IL4.1 Notifies and describes finer details of objects such as colours, sounds, their surface, animals, birds in the immediate surroundings	IL5.1 Identifies simple observable features of objects, plants, animals in the immediate surroundings	IL6.1 Identifies simple observable features of leaves, trunks and bark of plants, animals, and birds in immediate surroundings
IL1.2 Identifies and names common objects, sounds, people, pictures, animals, birds, events, etc.	IL2.2 Describes common objects, sounds, people, pictures, animals, birds, events, etc.	IL3.2 Notifies and describes finer details of common objects, sounds, people, pictures, animals, birds in the immediate environment	IL4.2 a Identifies common objects, plants, animals, signs on the boards in the immediate neighbourhood	IL5.2 a Identifies objects, signs, places, common activities in the immediate neighbourhood	IL6.2 a Identifies objects, signs, places, activities at home/school/ neighbourhood

Class-wise Learning Outcomes for each Developmental Goal

PRESCHOOL 1	PRESCHOOL 2	PRESCHOOL 3 (BALVATIKA)	CLASS 1	CLASS 2	CLASS 3
			IL4.2 b Identifies directions with the support of adults and makes sketches of places	IL5.2 b Identifies directions and locates home, schools in the pictures /sketches	IL6.2 b Identifies directions, location of objects/places in simple map (home/classroom/ school) using signs/symbols verbally
IL 1.3 a Remembers and recalls 2–3 objects seen at a time	IL 2.3a Remembers and recalls 3–4 objects seen at a time	IL 3.3a Remembers and recalls 4–5 objects seen at a time	IL4.3a Remembers and recalls more than 5-6 objects seen at a time	IL5.3a Remembers and recalls more objects seen at a time and describes a few in his/her own words	IL 6.3 a Remembers and recalls more objects seen at different points of time and describes them
IL 1.3 b Identifies the missing part of a familiar picture	IL 2.3b Identifies 3–5 missing parts of a picture of a familiar object	IL 3.3b Identifies 3–5 missing parts of a picture of a familiar object	IL4.3b Identifies 4-6 missing parts of a picture of a familiar object	IL 5.3b Compares given objects/pictures and identifies similarities and differences	IL 6.3b Compares given objects/pictures and describes similarities and differences
IL 1.4 Places 3–4 objects of two groups in one-to-one correspondence	IL 2.4 Places 4–5 objects of two groups in one-to-one correspondence	IL 3.4 Places 5-6 objects of two groups in one-to-one correspondence	LEADS TO DEVELOPMENT OF NUMBER SENSE (Progression will be seen in Number Sense in Mathematics)		
IL 1.5 Compares two objects based on one observable property, for example, length, weight, or size	IL 2.5 Compares and classifies objects by two factors like shape and color, size and shape, etc. Describes objects using size words like (big/small, tall/short)	IL 3.5 Compares and classifies objects by three factors like shape, color and size, etc. Correctly uses position words (besides, inside, under) to describe objects	IL 4.5 Compares and classifies objects/ pictures based on multiple factors and demonstrates understanding of position	IL 5.5 Compares and classifies objects/ pictures based on multiple factors and describes them using properties	IL 6.5 Compares and classifies objects/ pictures in different categories and describes the properties used for classification
IL1.6 Seriates / arranges 2–3 objects/ picture cards in a sequence, for example, shape, size, occurrence of events	IL 2.6 Seriates / arranges 3–4 objects/ picture cards in a sequence, for example, shape, size, occurrence of events	IL 3.6 Seriates/arranges 4–5 picture cards/ objects in a sequence, for example, shape, size, occurrence of events	IL 4.6 Seriates/ arranges more than 5 objects based on criteria	IL 5.6 Applies seriation in ordering numbers, measurement, etc.	IL 6.6 Applies seriation in ordering numbers, ascending -descending number, and number patterns
IL 1.7 Enjoys stories based on occurrence of different events	IL 2.7 Narrates random events of her/his daily life in her/his own words	IL 3.7 When telling/narrating a story, can understand time related events what happened first, who came at night, etc.	IL 4.7 Describes her/his daily routine in sequence using words in the morning, afternoon, evening, and night	IL 5.7 Sequences the events occurring according to their duration in terms of days, for example, does a child remain in school for a longer period than at home	IL 6.7 Sequences the events occurring according to their duration in terms of days/ months and hours

(https://www.education.gov.in/sites/upload_files/mhrd/files/nipun_bharat_eng1.pdf)

Class-wise Learning Outcomes for each Developmental Goal

PRESCHOOL 1	PRESCHOOL 2	PRESCHOOL 3 (BALVATIKA)	CLASS 1	CLASS 2	CLASS 3
IL 1.8a Solves simple day-to-day problems by themselves or with adult's support	IL 2.8 a Provides solutions to simple problems/ situations	IL 3.8 a Provides solutions to simple problem-solving situations with reasons	IL 4.8 a Provides solutions to simple problem-solving situations with reasons and solves the problem independently	IL 5.8 a Demonstrates problem-solving skills in day-to-day simple situations	IL 6.8 a Shows problem-solving skills in day-to-day situations and in group
IL 1.8 b Expresses curiosity about the immediate surroundings and asks related questions	IL 2.8 b Expresses curiosity about the immediate surroundings and asks questions (develops related concepts)	IL 3.8 b Engages in investigating and manipulating objects in the environment, asks questions, inquires, discovers and constructs own ideas and predicts	IL 4.8 b Shows curiosity and interest in exploring environment, takes interest in experimentation and exploration, draws inferences and predicts	IL 5.8 b Shows curiosity and interest in experimentation and exploration and takes initiative in drawing inferences and reasoning	IL 6.8 b Shows curiosity and interest in experimentation and exploration, explains, and demonstrates scientific thinking
IL 1.8 c Demonstrates awareness and sensitivity towards environmental concerns (example - watering plants)	IL 2.8 c Demonstrates awareness and sensitivity towards environmental concerns (example - watering plants, not plucking flower or do not hurt animals)	IL 3.8 c Demonstrates awareness and sensitivity towards environmental concerns (example - do not waste water, switching off light when not in use, etc.)	IL 4.8 c Demonstrates awareness and sensitivity towards environmental concerns (example - planting flower plants, watering them regularly, saving water by planting trees, etc.)	IL 5.8 c Demonstrates awareness and sensitivity towards environmental concerns (example - not wasting food, throwing waste in bin, keeping water and food for birds and animals, etc.)	IL 6.8 c Demonstrates awareness and sensitivity towards environmental concerns like showing concern towards pollution of water and air, cutting of trees, hurting animals/birds, etc.
IL 1.9 Counts to three objects	IL 2.9 Counts and perceives objects up to five	IL 3.9 Counts to 10 objects	ILM 4.9 Counts objects up to 20, concretely and pictorially	ILM 5.9 Counts objects up to 100 in group of tens	ILM 6.9 Counts objects to 1000 in group of tens and hundreds
IL 1.10 Recites poems/ stories based on number names up to 5	IL 2.10 Can count forward and backward from a particular number up to 5	IL 3.10 Can count forward and backward from a particular number up to 9	ILM 4.10 Can count forward and backward from a particular number up to 20	ILM 5.10 Can count forward and backward from a particular number up to 99	ILM 6.10 Can count forward and backward from a particular number up to 999
IL 1.11 Recites poems using number names up to 5 by hand movements, showing like, fingers to show numbers	IL 2.11 Identifies numerals with corresponding numbers up to 5	IL 3.11 Identifies numerals with numbers and writes numerals up to 9	ILM 4.11 Identifies numerals with numbers and writes numerals up to 99	ILM 5.11 Reads and writes number names and numerals for numbers up to 999	ILM 6.11 Reads and writes number names and numerals up to 9999 using place value

Source: NIPUN Bharat: Guidelines for Implementation (2021). Department of School Education and Literacy, Ministry of Education, Government of India

(https://www.education.gov.in/sites/upload_files/mhrd/files/nipun_bharat_eng1.pdf)

Class-wise Learning Outcomes for each Developmental Goal

PRESCHOOL 1	PRESCHOOL 2	PRESCHOOL 3 (BALVATIKA)	CLASS 1	CLASS 2	CLASS 3
	IL 2.12 Develops a sense of presence/absence of objects (example, one sweet was on a plate if eaten, nothing is left)	IL 3.12 Demonstrates the awareness that things reduce in number and become nil (example, 3 birds sitting on a branch of tree fly away one by one at the end no bird is left on the branch)	ILM 4.12 Develops the concept of zero.	ILM 5.12 Uses zero in place value system	ILM 6.12 Applies properties of zero in addition, subtraction, and multiplication of numbers
IL 1.13 Compares two numbers upto 3 and uses vocabulary like more and less	IL 2.13 Compares two numbers up to 5 and uses vocabulary like more than, less than	IL 3.13 Compares two numbers up to 10 and uses vocabulary like more than, less than	ILM 4.13 Compares two numbers up to 20 and uses vocabulary like bigger than or smaller than	ILM 5.13 Compares and forms the greatest and smallest two-digit numbers (with and without repetition of given digits)	ILM 6.13 Compares and forms the greatest and smallest three-digit numbers (with and without repetition of given digits)
Competence of addition of numbers starts developing after the age of 4 years i.e., Preschool 2 stage	IL 2.14 Combines two groups up to 5 objects and recounts	IL 3.14 Combines two groups up to 9 objects and recounts	ILM 4.14 Constructs addition facts up to 18 by using concrete objects and applies them in daily life	ILM 5.14 Develops their own strategies to add two numbers (sum not exceeding 99) and applies them to solve simple daily life problems/ situations	ILM 6.14 Appreciates the standard algorithm for addition of numbers (sum not exceeding 999) and applies it to solve simple daily life problems/ situations
Competence of subtraction starts developing after the age of 4 years i.e., Preschool 2 stage	IL 2.15 Takes out objects from a collection up to 5 objects and recounts	IL 3.15 Takes out objects from a collection up to 9 objects and recounts	ILM 4.15 Constructs subtraction facts up to 9 by using concrete objects and applies them in daily life.	ILM 5.15 Develops her/his own strategies to subtract two numbers upto 99 and applies them to solve simple daily life problems/ situations.	ILM 6.15 Appreciates the standard algorithm for subtraction of numbers up to 999 and applies it to solve simple daily life problems/ situations.
Competence of relating addition and subtraction starts developing after the age of 6 years i.e., Class 1			ILM 4.16 Develops relationship between addition and subtraction of numbers	ILM 5.16 Appreciates and applies relationship between addition and subtraction of numbers	ILM 6.16 Applies the relationship between addition and subtraction in 3-digit numbers
Competence of multiplication starts developing after the age of 6 years i.e., Class 1			ILM 4.17 Develops strategies for repeatedly adding numbers up to 10, sum not exceeding 20	ILM 5.17 Develops the idea of multiplication of numbers and constructs and applies multiplication facts (tables) of 2, 3 and 4 in daily life situations	ILM 6.17 Constructs and applies multiplication facts (tables) of 5 to 10 in daily life situations

Class-wise Learning Outcomes for each Developmental Goal

PRESCHOOL 1	PRESCHOOL 2	PRESCHOOL 3 (BALVATIKA)	CLASS 1	CLASS 2	CLASS 3
Competence of division starts developing after the age of 7 years i.e., Class 2				ILM 5.18 Develops the idea of division of numbers as equal distribution/ sharing	ILM 6.18 Explains the meaning of division facts by equal grouping and finds it by repeated subtraction, for example, $12 \div 3$ can be explained as number of groups of 3 to make 12 and finds it as 4 by repeatedly subtracting 3 from 12
				ILM 5.19 Identifies appropriate operation (addition or subtraction) to solve problems in a familiar situation/context	ILM 6.19 Analyses and applies an appropriate operation (addition and subtraction) to solve problems in a situation/context
IL 1.20 Uses vocabulary related to money using poems and stories	IL 2.20 Identify Indian currency coins	IL 3.20 Identify Indian currency notes	ILM 4.20 Represents an amount up to Rs. 20 using notes/coins	ILM 5.20 Represents an amount up to Rs. 100 using notes and coins	ILM 6.20 Adds and subtracts small amounts (up to Rs. 500) with or without regrouping
IL 1.21 Uses vocabulary to express length through poems, riddles, jokes, and stories	IL 2.21 Compares two objects in terms of their lengths as longer than/ shorter than, taller than/ shorter than	IL 3.21 Compares three objects in terms of their lengths as longest/shortest tallest/shortest	ILM 4.21 Estimates and measures short lengths using non uniform units like a finger, hand span, length of a forearm, footsteps, etc.	ILM 5.21 Estimates and measures length/ distances using uniform non-standard units like a rod/ pencil/ thread, etc.	ILM 6.21 Estimates and measures length and distance using standard units like centimeters or meters and identifies relationships
IL 1.22 Uses vocabulary to express weight through poems, and stories	IL 2.22 Uses vocabulary to express weight through poems, riddles, jokes, and stories	IL 3.22 Compares two objects in terms of their weight as heavier than/ lighter than	ILM 4.22 Compares three objects in terms of their weight as heaviest/lightest	ILM 5.22 Compares objects as heavier than/ lighter than, using simple balance.	ILM 6.22 Weighs objects in her/his daily contexts using standard units- grams and kilograms using simple balance
IL 1.23 Uses vocabulary to express capacities through poems and stories	IL 2.23 Uses vocabulary to express capacities through poems, riddles, jokes, and stories	IL 3.23 Compares capacities of two vessels like bottles, glasses, bucket, etc.	ILM 4.23 Estimates and measures capacities of containers using uniform non-standard units like a cup/ spoon / mug, etc.	ILM 5.23 Compares the capacity of different containers in terms of non-standard units for example cup/ spoon/ bucket, etc.	ILM 6.23 Estimates and measures capacities of containers in terms of liters like a bucket can be filled up by 15 bottles of 1 litre.
Competence of measuring temperature starts developing after the age of 6 years i.e., Class 1			ILM 4.24 Appropriately uses vocabulary like hot or cold about objects/ weather, etc.	ILM 5.24 Compares objects as hotter than/ colder than by observable properties like condensation / steaming, etc.	ILM 6.24 Measures temperature using a thermometer

Class-wise Learning Outcomes for each Developmental Goal

PRESCHOOL 1	PRESCHOOL 2	PRESCHOOL 3 (BALVATIKA)	CLASS 1	CLASS 2	CLASS 3
IL 1.25 Identifies, basic shapes like ball, shoe box, birthday cap, ice-cream cone	IL 2.25 Describes the physical features of various solids/ shapes in her/his own language, for example, a ball rolls and has no corners, a box slides and has corners, etc.	IL 3.25 Identifies the 2D shapes by tracing the faces of 3D shapes on a plane surface	ILM 4.25 Identifies and describes 3D shapes with their observable characteristics, for example, a shoe box is a cube and has 6 faces, 8 corners; a ball is sphere with no corner and no flat surface; a cap of a pen is a cylinder with a round surface	ILM 5.25 Identifies and describes basic 2D shapes such as rectangle, triangle, circle and other shapes around her/him, for example, the pages of a book are rectangular and has 4 sides, 4 corners; trace of a bangle has no corner	ILM 6.25 Draws/ represents straight lines in various orientations (vertical, horizontal, slant) by using a straight edge or by free hand
Skill of using fractions starts developing after the age of 5 years i.e., Preschool 3 stage		IL 3.26 Uses vocabulary like half roti / half glass of water, etc. in daily context	ILM 4.26 Identifies the relationship between half and whole using paper folding, daily life context like folding of roti/sandwich, etc. and clothes (bedsheets, handkerchief, etc.)	ILM 5.26 Identifies the relationship between half, quarter and whole using paper folding, daily life context like folding of roti/ sandwich, etc. and clothes (bedsheets, handkerchief, etc.)	ILM 6.26 Identifies half, one-fourth, three-fourths of a whole in each picture by paper folding and in a collection of objects.
IL 1.27 Follows/ reproduces a simple pattern like clapping hands, clicking fingers, tapping feet, etc.	IL 2.27 Identifies the unit of repeating a simple pattern and extends the pattern	IL 3.27 Creates new patterns with leaf printing or thumb printing, etc.	ILM 4.27 Observes, extends, and creates patterns of shapes, numbers, and musical/sound patterns, for example, arrangement of shapes/ objects/ numbers, etc.: like 1, 2, 3, 4, 5, ... 1, 3, 5, ... 2, 4, 6, ... 1, 2, 3, 1, 2, etc.	ILM 5.27 Observes and generalises the patterns in numbers like in multiplication tables, 1-100 number grid or objects in the environment	ILM 6.27 Observes, extends, and generalizes patterns in numbers up to three digits like patterns of numbers in multiplication tables, number chart up to 1000 or objects in the environment
IL 1.28 Identifies / counts objects around, like her/ his own body parts and draws inferences like two hands, 1 nose etc through poems	IL 2.28 Collects objects from her/ his surroundings based on simple instructions, for example, bring 2 spoons etc	IL 3.28 Draws inferences from situations that surround her/him for example, I have more red pencils than blue	ILM 4.28 Collects, records (using pictures/ numerals) and interprets simple information by looking at visuals (For example, in a picture of a garden the child looks at different flowers and draws inference that flowers of a certain colour are more)	ILM 5.28 Draws inference based on the data collected such as the number of vehicles used in Samir's house is more than that of Angelina's, the price of a commodity is more than any other commodity in a rate chart, etc.	ILM 6.28 Records data using tally marks, represents pictorially, and draws conclusions

Class-wise Learning Outcomes for each Developmental Goal

PRESCHOOL 1	PRESCHOOL 2	PRESCHOOL 3 (BALVATIKA)	CLASS 1	CLASS 2	CLASS 3
IL 1.29 Uses vocabulary in daily life like, today, tomorrow and yesterday	IL 2.29 Identifies special days like Saturday, Sunday, holiday, etc., for example, Sunday is a holiday	IL 3.29 Recites the names of the days of the week and months of the year	ILM 4.29 Identifies the names of the days of the week and months of the year for day/ month	ILM 5.29 Identifies the days of the week and months of the year using a calendar in daily life events.	ILM 6.29 Identifies a particular date and corresponding day on a calendar
IL 1.30 Explores different technological tools like TV, remotes, mobile phones, and others available in the house	IL 2.30 Demonstrates awareness about technology like T.V, mobile phones.	IL 3.30 Describes usage of commonly available technological tools around her/ him.	ILM 4.30 Uses some of the technological tools available around her/ him.	ILM 5.30 Demonstrates interest/ curiosity in newer technology as per child's context	ILM 6.30 Applies the knowledge of various technological tools in daily life
EVS AS A SEPARATE SUBJECT STARTS IN CLASS THREE. EVS IS INTEGRATED IN LANGUAGES AND MATHS IN CLASSES 1 AND 2					EVS 6.1 Identifies simple observable features (e.g., shape, colour, texture, aroma) of leaves, trunk and bark of plants, animals and birds in immediate surroundings
					EVS 6.2 Identifies simple features (e.g. movement, eating habits, sounds of animals and birds) in the immediate surroundings
					EVS 6.3 Identifies relationships with and among family members
					EVS 6.4 Identifies objects, signs (vessels, stoves, transport, means of communication, signboards, etc.), places (types of houses/shelters, bus stand, petrol pump, etc.) activities (work people do, cooking processes, etc.) at home/school/ neighbourhood

Class-wise Learning Outcomes for each Developmental Goal

PRESCHOOL 1	PRESCHOOL 2	PRESCHOOL 3 (BALVATIKA)	CLASS 1	CLASS 2	CLASS 3
					EVS 6.5 Describes need of food for people of different age groups, animal/ birds, availability of food and water and use of water at home and surroundings
					EVS 6.6 Describes roles of family members, family influences (traits/features/habits/ practices), need for living together through oral, written or other ways
					EVS 6.7 Groups objects, birds, animals, features, activities according to differences/ similarities using different senses (e.g., appearance/ place of living/ food/ movement/ likes-dislikes/ any other features)
